

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 9, 2000 LB 1018, 1268

SENATOR KREMER: Sure.

SENATOR CHAMBERS: Senator Kremer, what did you say the number of this bill was that this amendment comes from?

SENATOR KREMER: LB 1268.

SENATOR CHAMBERS: Who introduced that bill?

SENATOR KREMER: I did.

SENATOR CHAMBERS: Thank you, Senator Kremer. Senator Bromm, have you done a lot of work on LB 1018?

SENATOR BROMM: (Laugh) By my standards, I have, Senator.

SENATOR CHAMBERS: Senator Bromm, have you endured much as a result of questions that I've put to you in rewriting of certain parts of the bill that I wanted to see done?

SENATOR BROMM: We've worked...we've worked hard on this bill.

SENATOR CHAMBERS: Does LB 1018 mean anything to you?

SENATOR BROMM: I would say that...that it's an important bill by the standard of bills that I try to get passed, yeah.

SENATOR CHAMBERS: How much...how much are you willing to risk LB 1018 in order to add an amendment like this to it?

SENATOR BROMM: I don't understand the question.

SENATOR CHAMBERS: All right, let me ask you this, if the Titanic was leaving port and you did not know what you know now,...

SENATOR BROMM: (Laugh) I think I'm going to understand it.

SENATOR CHAMBERS: ...and they said, I'll give you a state room. Would you take that state room on the Titanic?
