

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 13, 2000 LB 1107, 1214

SENATOR CHAMBERS: That's all that I wanted to ask you. Thank you. I just want to be sure that I'm following along with where we are. Members of the Legislature, I've never been in favor of what the dictionary might call a chimera--something that seems to be there but it really isn't. I know that property taxes represent a hot-button political issue, but rather than give these piddling amounts to people it would be better for us to show that we are wise administrators of this money by putting it someplace where it can do some recognizable, observable, quantifiable good for the state. PRESIDENT MAURSTAD: One minute.

SENATOR CHAMBERS: ...something that you feel was by way of a promise but it's being changed now under this bill. Is that true? And Senator Kremer is nodding yes. Well, nobody is necessarily failing to keep faith. It's just that an unwise political decision was made last year and now another political decision is being made. But if a wise decision devoid to the extent possible of politics were to be made, we would keep that \$35 million and do something better with it than what is
