even more.

SENATOR HARTNETT: Yeah.

SENATOR SCHIMEK: So I don't...I don't think that that's a huge issue, but the issue about "shall" is a huge issue I believe. Thank you.

SPEAKER KRISTENSEN: Senator Tyson.

SENATOR TYSON: Thank you, Mr. Speaker, members of the body. I am not going to respond to the vicious attack that Senator Schimek made on the Wheat Board. What I passed out, which came from Health and Human Services, came from the policy secretary there, is a good indication to members of this body that the now director of Health and Human Services, and this administration, is working towards every, every, every initiative encompassed in Senator Schimek's bill as the original body or as the amendment. I would submit to you all that we
