

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

February 28, 2000 LR 291

some money but we don't have time to deal with those judges who will grab the breasts of pregnant women. Suppose a senator did that. Suppose a CEO in private industry did it. And not one of these categories of persons is held to the high standard of judges, but the code of judicial conduct says that judges are held to the highest ethical standard, higher than that even imposed on lawyers because they are the ones who are to embody the administration of justice. They are the ones who symbolize the impartiality, the integrity of the law. Yet these are the ones who commit the most reprehensible vicious acts and get away with them because it's a "good old boy" system and they protect each other. Let me go to the second page of this handout to show you that every now and then, every now and then, when there is a rabbit, I'm not going to compare Bartu to any animal because no animal behaves in the way that Bartu did. Animals act a certain way because of how their genes are encoded and programmed by Mother Nature or Father God. But when it comes to a human being, a judge who is required to be knowledgeable of the law and have the highest moral and ethical standards, they get away with, and I use the term advisedly, murder and everybody sits on their hands and will do nothing. The newspapers, in their editorial offices, are silent. My colleagues are silent except when the judges want a salary increase. Where do these women and others who are abused by these judges go for help? Why do you think I'm the one who filed these complaints? Do you think I have some kind of ESP and just know that all these terrible things are happening around the state? Or is it more reasonable to believe that people with these complaints bring them to me? That is what happened. Isn't it tragic when the man who is referred to in this state as the biggest racist, the worst chauvinist, the heathen, the atheist is the one that all these Christians have to come to see that the laws, which their representatives enact and are sworn to uphold, that the ethical standards, which the best in their society have put together, are violated, why must they come to me?

SENATOR CUDABACK: One minute.

SENATOR CHAMBERS: Why? Because they have no place else to turn and a drowning person will accept help from the devil himself and say thank God for the devil. Because under God's regime, I
