forecasting revenues or tax receipts to come in, is that correct?

SENATOR WEHRBEIN: Yes.

SENATOR RAIKES: Okay, and...

SPEAKER KRISTENSEN: One minute.

SENATOR RAIKES: ...it's concerning first the revenue estimates, would you say those are sort of middle of the road, are they high, are they low, what are they?

SENATOR WEHRBEIN: I'd say they are middle of the road.

SENATOR RAIKES: Okay, so if they are middle of the road, and if we would adopt the program that called for us to be \$50 million in the hole in three years, then there would have to be some serious scrambling between now and three years from now because...

SENATOR WEHRBEIN: Oh,...

SENATOR RAIKES: ...it would not be legal to have a minus \$50 million when the time comes.

SENATOR WEHRBEIN: That's true.

SENATOR RAIKES: Okay.

SENATOR WEHRBEIN: I won't use your time but I'll probably talk about that.

SENATOR RAIKES: Thank you.

SPEAKER KRISTENSEN: Senator Schmitt.

SENATOR SCHMITT: Yes, Mr. Speaker, members, I guess after Senator Wehrbein answered my question I come up with another one I guess for him, if he will yield.

SPEAKER KRISTENSEN: Senator Wehrbein, would you respond?
