LB 105

And this 100 percent of income in Omaha, Nebraska, is 53,600. Now a person who's making 53,600 in Omaha, Nebraska, can afford housing in many, many subdivisions, in suburban Omaha, down in the eastern, northern, southern areas of the city. And so you're saying that 60 percent of those people who are making \$53,000 a year, this is what we're going to build these units for, \$53,000 a year. I just think that that's an area that's already being served, it's not necessary to have public housing for. I would like to reduce that portion down to 40 percent. Forty percent of those individuals could live in a unit, not 60 percent. I think that we're stepping off in an area here that the private sector is serving quite well right now and it is just not necessary to move into this area. I would urge for the adoption of the Jensen amendment. Thank you, Mr. President.

PRESIDENT MAURSTAD: Thank you, Senator Jensen. The question is the adoption of the Jensen amendment to LB 105. Those in favor vote aye; those opposed nay. Voting on the Jensen amendment. Senator Jensen, for what purpose do you rise?
