

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 27, 2000 LB 1010

PRESIDENT MAURSTAD: Senator Baker.

SENATOR BAKER: Yes.

SENATOR CHAMBERS: Senator Baker, did you say that this board is not filing the reports it should, or that they haven't produced what you would deem to be a workable plan to achieve the goal?

SENATOR BAKER: They file a biennial report in a printed booklet and then their ann...the report in the off years is a database and I have it and so does Senator Jones. It's very difficult to decipher. But the bottom line is, in order to get down to 25 percent in the year 2008, they're going to have to start getting this land moving.

SENATOR CHAMBERS: But they are complying with what the law required of them up to this point in terms of filing reports. Is that true?

SENATOR BAKER: Yes.

SENATOR CHAMBERS: So what are they doing that violates what the law said?

SENATOR BAKER: Well, prudent management would...would simply dictate that you can't wait and sell all this property the last year of this...the way the statute reads now. They need to have an orderly and a timely sale, especially where it's rental property at this time and has six to seven, eight...seven year leases I think for the most part.

SENATOR CHAMBERS: Thank you, Senator Baker. That's all I'll ask you. There was an interesting discussion going on, on the other side of the aisle, about the fact that the board is a constitutional entity. I'd like to ask Senator Wickersham a question.

PRESIDENT MAURSTAD: Senator Wickersham, would you...

SENATOR CHAMBERS: Senator Wickersham.

PRESIDENT MAURSTAD: Senator Wickersham, would you yield?
