

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 3, 2000

LB 1010

it, so either the seven-year lease is going to stop both things or neither. And here's what I mean by things. Senator Baker wants to try to find a way to compel the board to start selling land. If somebody is leasing that land, the board cannot sell the land out from under that person, even with this bill, because you cannot interfere with an existing contract. So, if that land is tied up for seven years now, it's tied up for seven years even with this bill, no matter how it's written. So what is it that they're talking about? On the one hand, Senator Baker says that Chambers is talking about the board having this eight-year period, he says seven. Since the leases are for seven years, that would compel the dumping of the land into the market or on the market in the last year. No, it wouldn't, because their fiduciary responsibility would prevent them from dumping land onto the market and maybe having it purchased below the value that the land really has. So they would not dump it. What they want to do is to try to create a situation where in certain selected cases the land can be s-t-o-l-e-n, figuratively speaking, of course. That's what all of this is about. The crux of the matter, though, is that members on the floor hate the board members. I'd like to ask Senator Baker a question.

SENATOR CUDABACK: Senator Baker, would you respond to a question?

SENATOR BAKER: Yes, I would.

SENATOR CHAMBERS: Senator Baker, did you say that the present system has caused neighbors to be upset with neighbors...

SENATOR BAKER: Yes,...

SENATOR CHAMBERS: ...because of the way this is...

SENATOR BAKER: ...yes.

SENATOR CHAMBERS: Now, you believe the Bible, don't you,...

SENATOR BAKER: Yes.

SENATOR CHAMBERS: ...more or less? Why don't you quote to them that part of the Bible that said, love thy neighbor as thyself?
