

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

March 28, 2000 LB 1234

from. And we're going to have to do that more and more in the future.

SPEAKER KRISTENSEN: One minute.

SENATOR DIERKS: I just wonder why we would object to this bill when it takes us down that road we have to be going down. Some day we may be burning 80 percent ethanol in our vehicles. And believe me, it doesn't hurt. You don't hurt those engines. It doesn't hurt them at all. The petroleum industry is going to be very adamant about their stand on this issue, but the reason they are is because it's the money thing. And if we look at the real need, the real need for the product, we will support this legislation and we'll object to the bracket bill. We really need to start down this road of ethanol production on big time basis. Nebraska could well be the leading state in the nation with this product because as I've said so long so many times before you, we are the garden spot of the nation today. We have a water supply in that aquifer that's second to none. We will be able...

SPEAKER KRISTENSEN: Time.

SENATOR DIERKS: ...to produce corn even in the biggest drought. So why not? What's wrong with us going down this road that Senator Schrock is trying to take us?

SPEAKER KRISTENSEN: Time.

SENATOR DIERKS: Let's get this ethanol thing up and...time or one minute?

SPEAKER KRISTENSEN: Time.

SENATOR DIERKS: Thank you.

SPEAKER KRISTENSEN: Senator Preister.

SENATOR PREISTER: Thank you, Honorable President. I rise to let you know that I will not be supporting the bracket motion and to tell you why I will not. Certainly, I can appreciate what Senator Dierks just said. Eventually, we have a finite
