

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

May 3, 1999

LB 382

is going to call the public's attention to it, should it become law, of all the flaws in it, compared to other bills, other legislation we've put in place, the language we've used in drafting that legislation, and when people say, well why didn't you say something about it? I'll say, what do you think I was doing for eight house? They'd say, why didn't they do something about it? I'll say, go ask them. Jesus probably wondered why everybody in the world ain't saved, if you're a Christian. And people who are not Christians probably believe nobody who is a Christian is saved, but I'm not going to go into religion. That's one thing Jesus was smart enough about. He said, keep your religion in your closet. Keep it between you and your God, and there probably wouldn't have been a war had that advice been followed. But I don't want to start a war today. So the only thing that I'm going to deal with here is Senator Landis' attempt to tell you-all that language in the bill does not have any meaning. And if we were not...oh, we're not on a reconsideration motion, so I can ask him this. Senator Landis.

SENATOR LANDIS: Yes.

PRESIDENT MAURSTAD: Senator Landis.

SENATOR CHAMBERS: On page 6, well, you know where we were...

SENATOR LANDIS: Yes, sir.

SENATOR CHAMBERS: ...talking about the attributable revenue.

SENATOR LANDIS: Yes.

SENATOR CHAMBERS: Now in line 26 on page 6 is where it would start.

SENATOR LANDIS: Right.

SENATOR CHAMBERS: What is the meaning then of the "finding shall be made on the basis of the impact of participant spending"? What finding is this talking about?

SENATOR LANDIS: It is the estimate of attributable revenue derived from the state from the proposed eligible facility.
