

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

May 3, 1999

LB 870

the facility is or was located; violations of any environmental law within five years immediately preceding the date of the application; and it lists parties; penalties assessed or paid; remedial action required in any actions filed against the applicant within five years immediately preceding the date of the application, regardless of whether liability was acknowledged and if the remedial action was completed. This is the bad actor clause of this...of the waste bill. And the...and part (2) deletes the word "resident", adds withholding information as a reason to deny an application, adds a certification of completeness and accuracy of the information obtained on the application for a new permit or for the transfer or modification of an existing permit, and (4) does not allow revocation of a permit for a discharge that occurs at another facility owned or operated by the same permittee. Section 10 requires the department to notify the natural resources district within five days after receipt of an application; and part (3) requires the department to notify the county board within five days after the receipt of an application, requires the department to hold a public comment period for written comments to be submitted within 30 days after the notice on the application which are within the authority of the department of the act for Class II, III, and Class IV operations. It also extends the time the department has to evaluate a Class III or IV facility application to 90 days. It does not include a permit application that has been determined to be complete by the department by the effective date of this act. Eliminates redundant language because of the new language. Section 11 allows the department to require an engineering evaluation of the department if the department has the reason to believe the facility is a threat to Environmental Protect...of the...to the Environmental Protection Act, the Livestock Waste Management Act, or any rules or regulations under the act. It also exempts new Class I facilities from the Engineers and Architects Regulation Act. Section 12 removes the 1998 date for adoption of rules and regulations, and requires the council to adopt rules and regulations regarding the modification of the application process for existing livestock waste control facilities constructed prior to April 15, 1998. Section 13 is the repealer, and Section 14 is the emergency clause. If I have time left, I would give it to Senator Jones.
