indirection, and that's where they try to dictate what must be put in an advertisement. And I'd like to ask Senator Kristensen a question at this point.

PRESIDENT MAURSTAD: Senator Kristensen, would you yield to a question?

SENATOR CHAMBERS: Senator Kristensen,...

SPEAKER KRISTENSEN: Yes, yes.

SENATOR CHAMBERS: ...this language that I'm talking about is on page 19, beginning...

SPEAKER KRISTENSEN: Right.

SENATOR CHAMBERS: ...in line 5,...

SPEAKER KRISTENSEN: Yes.

SENATOR CHAMBERS: ...where the bill purports to dictate what a manufacturer, who advertises on the Internet, must put in that advertisement. The thing that must be put in the advertisement is the identity of each and every franchisee of the manufacturer or distributor within the consumer's community. We're talking about advertising.

SPEAKER KRISTENSEN: We do...

SENATOR CHAMBERS: Do you think...

SPEAKER KRISTENSEN: I'm sorry.

SENATOR CHAMBERS: ...that constitutionally can be dictated by the Legislature?

SPEAKER KRISTENSEN: I think you can regulate disclosure. I think you can regulate disclosure. I don't think you can tell them how to advertise, right. I think that's unconstitutional and I think if you attempt to do that, that...for example, though, Senator, we regulate some types of speech. We say that you can't use Joe Camel in a cigarette ad.
