

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 16, 2000 LB 505, 1436

suggestions that may come along, or to anything that would make this bill any better. And I'm sure there is going to be, as we discuss this situation, there are going to be a lot of people that, like Senator Byars said, we set this out to protect this fund, but we are the Legislature, we are the Legislature,...

SPEAKER KRISTENSEN: One minute.

SENATOR JANSSEN: ...and with, certainly with 25 votes we can do whatever we want to do. But I think it's a great way to start. And I'm going to be supporting this as long as it stays on track the way it's proposed at the present time. We'll wait and see what kind of amendments were offered. This may be...this may have...that may have an effect on if I do support it entirely throughout the whole discussion, may not be. But right now, the way it is, I think it's great. It's a great start and I'm going to be supporting Senator Bohlke in her efforts to persuade enough people to vote for this bill to get it started anyway. Thank you.

SPEAKER KRISTENSEN: Senator Landis.

SENATOR LANDIS: Thank you, Mr. Speaker, members of the Legislature. I accept completely Senator Bohlke's characterization of the origin and purpose for this bill and we share a goal about youth smoking. Senator Smith, I don't think you have to be coy with the Medical Association, and I think that letter made you angry, isn't that...that would be a fair characterization? There's no reason why we can't speak the truth on the floor. The doctor sent you a letter and you didn't like it, and you mentioned it on the floor, go ahead and name names. Let me tell you how I come out on this, because as you can imagine, LB 1436, lots of people are saying, what's its relationship to LB 505 and...well, let's take them separately and look at LB 1436 on its own terms. Let me tell you the goal is right and I support the goal. Let me tell you how I could come to support LB 1436, because I want to, because it's aimed at a good goal. I would do things differently. I think the body has told me generally LB 505 is too big. We're not prepared to use the tax system to affect youth consumption, I think that's where the big problem is. Thirty cents is too much to get to the place where you want to go and to use the tax
