- 8 Nebraskans and the long-term implications of their decisions;
- 9 (2) It is necessary to assist decisionmakers in
- 10 government to address emerging issues, take advantage of
- 11 opportunities for the state, avoid problems, and provide for
- 12 continuity in policy; and
- 13 (3) It is necessary to establish mechanisms to bring all
- 14 perspectives into a process for the systematic and comprehensive

**ATTORNEY GENERAL'S OPINION**

Opinion #01009

DATE: March 12, 2001

SUBJECT: Constitutionality of LB 671 (2001 Legislative Session)

REQUESTED BY: Senator Ray Janssen, Chair  
 General Affairs Committee  
 Nebraska State Legislature

WRITTEN BY: Laurie Smith Camp, Deputy Attorney General

Dear Senator Janssen:

You have asked our opinion regarding the constitutionality of Legislative Bill 671 (2001 Legislative Session). Specifically, you have asked whether the State of Nebraska may require a person to pay the gallonage tax imposed by Neb. Rev. Stat. § 53-160 (1998) if that person "through the Internet . . . sells and ships alcoholic liquor directly to a person in this state." Although your request for our opinion asks whether the state could direct such a person "to collect the state sales tax and remit it back to the state," the language of LB 671 refers to the gallonage tax imposed under § 53-160, and not the state sales tax. Our opinion, therefore, makes reference to the gallonage tax and not state sales tax.

LB 671 would create a new class of license to be issued by the Nebraska Liquor Control Commission. The new class of license would be a shipping license authorizing persons to sell alcoholic liquor through the Internet and to ship the alcoholic liquor directly to a person in the State of Nebraska. Under current Nebraska law, shipping licenses are issued by the Nebraska Liquor Control Commission to manufacturers of alcoholic liquor, and allow the manufacturers to ship liquor to licensed wholesalers. See Neb. Rev. Stat. § 53-123.15 (1998). Persons holding shipping licenses file informational returns reflecting the quantity of alcohol shipped to Nebraska wholesalers. See Neb. Rev. Stat. § 53-164.01 (1998). The Nebraska wholesalers pay the gallonage tax imposed by § 53-160.

In Section 1 of LB 671, the bill would amend Neb. Rev. Stat. § 53-123.15 with the following new language:

The [liquor] commission may issue a shipping license to any person who, through the Internet, sells and ships alcoholic liquor directly to a person in this state. A person who receives a license pursuant to this subsection shall pay the fee required in subdivision (12) of section 53-124.

LB 671 would amend § 53-124 to add the new shipping license classification, carrying an annual fee of \$500.00. Finally, LB 671 would amend § 53-162 to require the holders of such shipping licenses to pay the gallonage tax imposed by § 53-160.

In general, a state cannot impose a tax on persons outside the state who ship goods to persons in the state. Article I of the U.S. Constitution vests in the U. S. Congress the power to regulate commerce among the states and prohibits any state from laying any "imposts or duties" on imports or exports without the consent of Congress. The Twenty-first Amendment to the U. S. Constitution provides, however, that "the transportation or importation into any State, Territory or possession of the United States for delivery or use therein of intoxicating liquors in violation of the laws thereof, is hereby prohibited."

The U. S. Supreme Court has held that the power of states to regulate the transportation, importation, possession, delivery, and use of liquor under the Twenty-first Amendment is not absolute. In *Bacchus Imports, Ltd. v. Dias*, 468 U.S. 263 (1984), the Supreme Court held unconstitutional a Hawaii statute which provided preferential taxation to liquors produced in the state of Hawaii. In *Brown-Forman Distillers v. New York State Liquor Authority*, 476 U.S. 573 (1986), the Supreme Court held unconstitutional a New York statute which attempted to eliminate competitive advantages for liquor consumers in other states. See also *Bridenbaugh v. O'Bannon*, 78 F.Supp.2d 828 (N.D.Ind. 1999), and *Dickerson v. Bailey*, 87 F.Supp. 2d 691 (S.D.Tex. 2000), for examples of state legislation held unconstitutional under the Commerce Clause because of preferential treatment provided to in-state providers of alcoholic liquors.

The U. S. Supreme Court has found that state statutes may violate ordinary Commerce Clause provisions and yet survive due to the Twenty-first Amendment if they promote temperance and orderly market conditions. See *Liquormart, Inc. v. Rhode Island*, 517 U.S. 484, 516 (1996); *North Dakota v. U.S.*, 495 U.S. 423 (1990); *Hostetter v. Idlewild Bon Voyage Liquor Corp.*, 377 U.S. 324 (1984); *Seagram & Sons, Inc. v. Hostetter*, 384 U.S. 35 (1966). It may be argued that LB 671 promotes interstate commerce and helps to ensure orderly and equitable market conditions for in-state and out-state vendors. Because LB 671 would treat in-state Internet sales in the same manner as interstate Internet sales, it should withstand challenges under the Commerce Clause which the Hawaii statute in *Bacchus* and the New York statute in *Brown-Forman* could not withstand.

There is one challenge that could be raised to LB 671 on Equal Protection grounds. When a state affords different treatment to different people or groups of people, the state must show at a minimum that there is a rational basis for the different treatment. See *City of Cleburne v. Cleburne Living Center*, 473 U.S. 432 (1985). It may be alleged that there is no rational basis for the Legislature to treat persons who sell alcoholic liquor through the Internet differently from those who sell alcoholic liquor through telephone solicitation, direct mailing, or media advertisement.

In this opinion, we do not attempt to address the practical difficulties inherent in enforcement of the requirements which LB 671 would impose.

Finally, the language of LB 671 in Section 3, amending § 53-162, may lead to confusion in two respects if enacted as written.

First, section 53-160 provides that the Liquor Commission shall collect the gallonage tax and account for and remit that tax to the State Treasurer at least once each week. Section 53-162 provides that individuals who have received alcoholic liquor transported into the state for which the required taxes in the state have not been paid shall pay such taxes, and such taxes shall be collected by the Nebraska Department of Revenue in the same manner as sales and use taxes. The proposed revision to § 53-162 under LB

671 requires a person holding the new "shipping license" to pay the gallonage tax imposed as provided in § 53-160. LB 671 leaves within § 53-162 the provision that "the tax shall be collected by the Department of Revenue in the same manner as sales and use taxes. . . ." It is unclear whether a person holding a new shipping license issued under LB 671 would be responsible for paying the gallonage tax to the Liquor Commission as provided in § 53-160 or to the Department of Revenue in the same manner as sales and use taxes are paid. You may wish to consider striking the full sentence which begins on line 18 and ends on line 22 of page 10 of LB 671.

Second, the first sentence of section 3 of LB 671, which would amend section 53-162 of the Nebraska Statutes is confusing. You may wish to consider striking the words "who have received alcoholic liquor by transport pursuant to section 53-192" to effect your purpose.

Sincerely,  
 DON STENBERG

### Judiciary

**LEGISLATIVE BILL 593.** Placed on General File as amended.  
 Standing Committee amendment to LB 593:  
 AM1033

1 1. Strike the original sections and insert the following  
 2 new sections:  
 3 "Section 1. The working men and women in Nebraska law  
 4 enforcement risk their lives everyday. The people of Nebraska  
 5 greatly appreciate the hard work and dedication of law enforcement  
 6 officers in protecting the public. The good name of these officers  
 7 should not be tarnished by the actions of those few who commit  
 8 discriminatory practices in defiance of the Nebraska Law  
 9 Enforcement Non-Discrimination Resolution adopted on October 10,  
 10 2000, by various Nebraska law enforcement entities.  
 11 Racial profiling is a practice that presents a great  
 12 danger to the fundamental principles of a democratic society. It  
 13 is abhorrent and cannot be tolerated. Motorists who have been  
 14 stopped by the police for no reason other than the color of their  
 15 skin or their apparent nationality or ethnicity are the victims of  
 16 discriminatory practices.  
 17 Sec. 2. (1) No member of the Nebraska State Patrol or a  
 18 county sheriff's office, officer of a city or village police  
 19 department, or member of any other law enforcement agency in this  
 20 state shall engage in racial profiling. The detention or other  
 21 disparate treatment of an individual based on any noncriminal  
 22 factor or combination of noncriminal factors is inconsistent with  
 23 this policy.  
 24 (2) Racial profiling shall not be used to justify the  
 1 detention of an individual or to conduct a stop of a motor vehicle.  
 2 Sec. 3. For purposes of sections 1 to 5 of this act:  
 3 (1) Disparate treatment means differential treatment of  
 4 persons on the basis of race, color, or national origin;  
 5 (2) Motor vehicle stop means any stop of a motor vehicle;  
 6 and  
 7 (3) Racial profiling means detaining an individual or  
 8 conducting a motor vehicle stop based solely upon disparate  
 9 treatment of an individual.

10 Sec. 4. (1) On or before January 1, 2002, the Nebraska  
11 State Patrol, the county sheriffs, all city and village police  
12 departments, and any other law enforcement agency in this state  
13 shall adopt a written policy that prohibits the detention of any  
14 person or a motor vehicle stop when such action is solely motivated  
15 by racial profiling and the action would constitute a violation of  
16 the civil rights of the person.

17 (2) With respect to a motor vehicle stop, on and after  
18 January 1, 2002, the Nebraska State Patrol, the county sheriffs,  
19 all city and village police departments, and any other law  
20 enforcement agency in this state shall record and retain the  
21 following information using the form developed and promulgated  
22 pursuant to section 5 of this act:

23 (a) The number of motor vehicle stops;

24 (b) The characteristics of race or ethnicity of the  
25 person stopped. The identification of such characteristics shall  
26 be based on the observation and perception of the law enforcement  
27 officer responsible for reporting the motor vehicle stop and the  
1 information shall not be required to be provided by the person  
2 stopped;

3 (c) If the stop is for a law violation, the nature of the  
4 alleged law violation that resulted in the motor vehicle stop;

5 (d) Whether a warning or citation was issued, an arrest  
6 made, or a search conducted as a result of the motor vehicle stop.  
7 Search does not include a search incident to arrest or an inventory  
8 search; and

9 (e) Any additional information that the Nebraska State  
10 Patrol, the county sheriffs, all city and village police  
11 departments, or any other law enforcement agency in this state, as  
12 the case may be, deems appropriate.

13 (3) The Nebraska Commission on Law Enforcement and  
14 Criminal Justice may develop a uniform system for receiving  
15 allegations of racial profiling. The Nebraska State Patrol, the  
16 county sheriffs, all city and village police departments, and any  
17 other law enforcement agency in this state shall provide to the  
18 commission (a) a copy of each allegation of racial profiling  
19 received and (b) written notification of the review and disposition  
20 of such allegation. No information revealing the identity of the  
21 law enforcement officer involved in the stop shall be used,  
22 transmitted, or disclosed in violation of any collective bargaining  
23 agreement provision or personnel rule under which such law  
24 enforcement officer is employed. No information revealing the  
25 identity of the complainant shall be used, transmitted, or  
26 disclosed in the form alleging racial profiling.

27 (4) Any law enforcement officer who in good faith records  
1 information on a motor vehicle stop pursuant to this section shall  
2 not be held civilly liable for the act of recording such  
3 information unless the law enforcement officer's conduct was  
4 unreasonable or reckless or in some way contrary to law.

5 (5) On or before October 1, 2002, and annually thereafter  
6 until January 1, 2004, the Nebraska State Patrol, the county  
7 sheriffs, all city and village police departments, and all other  
8 law enforcement agencies in this state shall provide to the  
9 commission, in such form as the commission prescribes, a summary  
10 report of the information recorded pursuant to subsection (2) of  
11 this section.

12 (6) On and after January 1, 2002, and until January 1,  
13 2004, the commission may, within the limits of its existing  
14 appropriations, provide for a review of the prevalence and  
15 disposition of motor vehicle stops based on racial profiling and  
16 allegations reported pursuant to this section. The results of such  
17 review shall be reported to the Governor and the Legislature on or  
18 before April 1, 2004.

19 Sec. 5. On or before January 1, 2002, the Nebraska  
20 Commission on Law Enforcement and Criminal Justice, the  
21 Superintendent of Law Enforcement and Public Safety, the Attorney  
22 General, and the State Court Administrator may adopt and  
23 promulgate: (1) A form, in printed or electronic format, to be  
24 used by a law enforcement officer when making a motor vehicle stop  
25 to record personal identifying information about the operator of  
26 such motor vehicle, the location of the stop, the reason for the  
27 stop, and any other information that is required to be recorded  
1 pursuant to subsection (2) of section 4 of this act and (2) a form,  
2 in printed or electronic format, to be used to report an allegation  
3 of racial profiling by a law enforcement officer."

**LEGISLATIVE BILL 611.** Placed on General File as amended.  
Standing Committee amendment to LB 611:  
AM1005

1 1. Strike the original sections and insert the following  
2 new sections:

3 "Section 1. (1) The Legislature finds that:

4 (a) In 1977, as the Department of Correctional Services  
5 was preparing to open new correctional facilities in Lincoln, the  
6 Legislature approved and funded a program of review and study of  
7 eight major areas of performance of the department; and

8 (b) In 2001, as the department prepares to open new  
9 correctional facilities in McCook and Tecumseh, careful attention  
10 needs to be given to the operation of new and existing institutions  
11 and correctional programs, as well as addressing current and future  
12 needs of the State of Nebraska with respect to incarceration and  
13 treatment of inmates.

14 (2) It is the intent of the Legislature to review areas  
15 of performance of the Department of Correctional Services and to  
16 develop proposals for their improvement.

17 (3) The Legislature finds that there is a need for a  
18 comprehensive review of the statewide system for the placement and  
19 treatment of legal offenders in the State of Nebraska. This review

20 would seek to initiate, develop, and implement a full analysis of  
21 the state's system governing the placement and treatment of legal  
22 offenders, including, but not limited to, sentencing guidelines,  
23 probation, pre-incarceration alternatives, incarceration,  
24 post-incarceration programs, parole, and pardons.

1 Sec. 2. For purposes of sections 1 to 5 of this act,  
2 statewide system for the placement and treatment of legal offenders  
3 includes, but is not limited to, pre-incarceration alternatives,  
4 probation, sentencing, community-based programs, incarceration,  
5 post-incarceration programs, parole, and pardons.

6 Sec. 3. The Legislature shall commission a comprehensive  
7 review of the statewide system for the placement and treatment of  
8 legal offenders in the State of Nebraska. The review shall be  
9 conducted by the Correctional Improvement Committee which is hereby  
10 created. The members of the committee shall be appointed by the  
11 Executive Board of the Legislative Council. The committee shall  
12 consist of five members of the Legislature and three members of the  
13 general public. The appointments shall be made not later than July  
14 1, 2001. The Executive Board of the Legislative Council shall  
15 appoint a chairperson of the Correctional Improvement Committee  
16 from among the members of the committee. Members of the committee  
17 shall be reimbursed for their expenses as members of the committee  
18 as provided in sections 81-1174 to 81-1177.

19 Sec. 4. The Correctional Improvement Committee in  
20 conducting the comprehensive review of the statewide system for the  
21 placement and treatment of legal offenders required by section 3 of  
22 this act may gather information from interested parties through  
23 public hearings and other appropriate means to assure ample  
24 opportunities for outside input to be received for consideration.  
25 The committee shall complete its review and issue a final report  
26 outlining its findings and recommendations to the Legislature no  
27 later than July 1, 2003. The Executive Board of the Legislative  
1 Council shall direct administrative support to the committee and  
2 shall be responsible for the production and distribution of the  
3 final report of the committee.

4 Sec. 5. The comprehensive review of the statewide system  
5 for the placement and treatment of legal offenders required by  
6 section 3 of this act shall initiate, develop, and implement a full  
7 analysis of the state's system for the placement and treatment of  
8 legal offenders.

9 Sec. 6. Participants in each of the areas of study  
10 described in section 7 of this act shall include members of the  
11 Correctional Improvement Committee and others with interest and  
12 expertise in the area of study. Additional staff support deemed  
13 necessary by the committee shall be provided by the Legislative  
14 Fiscal Analyst, the Legislative Research Division, and the Office  
15 of Public Counsel. The correctional improvement programs required  
16 under section 7 of this act shall be coordinated by the committee.

17 Sec. 7. The purposes of sections 6 to 9 of this act are

18 to conduct eight correctional improvement programs provided in this  
19 section. Each program shall consist of an independent and  
20 in-depth analysis of current and emerging correctional concerns.  
21 The programs to be completed in accordance with sections 6 to 9 of  
22 this act may be conducted in the following areas:

23 (1) The improvement program for community-based treatment  
24 programs shall seek to initiate, develop, and implement  
25 community-based treatment alternatives, using available expertise  
26 in developing a statewide strategy for placement and treatment of  
27 inmates. For purposes of this subdivision, community-based  
1 treatment program means a correctional treatment program,  
2 residential or nonresidential, which does not confine the inmate in  
3 a medium-security or maximum-security correctional facility. In  
4 carrying out this subdivision the Correctional Improvement  
5 Committee shall also study how the implementation of juvenile and  
6 adult drug courts would affect community based treatment programs;

7 (2) The improvement program for comprehensive health care  
8 shall seek to improve the health care services provided to inmates.  
9 In carrying out this section, the committee shall consult and  
10 consider the findings of the Governor's task force on the medical  
11 services system of the department, state medical officials,  
12 medical, nursing, and other health care professional schools in  
13 Nebraska, correctional medicine practitioners, and other health  
14 care professionals. For purposes of this subdivision,  
15 comprehensive health care includes medical services, dental  
16 services, and psychiatric services;

17 (3) The improvement program for mental health treatment  
18 shall address the needs of inmates for comprehensive mental health  
19 treatment. In developing improved mental health treatment, the  
20 committee shall consult and work with the Department of  
21 Correctional Services, the Department of Health and Human Services,  
22 mental health professional training programs of medical and other  
23 health care professional schools in Nebraska, and practicing mental  
24 health professionals, including, but not limited to, mental health  
25 professionals providing mental health treatment to inmates. For  
26 purposes of this subdivision, mental health treatment includes  
27 general mental health programs available to the general population  
1 of inmates, specialized mental health treatment of offenders,  
2 treatment of sex offenders, and the care and treatment of offenders  
3 with serious mental illness who may require hospitalization;

4 (4) The improvement program for substance abuse treatment  
5 shall address the substance abuse treatment needs of inmates. The  
6 committee shall consider recommending that the Department of  
7 Correctional Services develop new substance abuse treatment  
8 programs and facilities, as well as expanding existing programs and  
9 facilities, in order to provide substance abuse treatment for  
10 inmates. The correctional improvement program shall also explore  
11 providing access to new and existing substance abuse treatment  
12 programs and facilities near the offender's home community. In

13 carrying out this section, the committee shall consult and work  
14 with the Department of Correctional Services, the Department of  
15 Health and Human Services, substance abuse treatment facilities  
16 operating within the State of Nebraska, and substance abuse  
17 treatment professionals, including, but not limited to, substance  
18 abuse treatment professionals providing substance abuse treatment  
19 to inmates. For purposes of this subdivision, substance abuse  
20 treatment means any educational, inpatient, or outpatient programs  
21 and facilities that address personal and societal issues relating  
22 to abuse of drugs, alcohol, and other substances;

23 (5) The improvement program for institutional segregation  
24 shall address the practices and policies of the Department of  
25 Correctional Services regarding inmates who are placed in  
26 institutional segregation. The committee shall consider  
27 institutional management concerns that result in the placement of  
1 certain types of offenders in institutional segregation, the impact  
2 of long-term placement of offenders in segregation, and the access  
3 of segregated offenders to programming and other resources,  
4 custody-level promotion, and consideration for parole. The program  
5 shall include an evaluation of the current and proposed  
6 institutional segregation units and shall utilize the expertise of  
7 persons in the field of corrections and the professions of law,  
8 mental health care, and medicine;

9 (6) The improvement program for offender work and  
10 activities shall develop a program for a broader and more  
11 comprehensive offering of options for work, education, and other  
12 enrichment activities beneficial to the successful return of  
13 inmates into the community upon release. The committee shall also  
14 consider the adequacy of offerings to inmates' interest groups,  
15 cultural organizations, religious meetings, access to family and  
16 other community support through visits, telephones, and mail, and  
17 opportunities for pursuing hobbies and other recreational programs.  
18 In carrying out this section, the committee shall consult and work  
19 with the department, governmental agencies, representatives of  
20 private industry, labor, schools, and postsecondary educational  
21 institutions, religious leaders, and other interested persons. For  
22 purposes of this subdivision, (a) educational opportunities  
23 include, but are not limited to, graduation from high school or  
24 obtaining a general equivalency diploma, English classes, technical  
25 training, college-level studies, and other coursework that will  
26 better prepare the offender to make a successful return to the  
27 community and (b) work opportunities include institutional  
1 employment, employment by governmental agencies or subdivisions, by  
2 private industry, or by the department in the production of goods  
3 described in section 83-145, and other employment opportunities  
4 determined by the department to be appropriate for inmates;  
5 (7) The improvement program for staffing issues shall  
6 address the current and future needs of the department with respect  
7 to staff recruitment, retention, and training. The committee shall

8 consider provision of adequate levels of compensation to attract  
 9 and retain qualified and competent staff, develop strategies to  
 10 improve job satisfaction, and provision of initial and ongoing  
 11 training opportunities to improve job performance. In carrying out  
 12 this section, the committee shall consult and work with the  
 13 Department of Correctional Services, the personnel division of the  
 14 Department of Administrative Services, faculty of Nebraska  
 15 postsecondary educational institutions teaching in the fields of  
 16 management and human resources, professional trainers, recruiters,

- 2 The department shall use the fund to administer the provisions of
- 3 this section. "

Senator Thompson filed the following amendment to LB 598:  
AM0928

- 1 1. Insert the following new section:
- 2 "Section 1. Section 43-285, Reissue Revised Statutes of
- 3 Nebraska, is amended to read:
- 4 43-285. (1) When the court awards a juvenile to the care
- 5 of the Department of Health and Human Services, an association, or
- 6 an individual in accordance with the Nebraska Juvenile Code, the
- 7 juvenile shall, unless otherwise ordered, become a ward and be
- 8 subject to the guardianship of the department, association, or
- 9 individual to whose care he or she is committed. Any such
- 10 association and the department shall have authority, by and with
- 11 the assent of the court, to determine the care, placement, medical
- 12 services, psychiatric services, training, and expenditures on
- 13 behalf of each juvenile committed to it. Such guardianship shall
- 14 not include the guardianship of any estate of the juvenile.
- 15 (2) Following an adjudication hearing at which a juvenile
- 16 is adjudged to be under subdivision (1), (2), (3), or (4) of
- 17 section 43-247, the court may order the department to prepare and
- 18 file with the court a proposed plan for the care, placement,
- 19 services, and permanency which are to be provided to such juvenile
- 20 and his or her family. The health and safety of the juvenile shall
- 21 be the paramount concern in the proposed plan. The department
- 22 shall include in the plan for a juvenile who is sixteen years of

23 age or older and subject to the guardianship of the department a  
24 written proposal describing programs and services designed to  
1 assist the juvenile in acquiring independent living skills. If any  
2 other party, including, but not limited to, the guardian ad litem,  
3 parents, county attorney, or custodian, proves by a preponderance  
4 of the evidence that the department's plan is not in the juvenile's  
5 best interests, the court shall disapprove the department's plan.  
6 The court may modify the plan, order that an alternative plan be  
7 developed, or implement another plan that is in the juvenile's best  
8 interests. In its order the court shall include a finding  
9 regarding the appropriateness of the programs and services  
10 described in the proposal designed to assist the juvenile in  
11 acquiring independent living skills. Rules of evidence shall not  
12 apply at the dispositional hearing when the court considers the  
13 plan that has been presented. The department or any other party  
14 may request a review of the court's order concerning the plan by a  
15 juvenile review panel as provided in section 43-287.04.

16 (3) Within thirty days after an order awarding a juvenile  
17 to the care of the department, an association, or an individual and  
18 until the juvenile reaches the age of majority, the department,  
19 association, or individual shall file with the court a report  
20 stating the location of the juvenile's placement and the needs of  
21 the juvenile in order to effectuate the purposes of subdivision (1)  
22 of section 43-246. The department, association, or individual  
23 shall file a report with the court once every six months or at  
24 shorter intervals if ordered by the court or deemed appropriate by  
25 the department, association, or individual. The department,  
26 association, or individual shall file a report and notice of  
27 placement change with the court and shall send copies of the notice  
1 to all interested parties at least seven days before the placement  
2 of the juvenile is changed from what the court originally  
3 considered to be a suitable family home or institution to some  
4 other custodial situation in order to effectuate the purposes of  
5 subdivision (1) of section 43-246. The court, on its own motion or  
6 upon the filing of an objection to the change by an interested  
7 party, may order a hearing to review such a change in placement and  
8 may order that the change be stayed until the completion of the  
9 hearing. Nothing in this section shall prevent the court on an ex  
10 parte basis from approving an immediate change in placement upon  
11 good cause shown. The department may make an immediate change in  
12 placement without court approval only if the juvenile is in a  
13 harmful or dangerous situation or when the foster parents request  
14 that the juvenile be removed from their home. Approval of the  
15 court shall be sought within twenty-four hours after making the  
16 change in placement or as soon thereafter as possible. The  
17 department or any other party may request a review of the change in  
18 placement by a juvenile review panel in the manner set out in  
19 section 43-287.04. The department shall provide the juvenile's  
20 guardian ad litem with a copy of any report filed with the court by

21 the department pursuant to this subsection.

22 (4) The court shall also hold a permanency hearing if  
23 required under section 43-1312.

24 (5) When the court awards a juvenile to the care of the  
25 department, an association, or an individual, then the department,  
26 association, or individual shall have standing as a party to file  
27 any pleading or motion, to be heard by the court with regard to  
1 such filings, and to be granted any review or relief requested in  
2 such filings consistent with the Nebraska Juvenile Code.

3 (6) Whenever a juvenile is in a foster care placement as  
4 defined in section 43-1301, the State Foster Care Review Board may  
5 participate in proceedings concerning the juvenile as provided in  
6 section 43-1313 and notice shall be given as provided in section  
7 43-1314.

8 (7) Any written findings or recommendations of the State  
9 Foster Care Review Board or any designated local foster care review  
10 board with regard to a juvenile in a foster care placement  
11 submitted to a court having jurisdiction over such juvenile shall  
12 be admissible in any proceeding concerning such juvenile if such  
13 findings or recommendations have been provided to all other parties  
14 of record.

15 (8) Any member of the State Foster Care Review Board, any  
16 of its agents or employees, or any member of any local foster care  
17 review board participating in an investigation or making any report  
18 pursuant to the Foster Care Review Act or participating in a  
19 judicial proceeding pursuant to this section shall be immune from  
20 any civil liability that would otherwise be incurred except for

### Appropriations

**LEGISLATIVE BILL 657.** Placed on General File as amended.

Standing Committee amendment to LB 657:

AM1080

- 1 1. Insert the following new section:
- 2 "Sec. 4. (1) Cities of the primary class and the
- 3 metropolitan class may by ordinance issue their bonds and refunding
- 4 bonds from time to time to finance and refinance the acquisition,
- 5 construction, improving, and equipping of the projects authorized

6 by sections 1 to 3 of this act and provide for the payment of the  
7 same as specified in this section. An issuer shall be permitted to  
8 pledge the amounts on deposit or to be deposited in the City of the  
9 Primary Class Development Fund or the City of the Metropolitan  
10 Class Development Fund, as applicable, as and when appropriated by  
11 the Legislature, to the registered owners of any bonds issued to  
12 finance the acquisition, construction, improving, or equipping of  
13 projects as approved in sections 1 to 3 of this act as long as the  
14 lien of such pledge does not attach until funds are actually  
15 deposited into the issuer's respective fund, and in no event shall  
16 such a pledge be construed as an obligation of the Legislature to  
17 appropriate such funds. Any such pledge shall be valid and binding  
18 from the time when the pledge is made. The money so pledged and  
19 thereafter received by the issuer or deposited into its respective  
20 fund shall immediately be subject to the lien of such pledge  
21 without any physical delivery thereof or further act, and the lien  
22 of any such pledge shall be valid and binding as against all  
23 parties having claims of any kind in tort, contract, or otherwise  
24 against the issuer, irrespective of whether the parties have notice  
1 thereof. Neither the ordinance nor any other instrument by which a  
2 pledge is created need be recorded.

3 (2) Such bonds may be sold by the issuer in such manner  
4 and for such price as the mayor and city council determine, at a  
5 discount, at par, or at a premium, at private negotiated sale or at  
6 public sale. The bonds shall have a stated maturity of fifteen  
7 years or less and shall bear interest at such rate or rates and  
8 otherwise be issued by ordinance adopted by the mayor and city  
9 council with such other terms and provisions as are established,  
10 permitted, or authorized by applicable state laws, notwithstanding  
11 any provisions of a home rule charter. In addition to the pledge  
12 of the amounts on deposit or to be deposited in the City of the  
13 Primary Class Development Fund or the City of the Metropolitan  
14 Class Development Fund, as the case may be and as appropriate,  
15 permitted by subsection (1) of this section, such bonds may also be  
16 secured as to payment in whole or in part by a pledge, as shall be  
17 determined by the issuer, (a) from the income, proceeds, and  
18 revenue, if any, of the facilities financed with proceeds of such  
19 bonds, and (b) from its revenue and income, including its sales,  
20 use, or occupation tax revenue, fees, or receipts, as may be  
21 determined by the issuer. The issuer may further secure such bonds  
22 by a mortgage or deed of trust encumbering all or any portion of  
23 the facilities financed with the proceeds of such bonds and by a  
24 bond insurance policy or other credit support facility. No general  
25 obligation bonds, except refunding bonds, shall be issued until  
26 authorized by a majority of the issuer's electors voting on the  
27 question as to their issuance at a statewide regular primary or  
1 general election or at a special election duly called for such  
2 purpose.

3 (3) The face of all such bonds shall plainly state that

- 4 the bonds and the interest thereon shall not constitute nor give  
 5 rise to an indebtedness, obligation, or pecuniary liability of the  
 6 state nor a charge against the general credit, revenue, or taxing  
 7 power of the state. Bonds issued in accordance with the provisions  
 8 of this section are declared to be issued for an essential public  
 9 and governmental purpose and, together with interest thereon and  
 10 income therefrom, shall be exempt from all state income taxes.  
 11 (4) For purposes of this section, general obligation bond  
 12 means any bond or refunding bond which is payable from the proceeds  
 13 of an ad valorem tax."  
 14 2. On page 5, line 3, after "than" insert "five-sevenths  
 15 of"; and in line 5 after "to" insert "five-sevenths of".  
 16 3. Renumber the remaining sections accordingly.

- 3 Nebraska, is amended to read:
- 4 9-625. Any county, city, or village may establish and
- 5 conduct a lottery if an election is first held pursuant to this
- 6 section. Only one scheme or type of lottery may be conducted by a
- 7 county, city, or village at one time. No county, city, or village
- 8 shall establish and conduct a lottery until such course of action
- 9 has been approved by a majority of the registered voters of such
- 10 county, city, or village casting ballots on the issue at a regular
- 11 election or a special election called by the governing board of the
- 12 county, city, or village for such purpose. This section shall not
- 13 be construed to prohibit any county, city, or village from
- 14 conducting a lottery if such course of action was approved prior to
- 15 July 17, 1986, by a majority of the registered voters of such
- 16 county, city, or village casting ballots on the issue.
- 17 Any lottery established pursuant to this section which is
- 18 authorized by an election held on or after October 1, 1989,
- 19 pursuant to this section that is not in operation for any four
- 20 consecutive years shall no longer be authorized under this section.
- 21 If the voters in a county, city, or village approve a lottery on or
- 22 after October 1, 1989, pursuant to this section but the lottery
- 23 does not actually begin operation within four years of the date
- 1 that the results of the election are certified, the lottery shall
- 2 no longer be authorized under this section. Any lottery no longer
- 3 authorized under this section because it did not operate within the
- 4 four-year period provided in this section may be reauthorized by a
- 5 majority vote of the registered voters of the county, city, or

6 village casting ballots on the issue at a subsequent election  
7 pursuant to this section.

8 Except for any restriction imposed pursuant to section  
9 9-643, any county, city, or village may conduct a lottery only  
10 within the boundaries of such county, city, or village, or within a  
11 licensed racetrack enclosure which abuts the corporate limits  
12 thereof or which is within the zoning jurisdiction of a city,  
13 except that nothing in this section shall prohibit a county, city,  
14 or village from entering into an agreement pursuant to the  
15 Interlocal Cooperation Act to conduct a joint lottery with another  
16 county, city, or village which has established a lottery in  
17 accordance with this section.

18 If any county, city, or village is conducting a lottery  
19 at the time it is consolidated into a municipal county, and such  
20 county, city, or village is abolished as of the date of creation of  
21 the municipal county, the municipal county shall be subject to the  
22 same rights and obligations with respect to such lottery or  
23 lotteries as the counties, cities, and villages which were  
24 abolished, including any rights or obligations under lottery  
25 contracts of such counties, cities, and villages. Such lottery  
26 shall continue to be subject to all other provisions of the  
27 Nebraska County and City Lottery Act, except that such lottery  
1 shall not be expanded to any new location in any area of the  
2 municipal county where such lottery would have been prohibited  
3 before the consolidation unless such expansion has been approved by  
4 a majority of the registered voters of such municipal county voting  
5 at a regular election or a special election called by the governing  
6 board of the municipal county for such purpose."

7 2. On page 5, line 5, after the first comma insert "line  
8 10, before 'A' insert '(1)'; after line 19 insert the following new  
9 subsection:

10 '(2) On the date of creation of a municipal county, all

12 contracts, and proclamations existing and in full force and effect,  
13 with respect to the county or counties and the municipality or  
14 municipalities consolidated into the municipal county, shall remain

4 Reimbursement of a cost incurred as a result of a suspension

9 2000, is amended to read:

10 66-1525. (1) Any responsible person or his or her  
11 designated representative who has taken remedial action in response  
12 to a release first reported after July 17, 1983, and on or before  
13 June 30, ~~2001~~ 2005, or against whom there is a third-party claim  
14 may apply to the department under the rules and regulations adopted  
15 and promulgated pursuant to section 66-1518 for reimbursement for  
16 the costs of the remedial action or third-party claim. Partial  
17 payment of such reimbursement to the responsible person may be  
18 authorized by the department at the approved stages prior to the  
19 completion of remedial action when a remedial action plan has been

22 Such partial payment may include the eligible and reasonable costs

27 (a) The tank was in substantial compliance with any rules  
1 and regulations of the United States Environmental Protection  
2 Agency, the State Fire Marshal, and the department which were

3 applicable to the tank. Substantial compliance shall be determined  
4 by the department taking into consideration the purposes of the  
5 Petroleum Release Remedial Action Act and the adverse effect that  
6 any violation of the rules and regulations may have had on the tank  
7 thereby causing or contributing to the release and the extent of  
8 the remedial action thereby required;

9 (b) Either the State Fire Marshal or the department was  
10 given notice of the release in substantial compliance with the  
11 rules and regulations adopted and promulgated pursuant to the  
12 Environmental Protection Act and the Petroleum Products and  
13 Hazardous Substances Storage and Handling Act. Substantial  
14 compliance shall be determined by the department taking into  
15 consideration the purposes of the Petroleum Release Remedial Action  
16 Act and the adverse effect that any violation of the notice  
17 provisions of the rules and regulations may have had on the  
18 remedial action being taken in a prompt, effective, and efficient

20 (c) The responsible person reasonably cooperated with the  
21 department and the State Fire Marshal in responding to the release;

25 to the Environmental Protection Act or the Petroleum Products and  
26 Hazardous Substances Storage and Handling Act or that portion of  
27 the plan for which payment or reimbursement is requested. However,  
1 responsible persons may undertake remedial action prior to approval  
2 of a plan by the department or during the time that remedial action  
3 at a site was suspended at any time after April 1995 because the  
4 fund was insufficient to pay reimbursements and be eligible for  
5 reimbursement at a later time if the responsible person complies  
6 with procedures provided to the responsible party by the department  
7 or set out in rules and regulations adopted and promulgated by the  
8 Environmental Quality Council;

9 (e) The costs for the remedial action were actually  
10 incurred by the responsible person or his or her designated  
11 representative after May 27, 1989, and were eligible and  
12 reasonable;

13 (f) If reimbursement for a third-party claim is involved,  
14 the cause of action for the third-party claim accrued after April  
15 26, 1991, and the Attorney General was notified by any person of  
16 the service of summons for the action within ten days of such  
17 service; and

18 (g) The responsible person or his or her designated  
19 representative has paid the amount specified in subsection (1) or  
20 (2) of section 66-1523.

21 (3) The State Fire Marshal shall review each application  
22 prior to consideration by the department and provide to the  
23 department any information the State Fire Marshal deems relevant to  
24 subdivisions (2)(a) through (g) of this section. The State Fire

25 Marshal shall issue a determination with respect to an applicant's  
26 compliance with rules and regulations adopted and promulgated by  
27 the State Fire Marshal. The State Fire Marshal shall issue a

1 compliance determination to the department within thirty days after  
2 receiving an application from the department.

3 (4) The department may withhold taking action on an  
4 application during the pendency of an enforcement action by the  
5 state or federal government related to the tank or a release from  
6 the tank.

7 (5) Reimbursements made for a remedial action may be  
8 reduced as much as one hundred percent for failure by the  
9 responsible person to comply with applicable statutory or  
10 regulatory requirements. In determining the amount of the  
11 reimbursement reduction, the department shall consider:

12 (a) The extent of and reasons for noncompliance;

13 (b) The likely environmental impact of the noncompliance;  
14 and

15 (c) Whether noncompliance was negligent, knowing, or  
16 willful.

17 (6) Except as provided in subsection (4) of this section,  
18 the department shall notify the responsible person of its approval  
19 or denial of the remedial action plan within one hundred twenty  
20 days after receipt of a remedial action plan which contains all the  
21 required information. If after one hundred twenty days the  
22 department fails to either deny, approve, or amend the remedial  
23 action plan submitted, the proposed plan shall be deemed approved.  
24 If the remedial action plan is denied, the department shall provide  
25 the reasons for such denial.

26 Sec. 7. Section 66-1529.02, Revised Statutes Supplement,  
27 2000, is amended to read:

1 66-1529.02. (1) The department may undertake remedial  
2 actions in response to a release first reported after July 17,

4 the fund if:

5 (a) The responsible person cannot be identified or  
6 located;

7 (b) An identified responsible person cannot or will not  
8 comply with the remedial action requirements; or

9 (c) Immediate remedial action is necessary, as determined  
10 by the Director of Environmental Quality, to protect human health

12 (2) The department may pay the costs of a third-party  
13 claim meeting the requirements of subdivision (2)(f) of section

16 (3) Reimbursement for any damages caused by the  
17 department or a person acting at the department's direction while  
18 investigating or inspecting or during remedial action on property

 21 involving the site where the release or suspected release occurred.  
 22 The costs shall be reimbursed from money available in the fund. If  
 23 such reimbursement is deemed inadequate by the party claiming the  
 24 damages, the party's claim for damages caused by the department  
 25 shall be filed as provided in section 76-705.

26 (4) All expenses paid from the fund under this section,

5 46-606. (1) The Director of Natural Resources shall

19 investment officer pursuant to the Nebraska Capital Expansion Act  
20 and the Nebraska State Funds Investment Act. The Department of  
21 Natural Resources shall allocate money from the fund to pay costs  
22 of the programs or activities of the department. The Director of  
23 Administrative Services, upon receipt of proper vouchers approved  
24 by the department, shall issue warrants on the fund, and the State

23 (2) The department shall prescribe the form and content  
24 of the water resources update notice and shall make such forms  
25 available to title insurance companies and other persons as deemed  
26 appropriate by the department. The requirement that a water

2 sufficiency of a deed or other instrument evidencing the transfer  
3 of ownership of real property.

4 (3) The department shall establish a uniform fee which  
5 shall be no higher than the amount necessary to cover costs

14 and promulgated pursuant to section 66-1518 for reimbursement for  
15 the costs of the remedial action or third-party claim. Partial  
16 payment of such reimbursement to the responsible person may be  
17 authorized by the department at the approved stages prior to the  
18 completion of remedial action when a remedial action plan has been  
19 approved. If any stage is projected to take more than ninety days

20 to complete partial payments may be requested every sixty days.  
21 Such partial payment may include the eligible and reasonable costs  
22 of such plan or pilot projects conducted during the remedial  
23 action.

24 (2) No reimbursement may be made unless the department  
25 makes the following eligibility determinations:

26 (a) The tank was in substantial compliance with any rules  
27 and regulations of the United States Environmental Protection  
1 Agency, the State Fire Marshal, and the department which were  
2 applicable to the tank. Substantial compliance shall be determined  
3 by the department taking into consideration the purposes of the  
4 Petroleum Release Remedial Action Act and the adverse effect that  
5 any violation of the rules and regulations may have had on the tank  
6 thereby causing or contributing to the release and the extent of  
7 the remedial action thereby required;

8 (b) Either the State Fire Marshal or the department was  
9 given notice of the release in substantial compliance with the  
10 rules and regulations adopted and promulgated pursuant to the  
11 Environmental Protection Act and the Petroleum Products and  
12 Hazardous Substances Storage and Handling Act. Substantial  
13 compliance shall be determined by the department taking into  
14 consideration the purposes of the Petroleum Release Remedial Action  
15 Act and the adverse effect that any violation of the notice  
16 provisions of the rules and regulations may have had on the  
17 remedial action being taken in a prompt, effective, and efficient  
18 manner;

19 (c) The responsible person reasonably cooperated with the  
20 department and the State Fire Marshal in responding to the release;

21 (d) The department has approved the plan submitted by the  
22 responsible person for the remedial action in accordance with rules  
23 and regulations adopted and promulgated by the department pursuant  
24 to the Environmental Protection Act or the Petroleum Products and  
25 Hazardous Substances Storage and Handling Act or that portion of  
26 the plan for which payment or reimbursement is requested. However,  
27 responsible persons may undertake remedial action prior to approval  
1 of a plan by the department or during the time that remedial action  
2 at a site was suspended at any time after April 1995 because the  
3 fund was insufficient to pay reimbursements and be eligible for  
4 reimbursement at a later time if the responsible person complies  
5 with procedures provided to the responsible party by the department  
6 or set out in rules and regulations adopted and promulgated by the  
7 Environmental Quality Council;

8 (e) The costs for the remedial action were actually  
9 incurred by the responsible person or his or her designated  
10 representative after May 27, 1989, and were eligible and  
11 reasonable;

12 (f) If reimbursement for a third-party claim is involved,  
13 the cause of action for the third-party claim accrued after April  
14 26, 1991, and the Attorney General was notified by any person of

15 the service of summons for the action within ten days of such  
16 service; and

17 (g) The responsible person or his or her designated  
18 representative has paid the amount specified in subsection (1) or  
19 (2) of section 66-1523.

20 (3) The State Fire Marshal shall review each application  
21 prior to consideration by the department and provide to the  
22 department any information the State Fire Marshal deems relevant to  
23 subdivisions (2)(a) through (g) of this section. The State Fire  
24 Marshal shall issue a determination with respect to an applicant's  
25 compliance with rules and regulations adopted and promulgated by  
26 the State Fire Marshal. The State Fire Marshal shall issue a  
27 compliance determination to the department within thirty days after  
1 receiving an application from the department.

2 (4) The department may withhold taking action on an  
3 application during the pendency of an enforcement action by the  
4 state or federal government related to the tank or a release from  
5 the tank.

6 (5) Reimbursements made for a remedial action may be  
7 reduced as much as one hundred percent for failure by the  
8 responsible person to comply with applicable statutory or  
9 regulatory requirements. In determining the amount of the  
10 reimbursement reduction, the department shall consider:

11 (a) The extent of and reasons for noncompliance;

12 (b) The likely environmental impact of the noncompliance;  
13 and

14 (c) Whether noncompliance was negligent, knowing, or  
15 willful.

16 (6) Except as provided in subsection (4) of this section,  
17 the department shall notify the responsible person of its approval  
18 or denial of the remedial action plan within one hundred twenty  
19 days after receipt of a remedial action plan which contains all the  
20 required information. If after one hundred twenty days the  
21 department fails to either deny, approve, or amend the remedial  
22 action plan submitted, the proposed plan shall be deemed approved.  
23 If the remedial action plan is denied, the department shall provide  
24 the reasons for such denial.

25 Sec. 4. Section 66-1529.02, Revised Statutes Supplement,  
26 2000, is amended to read:

27 66-1529.02. (1) The department may undertake remedial  
1 actions in response to a release first reported after July 17,  
2 1983, and on or before June 30, ~~2004~~ 2005, with money available in  
3 the fund if:

4 (a) The responsible person cannot be identified or  
5 located;

6 (b) An identified responsible person cannot or will not  
7 comply with the remedial action requirements; or

8 (c) Immediate remedial action is necessary, as determined  
9 by the Director of Environmental Quality, to protect human health

10 or the environment.

11 (2) The department may pay the costs of a third-party  
12 claim meeting the requirements of subdivision (2)(f) of section  
13 66-1525 with money available in the fund if the responsible person  
14 cannot or will not pay the third-party claim.

15 (3) Reimbursement for any damages caused by the  
16 department or a person acting at the department's direction while  
17 investigating or inspecting or during remedial action on property  
18 other than property on which a release or suspected release has  
19 occurred shall be considered as part of the cost of remedial action  
20 involving the site where the release or suspected release occurred.  
21 The costs shall be reimbursed from money available in the fund. If  
22 such reimbursement is deemed inadequate by the party claiming the  
23 damages, the party's claim for damages caused by the department  
24 shall be filed as provided in section 76-705.

25 (4) All expenses paid from the fund under this section,  
26 court costs, and attorney's fees may be recovered in a civil action  
27 in the district court of Lancaster County. The action may be  
1 brought by the county attorney or Attorney General at the request  
2 of the director against the responsible person. All recovered  
3 expenses shall be deposited into the fund."

4 the tax tables.

5 (6) The Tax Commissioner may require by rule and  
6 regulation that all taxpayers shall use the tax tables if their  
7 income is less than the maximum income included in the tax tables.  
8 Sec. 2. Section 77-2716.01, Revised Statutes Supplement,  
9 2000, is amended to read:

10 77-2716.01. (1) Every individual shall be allowed to  
11 subtract from his or her income tax liability an amount for  
12 personal exemptions. The amount allowed to be subtracted shall be  
13 the credit amount for the year as provided in this section  
14 multiplied by the number of exemptions allowed on the federal  
15 return. For tax year 1993, the credit amount shall be sixty-five  
16 dollars; for tax year 1994, the credit amount shall be sixty-nine  
17 dollars; for tax year 1995, the credit amount shall be sixty-nine  
18 dollars; for tax year 1996, the credit amount shall be seventy-two  
19 dollars; for tax year 1997, the credit amount shall be eighty-six  
20 dollars; for tax year 1998, the credit amount shall be eighty-eight  
21 dollars; for tax year 1999, and each year thereafter, the credit  
22 amount shall be adjusted for inflation by the method provided in  
23 section 151 of the Internal Revenue Code of 1986, as amended. The  
24 eighty-eight-dollar credit amount shall be adjusted for cumulative  
25 inflation since 1998. If any credit amount is not an even dollar  
26 amount, the amount shall be rounded to the nearest dollar. The  
27 amount allowed for each personal exemption shall be reduced, but  
1 not below zero, by five dollars for each five thousand dollars, or  
2 portion thereof, that federal adjusted gross income exceeds ninety  
3 thousand dollars for married filing joint returns, fifty-four  
4 thousand dollars for single returns and married electing for  
5 separate calculation returns, seventy-five thousand dollars for  
6 head-of-household returns, and for married filing separate returns,  
7 one-half the amount stated in this subsection for married filing  
8 joint returns. For nonresident individuals and partial-year  
9 resident individuals, the personal exemption credit shall be  
10 subtracted as specified in subsection (3) of section 77-2715. For  
11 tax year 1994 and each tax year thereafter, the income levels  
12 stated in this subsection shall be adjusted for inflation by the  
13 method provided in section 151 of the Internal Revenue Code of

14 1986, as amended. If any income level in this subsection is not a  
15 multiple of one thousand dollars, the amount shall be rounded to  
16 the next highest multiple of one thousand dollars.

17 (2) Every individual who did not itemize deductions on  
18 his or her federal return shall be allowed to subtract from federal  
19 adjusted gross income a standard deduction equal to the federal  
20 standard deduction for the filing status used on the federal return  
21 except as the amount is adjusted under section 77-2716.03 and  
22 except for individuals filing single returns. Every individual  
23 filing a single return who did not itemize deductions on his or her  
24 federal return shall be allowed to subtract from federal adjusted  
25 gross income a standard deduction equal to four thousand dollars as  
26 adjusted under this subsection. For tax year 2003 and each tax  
27 year thereafter, the standard deduction for individuals filing  
1 single returns shall be adjusted for inflation by the method  
2 provided in section 151 of the Internal Revenue Code of 1986, as  
3 amended.

4 (3) Every husband and wife electing separate calculation  
5 of tax liability shall each be allowed to subtract an amount equal  
6 to the federal standard deduction for single individuals or shall  
7 each be allowed to claim his or her portion of the itemized  
8 deductions as allocated in section 77-2732. One spouse may not  
9 subtract the standard deduction and the other spouse claim the  
10 itemized deductions. For purposes of the adjustment under section  
11 77-2716.03, the adjustment shall be made assuming each spouse filed  
12 a single return.

13 (4) Every individual who itemized deductions on his or  
14 her federal return shall be allowed to subtract from federal  
15 adjusted gross income the greater of either the standard deduction  
16 allowed in ~~subsection (2)~~ subsections (2) or (3) of this section or  
17 the amount before the federal disallowance of his or her federal  
18 itemized deductions, except for the amount deducted on the federal  
19 return for state or local income taxes paid and the amount of any  
20 adjustment required under section 77-2716.03.

21 Sec. 3. Section 77-2732, Reissue Revised Statutes of  
22 Nebraska, is amended to read:

23 77-2732. (1) If the federal tax liability of husband or  
24 wife is determined on separate federal returns, their tax  
25 liabilities in this state shall be separately determined.

26 (2) Except as provided in ~~subsection (3)~~ subsections (3)  
27 and (4) of this section, if the federal tax liability of husband  
1 and wife is determined on a joint federal return, their tax  
2 liability shall be determined in this state jointly and their tax  
3 liability shall be joint and several.

4 (3) If the federal tax liability of husband and wife is  
5 determined on a joint federal return and either husband or wife is  
6 a nonresident individual or partial-year resident individual and  
7 the other a resident individual, separate taxes shall be determined  
8 on their separate tax liabilities in this state on such forms as

9 the Tax Commissioner shall prescribe and their tax liability shall  
10 be separate unless both elect to determine their joint tax  
11 liability in this state as if both were resident individuals, in  
12 which case their tax liability shall be joint and several. If a  
13 husband and wife file a joint federal income tax return but  
14 determine their tax liabilities in this state separately, they  
15 shall compute their tax liabilities in this state as if their  
16 federal tax liabilities had been determined separately.

17 (4) A husband and wife may elect to have their income tax  
18 liability calculated separately on the same return developed by the  
19 Tax Commissioner. The election shall result in the separate  
20 calculation of income tax liability which is then summed, resulting  
21 in the total joint liability of the married couple. The  
22 calculation for alternative minimum tax shall be performed using  
23 the income, deductions, and credits of both the husband and wife  
24 combined and any liability shall be added to the combined liability  
25 of both. All credits shall be applied against the joint liability.  
26 Upon election, the following items shall be allocated to each  
27 spouse's separate tax calculations as follows:

1 (a) Income shall be allocated to the spouse who earned  
2 the income or who owned the property that produced the income.  
3 Income from property held jointly shall be allocated equally  
4 between the spouses;

5 (b) Adjustments to federal adjusted gross income provided  
6 in section 77-2716 shall be allocated to the spouse earning the  
7 income or owning the property that results in the adjustment.  
8 Adjustments resulting from property held jointly shall be allocated  
9 equally between the spouses;

10 (c) Federal itemized deductions allowed under section  
11 77-2716.01 with respect to a trade or business shall be allocated  
12 to the spouse to whom the expense is attributable; and

13 (d) Other federal itemized deductions allowed under  
14 section 77-2716.01 shall be allocated equally between the spouses.

15 (5) During the time a claim for credit or refund may be  
16 filed pursuant to section 77-2793, a husband and wife electing to  
17 be taxed as if both were residents of this state may revoke the  
18 election by each filing a separate return on such forms and in such  
19 manner as may be required by the Tax Commissioner.

20 Sec. 4. This act becomes operative for all taxable years  
21 beginning or deemed to begin on or after January 1, 2002, under the  
22 Internal Revenue Code of 1986, as amended.

1 1. Strike the original sections and all amendments

 3 "Section 1. The Legislature recognizes that the more  
 4 populous cities of the state serve medical, educational,  
 5 recreational, transportation, and retail needs of the entire state  
 6 and that infrastructure costs and needs are great. The governing  
 7 bodies of such cities have a duty to identify projects which  
 8 benefit from development funds made available by the Legislature.  
 9 The creation of the City of the Primary Class Development Fund  
 10 under section 2 of this act and the City of the Metropolitan Class  
 11 Development Fund under section 3 of this act shall be used to meet  
 12 such needs.  
 13 Sec. 2. There is hereby created the City of the Primary  
 14 Class Development Fund. Amounts credited to the fund pursuant to  
 15 section 77-2602 shall, upon appropriation by the Legislature, be  
 16 first expended to support the design and development of the  
 17 Antelope Valley project and financing costs related thereto for the  
 18 Antelope Valley Study as outlined in the Environmental Impact

 23 Nebraska State Funds Investment Act.  
 24 Sec. 3. There is hereby created the City of the  
 1 Metropolitan Class Development Fund. Amounts credited to the fund  
 2 pursuant to section 77-2602 shall, upon appropriation by the  
 3 Legislature, be first expended to support the design and  
 4 development of the redevelopment projects within the riverfront  
 5 redevelopment plan designated for the area along the Missouri River  
 6 generally north of Interstate 480 to Interstate 680 by the city of  
 7 Omaha, except that each fiscal year there shall be no distribution  
 8 from the fund until the finance director of the city certifies that  
 9 other funds have been encumbered for that calendar year by the city  
 10 to pay the cost of the combined sewer separation program project  
 11 east of Seventy-second Street in the city of Omaha. Such  
 12 certification shall be required only until such sewer separation  
 13 project is completed or until no cigarette tax money is available  
 14 to the fund. The amount certified shall be at least seven million

15 dollars each calendar year until 2007 and at least four million  
16 dollars each calendar year thereafter. The sewer separation  
17 project has such a significant impact on the health and welfare of  
18 such a large percentage of the population and on public health in  
19 general that the project is a matter of statewide concern. Any  
20 money in the fund available for investment shall be invested by the  
21 state investment officer pursuant to the Nebraska Capital Expansion  
22 Act and the Nebraska State Funds Investment Act.  
23 Sec. 4. (1) Cities of the primary class and cities of

1 same as specified in this section. Bonds, except refunding bonds,  
2 authorized by this section may only be issued once, and such  
3 issuance must occur within two years after the operative date of  
4 this act. An issuer shall be permitted to pledge the amounts on  
5 deposit or to be deposited in the City of the Primary Class  
6 Development Fund or the City of the Metropolitan Class Development  
7 Fund, as applicable, as and when appropriated by the Legislature,  
8 to the registered owners of any bonds issued to finance the

11 pledge does not attach until funds are actually deposited into the  
12 issuer's respective fund, and in no event shall such a pledge be  
13 construed as an obligation of the Legislature to appropriate such  
14 funds. Any such pledge shall be valid and binding from the time  
15 when the pledge is made. The money so pledged and thereafter  
16 received by the issuer or deposited into its respective fund shall  
17 immediately be subject to the lien of such pledge without any  
18 physical delivery thereof or further act, and the lien of any such  
19 pledge shall be valid and binding as against all parties having  
20 claims of any kind in tort, contract, or otherwise against the  
21 issuer, irrespective of whether the parties have notice thereof.  
22 Neither the ordinance nor any other instrument by which a pledge is  
23 created need be recorded.  
24 (2) Such bonds may be sold by the issuer in such manner  
25 and for such price as the mayor and city council determine, at a  
26 discount, at par, or at a premium, at private negotiated sale or at  
27 public sale. The bonds shall have a stated maturity of fifteen  
1 years or less and shall bear interest at such rate or rates and  
2 otherwise be issued by ordinance adopted by the mayor and city  
3 council with such other terms and provisions as are established,  
4 permitted, or authorized by applicable state laws, notwithstanding  
5 any provisions of a home rule charter. In addition to the pledge  
6 of the amounts on deposit or to be deposited in the City of the  
7 Primary Class Development Fund or the City of the Metropolitan  
8 Class Development Fund, as the case may be and as appropriate,  
9 permitted by subsection (1) of this section, such bonds may also be

10 secured as to payment in whole or in part by a pledge, as shall be  
11 determined by the issuer, (a) from the income, proceeds, and  
12 revenue, if any, of the facilities financed with proceeds of such  
13 bonds, and (b) from its revenue and income, including its sales,  
14 use, or occupation tax revenue, fees, or receipts, as may be  
15 determined by the issuer. The issuer may further secure such bonds  
16 by a mortgage or deed of trust encumbering all or any portion of  
17 the facilities financed with the proceeds of such bonds and by a  
18 bond insurance policy or other credit support facility. No general  
19 obligation bonds, except refunding bonds, shall be issued until  
20 authorized by a majority of the issuer's electors voting on the  
21 question as to the issuance of the bonds at a statewide regular  
22 primary election or at a special election duly called for such  
23 purpose.

24 (3) The face of all such bonds shall plainly state that  
25 the bonds and the interest thereon shall not constitute nor give  
26 rise to an indebtedness, obligation, or pecuniary liability of the  
27 state nor a charge against the general credit, revenue, or taxing  
1 power of the state. Bonds issued in accordance with the provisions  
2 of this section are declared to be issued for an essential public  
3 and governmental purpose and, together with interest thereon and  
4 income therefrom, shall be exempt from all state income taxes.

5 (4) For purposes of this section, general obligation bond  
6 means any bond or refunding bond which is payable from the proceeds  
7 of an ad valorem tax.

1 resident of the county where the action is to be brought, except  
2 where such surety is an incorporated surety company authorized by

5 endorsement of the summons or signing his name on the complaint as  
6 surety for costs. He shall be bound for the payment of all costs  
7 which may be adjudged against the plaintiff in the court in which  
8 the action is brought or in any other to which it may be carried,

**LEGISLATIVE BILL 620.** Placed on General File as amended.  
Standing Committee amendment to LB 620:  
AM1184

- 1 1. Strike original sections 30 and 33 and insert the
- 2 following new sections:
- 3 "Sec. 24. Qualified employee leasing company means a
- 4 company which places all employees of a client-lessee on its
- 5 payroll and leases such employees to the client-lessee on an
- 6 ongoing basis for a fee and, by written agreement between the
- 7 employee leasing company and a client-lessee, grants to the
- 8 client-lessee input into the hiring and firing of the employees.
- 9 Sec. 31. (1) A company which has signed an agreement
- 10 under section 34 of this act may receive, in lieu of any wage
- 11 benefit credit otherwise allowed by the Invest Nebraska Act, the
- 12 incentive provided in this section if the agreement is for a
- 13 project which will result in the investment in qualified property
- 14 of at least two hundred million dollars and the hiring of at least
- 15 five hundred new employees. Such two hundred million dollar
- 16 investment and hiring of at least five hundred new employees shall
- 17 be considered a required level of investment and employment for
- 18 this section and for the recapture of the incentives of this
- 19 section only.
- 20 (2) When the company has met the required levels of
- 21 employment and investment contained in this section, the company
- 22 shall be entitled to either the wage benefit credit provided in
- 23 section 29 of this act or an investment tax credit equal to fifteen
- 24 percent of the investment made in qualified property at the
- 1 project. The company shall be required to state which option it
- 2 will seek benefits under in the application for benefits under the
- 3 act.
- 4 (3) The investment tax credit prescribed in this section
- 5 shall be allowable for investments made during each year of the
- 6 entitlement period that the company is at or above the required
- 7 levels of employment and investment. The credit shall also be
- 8 allowable during the first year of the entitlement period for
- 9 investment in qualified property at the project after the date of
- 10 the application and before the required levels of employment and
- 11 investment were met.
- 12 (4) The investment tax credit prescribed in this section
- 13 shall be established by filing the forms required by the Tax
- 14 Commissioner with the income tax return for the year. The credits
- 15 may be used to reduce the company's Nebraska income tax liability.
- 16 The credits shall be applied in the order in which they were first

17 allowed. Any decision on how part of the credit is applied shall  
18 not limit how the remaining credit could be applied under this  
19 section. The credit may be carried over until fully utilized,  
20 except that the credit may not be carried over more than eight  
21 years after the end of the entitlement period. If a credit is  
22 subsequently recaptured under section 35 of this act, the credit  
23 shall be treated as if it had never been allowed.

24 (5) The investment tax credit shall not be transferable,  
25 except that any credit to be taken against the income tax liability  
26 of the company and allowable to a partnership, a limited liability  
27 company, a subchapter S corporation, a cooperative, or an estate or  
1 trust may be distributed to the partners, members, shareholders,  
2 patrons, or beneficiaries in the same manner as income is  
3 distributed for use against their income tax liabilities.

4 Sec. 34. (1) The board shall determine whether to  
5 approve the company's application by majority vote based on its  
6 determination as to whether the project will sufficiently help  
7 enable the state to accomplish the purposes of the Invest Nebraska  
8 Act. The board shall be governed by and shall take into  
9 consideration all of the following factors in making its  
10 determination:

11 (a) The timing, number, wage levels, employee benefit  
12 package, and types of new jobs to be created by the project;

13 (b) The type of industry in which the company and the  
14 project would be engaged;

15 (c) The timing, amount, and types of investment in  
16 qualified property to be made at the project; and

17 (d) Whether the board believes the project would occur in  
18 this state regardless of whether the application was approved.

19 (2) The weight given to each factor shall be determined  
20 by each board member individually for each application. The  
21 decision of the board shall be made in open meeting and is not  
22 confidential.

23 (3) A project shall be considered eligible under the act  
24 and may be approved by the board only if the application defines a  
25 project consistent with the purposes contained in section 2 of this  
26 act in one or more qualified business activities within this state  
27 that will result in (a) the investment in qualified property of at  
1 least twenty million dollars and the hiring of a number of new  
2 employees of at least fifty. The investment and new employees for  
3 such project shall count towards attaining and maintaining such  
4 thresholds only if the qualified property is located in, and the  
5 employee's principal place of employment for the company is located  
6 in one or more Nebraska counties having a population of less than  
7 one hundred thousand individuals as of the end of the base-year.  
8 For this purpose, the population shall be conclusively determined  
9 by the Department of Revenue, (b) the investment in qualified  
10 property of at least fifty million dollars and the hiring of a  
11 number of new employees of at least five hundred, (c) the

12 investment in qualified property of at least one hundred million  
13 dollars and the hiring of a number of new employees of at least two  
14 hundred fifty, or (d) the investment in qualified property of at  
15 least two hundred million dollars and the hiring of a number of new  
16 employees of at least five hundred.

17 (4) The board may approve as many projects as qualify  
18 under subdivisions (3)(a), (b), and (c) of this section. The board  
19 shall only approve one project that qualifies under subdivision  
20 (3)(d) of this section for each calendar year that new applications  
21 are made. The new investment and employment shall occur within  
22 seven years, meaning by the end of the sixth year after the end of  
23 the year the application was filed, and shall be maintained for the  
24 entire entitlement period. These thresholds shall constitute the  
25 required levels of employment and investment for purposes of the  
26 act.

27 (5)(a) An individual, other than a base-year employee,  
1 shall be considered an employee whose compensation is included in  
2 the calculation of the wage benefit credit only if the compensation  
3 paid by the company to such employee for the year is (i) for  
4 companies qualifying under the twenty million dollar investment and  
5 fifty new employee threshold under subdivision (3)(a) of this  
6 section, at least one hundred percent of the Nebraska average  
7 annual wage, (ii) for companies qualifying under the fifty million  
8 dollar investment and five hundred new employee threshold under  
9 subdivision (3)(b) of this section or the one hundred million  
10 dollar investment and two hundred fifty new employee threshold  
11 under subdivision (3)(c) of this section, at least one hundred ten  
12 percent of the Nebraska average annual wage; and (iii) for the  
13 companies applying under the two hundred million dollar investment  
14 and five hundred new employee threshold of subdivision (3)(d) of  
15 this section, at least one hundred twenty percent of the Nebraska  
16 average annual wage.

17 (b) For the purposes of subdivision (a) of this  
18 subsection, compensation paid by the company to such employee for  
19 the year shall be the amount paid for the entire year for regular  
20 hours worked, not including overtime, bonuses, or any other  
21 irregular payments. If the employee works for less than a year,  
22 the compensation paid will be annualized solely for the purpose of  
23 comparison with the Nebraska average annual wage.

24 (6) If the project application is approved by the board,  
25 the company and the state shall enter into a written agreement,  
26 which shall be executed on behalf of the state by the Tax  
27 Commissioner. In the agreement the company shall agree to complete  
1 the project and the state shall designate the approved plans of the  
2 company as a project and, in consideration of the company's  
3 agreement, agree to allow the wage benefit credit and the  
4 investment tax credit, as applicable, as provided for in the act.  
5 The application, and all supporting documentation, to the extent  
6 approved, shall be considered a part of the agreement. The

7 agreement shall contain such terms and conditions as the board  
8 shall specify in order to carry out the legislative purposes of the  
9 act. The agreement shall contain provisions to allow the  
10 Department of Revenue to verify that the required levels of  
11 employment and investment have been attained and maintained. The  
12 agreement shall contain provisions to require verification that the  
13 required levels have been attained before any credits are used.  
14 The agreement shall contain such other conditions or requirements,  
15 if any, for the company as established by the department to carry  
16 out the purposes of the act.

17 (7) Any investment or employment which is eligible for  
18 benefits under the Quality Jobs Act shall not be included in a  
19 project under the Invest Nebraska Act. A project under the Invest  
20 Nebraska Act may involve the same location as another project under  
21 the Invest Nebraska Act or under the Quality Jobs Act, except that  
22 no new employment or new investment shall be included in more than  
23 one project for either the meeting of the employment or investment  
24 requirements or the creation of tax incentives. When projects  
25 overlap and the project application does not otherwise clearly  
26 specify, the company shall specify in which project the employment  
27 and investment belongs. Any employment or investment which is  
1 eligible for benefits under the Invest Nebraska Act may also be  
2 included in, and create incentives for, a project under the  
3 Employment and Investment Growth Act, the Employment Expansion and  
4 Investment Incentive Act, and the Rural Economic Opportunities Act,  
5 to the extent otherwise allowable under such respective acts.

6 (8) In order to provide the degree of certainty necessary  
7 to enable a project to proceed, and notwithstanding any provision  
8 of Nebraska statute or common law to the contrary, to the extent  
9 any such right of appeal or challenge otherwise exists, no appeal  
10 or challenge of the board's decision by any person shall be filed  
11 after the expiration of thirty days after the board's decision."

12 2. On page 2, line 1, strike "39" and insert "40"; in

16 in line 8 after "taxes" insert ", and (c) any cooperative exempt  
17 from such taxes under section 521 of the Internal Revenue Code of  
18 1986, as amended".

19 4. On page 4, line 1, after the period insert "An  
20 employee of a qualified employee leasing company shall be  
21 considered to be an employee of the client-lessee if the employee  
22 performs services for the client-lessee. A qualified employee  
23 leasing company shall provide the Department of Revenue access to  
24 the records of employees leased to the client-lessee."

25 5. On page 5, line 8, after "by" insert "all"; in line  
26 11 strike "of"; and in line 12 after "company" insert "applied for  
27 benefits".

5 of the company and allowable to a partnership, a limited liability

18 shall be no project applications for projects described in  
19 subdivision (3)(d) of section 34 of this act filed on or after  
20 January 1, 2004, without further authorization of the Legislature,  
21 except that all such project applications and all such project

 3 sections:

4 "Sec. 30. Section 60-4,118, Revised Statutes Supplement,  
 5 2000, as amended by section 5, Legislative Bill 387, Ninety-seventh  
 6 Legislature, First Session, 2001, is amended to read:

7 60-4,118. (1) No operator's license shall be granted to

8 any applicant until such applicant satisfies the examiner that he

9 or she possesses sufficient powers of eyesight to enable him or her  
10 to obtain a Class O license and to operate a motor vehicle on the  
11 highways of this state with a reasonable degree of safety. The  
12 Department of Motor Vehicles, with the advice of the Health  
13 Advisory Board, shall adopt and promulgate rules and regulations:  
14 (a) Requiring a minimum acuity level of vision. Such  
15 level may be obtained through the use of standard eyeglasses,  
16 contact lenses, or bioptic or telescopic lenses which are specially  
17 constructed vision correction devices which include a lens system  
18 attached to or used in conjunction with a carrier lens; and  
19 (b) Requiring a minimum field of vision. Such field of  
20 vision may be obtained through standard eyeglasses, contact lenses,  
21 or the carrier lens of the bioptic or telescopic lenses.

22 (2) If a vision aid is used by the applicant to meet the  
23 vision requirements of this section, the operator's license of the  
24 applicant shall be restricted to the use of such vision aid when  
1 operating the motor vehicle. If the applicant fails to meet the  
2 vision requirements, the examiner shall require the applicant to  
3 present an optometrist's or ophthalmologist's statement certifying  
4 the vision reading obtained when testing the applicant within  
5 ninety days of the applicant's license examination. If the vision  
6 reading meets the vision requirements prescribed by the department,  
7 the vision requirements of this section shall have been met.

8 (3) If the applicant for an operator's license discloses  
9 that he or she has any other physical impairment which may affect  
10 the safety of operation by such applicant of a motor vehicle, the  
11 examiner shall require the applicant to show cause why such license  
12 should be granted and, through such personal examination and  
13 demonstration as may be prescribed by the director with the advice  
14 of the Health Advisory Board, to show the necessary ability to  
15 safely operate a motor vehicle on the highways. The director may  
16 also require the person to appear before the board or a designee of  
17 the board. If the examiner, board, or designee is then satisfied  
18 that such applicant has the ability to safely operate a motor  
19 vehicle, an operator's license may be issued to the applicant  
20 subject, at the discretion of the director, to a limitation to  
21 operate only such motor vehicles at such time, for such purpose,  
22 and within such area as the license shall designate.

23 (4)(a) The director may, when requested by a law  
24 enforcement officer, when the director has reason to believe that a  
25 person may be physically or mentally incompetent to operate a motor  
26 vehicle, or when a person's driving record appears to the  
27 department to justify an examination, request the advice of the  
1 Health Advisory Board and may give notice to the person to appear  
2 before an examiner, the board, or a designee of the director for  
3 examination concerning the person's ability to operate a motor  
4 vehicle safely. Any such request by a law enforcement officer  
5 shall be accompanied by written justification for such request and  
6 shall be approved by a supervisory law enforcement officer, police

7 chief, or county sheriff.

8 (b) A refusal to appear before an examiner, the board, or

9 a designee of the director for an examination after notice to do so  
10 shall be unlawful and shall result in the immediate cancellation of  
11 the person's operator's license by the director.

12 (c) If the person cannot qualify at the examination by an  
13 examiner, his or her operator's license shall be immediately  
14 surrendered to the examiner and forwarded to the director who shall  
15 cancel the person's operator's license.

16 (d) If in the opinion of the board the person cannot  
17 qualify at the examination by the board, the board shall advise the  
18 director. If the director determines after consideration of the  
19 advice of the board that the person lacks the physical or mental  
20 ability to operate a motor vehicle, the director shall notify the  
21 person in writing of the decision. Upon receipt of the notice, the  
22 person shall immediately surrender his or her operator's license to  
23 the director who shall cancel the person's operator's license.

24 (e) Refusal to surrender an operator's license on demand  
25 shall be unlawful, and any person failing to surrender his or her  
26 operator's license as required by this subsection shall be guilty  
27 of a Class III misdemeanor.

1 (5) No operator's license referred to in this section  
2 shall, under any circumstances, be issued to any person who has not  
3 attained the age of seventeen years.

4 (6) No operator's license shall be issued to a person  
5 under eighteen years of age applying for an operator's license  
6 under this section unless such person:

7 (a) Has possessed a valid provisional operator's permit  
8 for at least a twelve-month period beginning on the date of  
9 issuance of such person's provisional operator's permit;

10 (b) Has not accumulated three or more points pursuant to  
11 section 60-4.182 during the twelve-month period immediately  
12 preceding the date of the application for the operator's license;  
13 and

14 (c) Has surrendered the provisional operator's permit to  
15 the examiner.

16 (7) The department shall waive the written examination  
17 and the driving test required under this section for any person  
18 seventeen to twenty-one years of age applying for his or her  
19 initial operator's license if he or she has been issued a  
20 provisional operator's permit. The department shall not waive the  
21 written examination and the driving test required under this  
22 section if the person is applying for a commercial driver's license  
23 or permit or if the operator's license being applied for contains a  
24 class or endorsement which is different from the class or  
25 endorsement of the provisional operator's permit.

26 (8)(a) Upon receipt by the director of (i) a certified  
27 copy of a court order issued pursuant to section 60-6.211.05; (ii)  
1 sufficient evidence that the defendant has surrendered his or her

2 operator's license to the department and installed an approved  
3 ignition interlock device in accordance with such court order; and  
4 (iii) payment by the defendant of the fee provided in section  
5 60-4,115, the defendant shall be eligible for reinstatement of his  
6 or her operator's license following the expiration of thirty days  
7 after revocation under section 60-6,206 and the director shall  
8 issue to the defendant a Class O license restricted to the  
9 operation of a motor vehicle equipped with an ignition interlock  
10 device. The department shall not issue such a license to any  
11 person convicted of a second or subsequent violation of section  
12 60-6,196 or 60-6,197 until at least one year of the operator's  
13 license revocation has elapsed.

14 (b) Upon expiration of the court order issued pursuant to  
15 section 60-6,211.05 or an order issued by the Board of Pardons  
16 pursuant to section 83-1,127.02, the defendant may apply to the  
17 department in writing for issuance of an operator's license which  
18 does not contain such restriction. If the license surrendered by  
19 the defendant under subdivision (a) of this subsection has not  
20 expired, the director shall return such license to the defendant.  
21 If such license has expired, the defendant shall reapply for an  
22 operator's license pursuant to the Motor Vehicle Operator's License  
23 Act.

24 Sec. 31. (1) No operator's license referred to in  
25 section 60-4,118 shall, under any circumstances, be issued to any

5 issuance of such person's provisional operator's permit;

6 (b) Has not accumulated three or more points pursuant to

8 preceding the date of the application for the operator's license;

10 (c) Has surrendered the provisional operator's permit to  
11 the examiner.

12 (3) The Department of Motor Vehicles shall waive the  
13 written examination and the driving test required under section  
14 60-4,118 for any person seventeen to twenty-one years of age  
15 applying for his or her initial operator's license if he or she has  
16 been issued a provisional operator's permit. The department shall  
17 not waive the written examination and the driving test required  
18 under this section if the person is applying for a commercial  
19 driver's license or permit or if the operator's license being

3 this section.  
4 (b) If the changes made to this subsection by this  
5 legislative bill are declared invalid or unconstitutional, this

9 (3) The limitations contained in subsection (1), (2), or

 1 this subsection based on the doctrine of strict liability in tort  
 2 shall be commenced or maintained against any seller of a product  
 3 which is alleged to contain or possess a defective condition  
 4 unreasonably dangerous to the buyer, user, or consumer unless such  
 5 seller is also the manufacturer of such product or the manufacturer  
 6 of the part thereof claimed to be defective. Nothing in this  
 7 subsection shall be construed to permit an action to be brought  
 8 based on an injury described in this subsection discovered more  
 9 than two years prior to August 30, 1981.

10 Sec. 2. When the discovery rules promulgated by the  
 11 Supreme Court authorize discovery from a nonparty without a

 14 attorney as an officer of the court may also issue and sign such a  
 15 subpoena on behalf of a court in which the attorney is authorized  
 16 to practice. The subpoena shall be served in the time and manner  
 17 required by the discovery rules. Such discovery rules shall not be  
 18 construed to permit discovery by subpoena if the information is  
 19 protected by statute or if that procedure conflicts with any other  
 20 statute.

21 Sec. 3. Section 25-1332, Reissue Revised Statutes of  
 22 Nebraska, is amended to read:  
 23 25-1332. The motion shall be served at least ten days

 27 and admissions on file, together with the affidavits, if any, and  
 1 the evidence admitted at the hearing show that there is no genuine  
 2 issue as to any material fact and that the moving party is entitled  
 3 to a judgment as a matter of law. The evidence that may be  
 4 received on a motion for summary judgment includes depositions,  
 5 answers to interrogatories, admissions, stipulations, and  
 6 affidavits. A summary judgment, interlocutory in character, may be  
 7 rendered on the issue of liability alone although there is a  
 8 genuine issue as to the amount of damages.

9 Sec. 4. Section 25-1701, Reissue Revised Statutes of  
 10 Nebraska, is amended to read:  
 11 25-1701. On motion of a party against whom a claim has

4 action. In case a surety is furnished, the surety must be a  
5 resident of the county where the action is to be brought, except  
6 where such surety is an incorporated surety company authorized by  
7 the laws of this state to transact such business, and must be  
8 approved by the clerk. His obligation shall be complete upon  
9 endorsement of the summons or signing his name on the complaint as  
10 surety for costs. He shall be bound for the payment of all costs  
11 which may be adjudged against the plaintiff in the court in which  
12 the action is brought or in any other to which it may be carried,

### **ATTORNEY GENERAL'S OPINION**

#### Opinion #01012

DATE: April 3, 2001

SUBJECT: Constitutionality of LB 664 which would amend The Intergovernmental Risk Management Act, Neb. Rev. Stat. § 44-4301 to § 44-4339, to permit governmental entities to create pools to provide member coverage for employee health, dental, accident and life insurance in addition to property, liability and workers' compensation coverage.

REQUESTED BY: Senator Jon C. Bruning

WRITTEN BY: Don Stenberg, Attorney General  
John R. Thompson, Senior Assistant Attorney General

You have requested our opinion on the constitutionality of LB 664 which expands the Intergovernmental Risk Management Act to permit governmental entities to participate in risk management pools to provide for health, dental, accident and life insurance for employees of such entities. Your concern is with the "pooling concept" which exists in both the existing act and the proposed amendment.

Since it is the policy of this office to decline opinion requests from legislators concerning the constitutionality of existing statutes, this opinion is limited to the issues raised by you with respect to LB 664 and not to the Intergovernmental Risk Management Act.

In your letters of February 22, 2001, and March 1, 2001, you ask whether one County in the pool may constitutionally impose taxes on residents of that county for liabilities incurred in another member county in the pool. We assume you are referring to the "sound principle of taxation which prescribes that the benefits of taxation should be directly received by those directly concerned in bearing the burdens of taxation, so that a legislature cannot divert taxes raised by one taxing district to the sole use and benefit of another district". See *State ex rel. School Dist. Of Scottsbluff v. Ellis*, 168 Neb. 166, 172,95 N.W.2d 538.

In this instance we do not believe that concept applies. A Risk Management Pool may be formed by counties for health insurance coverage which provides for sharing of costs proportionately by each pool member. That sharing of costs is a general expense of each county member for the privilege of securing insurance. It is not a tax, although this expense, like any other, must be paid from tax revenues.

You also express concern that the pool may "levy a tax that is in excess of any statutory limitation". Again, it does not appear that the pool levies any tax as such. It only determines the share each member must pay for such member's costs for the insurance coverage. Each member is responsible for its own costs of operation, including costs of insurance, and must keep those costs within the various taxing limits imposed by constitution or statute on each member. In other words, buying into the pool does not give members any right to exceed such taxing limits.

Sincerely yours,  
DON STENBERG  
Attorney General

Standing Committee amendment to LB 659:  
AM1342

- 1 1. Strike the original sections and insert the following
- 2 new sections:
- 3 "Section 1. Sections 1 to 9 of this act shall be known
- 4 and may be cited as the DNA Testing Act.
- 5 Sec. 2. It is the intent of the Legislature that
- 6 wrongfully convicted persons have an opportunity to establish their
- 7 innocence through deoxyribonucleic acid, DNA, testing.
- 8 Sec. 3. The Legislature finds and declares:
- 9 (1) Over the past decade, DNA testing has emerged as the
- 10 most reliable forensic technique for identifying persons when
- 11 biological material is found at a crime scene or transferred from
- 12 the victim to the person responsible and transported from the crime
- 13 scene;
- 14 (2) Because of its scientific precision and reliability,
- 15 DNA testing can, in some cases, conclusively establish the guilt or
- 16 innocence of a criminal defendant. In other cases, DNA may not
- 17 conclusively establish guilt or innocence but may have significant
- 18 probative value to a finder of fact;
- 19 (3) While DNA testing is increasingly commonplace in
- 20 pretrial investigations currently, it was not widely available in
- 21 cases prior to 1994. Moreover, new forensic DNA testing
- 22 procedures, such as polymerase chain reaction amplification, DNA
- 23 short tandem repeat analysis, and mitochondrial DNA analysis, make
- 24 it possible to obtain results from minute samples that previously
- 1 could not be tested and to obtain more informative and accurate
- 2 results than earlier forms of forensic DNA testing could produce.
- 3 As a result, in some cases, convicted inmates have been exonerated
- 4 by new DNA tests after earlier tests had failed to produce
- 5 definitive results;
- 6 (4) Because DNA testing is often feasible on relevant
- 7 biological material that is decades old, it can in some
- 8 circumstances prove that a conviction which predated the
- 9 development of DNA testing was based upon incorrect factual
- 10 findings. DNA evidence produced even decades after a conviction,
- 11 can provide a more reliable basis for establishing a correct
- 12 verdict than any evidence proffered at the original trial. DNA
- 13 testing, therefor, can and has resulted in postconviction
- 14 exoneration of innocent men and women;
- 15 (5) In the past decade, there have been multiple
- 16 postconviction exonerations in the United States and Canada based
- 17 upon DNA testing. In addition, a disturbing number of persons
- 18 sentenced to death have been exonerated through postconviction DNA
- 19 testing, some of these exonerations coming within days of their

20 execution date;

21 (6) DNA testing responds to serious concerns regarding  
22 wrongful convictions, especially those arising out of mistaken  
23 eyewitness identification testimony; and

24 (7) There is a compelling need to ensure the preservation  
25 of biological material for postconviction DNA testing, for a  
26 limited period.

27 Sec. 4. (1) Notwithstanding any other provision of law,  
1 a person in custody pursuant to the judgment of a court may, at any  
2 time after conviction, file a motion, with or without supporting  
3 affidavits, in the court that entered the judgment requesting  
4 forensic DNA testing of any biological material that:

5 (a) Is related to the investigation or prosecution that  
6 resulted in such judgment;

7 (b) Is in the actual or constructive possession or  
8 control of the state or is in the possession or control of others  
9 under circumstances likely to safeguard the integrity of the  
10 biological material's original physical composition; and

11 (c) Was not previously subjected to DNA testing or can be  
12 subjected to retesting with more current DNA techniques that  
13 provide a reasonable likelihood of more accurate and probative  
14 results.

15 (2) Notice of such motion shall be served by the person  
16 in custody upon the county attorney of the county in which the  
17 prosecution was held.

18 (3) Upon receiving notice of a motion filed pursuant to  
19 subsection (1) of this section, the county attorney shall take such  
20 steps as are necessary to ensure that any remaining biological  
21 material that was secured by the state or a political subdivision  
22 in connection with the case is preserved pending the completion of  
23 proceedings under the DNA Testing Act.

24 (4) The county attorney shall prepare an inventory of all  
25 evidence that was secured by the state or a political subdivision  
26 in connection with the case and shall submit a copy of the  
27 inventory to the person or the person's counsel and to the court.

1 If evidence is intentionally destroyed after notice of a motion  
2 filed pursuant to this section, the court shall impose appropriate  
3 sanctions, including criminal contempt.

4 (5) Upon consideration of affidavits or after a hearing,  
5 the court shall order DNA testing pursuant to a motion filed under  
6 subsection (1) of this section upon a determination that such  
7 testing was effectively not available at the time of trial, that  
8 the biological material has been retained under circumstances  
9 likely to safeguard the integrity of its original physical  
10 composition, that the proposed testing to be conducted by examiners  
11 is agreed upon by the parties or is determined by the court to be  
12 competent to conduct such examination, and that such testing may  
13 produce noncumulative, exculpatory evidence relevant to the claim  
14 that the person was wrongfully convicted or sentenced.

15 Sec. 5. The cost of DNA testing ordered under subsection  
16 (5) of section 4 of this act shall be paid by the person filing the  
17 motion, unless the court determines such person to be indigent. If  
18 the person filing such motion is determined by the court to be  
19 indigent, then the costs shall be paid by the state. The testing  
20 shall be done at an approved and qualified testing facility  
21 determined by the court.

22 Sec. 6. Upon a showing by the person that DNA testing  
23 may be relevant to the person's claim of wrongful conviction, the  
24 court shall appoint counsel for an indigent person.

25 Sec. 7. (1) The results of the final DNA or other  
26 forensic testing ordered under subsection (5) of section 4 of this  
27 act shall be disclosed to the county attorney, to the person filing  
1 the motion, and to the person's attorney.

2 (2) Upon receipt of the results of such testing, any  
3 party may request a hearing before the court when such results  
4 exonerate and exculpate the person. Following such hearing, the  
5 court may, on its own motion or upon the motion of any party,  
6 vacate and set aside the judgment and release the person from  
7 custody based upon final testing results exonerating or exculpating  
8 the person.

9 (3) If the court does not grant the relief contained in  
10 subsection (2) of this section, any party may file a motion for a  
11 new trial under sections 29-2101 to 29-2103.

12 Sec. 8. Nothing in the DNA Testing Act shall be  
13 construed to limit the circumstances under which a person may  
14 obtain DNA testing or other postconviction relief under any other  
15 provision of law.

16 Sec. 9. (1) Notwithstanding any other provision of law  
17 and subject to subsection (2) of this section, state agencies and  
18 political subdivisions shall preserve any biological material  
19 secured in connection with a criminal case for such period of time  
20 as any person remains incarcerated in connection with that case.

21 (2) State agencies or political subdivisions that have  
22 secured biological material for use in criminal cases may dispose  
23 of biological material before expiration of the period of time  
24 specified in subsection (1) of this section if:

25 (a) The state agency or political subdivision which  
26 secured the biological material for use in a criminal case notifies  
27 any person who remains incarcerated in connection with the case,  
1 such person's counsel of record, or if there is no counsel of  
2 record, the public defender, if applicable, in the county in which  
3 the judgment of conviction of such person was entered. The notice  
4 shall include:

5 (i) The intention of the state agency or political  
6 subdivision to dispose of the material after ninety days after  
7 receipt of the notice; and

8 (ii) The provisions of the DNA Testing Act;

9 (b) The person, such person's counsel of record, or the

10 public defender does not file a motion under section 4 of this act  
11 within ninety days after receipt of notice under this section; and

12 (c) No other provision of law or court order requires  
13 that such biological material be preserved.

14 (3) The person, such person's counsel of record, or the  
15 public defender who receives notice under subdivision (2)(a) of  
16 this section, may, in lieu of a motion under section 4 of this act,  
17 request in writing to take possession of the biological material  
18 for the purpose of having the material available for any future  
19 discovery of scientific or forensic techniques. Copies of any such  
20 written request shall be provided to both the court and to the  
21 county attorney. The costs of acquisition, preservation, and  
22 storage of any such material shall be at the expense of the person.

23 Sec. 10. Section 29-2101, Reissue Revised Statutes of  
24 Nebraska, is amended to read:

25 29-2101. A new trial, after a verdict of conviction, may  
26 be granted, on the application of the defendant, for any of the  
27 following ~~reasons~~ grounds affecting materially his or her  
1 substantial rights: (1) Irregularity in the proceedings of the  
2 court, ~~or~~ of the prosecuting attorney, or of the witnesses for the  
3 state, or in any order of the court, or abuse of discretion, by  
4 which the defendant was prevented from having a fair trial; (2)  
5 misconduct of the jury, ~~or~~ the prosecuting attorney, or of the  
6 witnesses for the state; (3) accident or surprise which ordinary  
7 prudence could not have guarded against; (4) ~~that~~ the verdict is  
8 not sustained by sufficient evidence or is contrary to law; (5)  
9 newly discovered evidence material for the defendant which he or  
10 she could not with reasonable diligence have discovered and  
11 produced at the trial; ~~or~~ (6) newly discovered exculpatory DNA or  
12 similar forensic testing evidence obtained under the DNA Testing  
13 Act; or

14 (7) error of law occurring at the trial.

15 Sec. 11. Section 29-2102, Reissue Revised Statutes of  
16 Nebraska, is amended to read:

17 29-2102. The ~~causes~~ grounds enumerated in subdivisions  
18 (2), (3), and ~~(5)~~ (6) of section 29-2101 ~~must be sustained~~ shall be  
19 supported by affidavits showing ~~their~~ the truth, of such grounds  
20 and the grounds may be controverted by affidavits. The ground  
21 enumerated in subdivision (5) of section 29-2101 shall be supported  
22 by evidence of the truth of the ground in the form of affidavits,  
23 depositions, or oral testimony.

24 Sec. 12. Section 29-2103, Reissue Revised Statutes of  
25 Nebraska, is amended to read:

26 29-2103. (1) A motion for new trial shall be made by  
27 written application and may be filed either during or after the  
1 term of the court at which the verdict was rendered.  
2 (2) A motion for a new trial shall state the grounds  
3 under section 29-2101 which are the basis for the motion and shall  
4 be supported by evidence as provided in section 29-2102.

5 (3) A motion for new trial based on the grounds  
6 enumerated in subdivision (1), (2), (3), (4), or (7) of section  
7 29-2101 shall be filed within ten days after the verdict was  
8 rendered unless such filing is unavoidably prevented and the  
9 grounds for such motion may be stated by directly incorporating the  
10 appropriate language of section 29-2101 without further  
11 particularity.

12 (4) A motion for new trial based on the grounds  
13 enumerated in subdivision (5) of section 29-2101 shall be filed  
14 within a reasonable time after the discovery of the new evidence  
15 and cannot be filed more than three years after the date of the  
16 verdict unless the new evidence claims actual innocence and is  
17 supported by clear and convincing evidence of such innocence.

18 (5) A motion for new trial based on the grounds  
19 enumerated in subdivision (6) of section 29-2101 shall be filed  
20 within ninety days after a final order is issued under section 7 of  
21 this act or within ninety days after the hearing if no final order  
22 is entered, whichever occurs first. The application for a new  
23 trial shall be by motion upon written grounds, and may be filed  
24 either within or without the term at which the verdict is rendered.  
25 It shall, except for the cause of newly discovered evidence  
26 material for the party applying, which he could not with reasonable  
27 diligence have discovered and produced at the trial, be filed  
1 within ten days after the verdict was rendered unless unavoidably  
2 prevented. In assigning the grounds for such motion, it shall be  
3 sufficient to assign the same in the language of the statute and  
4 without further or other particularity. In any criminal case where  
5 it shall be made to appear upon the motion of the defendant for a  
6 new trial, supported by affidavits, depositions or oral testimony,  
7 that the defendant has discovered new evidence material to his  
8 defense which he could not with reasonable diligence have  
9 discovered and produced during the term within which the verdict  
10 upon which he was sentenced was rendered, the district court may  
11 set aside such sentence and grant a new trial; PROVIDED, that such  
12 motion is filed within a reasonable time after the discovery of the  
13 new evidence; AND PROVIDED FURTHER, that such motion must be filed  
14 within three years after the date of such verdict, and such motion  
15 and the procedure herein provided shall be the exclusive method and  
16 procedure for reviewing criminal cases after the expiration of the  
17 term at which such verdict is rendered.

### **ATTORNEY GENERAL'S OPINION**

#### Opinion #01013

DATE: April 5, 2001

SUBJECT: Constitutionality of LB 600 - Valuation of Agricultural and Horticultural Land for Property Tax Purposes Based on the "Capitalized Net Earning Capacity" of the Land as Used for Agricultural or Horticultural Purposes.

REQUESTED BY: Senator George Coordsen  
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding whether LB 600, which would change the manner in which the value of agricultural and horticultural land is determined for property tax purposes, is consistent with the authority granted the Legislature to provide for the classification and taxation of agricultural and horticultural land under Neb. Const. art. VIII, § 1. LB 600 proposes to change the current method of valuing agricultural and horticultural land at eighty percent of its "actual value", which is statutorily defined as "market value." Neb. Rev. Stat. §§ 77-112 and 77-201(2) (Cum. Supp. 2000). Under LB 600, the "actual value" of agricultural land would no longer be based on a percentage of "market value", but would be

determined on the basis of "the capitalized net earning capacity" of the land as used for agricultural or horticultural purposes. LB 600, § 2. Your question is whether the Legislature's adoption of a "capitalized net earning capacity" method to value agricultural and horticultural land is authorized by subsections (4) and (5) of Neb. Const. art. VIII, § 1.<sup>1</sup>

Subsection (1) Article VIII, § 1, provides: "Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises as defined by the Legislature except as otherwise provided in or permitted by this Constitution; . . . ." Subsection (4) of Article VIII, § 1, provides:

[T]he Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate with all other real property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural and horticultural land;. . .

---

<sup>1</sup> You have asked us to review the validity of LB 600 based on consideration of the authority granted the Legislature under both subsections (4) and (5) of Article VIII, § 1. Subsection (5) contains the so-called "Greenbelt" provision which was added to the Constitution in 1972. 1972 Neb. Laws, LB 837 § 1. This subsection provides: "[T]he Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall for property tax purposes be that value which such land has for agricultural or horticultural purposes without regard to any value which such land might have for other purposes or uses;. . . ." The legislation initially implementing this constitutional provision reveals the intent of the "Greenbelt" amendment was to protect farmers and ranchers owning land near urban areas from being taxed based on the speculative market value of the land for potential non-agricultural use. See Committee Statement on LB 359, 83<sup>rd</sup> Leg., 1<sup>st</sup> Sess. (1973) ("[T]his bill provides for special assessment for agricultural purposes within agricultural use zones. . .for. . .the owner of such land in rural-urban fringe areas subject to high valuations because of nearby residential and industrial developments. . ."). The Legislature has responded to passage of the "Greenbelt" amendment by allowing for special valuation of agricultural land which is "zoned predominantly for agricultural or horticultural use. . . ." Neb. Rev. Stat. § 1344(1) (Cum. Supp. 2000). LB 600 proposes only a small modification to the Greenbelt statutes (Neb. Rev. Stat. §§ 77-1343 to 77-1348 (Cum. Supp. 2000)), a minor change to § 77-1343. LB 600, § 4. Thus, it appears the principal issue raised by your request is whether the separate classification of agricultural land and horticultural land, and the valuation of such class of land in a different manner than other real property, is permissible under subsection (4) of Article VIII, § 1.

This language was added to Article VIII, § 1, in 1990, when the voters approved an amendment proposed by the Legislature, 1989 Neb. Laws, LR 2CA.<sup>2</sup> LR 2CA was intended to address concerns resulting from a 1987 Nebraska Supreme Court decision stating that a 1984 amendment to Article VIII, § 1, permitting the Legislature to establish agricultural land as a separate and distinct class of property for tax purposes, did not exempt agricultural land from the requirement of uniformity in relation to all other tangible property as mandated at that time by Article VIII, § 1. *Banner County v. State Bd. of Equal. and Assess.*, 226 Neb. 236, 411 N.W.2d 35 (1987) [*"Banner County"*].<sup>3</sup> Following passage of the 1984 constitutional amendment (known as "amendment four"), the Legislature, in 1985, enacted LB 271. LB 271 was intended to implement amendment four by modifying the manner in which agricultural land was valued for property taxation. As explained in the *Banner County* case, LB 271 established a valuation system for agricultural land "based on the earning capacity of such land". 226 Neb. at 245, 411 N.W.2d at 42. Under LB 271, agricultural land was divided "into major use categories and such categories into subclasses based on soil classification. . . ." *Id.* at 246, 411 N.W.2d at 42. The approach adopted under LB 271 based agricultural land value on its income-producing capability as determined by soil and land type. The five use categories established were "irrigated cropland, dryland cropland, pasture, rangeland, and wasteland." *Id.* at 247, 411 N.W.2d at 42. LB 271 contained a "formula" to derive agricultural land value by computing the "income stream" (estimating future earnings derived from the land) divided by a "capitalization rate" (discounting the earnings to present value). "Income streams" were to be determined for each category of land. *Id.* For irrigated and dryland cropland, income streams were "computed by multiplying gross receipts by landowner share by county." *Id.* The "capitalization rate" contained a blend of "debt" and "equity" components, with the debt portion set at 20 percent and the equity portion at 80 percent. *Id.* at 247, 411 N.W.2d at 43. The debt portion was multiplied by "the most recent 5-year average of the Federal Land Bank interest rates in the Omaha district, resulting in the weighted debt capitalization rate." *Id.* at 247-48, 411

---

<sup>2</sup> The original language provided the Legislature could value agricultural and horticultural land in a manner resulting "in values that are not uniform and proportionate with all other tangible property and franchises. . . ." 1989 Neb. Laws, LR 2CA (emphasis added). This portion was amended in 1992 by substituting the word "real" for "tangible." 1992 Neb. Laws, LR 219 CA, § 1.

<sup>3</sup> Article VIII, § 1, has since been amended to eliminate the requirement of uniform taxation of "all tangible property and franchises", and now requires uniform taxation of "all real property and franchises as defined by the Legislature, except as otherwise provided in or permitted by [the] Constitution." Neb. Const. art. VIII, § 1, *as amended* by 1992 Neb. Laws, LR 219 CA.

N.W.2d at 43. The owner equity portion was "multiplied by the most recent 5-year average of 6-month U.S. Treasury bill interest rates, resulting in the weighted equity capitalization rate." *Id.* at 248, 411 N.W.2d 43. These numbers were "then added together to obtain the appropriate capitalization rate." *Id.*

Discussing the effect of amendment four on the applicability of the uniformity requirement in Article VIII, § 1, as to the separate class of agricultural land established by the enactment of LB 271, the Court in *Banner County* stated:

The State Constitution requires that taxes be levied 'by valuation uniformly and proportionately upon all tangible property' except motor vehicles. The constitutional amendment, upon which L.B. 271 is based, amendment four, permits agricultural property to be treated as a separate class for purposes of property tax. The amendment did not repeal the uniformity clause.

\* \* \*

Since amendment four did not repeal the uniformity clause, expressly or by implication, the two clauses must be read in such a way as to give effect to both clauses. Thus, L.B. 271 must meet the requirements of both clauses to pass the test of constitutionality. Specifically, amendment four permitted the Legislature to classify property as a separate class, but the uniformity clause required the Legislature to treat that class in a uniform manner with other tangible property.

\* \* \*

Since the uniformity clause was not repealed, the Legislature can divide the class of tangible property into different classifications, but these classifications remain subdivisions of the overall class of 'all tangible property' and there must be a correlation between them to show uniformity. Such a correlation is made by evidence that all tangible property has been uniformly assessed.

No evidence of such a correlation is present in the record before us or in the statutes implementing amendment four. In fact, our review of the statutes shows the correlation requirement was entirely disregarded.

\* \* \*

[The statutes] provide for the separate classification and valuation of agricultural property and are consistent with amendment four. Conspicuously absent from these statutes,

however, is a requirement that the resulting values obtained for agricultural land be correlated with the values obtained for other real property as required by the uniformity clause.

These statutes have the effect of permitting the Legislature to do indirectly what it is prevented by the Constitution from doing directly—the taxation of agricultural land in a nonuniform manner from the taxation of other tangible property.

226 Neb. at 252-54, 411 N.W.2d at 45-46.

Prior to the Nebraska Supreme Court's decision in *Banner County*, it was generally understood that the adoption of amendment four was intended to allow the Legislature to establish agricultural land as a separate class of property which was not required to be valued and taxed uniformly with other property. See Note, Separate Property Tax Classification for Agricultural Land: Cure of Disease?, 64 Neb. L. Rev. 313, 337-347 (1985); Note, Nebraska's "Mysterious" New Tax Valuation System: L.B. 271, the Agricultural Land Valuation Law, 19 Creighton L. Rev. 623, 633-34 (1986). One commentator, discussing the presumed effect of amendment four, stated that "[t]he amendment allowed the legislature to set up a system which valued agricultural land other than on the basis of market value and at a valuation rate different from commercial or residential land." 19 Creighton L. Rev. at 634. LB 271, which established a method to value agricultural land based on an earning-capacity approach, was the vehicle chosen by the Legislature to implement amendment four.

This understanding of the intent and effect of amendment four was shattered by the decision in *Banner County*, however, when the Court held that amendment four, while it allowed the separate classification of agricultural land, did not exempt agricultural land from the requirement of uniform and proportionate valuation and taxation in relation to other property. In response, the Legislature proposed another constitutional amendment in 1989, LR 2CA, which was intended to clearly establish the Legislature's authority to separately classify agricultural land and to specifically allow the Legislature to "provide a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate" with other property, "but which results in values that are uniform and proportionate upon all property within the class of agricultural and horticultural land." 1989 Neb Laws, LR 2CA, § 1. The intent to separate agricultural and horticultural land from the requirement of uniform taxation in relation to other property was clearly stated in the Introducer's Statement of Intent accompanying LR 2CA:

This bill responds to the doubt the Nebraska Supreme Court has cast on the validity of Amendment 4 and LB 271 of 1985. My intent is to resolve this legal uncertainty by providing a clear exception to the uniformity requirement of the Nebraska Constitution for agricultural land.

Specifically, LR 2CA proposes a constitutional amendment to permit agricultural and horticultural land to be taxed as a separate class and assessed by a method which results in values which are not uniform or proportionate with other classes or subclasses of property.

Committee Records on LR 2CA, 91<sup>st</sup> Leg., 1<sup>st</sup> Sess., Introducer's Statement of Intent (Feb. 2, 1989).

LR 2CA was submitted to the electorate at the General Election held in November, 1990. The amendment was approved by an overwhelming majority, with 317,534 votes cast for adoption of the amendment, and 200,744 votes cast against. 1998-99 Nebraska Blue Book at 271. The changes made to Article VIII, § 1, by the 1990 amendment have remained part of the Constitution, and have twice been reenacted without substantial change.<sup>4</sup>

"A state Constitution is the supreme written will of the people of the state who have adopted it as a framework or basis of their government, subject only to the limitations to be found in the federal Constitution." *Ramsey v. Gage County*, 153 Neb. 24, 30, 43 N.W.2d 593, 597 (1950). "Courts must apply and enforce the Constitution as it is written." *State ex rel. Spire v. Public Employees Retirement Bd.*, 226 Neb. 176, 178, 410 N.W.2d 463, 465 (1987). "In construing a constitutional amendment to ascertain intent of the people in adopting it, courts must find such intent in the language of the amendment itself and must not hold that the people intended anything different than the language employed imports." *Sorenson v. Swanson*, 181 Neb. 205, 212-13, 147 N.W.2d 620, 625 (1967). "[T]he courts should accord to [the language of the constitution] the meaning which obviously would be accepted by the layman." *Mekota v. State Bd. of Equal.*, 146 Neb. 370, 378, 19 N.W.2d 633, 638 (1945).

The plain language of subsection (4) of Article VIII, § 1, expressly permits the Legislature to establish agricultural and horticultural land as a separate class of property for purposes of taxation, and allows the Legislature to establish a method of taxing agricultural and horticultural land which results in values which are not uniform and proportionate with other real property. While the Legislature is allowed to separately classify agricultural and horticultural land, and to value agricultural and horticultural land in a different manner than other real property, subsection (4) of Article VIII, § 1, does require that the valuation method for agricultural and

---

<sup>4</sup> As noted, the reference to "tangible" property was amended to refer to "real" property in 1990, when Article VIII, § 1, was amended to make the uniformity requirement applicable only to "real" property, thus removing personal property from the rule of uniformity previously contained in the Constitution. 1992 Neb. Laws, LR 219 CA, § 1. The provision was also reenacted in 1998. 1998 Neb. Laws, LR 45 CA, § 1.

horticultural land result in values which are uniform and proportionate within the class of agricultural and horticultural land. Thus, subsection (4) permits the separate classification of agricultural and horticultural land, and nonuniform taxation of agricultural and horticultural land in relation to other real property, but requires uniformity of taxation within the separate class of agricultural and horticultural land.

Consistent with subsection (4) of Article VIII, § 1, LB 600 continues to provide that agricultural and horticultural land as defined by the Legislature "shall constitute a separate and distinct class of property for purposes of property taxation. . . ." LB 600, § 3; Neb. Rev. Stat. § 77-201(2) (Cum. Supp. 2000). Under LB 600, however, the valuation of agricultural and horticultural land for property tax purposes would no longer be based on "eighty percent of its actual [i.e. market] value" (Neb. Rev. Stat. § 77-201(2) (Cum. Supp. 2000)); rather, it would "be valued uniformly and proportionately within this distinct classification on the basis of its capitalized net earning capacity for agricultural or horticultural purposes . . ." LB 600, § 3. As subsection (4) of Article VIII, § 1, allows the Legislature to separately classify agricultural and horticultural land for property taxation, and to establish a different method to value agricultural and horticultural land for property taxation which does not result in values which are "uniform and proportionate with all other real property (i.e., commercial and residential real property), we conclude that the separate classification of agricultural and horticultural land and taxation of such land based on a different method (capitalized net earning capacity) than other real property (market value) under LB 600 is authorized under this portion of the Nebraska Constitution.<sup>5</sup>

While the separate classification of agricultural land for property tax purposes, and the establishment of a different method of valuing agricultural land (capitalized net earning capacity) as opposed to the manner of valuing other real property (market value) is authorized by Article VIII, § 1, a question may exist as to whether the different taxation of agricultural and non-agricultural land violates the guarantee of equal protection of the law mandated by the Fourteenth Amendment to the United States Constitution.

---

<sup>5</sup> Indeed, any other conclusion would call into question the existing method of valuing agricultural and horticultural land for property tax purposes, as such land is not taxed at the same level of value as other real property. Currently, agricultural and horticultural land is valued at 80 percent of market value, while other real property is assessed at full market value. Neb. Rev. Stat. §§ 77-112 and 77-201(2) (Cum. Supp. 2000). This different treatment can only be sustained if Article VIII, § 1(4), is construed to allow the separate classification of agricultural and horticultural land, and the taxation of such land in a manner which is not uniform with other real property. We believe the Nebraska Constitution, as amended, authorizes the Legislature to provide for such classification and nonuniform taxation of agricultural and horticultural land in relation to other real property.

In *Banner County*, the Nebraska Supreme Court, in *dicta*, noted that, as the issue was not presented, the Court would "not undertake to determine whether a Nebraska constitutional amendment permitting land which produces income by raising crops to be taxed differently than land which produces income by other means would violate the U.S. Constitution." 226 Neb. at 255, 411 N.W.2d at 47. In raising this question, the Court cited the U. S. Supreme Court decision in *Sioux City Bridge Co. v. Dakota County*, 260 U.S. 441 (1923), which held that the failure to provide a taxpayer with equal tax treatment in accordance with a state constitutional requirement of uniform taxation resulted in a violation of the due process and equal protection guarantees contained in the Fourteenth Amendment.

The equal protection clause "imposes no iron rule of equality, prohibiting the flexibility and variety that are appropriate to reasonable schemes of state taxation." *Allied Stores of Ohio, Inc. v. Bowers*, 358 U.S. 522, 526 (1959). In structuring their internal tax structures, "the States have large leeway in making classifications and drawing lines which in their judgment produce reasonable systems of taxation." *Lehnhausen v. Lake Shore Auto Parts Co.*, 410 U.S. 356, 359 (1973). It is inherent in a state's power to tax that it be free to select the subjects of taxation, and to grant exemptions. *Carmichael v. Southern Coal and Coke Co.*, 301 U.S. 495 (1937). In order for a state tax classification or scheme to withstand scrutiny under the equal protection clause, it is necessary only to consider whether the challenged classification or tax is rationally based and related to a legitimate state purpose. *Exxon Corp. v. Eagerton*, 462 U.S. 176 (1983). "A state law is not arbitrary thought it 'discriminate[s] in favor of a certain class . . . if the discrimination is founded upon a reasonable distinction, or difference in state policy,' not in conflict with the Federal Constitution." *Kahn v. Shevin*, 416 U.S. 535, 355 (1974) (quoting *Allied Stores of Ohio, Inc. v. Bowers*, 358 U.S. 522, 528 (1959)). As the Court stated in its decision in *Allegheny Pittsburgh Coal Co. v. County Comm'n of Webster County*, 488 U.S. 336, 344 (1989): "The States, of course, have broad powers to impose and collect taxes. A State may divide different kinds of property into classes and assign to each class a different tax burden so long as those divisions and burdens are reasonable."

In *Nordlinger v. Hahn*, 505 U.S. 1, 112 S.Ct. 2326 (1992), the Court considered an equal protection challenge to a California property tax system that included unequal or disparate real estate taxation of similar pieces of property, depending on the date of acquisition by the property owner. Under this system, property taxes could vary as much as 1,700 percent, since long-term owners were subject to lower taxes reflecting historic property values at the time of acquisition, while newer owners paid higher taxes based on the use of more recent values reflecting current market values. The *Nordlinger* Court upheld the constitutionality of the California property tax scheme, finding at least two rational bases for the California tax program, and further noted that "[f]or purposes of rational-basis review, the 'latitude of discretion is notably wide in . . . the granting of partial or total exemptions upon grounds of policy.'" *Id.* at 17, 112 S.Ct. at 2335 (quoting

*F.S. Royster Guano Co. v. Virginia*, 253 U.S. 412, 415 (1920)). The Court concluded:

Time and again, however, this Court has made clear in the rational-basis context that the 'Constitution presumes that, absent some reason to infer antipathy, even improvident decisions will eventually be rectified by the democratic process and that judicial intervention is generally unwarranted no matter how unwisely we may think that a political branch has acted'. . . .

*Id.* at 17-18, 112 S.Ct. at 2336 (quoting *Vance v. Bradley*, 440 U.S. 93, 97 (1979)).

Applying the traditional standard of review used to judge the validity of classifications of property for tax purposes, a rational basis can likely be articulated to justify the separate classification of agricultural land and the adoption of an "earning capacity" method of valuing agricultural land. Section 1 of LB 600 includes a legislative declaration "that the encouragement and support of agriculture and horticulture in Nebraska is a rational state policy", and a declaration that, "to achieve that policy, the value of agricultural and horticultural land for property tax purposes shall be determined based on the capitalized net earning capacity attributable to the inherent capabilities of the land at its current use as agricultural land or horticultural land." Most states provide for the separate classification of agricultural land for property tax purposes, 64 Neb. L. Rev. at 315n.9, and virtually all states provide a mechanism for "preferential assessment or taxation of agricultural land. . . ." J. Malme, *Preferential Property Tax Treatment of Land* 7 (Lincoln Institute of Land Policy 1993). "The rationale is that income from agricultural . . . production is low relative to the capital value required for the enterprise, making owners 'land rich and income poor.' Farmers have high outlay costs, and high taxes on their lands further reduce meager profits, making farming economically infeasible." *Id.* at 8. The "unique nature of agri-business" and "concern over land use and the environment" have also been cited as factors justifying "preferential" tax treatment of agricultural land. 19 Creighton L. Rev. at 628. Thus, with regard to the valuation of agricultural land for property tax purposes, "[t]he predominant appraisal approach is the capitalization of income. Valuation of land according to its earning capacity is consistent with the policy of linking taxation to income derived from the land as opposed to the land's speculative market value." J. Malme, *supra*, at 22. In view of these factors, it appears a rational basis exists to sustain the Legislature's choice to utilize a "capitalized net earning capacity" method to value agricultural and horticultural land for property tax purposes.

As noted previously, however, the Nebraska Supreme Court in *Banner County*, citing the U. S. Supreme Court decision in *Sioux City Bridge v. Dakota County*, intimated that the federal equal protection clause may not permit a state constitutional provision allowing for taxation of agricultural land and other income-producing land in a different, non-uniform manner.

We believe that this suggestion is not warranted by application of the appropriate equal protection analysis.

In *Sioux City Bridge v. Dakota County*, the Court held the failure to provide the taxpayer with equal tax treatment in accordance with a state constitutional requirement of uniform taxation resulted in a violation of the due process and equal protection guarantees contained in the Fourteenth Amendment to the United States Constitution. An important distinction, however, exists between the equal protection clause principle at issue in that case, and cases involving application of the rational basis standard. *Sioux City Bridge* involved application of the remedy required by the equal protection clause where intentional and systematic undervaluation of other taxable property in the same class under state law creates an inequity in the taxation of a taxpayer's property. See also *Allegheny Pittsburgh Coal Co. v. County Comm'n of Webster County*, 488 U.S. 336 (1989). The Nebraska Constitution no longer places "all real property" in the same class for property tax purposes. The Constitution now allows the Legislature to establish a separate classification for the taxation of agricultural and horticultural land, which may be valued in a manner which is not uniform with all other real property. Thus, the equal protection clause principle employed in *Sioux City Bridge* and *Allegheny Pittsburgh Coal Co.* is inapplicable to judging the constitutionality of LB 600, and the proper equal protection clause analysis concerns whether the separate classification and taxation of agricultural land in a manner which is not uniform with other real property, as authorized by art. VIII, §1(4), is rationally related to legitimate state purposes. *Exxon Corp. v. Eagerton*, 462 U.S. 176 (1983).

The Nebraska Supreme Court recently applied the rational basis standard of review in upholding application of the "net book value" method of assessing personal property for taxation. *Pfizer Inc. v. Lancaster County Bd. of Equal.*, 260 Neb. 265, 616 N.W.2d 326 (2000). The Court, noting the federal equal protection clause "does not forbid classifications", stated:

In general, the Equal Protection Clause is satisfied so long as there is a plausible policy reason for the classification, the legislative facts on which the classification is apparently based may rationally have been considered to be true by the governmental decisionmaker, and the relationship of the classification to its goal is not so attenuated as to render the distinction arbitrary or irrational. . . . This standard is especially deferential in the context of classifications made by complex tax laws.

*Id.* at 273, 616 N.W.2d at 335 (citing *Nordlinger v. Hahn*, 505 U.S. 1 (1992)).

The Nebraska Supreme Court's recent decision in *Pfizer* demonstrates application of the proper equal protection clause analysis to be employed in assessing the validity of tax classifications authorized by state law. For the reasons stated above, we believe that the separate classification of

agricultural and horticultural land by the Legislature, and establishment of a method of valuation (capitalized net earning capacity) different than the method used to value other real property for tax purposes (market value), is rationally related to legitimate state purposes, and thus can survive scrutiny under the federal equal protection clause.<sup>6</sup>

As the separate classification and taxation of agricultural land and horticultural land is authorized by subsection (4) of Article VIII, § 1, and does not contravene the federal equal protection clause<sup>7</sup>, the question which remains is whether the "capitalized net earning capacity" valuation method proposed under LB 600 satisfies the requirement in subsection (4) that the manner of valuing agricultural and horticultural land for property tax purposes chosen by the Legislature must "result[ ] in values which are uniform and proportionate upon all property within the class of agricultural and horticultural land. . . ." On its face, the bill purports to mandate this result, providing that agricultural and horticultural land "shall constitute a separate and distinct class of property for purposes of taxation, . . . , and

---

<sup>6</sup> Prior to *Pfizer*, it was not clear that the Court recognized application of the rational basis standard of review to state tax classifications permitted by state law. See *Jaksha v. State*, 241 Neb. 106, 109, 486 N.W.2d 858, 864 (1992) (While noting U. S. Supreme Court's decision in *Nordlinger* sustained an "acquisition value" system of taxing real property even though it resulted in "tremendous disparities in the property taxes levied upon owners of similar property", the Court nevertheless stated that "the precise contours of the federal Equal Protection Clause in the context of state taxation are far from clear."). The *Pfizer* decision indicates that the Nebraska Supreme Court currently recognizes that the appropriate equal protection clause analysis to be used in judging the validity of tax classifications authorized by state law is the rational basis standard.

<sup>7</sup> We note that, in 1998, the Nebraska Constitution was amended by adding an "equal protection" clause providing that "[n]o person shall . . . be denied equal protection of the laws." 1997 Neb. Laws, LR 20CA, § 1, Neb. Const. art. I, § 3. The Nebraska Supreme Court has not had occasion to address the standard to be applied in judging classifications under the state equal protection guarantee now contained in art. I, § 3. See *Pfizer v. Lancaster County Bd. of Equal.*, 260 Neb. at 273, 616 N.W.2d at 335 (Noting taxes at issue were levied prior to adoption of the equal protection clause of the Nebraska Constitution in 1998). There is no indication that analysis of the validity of the separate classification and taxation of agricultural and horticultural land under LB 600 would be subject to a more stringent standard of review under the "equal protection clause" in art. I, § 3, than would be employed under the Fourteenth Amendment. Moreover, it is doubtful that art. I, § 3, applies, as the separate classification and taxation of agricultural and horticultural land is authorized by subsection (4) of art. VIII, § 1, "[n]otwithstanding. . . any other provision of this Constitution to the contrary; . . ." Neb. Const. art. VIII, § 1.

shall be valued uniformly and proportionately within this distinct classification on the basis of its capitalized net earning capacity for agricultural or horticultural purposes. . . ." LB 600, § 3. The bill further provides: "Agricultural and horticultural land values shall be determined on the basis of the land's use for agricultural or horticultural purposes. . . , capitalized and applied uniformly and proportionately among all classes and subclasses of agricultural and horticultural land. . . ." LB 600, § 6.

While the bill facially mandates compliance with the constitutional requirement of uniform valuation of property in the class of agricultural and horticultural land, this does not mean that, in application, the "capitalized net income approach" proposed under the bill will necessarily achieve this result. Under LB 600, the current practice of valuing agricultural land at 80 percent of its "market value" would be replaced by an entirely new system of valuation for agricultural and horticultural land which would require the use of a rather complicated "income capitalization methodology" to arrive at the value of agricultural and horticultural land for property tax purposes. The determination of "net earning capacity" under section 7 of the bill is similar to the formula used under LB 271 to calculate "income streams" for agricultural lands. *See* 1985 Neb. Laws, LB 271, § 9. The "capitalization rate" determination under section 10 of LB 600, however, differs from the "blended" rate established under LB 271. *See* 1985 Neb. Laws, LB 271, § 10. LB 271 established a "debt" percentage component of twenty percent, which was "weighted" by multiplying the debt percentage by the most recent five-year average of the Federal Land Bank's interest rate in the Omaha district. The "equity" component of the capitalization rate under LB 271 was set at eighty percent, and was "weighted" by multiplying this percentage by the most recent five-year average of six-month United States Treasury bill interest rates. The sum of the weighted debt and equity capitalization rates constituted the capitalization rate to be used under LB 271. *Id.*

It was suggested that the use of a single capitalization rate in LB 271 was unconstitutional because "a single rate would not accommodate different returns for different types of land," which would result in a lack of uniformity within the class of agricultural land. 19 Creighton L. Rev. at 646. Section 10 of LB 600 provides that the "capitalization rate" used to value agricultural and horticultural land "shall be a market derived capitalization rate" established by use of specified sources, or "other sources of capitalization rates determined to be acceptable by the Property Tax Administrator after consultation with and advisement from the Greenbelt Advisory Committee." It is unclear whether the capitalization rate proposed under section 10 of LB 600 is intended to require use of a "single" capitalization rate for all agricultural land, or whether the Property Tax Administrator is to develop different rates for the various types of land within the agricultural class. It may be appropriate to amend this portion of the bill to clearly express the Legislature's intent regarding whether a single capitalization rate is to be used, or whether different market based capitalization rates are to be developed. The guiding principle which the

Legislature must follow is that the method employed must provide for uniform and proportionate valuation within the agricultural land class as required by art. VIII, § 1(4).

With regard to the capitalization rate portion of the bill, one source mentioned is "the rates established by the Band of Investment published by the International Association of Assessing Officers and Real Estate manuals or the Agriculture Statistics Districts published by the Department of Agriculture, in cooperation with the United States Department of Agriculture, . . ." The bill also allows determination of the capitalization rate from "other sources of capitalization rates determined to be acceptable by the Property Tax Administrator after consultation with and advisement from the Greenbelt Advisory Committee." LB 600, § 10. The reference to "rates established by the Band of Investment" is somewhat confusing, as it implies that the "Band of Investment" is a compilation of actual rates. As we understand the term, it refers to a methodology in which "interest and yield rates are weighted by the proportion each would contribute in typical financing and summed to form a discount rate", which "rate is then used to estimate property value by capitalizing all net operating income." *Property Appraisal and Assessment Administration* 281 (International Association of Assessing Officers 1990). "Band of Investment" refers to a method of estimating a capitalization rate, as opposed to a listing of calculated rates. As the intent and effect of this language is somewhat unclear, it may require amendment. Thus, it may be necessary to consider revising this section to clarify the method and sources to be employed by the Property Tax Administrator in determining the market-based capitalization rate (or rates).

In sum, we conclude that the establishment of agricultural land and horticultural land as a separate and distinct class for property tax purposes, and taxation of such land based on a different method than other real property, is authorized pursuant to subsection (4) of Article VIII, § 1, of the Nebraska Constitution. In addition, we believe that the separate classification of agricultural land by the Legislature, and establishment of a method of valuation (capitalized net earning capacity) different than the method used to value other real property for tax purposes (market value), is rationally related to legitimate state purposes, and thus can survive scrutiny under the equal protection clause of the United States Constitution. On its face, the bill appears to be constitutional, although the section concerning establishment of the "market derived capitalization rate" should be amended to clearly express the Legislature's intent as to the manner to be used by the Property Tax Administrator to determine such rate (or rates). Our conclusion is limited to determining that the Legislature's separate classification of agricultural and horticultural land, and valuing such land differently than other real property, is not facially unconstitutional. We can express no opinion as to whether the valuation methodology proposed would, in application, result in uniform and proportionate taxation of agricultural and horticultural land, consistent with Article VIII, § 1(4).

14 Summons shall be served on all parties within thirty days after the  
15 filing of the petition in the manner provided for service of a  
16 summons in section 25-510.02. If the commission is not a party of  
17 record, the petitioner shall serve a copy of the petition and a

13 that: (a) The applicant is likely to prevail when the court finally  
14 disposes of the matter; (b) without relief, the applicant will

16 applicant will not substantially harm other parties to the

 19 justify the commission's action in the circumstances. The court  
 20 may require the party requesting the stay to give bond in such  
 21 amount and conditioned as the court directs.

22 (4) Within thirty days after service of the petition or  
 23 within such further time as the court for good cause shown allows,

 26 commission. The official record shall include: (a) Notice of all

 4 and evidence introduced during the hearing, a statement of matters  
 5 officially noticed by the commission during the proceeding, and all

 7 final order appealed from. The commission shall charge the  
 8 petitioner with the reasonable direct cost or require the  
 9 petitioner to pay the cost for preparing the official record for  
 10 transmittal to the court in all cases except when the petitioner is  
 11 not required to pay a filing fee. The commission may require  
 12 payment or bond prior to the transmittal of the record.

13 (5) The review shall be conducted by the court for error  
 14 on the record of the commission. If the court determines that the  
 15 interest of justice would be served by the resolution of any other  
 16 issue not raised before the commission, the court may remand the  
 17 case to the commission for further proceedings. The court may  
 18 affirm, reverse, or modify the decision of the commission or remand

## RESOLUTION

**LEGISLATIVE RESOLUTION 57.** Introduced by Kristensen, 37.

WHEREAS, the federal law of the United States of America provides that federally recognized Indian Tribes have certain governmental authority and sovereign rights; and

WHEREAS, federal Indian law and federal Indian policy generally preempt state law and state policy as to activities by a Tribe on a federally recognized Indian Reservation; and

WHEREAS, the State of Nebraska believes that its motor fuel tax is applicable to transactions which occur within the boundaries of federally recognized Indian Reservations involving sales to non-tribal members and not to transactions which occur on reservations involving such sales to tribal members; and

WHEREAS, the State of Nebraska recognizes that its cost to administer, enforce, and verify the application of a practice by which those sales that occur on the federally recognized Indian Reservations are segregated into sales to tribal members and sales to non-tribal members would be greater than the amount of tax revenue to be realized from sales to non-tribal members; and

WHEREAS, the State of Nebraska is of the view that cooperation and negotiation between the state's governmental agencies and the governments of federally recognized Indian Tribes are more productive and beneficial to the interests and citizens of the state and better serve those interests than engaging in costly and extensive litigation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the State of Nebraska through the Governor or his or her designee may negotiate and enter into an agreement with the governing body of any federally recognized Indian Tribe within the State of Nebraska concerning the collection and dissemination of any motor fuel tax on those sales made on the reservation.

- 2 thereto and insert the following new sections:
- 3 "Section 1. Section 46-636, Reissue Revised Statutes of
- 4 Nebraska, is amended to read:
- 5 46-636. The Legislature finds that the pumping of water
- 6 for irrigation purposes from water wells located within fifty feet
- 7 of the bank of a channel of any natural stream may have a direct
- 8 effect on the surface flow of such stream.
- 9 Sec. 2. Section 46-637, Revised Statutes Supplement,
- 10 2000, is amended to read:
- 11 46-637. The use of water described in section 46-636 may
- 12 only be made after securing a permit from the Department of Natural
- 13 Resources for such use. If the applicant is an individual, the
- 14 application for a permit shall include the applicant's social
- 15 security number. In approving or disapproving applications for
- 16 such permits, the Director of Natural Resources shall take into
- 17 account the effect that such pumping may have on the amount of
- 18 water in the stream and its ability to meet the requirements of
- 19 appropriators from the stream. This section does not apply to (1)
- 20 water wells located within fifty feet of the bank of a channel of
- 21 any natural stream which were in existence on July 1, 2000, and (2)
- 22 replacement water wells as defined in section 46-602 that are
- 23 located within fifty feet of the banks of a channel of a stream if
- 24 the water wells being replaced were originally constructed prior to
- 1 July 1, 2000, and were located within fifty feet of the bank of a
- 2 channel of any natural stream.
- 3 Sec. 3. Section 46-656.25, Revised Statutes Supplement,
- 4 2000, is amended to read:
- 5 46-656.25. (1) A district in which a management area has
- 6 been designated shall by order adopt one or more of the following
- 7 controls for the management area:
- 8 (a) It may determine the permissible total withdrawal of
- 9 ground water for each day, month, or year and allocate such
- 10 withdrawal among the ground water users;
- 11 (b) It may adopt a system of rotation for use of ground
- 12 water;
- 13 (c) It may adopt well-spacing requirements more
- 14 restrictive than those found in sections 46-609 and 46-651;
- 15 (d) It may require the installation of devices for
- 16 measuring ground water withdrawals from water wells;
- 17 (e) It may adopt a system which requires reduction of
- 18 irrigated acres pursuant to subsection (2) of section 46-656.26;
- 19 (f) It may require the use of best management practices;

- 20 (g) It may require the analysis of water or deep soils  
21 for fertilizer and chemical content;
- 22 (h) It may provide educational requirements, including  
23 mandatory educational requirements, designed to protect water  
24 quality or to stabilize or reduce the incidence of ground water  
25 depletion, conflicts between ground water users and surface water  
26 appropriators, disputes over interstate compacts or decrees, or  
27 difficulties fulfilling the provisions of other formal state  
1 contracts or agreements;
- 2 (i) It may require water quality monitoring and reporting  
3 of results to the district for all water wells within all or part  
4 of the management area; and
- 5 (j) It may adopt and promulgate such other reasonable  
6 rules and regulations as are necessary to carry out the purpose for  
7 which a management area was designated.
- 8 (2) In adopting, amending, or repealing any control  
9 authorized by subsection (1) of this section or sections 46-656.26  
10 and 46-656.27, the district's considerations shall include, but not  
11 be limited to, whether it reasonably appears that such action will  
12 mitigate or eliminate the condition which led to designation of the  
13 management area or will improve the administration of the area.
- 14 (3) Upon request by the district, the Director of Natural  
15 Resources shall review and comment on the adoption, amendment, or  
16 repeal of any authorized control in a management area. The  
17 director may hold a public hearing to consider testimony regarding  
18 the control prior to commenting on the adoption, amendment, or  
19 repeal of the control. The director shall consult with the  
20 district and fix a time, place, and date for such hearing. In  
21 reviewing and commenting on an authorized control in a management  
22 area, the director's considerations shall include, but not be  
23 limited to, those enumerated in subsection (2) of this section.
- 24 (4) If because of varying ground water uses, varying  
25 surface water uses, different irrigation distribution systems, or  
26 varying climatic, hydrologic, geologic, or soil conditions existing  
27 within a management area the uniform application throughout such  
1 area of one or more controls would fail to carry out the intent of  
2 the Nebraska Ground Water Management and Protection Act in a  
3 reasonably effective and equitable manner, the controls adopted by  
4 the district pursuant to this section may contain different  
5 provisions for different categories of ground water use or portions  
6 of the management area which differ from each other because of  
7 varying climatic, hydrologic, geologic, or soil conditions. Any  
8 differences in such provisions shall recognize and be directed  
9 toward such varying ground water uses or varying conditions.
- 10 Except as otherwise provided in this section, the provisions of all  
11 controls for different categories of ground water use shall be  
12 uniform for all portions of the area which have substantially  
13 similar climatic, hydrologic, geologic, and soil conditions.
- 14 (5) The district may establish different water

15 allocations for different irrigation distribution systems, on the  
16 condition that such different water allocations shall be authorized  
17 for no more than five years from the time such allocations are  
18 adopted.

19 (6)(a) The district may establish different provisions  
20 for different hydrologic relationships between ground water and  
21 surface water.

22 (b) For management areas a purpose of which is the  
23 integrated management of hydrologically connected ground water and  
24 surface water, the district may establish different provisions for  
25 water wells constructed before the designation of a management area  
26 for integrated management of hydrologically connected ground water  
27 and surface water and for water wells constructed on or after the  
1 designation date or any other later date or dates established by  
2 the district.

3 (c) For a management area in a basin or part of a basin  
4 that is or was the subject of litigation over an interstate water  
5 compact or decree in which the State of Nebraska is a named  
6 defendant, the district may establish different provisions for  
7 restriction of water wells constructed after January 1, 2001, if  
8 such litigation was commenced before or on the effective date of  
9 this act. If such litigation is commenced after the effective date  
10 of this act, the district may establish different provisions for  
11 restriction of water wells constructed after the date on which such  
12 litigation is commenced in federal court. An appeal from a  
13 decision of the district under this subdivision shall be in  
14 accordance with the hearing procedures established in the Nebraska  
15 Ground Water Management and Protection Act.

16 (d) The district shall make a replacement water well as  
17 defined in section 46-602, or as further defined in district rules  
18 and regulations, subject to the same provisions as the water well  
19 it replaces.

20 (7) If the district determines, following a public  
21 hearing conducted pursuant to section 46-656.19, that the impact on  
22 surface water supplies or the depletion or contamination of the  
23 ground water supply in the management area or any portion of the  
24 management area is so excessive that the public interest cannot be  
25 protected solely through implementation of reasonable controls  
26 adopted pursuant to subsection (1) of this section, it may close  
27 all or a portion of the management area to the issuance of any  
1 additional permits for a period of not more than five calendar  
2 years. The area may be further closed thereafter by a similar  
3 procedure for additional time periods of the same length. Any such  
4 area may be reopened at any time the district determines that  
5 conditions warrant new permits at which time the district shall  
6 consider all previously submitted applications for permits in the  
7 order in which they were received.

8 (8) Whenever a management area designated under section  
9 46-656.39 or 46-656.52 encompasses portions of two or more

10 districts, the responsibilities and authorities delegated in this  
 11 section and sections 46-656.26 and 46-656.27 shall be exercised  
 12 jointly and uniformly by agreement of the respective boards of all  
 13 districts so affected. Whenever management areas designated by two  
 14 or more districts adjoin each other, the districts are encouraged  
 15 to exercise the responsibilities and authorities jointly and  
 16 uniformly by agreement of the respective boards.  
 17 (9) For the purpose of determining whether conflicts  
 18 exist between ground water users and surface water appropriators,  
 19 surface water appropriators under the Nebraska Ground Water  
 20 Management and Protection Act does not include holders of instream  
 21 flow appropriations under sections 46-2,107 to 46-2,119.  
 22 Sec. 4. Original section 46-636, Reissue Revised  
 23 Statutes of Nebraska, and sections 46-637 and 46-656.25, Revised  
 24 Statutes Supplement, 2000, are repealed.  
 25 Sec. 5. Since an emergency exists, this act takes effect  
 26 when passed and approved according to law."  
 27 2. On page 1, strike beginning with "46-656.25" in line  
 1 through line 4 and insert "46-636, Reissue Revised Statutes of  
 2 Nebraska, and sections 46-637 and 46-656.25, Revised Statutes  
 3 Supplement, 2000; to change provisions relating to pumping for  
 4 irrigation purposes; to provide for regulation of water wells in  
 5 certain areas as prescribed; to repeal the original sections; and  
 6 to declare an emergency."

### ATTORNEY GENERAL'S OPINION

#### Opinion #01015

DATE: April 13, 2001

SUBJECT: LB 804

REQUESTED BY: Senator Merton L. Dierks  
 Nebraska State Legislature

Mary Harding, Executive Director  
 Nebraska Environmental Trust

WRITTEN BY: Don Stenberg, Attorney General  
 Lynn A. Melson, Assistant Attorney General

Neb. Rev. Stat. §§ 2-5304 and 2-5305 (Cum. Supp. 2000) provide that the

Director of Natural Resources, in consultation with the carbon sequestration advisory committee, shall conduct an assessment of agricultural lands in Nebraska for past carbon sequestration and future carbon sequestration potential, shall prepare a report to the Legislature on or before December 1, 2001, and shall publish a report of the findings on or before January 1, 2002. Senator Dierks has introduced LB 804 which would amend these statutes so as to provide that these duties of the Director of Natural Resources are "permissive rather than mandatory." Introducer's Statement of Intent, LB 804, dated January 30, 2001.

In your opinion request letter you state that an environmental trust grant has been requested to partially fund the assessment and reports, but that the Environmental Trust Board is concerned that provisions of Neb. Rev. Stat. § 81-15,176 (Cum. Supp. 2000) "may prohibit funding of projects that are mandated by statute." You ask for our opinion on the meaning of § 81-15,176(2)(a) and whether the Environmental Trust Board would be in violation of this provision by funding the grant request submitted by the Director of Natural Resources.

Neb. Rev. Stat. § 81-15,176(2)(a) provides that: "[T]he board shall establish criteria for determining the eligibility of projects for grant assistance, which criteria shall include the following: (a) The grants shall not provide direct assistance to regulatory programs or to implement actions mandated by regulations except remediation; . . . ." The same language is found in regulations promulgated by the Environmental Trust Board at 137 NAC 4 § 001.06, 001.07, 007.01 and 007.02. In our view, this statute and these regulations do not prohibit the Environmental Trust Board from funding the grant proposal submitted by the Director of Natural Resources.

First, it does not appear to us that the assessment of agricultural land for carbon sequestration potential and the two reports to be prepared by the Director of Natural Resources constitute a regulatory program as that term is employed in § 81-15,176(2)(a). In the absence of anything indicating to the contrary, statutory language should be given its plain and ordinary meaning. *Nickel v. Saline County School Dist. No. 163*, 251 Neb. 762, 559 N.W.2d 480 (1997). The word "regulate" has been defined to mean "to control, to direct, or govern according to a rule, principle, or system." WEBSTER'S NEW WORLD DICTIONARY 1197 (2<sup>nd</sup> College ed. 1982). The duties assigned to the Director of Natural Resources involve gathering data, performing an analysis and providing reports of that information. There is no regulatory aspect to those duties.

Second, the assessment and reports are not mandated by regulations. While the Director of Natural Resources is currently required by statute to conduct an assessment of agricultural lands and provide reports of the findings, we are unaware of any regulations which mandate these duties. Rules and regulations are issued by agencies after following the formal procedure set forth in the Administrative Procedure Act. Neb. Rev. Stat. §§ 84-901 to 84-920 (1999). To our knowledge, no regulations have been

promulgated pursuant to Neb. Rev. Stat. §§ 2-5304 and 2-5305.

In conclusion, it is our opinion that Neb. Rev. Stat. § 81-15,176(2)(a) does not prohibit the Environmental Trust Board from funding the grant proposal submitted by the Director of Natural Resources and that the Board may approve the grant proposal if it chooses to do so after consideration of all relevant criteria.

Sincerely,  
DON STENBERG  
Attorney General

1. Strike the original sections and all amendments
- 2 thereto and insert the following new sections:
- 3 "Section 1. Section 43-286, Revised Statutes Supplement,
- 4 2000, is amended to read:
- 5 43-286. (1) When any juvenile is adjudicated to be a
- 6 juvenile described in subdivision (1), (2), or (4) of section
- 7 43-247:
- 8 (a) The court may continue the dispositional portion of
- 9 the hearing, from time to time upon such terms and conditions as
- 10 the court may prescribe, including an order of restitution of any
- 11 property stolen or damaged or an order requiring the juvenile to
- 12 participate in community service programs, if such order is in the
- 13 interest of the juvenile's reformation or rehabilitation, and,
- 14 subject to the further order of the court, may:
- 15 (i) Place the juvenile on probation subject to the
- 16 supervision of a probation officer;
- 17 (ii) Permit the juvenile to remain in his or her own home
- 18 or be placed in a suitable family home, subject to the supervision
- 19 of the probation officer; or
- 20 (iii) Cause the juvenile to be placed in a suitable
- 21 family home or institution, subject to the supervision of the
- 22 probation officer. If the court has committed the juvenile to the
- 23 care and custody of the Department of Health and Human Services,
- 24 the department shall pay the costs of the suitable family home or
- 1 institution which are not otherwise paid by the juvenile's parents.
- 2 Under subdivision (1)(a) of this section, upon a
- 3 determination by the court that there are no parental, private, or
- 4 other public funds available for the care, custody, and maintenance
- 5 of a juvenile, the court may order a reasonable sum for the care,
- 6 custody, and maintenance of the juvenile to be paid out of a fund
- 7 which shall be appropriated annually by the county where the
- 8 petition is filed until a suitable provision may be made for the
- 9 juvenile without such payment; or
- 10 (b)(i) After adjudication, the ~~The~~ court may commit such
- 11 juvenile to the care and custody of the Office of Juvenile
- 12 Services, ~~but a~~ and order the Office of Juvenile Services to
- 13 prepare and file with the court a proposed plan for the care and
- 14 level of treatment to be provided to the juvenile. If any other
- 15 party, including, but not limited to, the juvenile, the parents, or
- 16 the county attorney, proves by a preponderance of the evidence that
- 17 the office's plan is not in the juvenile's best interests, the

18 court shall disapprove the plan. The court may also modify the  
19 plan by ordering a different level of treatment or order the office  
20 to develop an alternative plan. Rules of evidence shall not apply  
21 at the dispositional hearing when the court considers the plan. At  
22 the disposition hearing, the court may order the office to carry  
23 out the plan or the court may choose an alternative disposition.  
24 The office or any other party may request a review of the court's  
25 order concerning the juvenile by a juvenile review panel as  
26 provided in section 43-287.04.

27 (ii) A juvenile under the age of twelve years shall not  
1 be placed at the Youth Rehabilitation and Treatment Center-Geneva  
2 or the Youth Rehabilitation and Treatment Center-Kearney unless he  
3 or she has violated the terms of probation or has committed an  
4 additional offense and the court finds that the interests of the  
5 juvenile and the welfare of the community demand his or her  
6 commitment. This minimum age provision shall not apply if the act  
7 in question is murder or manslaughter.

8 (iii) Within thirty days after an order committing a  
9 juvenile to the care and custody of the Office of Juvenile Services  
10 and at least once each six months thereafter until the juvenile  
11 reaches the age of majority, the office shall file with the court a  
12 report stating the location of the juvenile's placement and the  
13 level of treatment the juvenile is receiving. If the office  
14 proposes a change in the place or level of treatment, the procedure  
15 provided in section 43-408 shall be followed.

16 (2) When any juvenile is found by the court to be a  
17 juvenile described in subdivision (3)(b) of section 43-247, the  
18 court may enter such order as it is empowered to enter under  
19 subdivision (1)(a) of this section or enter an order committing or  
20 placing the juvenile to the care and custody of the Department of  
21 Health and Human Services.

22 (3) Beginning July 15, 1998, when any juvenile is  
23 adjudicated to be a juvenile described in subdivision (1), (2),  
24 (3)(b), or (4) of section 43-247 because of a nonviolent act or  
25 acts and the juvenile has not previously been adjudicated to be  
26 such a juvenile because of a violent act or acts, the court may,  
27 with the agreement of the victim, order the juvenile to attend  
1 juvenile offender and victim mediation with a mediator or at an  
2 approved center selected from the roster made available pursuant to  
3 section 25-2908.

4 (4)(a) When a juvenile is placed on probation or under  
5 the supervision of the court and it is alleged that the juvenile is  
6 again a juvenile described in subdivision (1), (2), (3)(b), or (4)  
7 of section 43-247, a petition may be filed and the same procedure  
8 followed and rights given at a hearing on the original petition.  
9 If an adjudication is made that the allegations of the petition are  
10 true, the court may make any disposition authorized by this section  
11 for such adjudications.

12 (b) When a juvenile is placed on probation or under the

13 supervision of the court for conduct under subdivision (1), (2),  
14 (3)(b), or (4) of section 43-247 and it is alleged that the  
15 juvenile has violated a term of probation or supervision or that  
16 the juvenile has violated an order of the court, a motion to revoke  
17 probation or supervision or to change the disposition may be filed  
18 and proceedings held as follows:

19 (i) The motion shall set forth specific factual  
20 allegations of the alleged violations and a copy of such motion  
21 shall be served on all persons required to be served by sections  
22 43-262 to 43-267;

23 (ii) The juvenile shall be entitled to a hearing before  
24 the court to determine the validity of the allegations. At such  
25 hearing the juvenile shall be entitled to those rights relating to  
26 counsel provided by section 43-272 and those rights relating to  
27 detention provided by sections 43-254 to 43-256. The juvenile  
1 shall also be entitled to speak and present documents, witnesses,  
2 or other evidence on his or her own behalf. He or she may confront  
3 persons who have given adverse information concerning the alleged  
4 violations, may cross-examine such persons, and may show that he or  
5 she did not violate the conditions of his or her probation or, if  
6 he or she did, that mitigating circumstances suggest that the  
7 violation does not warrant revocation. The revocation hearing  
8 shall be held within a reasonable time after the juvenile is taken  
9 into custody;

10 (iii) The hearing shall be conducted in an informal  
11 manner and shall be flexible enough to consider evidence, including  
12 letters, affidavits, and other material, that would not be  
13 admissible in an adversarial criminal trial;

14 (iv) The juvenile shall be given a preliminary hearing in  
15 all cases when the juvenile is confined, detained, or otherwise  
16 significantly deprived of his or her liberty as a result of his or  
17 her alleged violation of probation. Such preliminary hearing shall  
18 be held before an impartial person other than his or her probation  
19 officer or any person directly involved with the case. If, as a  
20 result of such preliminary hearing, probable cause is found to  
21 exist, the juvenile shall be entitled to a hearing before the court  
22 in accordance with this subsection;

23 (v) If the juvenile is found by the court to have  
24 violated the terms of his or her probation, the court may modify  
25 the terms and conditions of the probation order, extend the period  
26 of probation, or enter any order of disposition that could have  
27 been made at the time the original order of probation was entered;  
1 and

2 (vi) In cases when the court revokes probation, it shall  
3 enter a written statement as to the evidence relied on and the  
4 reasons for revocation.

6 Nebraska, is amended to read:

7 43-287.01. The purpose of sections 43-287.01 to

8 43-287.06 is to provide for an expedited review of juvenile  
9 dispositions by the courts. It is the intent to allow such review  
10 only when a court orders the implementation of a plan different  
11 than the plan prepared by the Department of Health and Human  
12 Services or Office of Juvenile Services for the care, placement,  
13 and services to be provided to such juvenile and the department,  
14 office, or any other party believes such court-ordered plan not to  
15 be in the best interests of the juvenile.

16 It is the intent of sections 43-287.01 to 43-287.06 to  
17 remove contested dispositional plans from the appellate process for  
18 the purpose of expediting review by a juvenile review panel.  
19 Nothing in such sections shall otherwise limit the right of any  
20 party to appeal other final orders of a juvenile court pursuant to

23 Nebraska, is amended to read:

24 43-287.03. A juvenile review panel shall review a  
25 disposition of a court when the court makes an order directing the

27 Department of Health and Human Services or Office of Juvenile  
1 Services concerning the care, placement, ~~or~~ services, or level of  
2 treatment to be provided to the juvenile and the department,  
3 office, or any other party believes that the court's order is not  
4 in the best interests of the juvenile.

5 Sec. 4. Section 43-287.04, Reissue Revised Statutes of  
6 Nebraska, is amended to read:

7 43-287.04. If the Department of Health and Human  
8 Services, Office of Juvenile Services, or any other party desires  
9 to have a disposition described in section 43-287.03 reviewed, the  
10 department, office, or other party shall have ten days after  
11 disposition by the court to file a request for review by a juvenile  
12 review panel. Such request for review shall be filed with the  
13 clerk of the county court or separate juvenile court where the  
14 action was originally heard. Upon receipt of the request for  
15 review, the clerk of the county court or separate juvenile court  
16 shall forward a copy of the request to the Clerk of the Supreme  
17 Court.

18 Sec. 5. Section 43-287.05, Reissue Revised Statutes of  
19 Nebraska, is amended to read:

20 43-287.05. A juvenile review panel shall review the  
21 disposition of a court de novo on the record. The record shall  
22 consist of a transcript and bill of exceptions which shall be  
23 requested and prepared as in appeals from the county court to the  
24 district court. A juvenile review panel shall affirm the  
25 disposition unless it is shown by a preponderance of the evidence  
26 that the disposition was not in the best interests of the juvenile,  
27 in which case the panel may modify the court-ordered plan or the  
1 plan of the Department of Health and Human Services or Office of  
2 Juvenile Services or may substitute the department's or office's

3 plan for the court-ordered plan and remand the case back to the  
4 court with directions to implement such plan. Such review shall  
5 stay the enforcement of any order entered by the court.  
6 The review by the juvenile review panel shall be as  
7 expeditious as possible, and a decision shall be made within thirty  
8 days after receiving the bill of exceptions from the court  
9 stenographer. The panel's decision shall be final and binding on  
10 the parties, except that the decision may be appealed as provided  
11 in section 43-287.06.

14 43-287.06. The Department of Health and Human Services,

20 district court. The appellate court shall review the disposition

**ATTORNEY GENERAL'S OPINION**Opinion #01016

DATE: April 18, 2001

SUBJECT: LB555; Whether A Legislative Bill Which Requires Collection Of Decommissioning Costs For Nuclear Power Facilities From Customers Violates Constitutional Provisions Pertaining To Special Legislation, Separation Of Powers, Vested Rights, Impairment Of The Obligation Of Contracts Or Unconstitutional Taking.

REQUESTED BY: Senator Ed Schrock  
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General  
Dale A. Comer, Assistant Attorney General

In your opinion request letter, you state that:

LB 555 was introduced to require any public power district which is responsible for decommissioning a nuclear power plant to collect sufficient funds from its customers during a period not exceeding the original operating license for the plant, to pay all estimated costs associated with decommissioning that plant. The amount collected from each customer subject to this legislation would fairly and equitably apportion the decommissioning costs among those who have rights to receive the output of the plant during the period of collection.

The Legislature's Natural Resources Committee held a public hearing on LB 555 in February, and several issues were raised regarding the constitutionality of the bill at that hearing. Accordingly, you have requested our analysis of the bill and constitutional issues involving "special legislation, separation of powers doctrine, vested rights doctrine, impairment of obligation of contracts, and the taking clause." Our response to your opinion request is set out below.

**BACKGROUND**

LB 555 would add the following language to Neb. Rev. Stat. § 70-27.02 (1996):

In order to protect the public health and safety, the environment, and the well-being of Nebraska's electrical energy consumers, a public power district which is responsible for decommissioning a nuclear power facility shall, during a period as determined by such

district but not exceeding the period of the original operating license for the facility, collect from customers of the facility sufficient funds to pay all estimated costs associated with decommissioning such facility. Funds shall be collected from consumers of the facility in amounts that fairly and equitably apportion such costs among those having rights to receive the output of the facility during the period of collection.

While the provisions of LB 555 speak in general terms, it appears from the committee hearing transcript that, as is often the case, the bill is designed to remedy a specific situation which is not apparent on the face of the legislation. That situation has implications for the constitutional issues you have raised, so we will set out our understanding of the circumstances underlying the bill, based upon testimony at the committee hearing and the decision in **Nebraska Public Power District v. MidAmerican Energy Company**, 234 F.3d 1032 (2000).

Nebraska has two nuclear power plants. One, located at Fort Calhoun, Nebraska, is operated by the Omaha Public Power District. The other, located at Brownville, Nebraska, is the Cooper Nuclear Station ("Cooper"), which is owned and operated by the Nebraska Public Power District ("NPPD"). Cooper was built by the predecessor of NPPD in the late 1960's. At the time Cooper was built, the predecessor of NPPD entered into a long-term Power Sales Contract ("Sales Contract") with the predecessor of MidAmerican Energy Company ("MEC"), a privately-owned Iowa corporation. The predecessor of NPPD also entered into a similar long-term Power Sales Contract with the Lincoln Electric System ("LES"). Under those contracts, MEC purchases 50% of the net power and energy from Cooper, and LES purchases 12.5% of that power. The remaining power generated by the plant is used or sold by NPPD.

The Sales Contract between MEC and NPPD remains in effect until 2004. That contract requires NPPD to inform MEC by 2003 whether it will decommission Cooper or continue operating the facility after 2004. If NPPD elects to decommission the Cooper plant, MEC and NPPD must share decommissioning costs. However, if NPPD continues operating Cooper after 2004, the Sales Contract terminates MEC's continuing obligations arising from Cooper and its right to "any refund of excess payments for power and energy theretofore purchased."

It has become apparent over the years since Cooper was built that the costs of decommissioning the facility will greatly exceed those originally anticipated, and may total as much as \$600,000,000. In 1988, the federal Nuclear Regulatory Commission adopted a rule requiring operators of nuclear facilities to file decommissioning plans and to pre-fund decommissioning by placing money in an external sinking fund. Since 1984, MEC and NPPD have set aside money for decommissioning the Cooper plant. However, those parties have no written agreement regarding decommissioning costs apart from the original Sales Contract, and NPPD

simply added a separate line item to its monthly energy bill to MEC for decommissioning costs. MEC paid those separate decommissioning charges as they were billed.

NPPD and MEC are now disputing whether the Sales Contract requires MEC to make current, non-refundable payments towards estimated decommissioning costs associated with the shut down of the Cooper plant even if NPPD continues to operate Cooper after 2004, and whether MEC may recover the monies it has already paid for such decommissioning costs. NPPD filed a declaratory judgment action in the United States District Court for the District of Nebraska in connection with that dispute to determine the obligations of the parties under the Sales Contract. The federal district court ruled in favor of NPPD with regard to summary judgment motions in that lawsuit. However, the Eighth Circuit Court of Appeals reversed the lower court, and held as follows:

We hold, therefore, that considering all proper evidence, the PSC [Sales Contract] does not require MEC to make current, non-refundable payments of estimated decommissioning costs to NPPD, but makes MEC liable for Cooper's decommissioning only in the event the NPPD shuts Cooper down in 2004. Moreover, the PSC does not bar MEC's claims for restitution of amounts already paid.

**Nebraska Public Power District v. MidAmerican Energy Company**, 234 F.3d 1032, 1046 (2000). LB 555 apparently represents an effort to deal with the results of that litigation through legislation.

## ANALYSIS

In your opinion request letter, you raise constitutional concerns with LB 555 in five different areas. We will consider each of those areas in turn.

### 1. Special Legislation

Art. III, § 18 of the Nebraska Constitution provides, as is pertinent:

The Legislature shall not pass local or special laws in any of the following cases, that is to say:

\* \* \* \*

Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever . . . . In all other cases where a general law can be made applicable, no special law shall be enacted.

A legislative act violates art. III, § 18 if the act (1) creates a totally arbitrary and unreasonable method of classification, or (2) creates a permanently closed class. **Bergan Mercy Health System v. Haven**, 260 Neb. 846, 620

N.W.2d 339 (2000); **Mapco v. State Board of Equalization**, 238 Neb. 565, 471 N.W.2d 734 (1991); **Haman v. Marsh**, 237 Neb. 699, 467 N.W.2d 836 (1991). LB 555 must be tested under that standard.

A. Nature of the Classification.

The first step in any analysis under the special legislation standard set out above involves a determination of precisely what classifications are established by the statutory language under consideration. See **Bergan Mercy Health System v. Haven**, 260 Neb. 846, 620 N.W.2d 339 (2000). In that regard, it appears to us that LB 555, on its face, creates at least two classifications which must be tested under art. III, § 18.

First of all, customers of nuclear power generating facilities would be treated differently under LB 555 than customers of other types of power generating facilities. Under that bill, customers of nuclear power generating facilities would be required, by statute, to pay a portion of the decommissioning costs for the nuclear facilities over time. Such costs would not be statutorily imposed on customers of other types of power generating facilities when those facilities are decommissioned.

Second, LB 555 creates a classification for those public power districts in Nebraska which must decommission nuclear power plants as distinguished from those public power districts which might decommission other forms of power generating facilities. Under LB 555, public power districts which decommission nuclear power facilities would have a statutory right and duty to recover decommissioning costs from their customers. Public power districts which decommission other forms of energy generating facilities would not have that statutory right and duty to recover costs.

B. Arbitrariness and Unreasonableness of the Classification.

The first part of the special legislation test established in Nebraska cases involves a determination as to whether a statutory classification is totally arbitrary and unreasonable. In that context, the classification must bear a reasonable and substantial relation to the legitimate objects and purposes of the legislation. **Pick v. Nelson**, 247 Neb. 487, 528 N.W.2d 309 (1995). As stated in the **Haman** case:

A legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a **substantial** difference . . . . Classification is proper if the special class has some reasonable distinction from other subjects of like general character, which distinction bears some reasonable relation to the legitimate objectives and purposes of the legislation. The

question is always whether the things or persons classified by the act form by themselves a proper and legitimate class with reference to the purpose of the act.

**Haman v. Marsh**, 237 Neb. 699, 711, 467 N.W.2d 836, 846 (1991)(quoting **State ex rel. Douglas v. Marsh**, 207 Neb. 598, 300 N.W.2d 181 (1980))(emphasis in original).

We cannot say that there clearly is no substantial difference between the public power districts and energy customers which would be affected by operation of LB 555 and other public power districts and energy customers, or that diverse legislation regarding those classifications is not expedient. For one thing, we gather that decommissioning a nuclear power facility is considerably more costly and complicated than decommissioning other forms of energy generating facilities, and that difference might well justify different legislative treatment for the costs of such a decommissioning effort. For that reason, we do not believe that LB 555 clearly violates the first part of the special legislation test set out in Nebraska authorities. However, with respect to the first portion of the special legislation test, it would be useful if the legislative history of LB 555 were to contain some description of the substantial differences in situation or circumstances which led to the diverse treatment and classifications set out in the legislation.

C. Permanently closed class.

A legislative classification may also violate art. III, § 18 as improper special legislation if it creates a permanently closed class. In considering whether a class established by legislation is closed, the courts are not limited to the face of the legislation, but may consider the act's application. **Haman v. Marsh**, 237 Neb. 699, 467 N.W.2d 836 (1991). In such a consideration, courts must consider the actual probability that others will come under the act's operation. **Id.** If the prospect that others may come under the act's operation is merely theoretical, and not probable, the act is special legislation. **Id.** The conditions of entry into the class must not only be possible, but reasonably probable of attainment. **Id.**

We do not believe that either of the classifications established by LB 555 described above clearly creates a permanently closed class. We gather that there are a number of power districts and other energy users which might want to purchase electrical power from one of the nuclear power facilities in the state so that additions to the class of customers of nuclear power plants which would pay part of decommissioning costs are more than a theoretical possibility and reasonably probable of attainment. In addition, while it is somewhat more problematic, it appears to us that there is at least some reasonable probability that additional public power districts will be required to decommission nuclear power facilities in the future. For example, additional nuclear power facilities might be built in Nebraska, given the current concerns nationwide about the availability of energy. Consequently, we do not believe that LB 555 creates permanently closed

classes under the applicable standards, and the bill does not constitute special legislation.

## 2. Separation of Powers and Vested Rights Doctrine

We will discuss your next two areas of constitutional concern together because the law pertaining to those constitutional provisions appears to be closely related.

Art. II, § 1 of the Nebraska Constitution provides that:

The powers of the government of this state are divided into three distinct departments, the Legislative, Executive and Judicial, and no person or collection of persons being one of these departments, shall exercise any power properly belonging to either of the others, except as hereinafter expressly directed or permitted.

This constitutional provision prohibits one department of government from encroaching on the duties and prerogatives of the others or from improperly delegating its own duties and prerogatives to another, except as the Nebraska Constitution itself otherwise directs or permits. **State v. Phillips**, 246 Neb. 610, 521 N.W.2d 913 (1994).

At the outset, it appears to us that there is nothing on the face of LB 555 which constitutes an improper encroachment by one department of government upon the duties of another or an improper delegation of duties from one department of government to another. The bill simply provides that decommissioning costs for nuclear power plants will be assessed against the customers of those plants on the basis of their use of power. Therefore, the bill is distinguishable from legislation in other cases where there was direct action by the legislative department against the duties and prerogatives of another department of government. **See, e.g., Plaut v. Spendthrift Farm, Inc.**, 514 U.S. 211 (1995)(legislation passed by Congress which specifically reinstated causes of action under the Securities and Exchange Act which had previously been dismissed by the federal courts as time-barred under the applicable statute of limitations violated separation of powers); **State v. Phillips**, 246 Neb. 610, 521 N.W.2d 913 (1994)(resentencing statute violated separation of powers clause by purporting to grant commutation power to the judiciary rather than the Board of Pardons). There is also nothing on the face of LB 555 which directly affects vested rights of specific private parties.

While LB 555 does not appear to violate the principles involving separation of powers or vested rights on its face, we believe that it would run afoul of both separation of powers and the due process clause should it be applied in such a way as to attempt to alter the status of the situation involving MEC and NPPD described above.

Nebraska cases make it clear that statutes may not operate retroactively so

as to impair vested rights. **Karrer v. Karrer**, 190 Neb. 610, 211 N.W.2d 116 (1973); **Travelers' Insurance Co. v. Ohler**, 119 Neb. 121, 227 N.W. 449 (1929). Similarly, private rights of parties which have vested by the judgment of a court cannot be taken away by subsequent legislation. **State v. Moore**, 210 Neb. 457, 316 N.W.2d 33 (1982); **Karrer v. Karrer**, 190 Neb. 610, 211 N.W.2d 116 (1973); **Mooney v. Drainage District No. 1 of Richardson County**, 134 Neb. 192, 278 N.W. 368 (1938). The latter rule is based upon both separation of powers and due process principles. See **State v. Moore**, 210 Neb. 457, 316 N.W.2d 33 (1982); **Karrer v. Karrer**, 190 Neb. 610, 211 N.W.2d 116 (1973).

As we understand it, MEC has vested rights under its contract with NPPD to pay for the decommissioning costs of the Cooper nuclear facility only in certain circumstances.<sup>1</sup> In addition, the judgment by the Eight Circuit Court of Appeals in **Nebraska Public Power District v. MidAmerican Energy Company**, 234 F.3d 1032 (2000) affirming MEC's limited obligations under the Sales Contract is final.<sup>2</sup> As a result, we believe that the provisions of LB 555 may not be applied in such a way as to require MEC to pay for the decommissioning costs of the Cooper Nuclear facility in any fashion apart from its obligations under the Sales Contract. To do so, would violate separation of powers and due process of law.

### 3. Impairment of the Obligation of Contracts

Article I, Section 10 of the United States Constitution provides that "[n]o State . . . shall . . . pass any . . . Law impairing the Obligation of Contracts . . . ." Similarly, art. I, § 16 of the Nebraska Constitution provides that "[n]o . . . law impairing the obligation of contracts . . . shall be passed." Those constitutional provisions form the basis for your next constitutional concern involving LB 555.

Although the language of the Contract Clause appears absolute, its prohibition must be accommodated to the inherent police power of the states. **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400 (1983). As a result, the federal courts and the Nebraska Supreme Court have formulated tests for determining when a particular

---

<sup>1</sup> The rights resulting from a contract vest upon the contract's execution and delivery. **Pfeifer v. Ableidinger**, 166 Neb. 464, 89 N.W.2d (1958)(quoting **Todd v. Board of Educational Lands & Funds**, 154 Neb. 606, 48 N.W.2d 706 (1951)). The MEC/NPPD Sales Contract has obviously been executed and delivered.

<sup>2</sup> A motion for rehearing and rehearing in banc in **Nebraska Public Power District v. MidAmerican Energy Company**, 234 F.3d 1032 (2000) was denied on January 24, 2001, and we are aware of no pending petition for a writ of certiorari in that case.

statute violates the Contract Clause. The language of those formulations is somewhat different, but taken together, they establish the following factors in a Contract Clause analysis:

1. It must be determined whether the state statute constitutes an impairment of a contract. **Miller v. City of Omaha**, 253 Neb. 798, 573 N.W.2d 121 (1998); **Calabro v. City of Omaha**, 247 Neb. 955, 531 N.W.2d 541 (1995). In that context, "impairment" means "to make worse," and the impact of the statute on the contract must take away something and not work to a party's benefit. **Miller v. City of Omaha**, 253 Neb. 798, 573 N.W.2d 121 (1998).

2. The impairment of the contractual relationship must be substantial. **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400 (1983); **Miller v. City of Omaha**, 253 Neb. 798, 573 N.W.2d 121 (1998); **Calabro v. City of Omaha**, 247 Neb. 955, 531 N.W.2d 541 (1995). The severity of the impairment increases the level of scrutiny to which the legislation is subjected. **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400 (1983). Total destruction of contractual expectations is not required for a finding of substantial impairment, however. **Id.** In addition, in determining the extent of impairment, courts will consider whether the industry the complaining party has entered has been regulated in the past. **Id.**

3. If the state statute constitutes a substantial impairment of contractual obligations, the State, in justification, must have a significant and legitimate public purpose behind the regulation such as remedying a broad or general social or economic problem. **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400 (1983). The legitimate public purpose requirement guarantees that the State is exercising its police power rather than providing a benefit to special interests. **Id.**

4. Once a legitimate public purpose has been identified, then the final inquiry is whether the statutory adjustment of the obligations is based upon reasonable conditions and of a character appropriate to the public purpose justifying the statute's adoption. **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400 (1983). In that regard, unless the State itself is a party, it is customary for courts to defer to legislative judgment as to the necessity and reasonableness of a particular statute. **Id.**<sup>3</sup>

---

<sup>3</sup> Under the Contract Clause test established by the Nebraska Supreme Court, the final two factors of the **Energy Reserves Group** formulation are characterized as "whether that [contractual] impairment was nonetheless a permissible, legitimate exercise of the . . . sovereign powers." **Miller v. City of Omaha**, 253 Neb. 798, 806, 573 N.W.2d 121, 127 (1998).

On its face, LB 555 does not impair the obligation of any particular contract by its specific language. However, once again, to the extent that the bill might be applied to alter the effect of the Sales Contract between MEC and NPPD, it must be analyzed under the Contract Clause using the formulation set out above.

Initially, we believe that LB 555 would impair the obligations of the Sales Contract between MEC and NPPD. Under the Sales Contract as construed by the Eighth Circuit, MEC has no obligation to make current, non-refundable payments of estimated decommissioning costs to NPPD, and is only liable for Cooper's decommissioning in the event the NPPD shuts Cooper down in 2004. Moreover, the Sales Contract does not bar MEC's claims for restitution of amounts already paid. If LB 555 is implemented with respect to MEC and NPPD, then MEC will be required to make payments to NPPD for decommissioning the Cooper plant, regardless of whether or not the plant continues to operate after 2004. Therefore, if LB 555 is applied to the situation involving MEC and NPPD, it appears that MEC's position is made worse, and it loses something in a manner which is not to its benefit.

It is less clear whether the impact of LB 555 on the MEC/NPPD Sales Contract would be "substantial." On one hand, the amounts of money at issue for MEC are huge, and it could be argued that LB 555 totally destroys some of MEC's contractual expectations under the Sales Contract. On the other hand, the nuclear power industry is and has been heavily regulated by federal authorities, and more stringent regulations were enacted during the course of the contract's implementation. As a result, it could be argued that MEC should have contemplated that its obligations under the contract could be changed by regulation over the course of time.

It is also not clear whether there is a significant and legitimate public purpose underlying LB 555 such as remedying a broad or general social or economic problem. The bill contains language which recites a public purpose, and during the public hearing on the bill, proponents offered justifications for the bill which were primarily related to sharing the costs of nuclear power and treating ratepayers equitably. However, the bill has a very narrow focus which, as discussed in the special legislation section above, would make it possible to argue that the bill is a benefit to special interests rather than a general exercise of the state's police power. See **Energy Reserves Group v. Kansas Power and Light Company**, 459 U.S. 400, 412 n.13 (1983).

Finally, the impact of the bill's adjustment to MEC's contract rights under the Sales Contract must be based upon reasonable conditions and of a character appropriate to the public purpose justifying the bill's adoption. However, since the Sales Contract does not involve the State itself as a party, we would assume that courts would defer to the Legislature's judgment as to the necessity for and reasonableness of the legislation.

When all of these various factors are considered, we believe that, on balance, courts would likely consider LB 555 to be an unconstitutional impairment of MEC's contract rights should the provisions of the bill be applied to the situation involving MEC and NPPD. Our conclusion in that regard is influenced, in part, by the other constitutional infirmities in the bill as discussed elsewhere in this opinion.

#### 4. Unconstitutional Taking

The Fifth Amendment to the United States Constitution provides, as is relevant: "No person shall . . . be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use, without just compensation." Art. I, § 21 of the Nebraska Constitution also provides: "[t]he property of no person shall be taken or damaged for public use without just compensation therefor." Those constitutional provisions are at issue with respect to your final constitutional concern regarding LB 555.

As has previously been the case, the focus of our inquiry regarding the impact of LB 555 is the effect of that bill upon the Sales Contract between MEC and NPPD, since the bill does not, on its face, bring about a taking of private property without due process or proper compensation. However, if the bill is applied to the situation involving those entities so as to require MEC to make payments for decommissioning costs apart from its contractual obligations to do so, then we believe that the bill is unconstitutional under the Fifth Amendment and art. I, § 21.

Contract rights are a form of property rights which may be taken for a public purpose only if just compensation is paid. **United States Trust Company of New York v. New Jersey**, 431 U.S. 1, 19 n.16 (1977). In the present case, as discussed above, MEC has vested rights under its contract with NPPD to pay for the decommissioning costs of the Cooper nuclear facility only in certain circumstances. If the provisions of LB 555 are applied in such a way as to require MEC to pay for the decommissioning costs of the Cooper Nuclear facility in any fashion apart from its obligations under the Sales Contract, then we believe that MEC's vested contract rights have been damaged or taken. That "taking" is for a public use, since NPPD is a governmental subdivision of the State of Nebraska, and MEC's private funds will be used to benefit public ratepayers who otherwise might pay more for decommissioning the facility. MEC would not be paid compensation for its contract rights under LB 555, nor would it be afforded due process. For those reasons, LB 555 cannot constitutionally be applied to the situation involving MEC and NPPD.

#### SUMMARY

In our view, LB 555 does not constitute special legislation in contravention of art. III, § 18 of the Nebraska Constitution. However, to the

extent that the provisions of LB 555 are applied so as to require MEC to pay for the decommissioning costs of the Cooper Nuclear facility in any fashion apart from its vested contract rights under the Sales Contract, then the bill would be unconstitutional as a violation of separation of powers, due process of law and art. 1, § 21 of the Nebraska Constitution. Finally, we also believe that it is highly likely that courts would consider LB 555 to be an improper impairment of the obligation of contracts should it be applied to the situation involving MEC and NPPD and MEC's obligations under the Sales Contract at issue.

### **ATTORNEY GENERAL'S OPINION**

Opinion #01017

DATE:

April 19, 2001

**SUBJECT:** LB 536; Whether Legislation Creating Certain Ethanol Production Credits Is Special Legislation Under Art. III, § 18 Of The Nebraska Constitution.

**REQUESTED BY:** Senator Merton L. Dierks  
Nebraska State Legislature

**WRITTEN BY:** Don Stenberg, Attorney General  
Dale A. Comer, Assistant Attorney General

LB 536 would amend several existing Nebraska statutes and thereby create a new ethanol production incentive program for the State of Nebraska. In your opinion request letter, you state that the Revenue Committee's proposed amendments to LB 536 (AM 1356) would strike the original provisions of the legislation and become the bill. You then describe the effect of AM 1356 and the new bill as follows:

As you will note, [the amended] LB 536 would insert a new subsection (4) of Section 66-1344 [Neb. Rev. Stat. § 66-1344 (Cum. Supp. 2000)] to provide a production incentive of 20 cents / gal of ethanol produced for new plants which come into production before June 30, 2004, subject to limitations and qualifications prescribed. Additionally, new subsection (5) added by [amended] LB 536 would enable an existing plant which has not received credits prior to June 1, 1999 to qualify for credits under new subsection (4). However, the total amount of credits such facility may earn under the new production incentive program is to be reduced by the amount of credits such facility may have earned since June 1, 1999 under previous or existing production incentive programs.

You have now requested our opinion as to whether the new subsection (5) to be added to § 66-1344 by the committee amendments is special legislation in contravention of art. III, § 18 of the Nebraska Constitution. You also wish to know whether a potential amendment to the committee amendments which would strike the new subsection (5) and directly include the facilities described in that subsection in the new subsection (4) of LB 536 would cure any special legislation problems with the committee amendments.

### ANALYSIS

Art. III, § 18 of the Nebraska Constitution provides, as is pertinent:

The Legislature shall not pass local or special laws in any of the following cases, that is to say:

\* \* \* \*

Granting to any corporation, association, or individual any special

or exclusive privileges, immunity, or franchise whatever . . . . In all other cases where a general law can be made applicable, no special law shall be enacted.

A legislative act violates art. III, § 18 if the act (1) creates a totally arbitrary and unreasonable method of classification, or (2) creates a permanently closed class. *Bergan Mercy Health System v. Haven*, 260 Neb. 846, 620 N.W.2d 339 (2000); *Mapco v. State Board of Equalization*, 238 Neb. 565, 471 N.W.2d 734 (1991); *Haman v. Marsh*, 237 Neb. 699, 467 N.W.2d 836 (1991). The committee amendments to LB 536 must be tested under that standard.

The first part of the special legislation test established in Nebraska cases involves a determination as to whether a statutory classification is totally arbitrary and unreasonable. In that context, the classification must bear a reasonable and substantial relation to the legitimate objects and purposes of the legislation. *Pick v. Nelson*, 247 Neb. 487, 528 N.W.2d 309 (1995). As stated in the *Haman* case:

A legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a *substantial* difference . . . . Classification is proper if the special class has some reasonable distinction from other subjects of like general character, which distinction bears some reasonable relation to the legitimate objectives and purposes of the legislation. The question is always whether the things or persons classified by the act form by themselves a proper and legitimate class with reference to the purpose of the act.

*Haman v. Marsh*, 237 Neb. 699, 711, 467 N.W.2d 836, 846 (1991)(quoting *State ex rel. Douglas v. Marsh*, 207 Neb. 598, 300 N.W.2d 181 (1980))(emphasis in original).

Under the language of the committee amendments, the class established by subsection (5) of LB 536 would include those ethanol plants existing on or before December 31, 2000, which did not receive ethanol credits prior to June 30, 1999. Such ethanol plants would also have to be eligible to receive ethanol credits under the existing subsection (3) of § 66-1344.

It appears to us that there may well be public policy concerns which help establish substantial differences in situation and circumstances suggesting the justice and expediency of diverse legislation with respect to the class established by subsection (5) of the committee amendments to LB 536. For example, as you stated in your opinion request letter:

The goal of LB 536, as with past production incentive programs, is to encourage the expansion of the ethanol industry in this state. The effect of new subsection (5) is to retroactively include existing facilities that have not fully benefited from previous incentive programs within the class of facilities eligible for the new production incentive program. This expansion of the definition of eligible facilities is motivated by concern that . . . the viability of facilities described in subsection (5) is less than those who have fully benefited by previous incentive programs, creating a risk of contraction of the state's ethanol industry.

Consequently, we do not believe that the classification created by subsection (5) of the committee amendments to LB 536 is clearly so arbitrary and unreasonable as to constitute special legislation under art. III, § 18. However, with respect to the first portion of the special legislation test, we would suggest that it would be helpful if the legislative history of LB 536 were to contain some description of the substantial differences in situation or circumstances which led to the diverse treatment and classifications set out subsection (5) of the committee amendments.

A legislative classification may also violate art. III, § 18 as improper special legislation if it creates a permanently closed class. In considering whether a class established by legislation is closed, the courts are not limited to the face of the legislation, but may consider the act's application. *Haman v. Marsh*, 237 Neb. 699, 467 N.W.2d 836 (1991). In such a consideration, courts must consider the actual probability that others will come under the act's operation. *Id.* If the prospect that others may come under the act's operation is merely theoretical, and not probable, the act is special legislation. *Id.* The conditions of entry into the class must not only be possible, but reasonably probable of attainment. *Id.* The court in *Haman* also stated, "a classification which limits the application of the law to a present condition, and leaves no room for opportunity for an increase in the numbers of the class by future growth or development, is special." *Id.* at 716, 467 N.W.2d at 848.

Subsection (5) of the committee amendments to LB 536 would extend ethanol credits to "[a] facility existing on or before December 31, 2000, which has not received credits prior to June 30, 1999, and was eligible to receive credits under subsection (3) of this section [§ 66-1344]." As a result, the class of facilities eligible for credits under that subsection is limited to a finite group of facilities in existence at the end of 2000 which previously did not receive ethanol credits. It appears to us that there is no opportunity for an increase in the numbers of that class by future growth or development. Consequently, we believe that the legislative classification at issue in subsection (5) of the committee amendments to LB 536 creates a permanently closed class in contravention of art. III, § 18 of the Nebraska Constitution. Our conclusion in that regard is consistent with previous opinions of this office regarding such classifications. *See Op. Att'y Gen. No. 98003* (January 9, 1998)(Bill which granted supplemental retirement

benefits only to retirees who retired prior to a certain date was special legislation); Op. Att'y Gen. No. 97026 (April 29, 1997)(Bill which granted supplement pension benefits only to retirees having 20 or more years of service as of the effective date of the act was special legislation).

Finally, you have also asked us whether a potential amendment to the committee amendments to LB 536 which would strike the new subsection (5) and directly include the facilities described in that subsection in the new subsection (4) of LB 536 would cure any special legislation problems with the committee amendments. That potential amendment would broaden the definition of a new ethanol facility which would be entitled to receive ethanol credits under subsection (4) of LB 536 to include "a facility which is not in production on or before the effective date of this act or an existing facility which has not received credits prior to June 1, 1999."

The special legislation test set out above with respect to subsection (5) of the committee amendments to LB 536 applies equally to your potential amendment to the committee amendments, i.e., that amendment cannot create a totally arbitrary and unreasonable method of classification or a permanently closed class. For the reasons discussed above in the context of subsection (5) of the committee amendments, we do not believe that the classification created by your proposed amendment to subsection (4) of the committee amendments would clearly be so arbitrary and unreasonable as to constitute special legislation under art. III, § 18. Therefore, we need consider only whether your potential amendment would created a permanently closed class.

Your potential amendment to subsection (4) of the committee amendments would broaden the defined class of ethanol facilities entitled to ethanol credits to include both facilities placed in production after the effective date of the act and existing facilities which had not received credits prior to June 1, 1999. It appears to us that there is an opportunity for an increase in the numbers of that class by future growth or development. In addition, we believe that there is a reasonable probability that new ethanol plants will come under the statute's operation so as to obtain the ethanol credits available. For those reasons, your potential amendment to the committee amendments to LB 536 appears to be constitutional under art. III, § 18 of the Nebraska Constitution.

Sincerely yours,  
DON STENBERG

AM7105

- 1 1. Strike the original sections and all amendments
- 2 thereto and insert the following new sections:
- 3 "Section 1. Sections 1 to 9 of this act shall be known
- 4 and may be cited as the DNA Testing Act.
- 5 Sec. 2. It is the intent of the Legislature that
- 6 wrongfully convicted persons have an opportunity to establish their
- 7 innocence through deoxyribonucleic acid, DNA, testing.
- 8 Sec. 3. The Legislature finds and declares:
- 9 (1) Over the past decade, DNA testing has emerged as the
- 10 most reliable forensic technique for identifying persons when
- 11 biological material is found at a crime scene or transferred from
- 12 the victim to the person responsible and transported from the crime
- 13 scene;
- 14 (2) Because of its scientific precision and reliability,
- 15 DNA testing can, in some cases, conclusively establish the guilt or
- 16 innocence of a criminal defendant. In other cases, DNA may not
- 17 conclusively establish guilt or innocence but may have significant
- 18 probative value to a finder of fact;
- 19 (3) While DNA testing is increasingly commonplace in
- 20 pretrial investigations currently, it was not widely available in
- 21 cases prior to 1994. Moreover, new forensic DNA testing
- 22 procedures, such as polymerase chain reaction amplification, DNA
- 23 short tandem repeat analysis, and mitochondrial DNA analysis, make
- 24 it possible to obtain results from minute samples that previously
- 1 could not be tested and to obtain more informative and accurate
- 2 results than earlier forms of forensic DNA testing could produce.
- 3 As a result, in some cases, convicted inmates have been exonerated
- 4 by new DNA tests after earlier tests had failed to produce
- 5 definitive results;
- 6 (4) Because DNA testing is often feasible on relevant
- 7 biological material that is decades old, it can in some
- 8 circumstances prove that a conviction which predated the
- 9 development of DNA testing was based upon incorrect factual
- 10 findings. DNA evidence produced even decades after a conviction
- 11 can provide a more reliable basis for establishing a correct
- 12 verdict than any evidence proffered at the original trial. DNA
- 13 testing, therefor, can and has resulted in postconviction
- 14 exoneration of innocent men and women;
- 15 (5) In the past decade, there have been multiple
- 16 postconviction exonerations in the United States and Canada based
- 17 upon DNA testing. In addition, a disturbing number of persons
- 18 sentenced to death have been exonerated through postconviction DNA
- 19 testing, some of these exonerations coming within days of their
- 20 execution date;
- 21 (6) DNA testing responds to serious concerns regarding
- 22 wrongful convictions, especially those arising out of mistaken

- 23 eyewitness identification testimony; and  
24 (7) There is a compelling need to ensure the preservation  
25 of biological material for postconviction DNA testing, for a  
26 limited period.
- 27 Sec. 4. (1) Notwithstanding any other provision of law,  
1 a person in custody pursuant to the judgment of a court may, at any  
2 time after conviction, file a motion, with or without supporting  
3 affidavits, in the court that entered the judgment requesting  
4 forensic DNA testing of any biological material that:  
5 (a) Is related to the investigation or prosecution that  
6 resulted in such judgment;  
7 (b) Is in the actual or constructive possession or  
8 control of the state or is in the possession or control of others  
9 under circumstances likely to safeguard the integrity of the  
10 biological material's original physical composition; and  
11 (c) Was not previously subjected to DNA testing or can be  
12 subjected to retesting with more current DNA techniques that  
13 provide a reasonable likelihood of more accurate and probative  
14 results.
- 15 (2) Notice of such motion shall be served by the person  
16 in custody upon the county attorney of the county in which the  
17 prosecution was held.
- 18 (3) Upon receiving notice of a motion filed pursuant to  
19 subsection (1) of this section, the county attorney shall take such  
20 steps as are necessary to ensure that any remaining biological  
21 material that was secured by the state or a political subdivision  
22 in connection with the case is preserved pending the completion of  
23 proceedings under the DNA Testing Act.
- 24 (4) The county attorney shall prepare an inventory of all  
25 evidence that was secured by the state or a political subdivision  
26 in connection with the case and shall submit a copy of the  
27 inventory to the person or the person's counsel and to the court.  
1 If evidence is intentionally destroyed after notice of a motion  
2 filed pursuant to this section, the court shall impose appropriate  
3 sanctions, including criminal contempt.
- 4 (5) Upon consideration of affidavits or after a hearing,  
5 the court shall order DNA testing pursuant to a motion filed under  
6 subsection (1) of this section upon a determination that such  
7 testing was effectively not available at the time of trial, that  
8 the biological material has been retained under circumstances  
9 likely to safeguard the integrity of its original physical  
10 composition, and that such testing may produce noncumulative,  
11 exculpatory evidence relevant to the claim that the person was  
12 wrongfully convicted or sentenced.
- 13 (6) All forensic DNA tests shall be performed by a  
14 laboratory which is accredited by the American Society of Crime  
15 Laboratory Directors - LAB - Laboratory Accreditation Board or the  
16 National Forensic Science Technology Center or by any other  
17 national accrediting body or public agency which has requirements

18 that are substantially equivalent to or more comprehensive than  
19 those of the society or center.

20 Sec. 5. The cost of DNA testing ordered under subsection  
21 (5) of section 4 of this act shall be paid by the person filing the  
22 motion, unless the court determines such person to be indigent. If  
23 the person filing such motion is determined by the court to be  
24 indigent, the costs shall be paid by the state.

25 Sec. 6. Upon a showing by the person that DNA testing  
26 may be relevant to the person's claim of wrongful conviction, the  
27 court shall appoint counsel for an indigent person.

1 Sec. 7. (1) The results of the final DNA or other  
2 forensic testing ordered under subsection (5) of section 4 of this  
3 act shall be disclosed to the county attorney, to the person filing  
4 the motion, and to the person's attorney.

5 (2) Upon receipt of the results of such testing, any  
6 party may request a hearing before the court when such results  
7 exonerate or exculpate the person. Following such hearing, the  
8 court may, on its own motion or upon the motion of any party,  
9 vacate and set aside the judgment and release the person from  
10 custody based upon final testing results exonerating or exculpating  
11 the person.

12 (3) If the court does not grant the relief contained in  
13 subsection (2) of this section, any party may file a motion for a  
14 new trial under sections 29-2101 to 29-2103.

15 Sec. 8. Nothing in the DNA Testing Act shall be  
16 construed to limit the circumstances under which a person may  
17 obtain DNA testing or other postconviction relief under any other  
18 provision of law.

19 Sec. 9. (1) Notwithstanding any other provision of law  
20 and subject to subsection (2) of this section, state agencies and  
21 political subdivisions shall preserve any biological material  
22 secured in connection with a criminal case for such period of time  
23 as any person remains incarcerated in connection with that case.

24 (2) State agencies or political subdivisions that have  
25 secured biological material for use in criminal cases may dispose  
26 of biological material before expiration of the period of time  
27 specified in subsection (1) of this section if:

1 (a) The state agency or political subdivision which  
2 secured the biological material for use in a criminal case notifies  
3 any person who remains incarcerated in connection with the case,  
4 such person's counsel of record, or if there is no counsel of  
5 record, the public defender, if applicable, in the county in which  
6 the judgment of conviction of such person was entered. The notice  
7 shall include:

8 (i) The intention of the state agency or political  
9 subdivision to dispose of the material after ninety days after  
10 receipt of the notice; and

11 (ii) The provisions of the DNA Testing Act;  
12 (b) The person, such person's counsel of record, or the

13 public defender does not file a motion under section 4 of this act  
14 within ninety days after receipt of notice under this section; and  
15 (c) No other provision of law or court order requires  
16 that such biological material be preserved.

17 (3) The person, such person's counsel of record, or the  
18 public defender who receives notice under subdivision (2)(a) of  
19 this section, may, in lieu of a motion under section 4 of this act,  
20 request in writing to take possession of the biological material  
21 for the purpose of having the material available for any future  
22 discovery of scientific or forensic techniques. Copies of any such  
23 written request shall be provided to both the court and to the  
24 county attorney. The costs of acquisition, preservation, and  
25 storage of any such material shall be at the expense of the person.

26 Sec. 10. Section 29-2101, Reissue Revised Statutes of  
27 Nebraska, is amended to read:

1 29-2101. A new trial, after a verdict of conviction, may  
2 be granted, on the application of the defendant, for any of the  
3 following ~~reasons~~ grounds affecting materially his or her  
4 substantial rights: (1) Irregularity in the proceedings of the  
5 court, ~~or of~~ of the prosecuting attorney, or of the witnesses for the  
6 state, or in any order of the court, or abuse of discretion, by  
7 which the defendant was prevented from having a fair trial; (2)  
8 misconduct of the jury, ~~of or~~ of the prosecuting attorney, or of the  
9 witnesses for the state; (3) accident or surprise which ordinary  
10 prudence could not have guarded against; (4) ~~that~~ the verdict is  
11 not sustained by sufficient evidence or is contrary to law; (5)  
12 newly discovered evidence material for the defendant which he or  
13 she could not with reasonable diligence have discovered and  
14 produced at the trial; ~~or~~ (6) newly discovered exculpatory DNA or  
15 similar forensic testing evidence obtained under the DNA Testing  
16 Act; or (7) error of law occurring at the trial.

17 Sec. 11. Section 29-2102, Reissue Revised Statutes of  
18 Nebraska, is amended to read:

19 29-2102. The ~~causes enumerated~~ grounds set forth in  
20 subdivisions (2), (3), and ~~(5)~~ (6) of section 29-2101 must be  
21 sustained shall be supported by affidavits showing ~~their~~ the truth,  
22 of such grounds, and the grounds may be controverted by affidavits.  
23 The ground set forth in subdivision (5) of section 29-2101 shall be  
24 supported by evidence of the truth of the ground in the form of  
25 affidavits, depositions, or oral testimony.

27 Nebraska, is amended to read:

1 29-2103. (1) A motion for new trial shall be made by  
2 written application and may be filed either during or after the  
3 term of the court at which the verdict was rendered.  
4 (2) A motion for a new trial shall state the grounds  
5 under section 29-2101 which are the basis for the motion and shall  
6 be supported by evidence as provided in section 29-2102.  
7 (3) A motion for new trial based on the grounds set forth

8 in subdivision (1), (2), (3), (4), or (7) of section 29-2101 shall  
9 be filed within ten days after the verdict was rendered unless such  
10 filing is unavoidably prevented, and the grounds for such motion  
11 may be stated by directly incorporating the appropriate language of  
12 section 29-2101 without further particularity.  
13 (4) A motion for new trial based on the grounds set forth  
14 in subdivision (5) of section 29-2101 shall be filed within a  
15 reasonable time after the discovery of the new evidence and cannot  
16 be filed more than three years after the date of the verdict unless  
17 the new evidence supports a claim of actual innocence by a  
18 preponderance of the evidence.  
19 (5) A motion for new trial based on the grounds set forth  
20 in subdivision (6) of section 29-2101 shall be filed within ninety

1 discovered and produced at the trial, be filed within ten days  
2 after the verdict was rendered unless unavoidably prevented. In  
3 assigning the grounds for such motion, it shall be sufficient to  
4 assign the same in the language of the statute and without further  
5 or other particularity. In any criminal case where it shall be  
6 made to appear upon the motion of the defendant for a new trial,

8 defendant has discovered new evidence material to his defense which  
9 he could not with reasonable diligence have discovered and produced  
10 during the term within which the verdict upon which he was  
11 sentenced was rendered, the district court may set aside such  
12 sentence and grant a new trial; PROVIDED, that such motion is filed

9 institutional, or technological controls that may be necessary and  
10 which were relied upon by the responsible person to demonstrate  
11 compliance with the remedial action plan. Any certificate of  
12 completion issued pursuant to this section shall be in a form which  
13 can be filed for record in the real estate records of the county in  
14 which the remedial action took place. The responsible person shall  
15 file the certificate of completion and notify the department within  
16 ten days after issuance as to the date and location of the real  
17 estate filing. If the department issues a certificate of  
18 completion to a responsible person under this section, a covenant  
19 not to sue shall arise by operation of law subject to subsection  
20 (2) of this section. The covenant not to sue releases the  
21 responsible person from liability to the state and from liability  
22 to perform additional environmental assessment, remedial activity,  
23 or response action with regard to the release of a petroleum  
24 product for which the responsible person has complied with the

25 requirements of this subsection. The covenant not to sue shall be  
26 voided if the responsible person fails to conduct additional  
27 remedial action as required under subsection (2) of this section,  
1 if a certificate of completion is revoked by the department under  
2 subsection (3) of this section, or if the responsible person fails  
3 to comply with the monitoring, institutional, or technological  
4 controls, if any, upon which the certificate of completion is  
5 conditioned.

6 (2) A certificate of completion issued by the department  
7 under subsection (1) of this section shall require the responsible  
8 person to conduct additional remedial action in the event that any  
9 monitoring conducted at or near the real property or other  
10 circumstances indicate that (a) contamination is reoccurring, (b)  
11 additional contamination is present for which remedial action was  
12 not taken according to the remedial action plan, or (c)  
13 contamination from the site presents a threat to human health or  
14 the environment and was not addressed in the remedial action plan.

15 (3) A certificate of completion shall be revoked if the  
16 department demonstrates by a preponderance of the evidence that  
17 any approval provided under this section was obtained by fraud or  
18 material misrepresentation, knowing failure to disclose material  
19 information, or false certification to the department. The  
20 department shall file a copy of the notice of revocation of any  
21 certificate of completion in the real estate records of the county  
22 in which the remedial action took place within ten days after such  
23 revocation.

24 (4) If a responsible person transfers property to an  
25 affiliate in order for that affiliate to obtain a benefit to which  
26 the transferor would not otherwise be eligible under this section  
27 or to avoid an obligation under this section, the affiliate shall  
1 be subject to the same obligations and obtain the same level of  
2 benefits as those available to the transferor under this section.

3 (5)(a) A covenant not to sue arising under subsection (1)  
4 of this section, unless voided pursuant to such subsection, shall  
5 bar suit against any person who acquires title to property to which  
6 a certificate of completion applies for all claims of the state or  
7 any other person in connection with petroleum products which were  
8 the subject of an approved remedial action plan and (b) a person  
9 who purchased a site before the effective date of this act is  
10 released, upon the issuance of a certificate of completion under  
11 this section or upon the issuance of a no further action letter on  
12 or after the effective date of this act pursuant to section  
13 81-15,186, from all liability to the state for cleanup of  
14 contamination that was released at the site covered by the  
15 certificate of completion or the no further action letter before  
16 the purchase date, except as provided in subsection (4) of this  
17 section, for releases or consequences that the person contributed  
18 to or caused, for failure by such person to comply with the  
19 monitoring, institutional, or technological controls, if any, upon

20 which the certificate of completion is conditioned, or in the event  
 21 the certificate of completion is revoked by the department under  
 22 subsection (3) of this section.  
 23 (6) Any person entitled to the protections of the  
 24 covenant not to sue or eligible to be released from liability  
 25 pursuant to the issuance of a certificate of completion or a no  
 26 further action letter under subsection (5) of this section who is  
 27 ordered by the department to take remedial action shall be eligible  
 1 for reimbursement as a responsible person pursuant to section  
 2 66-1525 and shall not be required to pay the first cost or percent  
 3 of the remaining cost as provided in subsection (1) of section  
 4 66-1523 unless such person contributed to or caused the release or  
 5 failed to comply with the monitoring, institutional, or  
 6 technological controls, if any, imposed under subsection (1) of  
 7 this section.  
 8 Sec. 6. Upon issuance of a certificate of completion  
 9 under section 5 of this act, except as otherwise provided in such  
 10 section, the responsible person shall no longer have liability to  
 11 the state as to the release of petroleum products for which  
 12 compliance with the remedial action plan is demonstrated by the  
 13 responsible person.  
 14 Sec. 7. (1) Participating in a remedial action plan does  
 15 not constitute an admission of liability under the laws of this  
 16 state, the rules and regulations adopted pursuant to law, or the  
 17 ordinances and resolutions of any political subdivision or an  
 18 admission of civil liability under statutory or common law of this  
 19 state.  
 20 (2) The fact that a responsible person has participated  
 21 in a remedial action plan is not admissible in any civil, criminal,  
 22 or administrative proceeding initiated or brought under any law of  
 23 this state other than to enforce sections 5 to 7 of this act.  
 24 (3) Participating in a remedial action plan shall not be  
 25 construed to be an acknowledgment that the conditions of the  
 26 affected area identified and addressed by the remedial action plan  
 27 constitute a threat or danger to the public health or safety or the  
 1 environment.  
 2 Sec. 8. Original sections 66-1516, 81-15,119, and  
 3 81-15,120, Reissue Revised Statutes of Nebraska, and section  
 4 81-15,117, Revised Statutes Supplement, 2000, are repealed."

14 in its school buildings or grounds. The board shall conduct a  
15 public hearing on the itemized estimate prior to presenting such  
16 estimate to the county clerk. Notice of the place and time of such

20 concurrently or consecutively, as the case may be, if the aggregate  
21 levy in each year and the duration of each such levy will not  
22 exceed the limitations specified in this section. Each levy for a  
23 project or qualified capital purpose which is authorized by this

## RESOLUTION

### LEGISLATIVE RESOLUTION 63. Introduced by Hudkins, 21.

**PURPOSE:** This interim study will examine the environmental and hydrologic impacts of current Metropolitan Utilities District (MUD) plans to pump nineteen billion gallons of water per year from the Platte River basin to the Missouri River basin for use by the cities of Omaha, Nebraska, and Carter Lake, Iowa.

Specifically, the interim study should take under consideration how, if implemented, the present MUD water transfer proposal could: (1) Result in a significant lowering of the water tables which serve Saunders, Cass, Douglas, Lancaster, and Sarpy counties, affecting area farmers and their communities; (2) cause a dramatic diminution in the flow of the Platte River; (3) alter the City of Lincoln's ability to meet its long-term water needs for surface water from the Platte River to replenish local aquifers

supplying Lincoln's water; and (4) conflict with interbasin and interstate transfer prohibitions, as well as other restrictions, contained in Chapter 46 of the Nebraska Revised Statutes.

Should the study reveal a need to do so, the appropriate preventive statutory language will be prepared for introduction during the subsequent legislative session to address any injurious consequences, including those discussed in subdivisions (1) through (4) of this resolution, of carrying out the current MUD water transfer proposal.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

16 including all special education services, to the student. If the  
17 two districts cannot agree on the amount of the contract, the State  
18 Department of Education shall determine the amount to be paid by  
19 the resident district to the district in which such residential  
20 setting is located based on the needs of the student, approved  
21 special education rates, the department's general experience with  
22 special education budgets, and the cost per student in the district  
23 in which such residential setting is located. Once the contract has  
24 been entered into, all legal responsibility for special education  
25 and related services shall be transferred to the school district in  
26 which the residential setting is located. The resident district  
27 for a student who is not a ward of the state or a ward of any court

2 to another.

3 (9) In the case of any individual eighteen years of age  
4 or younger who is a ward of the state or any court and who is  
5 placed in a county detention home established under section

7 state, regardless of the district in which he or she resided at the  
8 time he or she became a ward, to the agency or institution which:  
9 (a) Is selected by the county board with jurisdiction over such  
10 detention home; (b) has agreed or contracted with such county board  
11 to provide educational services; and (c) has been approved by the  
12 State Department of Education pursuant to rules and regulations  
13 prescribed by the State Board of Education.

14 (10) No tuition shall be charged for students who may be

22 day. If the student is homeless or if the adult does not have a  
23 phone number and address where he or she may generally be reached  
24 during the school day, those parts of the form may be left blank  
25 and a box may be marked acknowledging that these are the reasons  
26 these parts of the form were left blank. The adult with legal or  
27 actual charge or control of the student shall also sign the form.

1 (12) The department shall adopt and promulgate rules and  
2 regulations to carry out the department's responsibilities under

## AM1676

- 1 1. Insert the following new section:
- 2 "Sec. 3. Section 79-1008.01, Revised Statutes
- 3 Supplement, 2000, is amended to read:
- 4 79-1008.01. (1) Except as provided in subsection (2) of
- 5 this section and sections 79-1008.02 to 79-1010, each local system
- 6 shall receive equalization aid in the amount that the total formula
- 7 need of each local system, as determined pursuant to sections
- 8 79-1007.01 and 79-1007.02, exceeds its total formula resources as
- 9 determined pursuant to sections 79-1015.01 to 79-1017.01 and
- 10 79-1018.01.
- 11 (2) Except as provided in section 79-1008.02, a local
- 12 system shall not receive state aid for any school fiscal year which
- 13 is less than an amount equal to the difference of eighty-five
- 14 percent of the amount of aid certified in the preceding school
- 15 fiscal year minus an amount equal to any increase in the adjusted
- 16 valuation between the adjusted valuation used for the certification
- 17 of aid in the preceding school fiscal year and the adjusted
- 18 valuation used for the aid being calculated multiplied by the
- 19 maximum levy pursuant to subdivision (2)(a) of section 77-3442
- 20 without a vote pursuant to section 77-3444.
- 21 (3) Except as provided in subsection (2) of this section,
- 22 no local system may receive equalization aid such that, when total
- 23 aid is added to a levy of one dollar for state aid to be
- 24 distributed in school fiscal years 1998-99 and 1999-00 or of ninety
- 1 cents for state aid to be distributed in school fiscal year 2000-01
- 2 and each school fiscal year thereafter, multiplied by the local
- 3 system's adjusted valuation divided by one hundred, would result in
- 4 total local system revenue from state aid plus property tax
- 5 receipts which exceeds the total of:
- 6 (a) State aid plus property tax receipts received by the
- 7 local system during the preceding school fiscal year multiplied by
- 8 the total of (i) 1.01 plus (ii) the applicable allowable growth
- 9 rate for the local system calculated pursuant to section 79-1026 as
- 10 determined for the school fiscal year immediately preceding the
- 11 school fiscal year when aid is to be distributed plus (iii) the
- 12 percentage growth in formula students from the certification of
- 13 state aid for the immediately preceding school fiscal year to the
- 14 formula students for the certification of state aid for the current
- 15 school fiscal year, except that the percentage growth shall not be
- 16 less than zero;
- 17 (b) Unused budget authority authorized pursuant to
- 18 section 79-1030;
- 19 (c) The difference between the other actual receipts
- 20 included in local system formula resources for the certification of
- 21 state aid in the preceding school fiscal year and other actual
- 22 receipts included in local system formula resources for the
- 23 certification of state aid for the current school fiscal year,
- 24 except that such difference shall not be less than zero; and

25 (d) The absolute value of any negative prior year  
26 adjustment pursuant to section 79-1065.

27 For local systems that have reorganized, state aid,

1 property tax receipts, and number of formula students shall be  
2 attributed based on valuation. The revenue from property tax  
3 receipts shall be calculated by multiplying the reported general  
4 fund common levy by the assessed valuation subject to the levy  
5 divided by one hundred.

6 (4) Beginning with state aid to be paid in school fiscal  
7 year 2002-03, the limitations contained in subsection (3) of this  
8 section shall not apply to local systems that receive less than  
9 twenty percent of their general fund operating expenditures from  
10 property taxes. Local systems that are exempt from the limitations  
11 of subsection (3) of this section are subject to all other  
12 limitations on state aid.

13 (5) The aid that is not distributed through equalization  
14 based on subsection (3) of this section shall be distributed  
15 through this subsection. Local systems qualify for distribution  
16 under this subsection if they have nine hundred or less formula  
17 students and adjusted general fund operating expenditures per  
18 formula student less than the average for all local systems with  
19 nine hundred or less formula students. The aid shall be  
20 distributed proportionally to qualifying districts based on the  
21 dollar amount each local system's calculated state aid plus the  
22 product of a levy of one dollar and ten cents for school fiscal  
23 years 1998-99 and 1999-00 and of one dollar for school fiscal year  
24 2000-01 and each school fiscal year thereafter multiplied by the  
25 assessed valuation divided by one hundred is below ninety percent  
26 of state aid plus property tax receipts received by the local  
27 system during the preceding school fiscal year. No system shall  
1 receive aid pursuant to this subsection such that the calculated  
2 state aid plus the product of a levy of one dollar and ten cents

If the study reveals a need to do so, appropriate preventive statutory language will be prepared for introduction during the next legislative session to address any injurious consequences and will include a provision granting the Department of Health and Human Services the authority to deny a child care license based on environmental factors.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

#### RESOLUTIONS

**LEGISLATIVE RESOLUTION 80.** Introduced by Dierks, 40.

PURPOSE: During the 2001 session of the Legislature, nearly two million dollars of perceived excess cash fund balances within the Department of Agriculture were reappropriated to other areas of state government. This effectively results in fees and other costs imposed upon specific segments of

the economy to support specific regulatory programs being redirected to support activities unrelated to the purposes for which the fees were originally collected. The purpose of this study is to examine the various cash funds administered by the Department of Agriculture to determine whether revenue streams supporting regulatory activities assigned to the department are appropriate and match expenditures and anticipated levels of regulatory activity.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 81.** Introduced by Dierks, 40.

**PURPOSE:** The purpose of this study is to examine the feasibility and desirability to maintain a contingency fund within or in conjunction with the Pesticide Administrative Cash Fund for purposes of extraordinary water monitoring or detection activities beyond baseline environmental pesticide monitoring. The study shall specifically focus on the following issues: (1) The statutory creation of a fund for problem area and response monitoring expenses, either as a separate cash fund or as a subaccount of the Pesticide Administrative Cash Fund, (2) clarification in law as to which agency or agencies would actually determine when and how extraordinary monitoring efforts would be carried out, (3) the creation of a process in law to clearly enable the expenditure of the monitoring reserve funds, and (4) policy decisions regarding the appropriate size of the fund.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**RESOLUTIONS****LEGISLATIVE RESOLUTION 82.** Introduced by Quandahl, 31.

**PURPOSE:** To look into current Nebraska statutes regarding exemptions. Due to recent and pending changes that have been made to federal bankruptcy statutes, the Legislature should determine if Nebraska is current with federal statutes and the states that surround Nebraska. The Legislature finds that Nebraska statutes regarding exemptions were first enacted in 1867 and have been amended several times since then. In light of changes in economic conditions, the nature of Nebraska's economy, and changes in federal consumer protection and federal bankruptcy statutes, the Legislature should study its current exemption laws to determine if updating or revisions are necessary. The review may consist of, but need not be limited to, the review of:

1. A study of the evolution and rationale behind Nebraska's exemptions statutes; and
2. Effect of changes in federal laws, including federal bankruptcy laws, and their impact on Nebraska's exemption statutes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 83.** Introduced by Quandahl, 31.

**PURPOSE:** LB 114 (2001) added consumption of alcoholic beverages by an underage person to the activities prohibited by Nebraska minor-in-possession statutes. The Legislature finds that the underage consumption of alcohol is on the rise and that the age that minors start to consume alcohol is younger than in previous years. The Legislature should conduct an interim study on determining which penalties most effectively deter underage consumption of alcoholic beverages. The study may consist of, but not be limited to, the review of:

1. What penalties or treatments would be most effective in deterring underage consumption of alcohol;
2. The impact of underage drinking on the State of Nebraska;
3. What penalties, treatments, and strategies are utilized by other states to deter underage consumption; and
4. What the Legislature's responsibility is in deterring underage consumption.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an

interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### SELECT COMMITTEE REPORTS Enrollment and Review

**LEGISLATIVE BILL 435.** Placed on Select File as amended.  
E & R amendment to LB 435:  
AM7119

1 1. Strike the original sections and all amendments  
2 thereto and insert the following new sections:  
3 "Section 1. Sections 1 to 8 of this act shall be known  
4 and may be cited as the Agricultural Suppliers Lease Protection  
5 Act.  
6 Sec. 2. The Legislature finds that agricultural  
7 production in this state is highly dependent upon businesses  
8 providing inputs for agricultural producers and markets for  
9 agricultural commodities which have historically located on lands  
10 owned and served by railroads. It is vital to the continued  
11 prosperity of agriculture that such businesses maintain reasonable  
12 access to rail service and maintain reasonable terms of tenancy  
13 upon land owned by railroads or their successors in interest. The  
14 Legislature also finds that agribusiness leaseholders' substantial  
15 investments in structures and improvements unique to their rail  
16 location, as well as dependency on rail access, place them at a  
17 disadvantage in negotiating lease renewals. The Legislature  
18 further finds that given the substantial investment in structures  
19 and improvements made by agribusiness leaseholders, it is equitable  
20 that such agribusiness leaseholders have a right of first refusal  
21 to purchase the land they lease, should it be offered for sale.  
22 The purpose of the Agricultural Suppliers Lease Protection Act is  
23 to establish a system for fair resolution of lease disputes that  
24 may arise between railroad property owners or their successors and  
1 agribusiness tenants and to guard against unreasonable lease  
2 renewal terms or unjust lease termination.  
3 Sec. 3. For purposes of the Agricultural Suppliers Lease  
4 Protection Act:  
5 (1) Agricultural tenant means any public warehouse  
6 licensee as defined in section 88-526, any livestock auction market  
7 as defined in section 54-1158, or any other persons primarily  
8 engaged in the sale or distribution of fertilizer or agricultural  
9 chemicals or farm implements, machinery, or equipment occupying  
10 railroad land owned or controlled by a railroad or its grantee or  
11 successor in interest;

- 12 (2) Good faith means honesty in fact in the conduct of  
13 the transaction concerned;
- 14 (3) Lease means any agreement between a railroad and a  
15 tenant under the terms of which a tenant occupies the surface of  
16 railroad land;
- 17 (4) Railroad land means any land acquired by a railroad  
18 in strips for right-of-way and any parcel or tract acquired by a  
19 railroad adjacent to its right-of-way to aid in the construction,  
20 maintenance, and accommodation of its railway and which is occupied  
21 pursuant to a lease by a tenant who owns substantial improvements  
22 thereon;
- 23 (5) Substantial improvements means buildings or other  
24 structures or fixtures to structures that are permanent in nature  
25 and includes equipment that is affixed to real property or  
26 structures; and
- 27 (6) Successor in interest includes any agent, successor,  
1 assignee, trustee, receiver, or other person acquiring interests or  
2 rights in railroad land, including, but not limited to, the owner  
3 or holder of any servient estate or right of reversion relating to  
4 railroad land.
- 5 Sec. 4. (1) At the expiration of an existing lease, the  
6 agricultural tenant shall be given the opportunity to renew the  
7 lease at fair market value.
- 8 (2) All controversies regarding application and  
9 reasonableness of lease terms and conditions or fair market value  
10 arising between a railroad or its successor in interest and an  
11 agricultural tenant who is the owner, lessee, or licensee of a  
12 substantial improvement situated on railroad land owned or  
13 controlled by the railroad or its successor in interest shall be  
14 resolved by negotiation or by Department of Agriculture action.
- 15 (3) The parties shall first negotiate in good faith to  
16 resolve any controversy. If any such controversy is not resolved  
17 within sixty days after notification is given to an agricultural  
18 tenant by a railroad or its successor in interest that it wishes to  
19 (a) renew a lease upon new terms, (b) terminate a lease, (c) not  
20 renew a lease upon the expiration of a current lease, or (d) change  
21 the terms of an existing lease, then either party may file a  
22 complaint with the department setting forth facts upon which such  
23 complaint is based.
- 24 (4) The department, after reasonable notice to the  
25 parties, shall hear and determine all matters in controversy and  
26 make such order as the facts of the controversy warrant. With  
27 respect to hearing and determination of the matters in controversy,  
1 the department shall have those powers granted to it under sections  
2 84-913 to 84-915.01. Any party shall have the right to appeal from  
3 such order in accordance with sections 84-917 to 84-919.
- 4 Sec. 5. (1) If a railroad or its successor in interest  
5 wishes to sell or offer to sell property leased to an agricultural  
6 tenant upon which substantial improvements owned by the

7 agricultural tenant are located, then, except where the sale or  
8 offer to sell is made to a purchaser which will use the property  
9 for railroad operating purposes or for interim trail use under the  
10 National Trails System Act, 16 U.S.C. 1243, as such act existed on  
11 the effective date of this act, the railroad or its successor in  
12 interest shall first extend to the agricultural tenant a written  
13 offer to sell the railroad land to the agricultural tenant at fair  
14 market value.

15 (2) The agricultural tenant shall have thirty days after  
16 the written offer to give written notice of either (a) acceptance  
17 of the offer to sell and of the offerer's determination of fair  
18 market value or (b) acceptance of the offer to sell and rejection  
19 of the offerer's determination of fair market value in which case  
20 the parties shall negotiate the fair market value and, if the  
21 parties cannot agree, the agricultural tenant shall have sixty days  
22 after the agricultural tenant gives notice of rejection to file a  
23 complaint with the Department of Agriculture seeking determination  
24 of fair market value.

25 (3) The Department of Agriculture, after reasonable  
26 notice to the parties, shall hear and determine the fair market  
27 value of the land offered for sale and make such order as the facts  
1 of the controversy warrant. In conducting its hearing, the  
2 department shall have those powers granted it under the  
3 Administrative Procedure Act. Any person shall have the right to  
4 appeal from such order in accordance with the act.

5 (4) If the agricultural tenant fails to give timely  
6 notice or to file a timely complaint under subsection (2) of this  
7 section or fails to complete the purchase of the property within  
8 sixty days after the fair market value has been accepted by the  
9 agricultural tenant or determined by the department, unless the  
10 delay in completing the purchase is attributable to the railroad or  
11 its successor in interest, the railroad or its successor in  
12 interest may sell or offer to sell the property to any purchaser  
13 and such purchaser shall not be bound by this section. If the  
14 property is sold to a purchaser which will use the property for  
15 railroad operating purposes or for interim trail use under the  
16 National Trails System Act, 16 U.S.C. 1243, as such act existed on  
17 the effective date of this act, then the purchaser shall be bound  
18 by all of the provisions of the Agricultural Suppliers Lease  
19 Protection Act.

20 Sec. 6. (1) The Department of Agriculture, in  
21 consultation with the parties, may employ the services of a  
22 certified general real estate appraiser when determination of fair  
23 market value is a matter in controversy or relevant to the hearing  
24 and determination of the matter in controversy.

25 (2) All costs incurred by the department hearing and  
26 determining all matters in controversy pursuant to the Agricultural  
27 Suppliers Lease Protection Act shall be paid equally by the  
1 parties.

- 2 Sec. 7. The Agricultural Suppliers Lease Protection Act  
3 shall not apply to any valid lease entered into prior to the  
4 effective date of this act or any renewal or extension thereof on  
5 the same terms and conditions, but the provisions of the act shall  
6 apply to and govern any renewal or extension of such lease on any  
7 different terms or conditions or any material modifications of any  
8 such lease effected on or after the effective date of this act.
- 9 Sec. 8. The Agricultural Suppliers Lease Protection Cash  
10 Fund is created. All funds collected by the Department of  
11 Agriculture under the Agricultural Suppliers Lease Protection Act  
12 shall be remitted to the State Treasurer for credit to the fund.  
13 The fund shall be used by the department to aid in defraying the  
14 expenses of administering the act. Any money in the fund available  
15 for investment shall be invested by the state investment officer  
16 pursuant to the Nebraska Capital Expansion Act and the Nebraska  
17 State Funds Investment Act.
- 18 Sec. 9. Section 75-109, Revised Statutes Supplement,  
19 2000, is amended to read:
- 20 75-109. (1) Except as provided in the Agricultural  
21 Suppliers Lease Protection Act and sections 19-4603, 86-803, and  
22 86-808, the commission shall regulate and exercise general control  
23 as provided by law over all common and contract carriers engaged in  
24 the transportation of freight or passengers for hire or furnishing  
25 telecommunications services for hire in Nebraska intrastate  
26 commerce.
- 27 (2) The commission is authorized to do all things  
1 reasonably necessary and appropriate to implement the federal  
2 Telecommunications Act of 1996, Public Law 104-104, including  
3 section 252 of the act which establishes specific procedures for  
4 negotiation and arbitration of interconnection agreements between  
5 telecommunications companies. Interconnection agreements approved  
6 by the commission pursuant to section 252 of the act may contain  
7 such enforcement mechanisms and procedures that the commission  
8 determines to be consistent with the establishment of fair  
9 competition in Nebraska telecommunications markets. In addition,  
10 the commission may administratively fine pursuant to section 75-156.  
11 any person who violates any enforcement mechanism or procedure  
12 established pursuant to this subsection. The authority granted to  
13 the commission pursuant to this subsection shall be broadly  
14 construed in a manner consistent with the federal  
15 Telecommunications Act of 1996.
- 16 Sec. 10. Original section 75-109, Revised Statutes  
17 Supplement, 2000, is repealed."

12 notified that a tank so registered has been permanently closed.  
13 Such registration shall specify the ownership of, location of, and  
14 substance stored in the tank to be registered. The State Fire  
15 Marshal shall remit the fee to the State Treasurer for credit to  
16 the Petroleum Products and Hazardous Substances Storage and  
17 Handling Fund which is hereby created as a cash fund. The fund  
18 shall also consist of any money appropriated to the fund by the  
19 state. The fund shall be administered by the Department of  
20 Environmental Quality to carry out the purposes of the Petroleum  
21 Products and Hazardous Substances Storage and Handling Act,  
22 including the provision of matching funds required by Public Law  
23 99-499 for actions otherwise authorized by the act. Any money in  
24 such fund available for investment shall be invested by the state  
25 investment officer pursuant to the Nebraska Capital Expansion Act  
26 and the Nebraska State Funds Investment Act.

27 Sec. 12. (1) If a remedial action plan submitted by a  
1 responsible person as defined in section 66-1514 is approved or  
2 deemed to be approved by the Department of Environmental Quality  
3 pursuant to subdivision (2) of section 81-15,124 and has been  
4 carried out, the department may issue to the responsible person a  
5 certificate of completion stating that no further remedial action  
6 needs to be taken at the site relating to any contamination for  
7 which remedial action has already been taken in accordance with the  
8 approved remedial action plan. The department shall condition the  
9 certificate of completion upon compliance with any monitoring,  
10 institutional, or technological controls that may be necessary and  
11 which were relied upon by the responsible person to demonstrate  
12 compliance with the remedial action plan. Any certificate of  
13 completion issued pursuant to this section shall be in a form which  
14 can be filed for record in the real estate records of the county in  
15 which the remedial action took place. The responsible person shall  
16 file the certificate of completion and notify the department within  
17 ten days after issuance as to the date and location of the real  
18 estate filing. If the department issues a certificate of  
19 completion to a responsible person under this section, a covenant  
20 not to sue shall arise by operation of law subject to subsection  
21 (2) of this section. The covenant not to sue releases the  
22 responsible person from liability to the state and from liability  
23 to perform additional environmental assessment, remedial activity,  
24 or response action with regard to the release of a petroleum  
25 product for which the responsible person has complied with the  
26 requirements of this subsection. The covenant not to sue shall be

27 voided if the responsible person fails to conduct additional  
1 remedial action as required under subsection (2) of this section,  
2 if a certificate of completion is revoked by the department under  
3 subsection (3) of this section, or if the responsible person fails  
4 to comply with the monitoring, institutional, or technological  
5 controls, if any, upon which the certificate of completion is  
6 conditioned.  
7 (2) A certificate of completion issued by the department  
8 under subsection (1) of this section shall require the responsible  
9 person to conduct additional remedial action in the event that any  
10 monitoring conducted at or near the real property or other  
11 circumstances indicate that (a) contamination is reoccurring, (b)  
12 additional contamination is present for which remedial action was  
13 not taken according to the remedial action plan, or (c)  
14 contamination from the site presents a threat to human health or  
15 the environment and was not addressed in the remedial action plan.  
16 (3) A certificate of completion shall be revoked if the  
17 department demonstrates by a preponderance of the evidence that  
18 any approval provided under this section was obtained by fraud or  
19 material misrepresentation, knowing failure to disclose material  
20 information, or false certification to the department. The  
21 department shall file a copy of the notice of revocation of any  
22 certificate of completion in the real estate records of the county  
23 in which the remedial action took place within ten days after such  
24 revocation.  
25 (4) If a responsible person transfers property to an  
26 affiliate in order for that affiliate to obtain a benefit to which  
27 the transferor would not otherwise be eligible under this section  
1 or to avoid an obligation under this section, the affiliate shall  
2 be subject to the same obligations and obtain the same level of  
3 benefits as those available to the transferor under this section.  
4 (5)(a) A covenant not to sue arising under subsection (1)  
5 of this section, unless voided pursuant to such subsection, shall  
6 bar suit against any person who acquires title to property to which  
7 a certificate of completion applies for all claims of the state or  
8 any other person in connection with petroleum products which were  
9 the subject of an approved remedial action plan and (b) a person  
10 who purchased a site before the effective date of this act is  
11 released, upon the issuance of a certificate of completion under  
12 this section or upon the issuance of a no further action letter on  
13 or after the effective date of this act pursuant to section  
14 81-15,186, from all liability to the state for cleanup of  
15 contamination that was released at the site covered by the  
16 certificate of completion or the no further action letter before  
17 the purchase date, except as provided in subsection (4) of this  
18 section, for releases or consequences that the person contributed  
19 to or caused, for failure by such person to comply with the  
20 monitoring, institutional, or technological controls, if any, upon  
21 which the certificate of completion is conditioned, or in the event

22 the certificate of completion is revoked by the department under  
23 subsection (3) of this section.

24 (6) Any person entitled to the protections of the  
25 covenant not to sue or eligible to be released from liability  
26 pursuant to the issuance of a certificate of completion or a no  
27 further action letter under subsection (5) of this section who is  
1 ordered by the department to take remedial action shall be eligible  
2 for reimbursement as a responsible person pursuant to section  
3 66-1525 and shall not be required to pay the first cost or percent  
4 of the remaining cost as provided in subsection (1) of section  
5 66-1523 unless such person contributed to or caused the release or  
6 failed to comply with the monitoring, institutional, or  
7 technological controls, if any, imposed under subsection (1) of  
8 this section.

9 Sec. 13. Upon issuance of a certificate of completion  
10 under section 12 of this act, except as otherwise provided in such  
11 section, the responsible person shall no longer have liability to  
12 the state as to the release of petroleum products for which  
13 compliance with the remedial action plan is demonstrated by the  
14 responsible person.

15 Sec. 14. (1) Participating in a remedial action plan  
16 does not constitute an admission of liability under the laws of  
17 this state, the rules and regulations adopted pursuant to law, or  
18 the ordinances and resolutions of any political subdivision or an  
19 admission of civil liability under statutory or common law of this  
20 state.

21 (2) The fact that a responsible person has participated  
22 in a remedial action plan is not admissible in any civil, criminal,  
23 or administrative proceeding initiated or brought under any law of  
24 this state other than to enforce sections 12 to 14 of this act.

25 (3) Participating in a remedial action plan shall not be  
26 construed to be an acknowledgment that the conditions of the  
27 affected area identified and addressed by the remedial action plan  
1 constitute a threat or danger to the public health or safety or the  
2 environment."

8 Sec. 5. Section 79-4,108, Revised Statutes Supplement,  
9 2000, is amended to read:

10 79-4,108. (1)(a) Unified system means two or more Class  
11 II or III school districts participating in an interlocal agreement  
12 under the Interlocal Cooperation Act with approval from the State  
13 Committee for the Reorganization of School Districts. The  
14 interlocal agreement may include Class I districts if the entire  
15 valuation is included in the unified system. The interlocal  
16 agreement shall provide for a minimum term of three school years.  
17 The agreement shall provide that all property tax and state aid  
18 resources shall be shared by the unified system and that a board  
19 composed of school board members, with at least one school board  
20 member from each district, shall determine the general fund levy,  
21 within the limitations placed on school districts and  
22 multiple-district school systems pursuant to section 77-3442, to be  
23 applied in all participating districts and shall determine the  
24 distribution of property tax and state aid resources within the  
25 unified system. For purposes of section 77-3442, the  
26 multiple-district school system shall include all of the Class I,  
27 II, and III districts participating in the unified system and the  
1 Class I districts or portions thereof affiliated with any of the  
2 participating Class II and III districts.

3 (b) The interlocal agreement shall also provide that  
4 certificated staff will be employees of the unified system. For  
5 any certificated staff employed by the unified system, ~~tenure and~~  
6 seniority as of the effective date of the interlocal agreement  
7 shall be transferred to the unified system and ~~tenure and~~ seniority  
8 provisions shall continue in the unified system except as provided  
9 in sections 79-850 to 79-858. If a district withdraws from the  
10 unified system or if the interlocal agreement expires and is not  
11 renewed, certificated staff employed by a participating district  
12 immediately prior to the unification shall be reemployed by the  
13 original district and ~~tenure and~~ seniority as of the effective date  
14 of the withdrawal or expiration shall be transferred to the  
15 original district. The certificated staff hired by the unified  
16 system but not employed by a participating district immediately  
17 prior to the unification shall be subject to the reduction-in-force  
18 policy of the unified system. The interlocal agreement shall also  
19 require participating districts to pay obligations of the unified

20 system pursuant to sections 79-850 to 79-858 on a pro rata basis  
21 based on the adjusted valuations if a district withdraws from the  
22 unified system or if the interlocal agreement expires and is not  
23 renewed. Additional provisions in the interlocal agreement shall  
24 be determined by the participating districts and shall encourage  
25 cooperation within the unified system.

26 (2) Application for unification shall be made to the  
27 state committee. The application shall contain a copy of the  
1 interlocal agreement signed by the president of each participating  
2 school board. The state committee shall approve or disapprove  
3 applications for unification within thirty days after receipt of  
4 the application. If the interlocal agreement complies with  
5 subsection (1) of this section and all school boards of the  
6 participating districts have approved the interlocal agreement, the  
7 state committee shall approve the application. Unification  
8 agreements shall be effective on June 1 following approval from the  
9 state committee for status as a unified system or on the date  
10 specified in the interlocal agreement, except that the date shall  
11 be on or after June 1 and on or before September 1 for a specified  
12 year. The board established in the interlocal agreement may begin  
13 meeting any time after the application has been approved by the  
14 state committee.

15 (3) Upon granting the application for unification, the  
16 State Department of Education shall recognize the unified system as  
17 a single Class II or III district for state aid, budgeting,  
18 accreditation, enrollment of students, state programs, and  
19 reporting. The unified system shall submit a single report  
20 document for each of the reports required of school districts  
21 pursuant to Chapter 79 and shall submit a single budget document  
22 pursuant to the Nebraska Budget Act and sections 13-518 to 13-522.  
23 The class of district shall be the same as the majority of  
24 participating districts, excluding Class I districts. If there are  
25 an equal number of Class II and Class III districts in the unified  
26 system, the unified system shall be recognized by the department as  
27 a Class III district.

1 (4) The school districts participating in a unified  
2 system shall retain their separate identities for all purposes  
3 except those specified in this section, and participation in a  
4 unified system shall not be considered a reorganization.

 22 a criterion to be used for reduction in force, specific criteria  
 23 such as frequency of evaluation, evaluation forms, and number and  
 24 length of classroom observations shall be included as part of the  
 25 reduction-in-force policy.

26 Sec. 7. Section 79-847, Reissue Revised Statutes of

 17 otherwise altered as provided for unified systems or reorganized  
 18 school districts in section 79-850, except that such teachers shall  
 19 for the purpose of reduction in force be considered teachers of the  
 20 unified system or reorganized school district or districts and the  
 21 teachers shall be given full credit for the years of teaching  
 22 experience they had acquired as well as the same ~~tenure or~~

1 Sec. 5. Section 79-473, Revised Statutes Supplement,  
2 2000, is amended to read:

3 79-473. (1) If the territory annexed by a change of  
4 boundaries of a city or village which lies within a Class III or IV  
5 school district as provided in section 79-407 or 79-408 has been  
6 part of a different Class IV or Class V school district prior to  
7 such annexation, a merger of the annexed territory with the Class  
8 III or IV school district shall become effective only if the merger  
9 is approved by a majority of the members of the each school board  
10 of the Class IV or V school district and a majority of the members  
11 of the school board of the Class III school district within ninety  
12 days after the effective date of the annexation ordinance.

13 (2) ~~Notwithstanding subsection (1) of this section, when~~

7 If no agreement has been reached within ninety days after  
8 the effective date of the annexation ordinance, the territory shall  
9 transfer to the school district of the annexing city or village ten  
10 days after the expiration of such ninety-day period unless an  
11 affected school district petitions the district court within the  
12 ten-day period and obtains an order enjoining the transfer and  
13 requiring the boards of the affected school districts to continue  
14 negotiation. The court shall issue the order upon a finding that

11 affected school board of the school district within the city of the  
12 first or second class or its representative and the affected board  
13 or boards serving the territory subject to the final plat or replat  
14 or their representative shall meet within thirty days after such  
15 application and negotiate in good faith as to which school district  
16 shall serve the platted or replatted territory and the effective  
17 date of any transfer based upon the criteria prescribed in  
18 subsection (2) of this section.

19 If no agreement has been reached prior to the approval of  
20 the final plat or replat, the territory shall transfer to the

21 school district of the city of the first or second class upon the  
 22 filing of the final plat unless an affected school district  
 23 petitions the district court within ten days after approval of the  
 24 final plat or replat and obtains an order enjoining the transfer

(Amendments to Standing Committee amendments, AM1406)

1 1. Insert the following new sections:  
 2 "Sec. 11. Section 79-1015.01, Revised Statutes  
 3 Supplement, 2000, is amended to read:  
 4 79-1015.01. (1) Local system formula resources shall  
 5 include local effort rate yield which shall be computed as  
 6 prescribed in this section.  
 7 (2) For state aid certified pursuant to section 79-1022,  
 8 the local effort rate shall be the maximum levy authorized pursuant  
 9 to section 77-3442 less ten cents. For the final calculation of  
 10 state aid pursuant to section 79-1065, the local effort rate shall  
 11 be the rate which, when multiplied by the total adjusted formula  
 12 valuation of all taxable property in local systems receiving  
 13 equalization aid pursuant to the Tax Equity and Educational  
 14 Opportunities Support Act, will produce the amount needed to  
 15 support the total formula need of such local systems when added to  
 16 state aid appropriated by the Legislature and other actual receipts  
 17 of local systems described in section 79-1018.01. The local effort  
 18 rate yield shall be determined by multiplying each local system's  
 19 total adjusted formula valuation by the local effort rate.

20 Sec. 16. Section 79-1072.01, Revised Statutes  
21 Supplement, 2000, is amended to read:  
22 79-1072.01. (1) Temporary mitigation funds shall be  
23 distributed to local systems which have property tax and state aid  
1 resources for school fiscal year 1998-99 which are less than ninety  
2 percent of their property tax and state aid resources for school  
3 fiscal year 1997-98. The local system shall receive a lump-sum  
4 payment in an amount equal to ninety percent of the school fiscal  
5 year 1997-98 property tax and state aid resources minus the school  
6 fiscal year 1998-99 property tax and state aid resources if the  
7 following criteria are met:  
8 (a) The local system's school fiscal year 1997-98 general  
9 fund budget of expenditures minus the special education budget of  
10 expenditures did not exceed the school fiscal year 1995-96 general  
11 fund budget of expenditures minus the special education budget of  
12 expenditures by more than two percent plus the two-year percentage  
13 growth in students for the local system; and  
14 (b)(i) The local system has shown an intent to merge,  
15 consolidate, or unify with at least one specified high school  
16 district by June 1, 1999, through a public affirmative vote by the  
17 school board of the high school district in the local system with a  
18 majority of the members of the school board signing an affidavit  
19 acknowledging that the intent of the signing board member is to  
20 proceed with a merger, consolidation, or unification involving the  
21 district on the board of which they are serving. Affidavits shall  
22 be filed with the State Department of Education on or before August  
23 1, 1998. The temporary mitigation funds provided in this section  
24 shall be returned if the receiving district does not merge,  
25 consolidate, or unify prior to June 30, 2000. The temporary  
26 mitigation funds need not be returned if, prior to June 30, 2000,  
27 the receiving district is unable as determined by the State  
1 Committee for the Reorganization of School Districts to merge,  
2 consolidate, or unify despite good faith efforts because all  
3 districts with which the receiving district could reasonably be  
4 expected to merge, consolidate, or unify declined such merger,  
5 consolidation, or unification;  
6 (ii) The local system is within the sparse cost grouping  
7 or the very sparse cost grouping pursuant to section 79-1007.02;  
8 (iii) The local system contains more than one hundred  
9 seventy-five square miles; or  
10 (iv) The local system is subject to loss of state aid due  
11 to clerical error as defined in subsection (4) of section 79-1016.  
12 (2) If the payments due to local systems under this  
13 section exceed the amount of funds appropriated by the Legislature,  
14 the funds shall be distributed on a pro rata basis to such local  
15 systems. Payments shall be made on or before September 15, 1998.  
16 Payments to local systems that include Class I districts shall be  
17 divided proportionally among the districts in the local system  
18 based on the weighted formula students attributed to each district

19 in the local system for the certification of state aid to be paid  
 20 in school fiscal year 1998-99. The department shall identify local  
 21 systems which qualify for payments under this section and shall  
 22 distribute the funds to the districts in qualifying local systems.  
 23 (3) The department shall adjust payments of state aid as  
 24 defined in ~~subdivision (35)~~ of section 79-1003 to those school  
 25 districts which received temporary mitigation funds and did not  
 26 merge after a final determination by the State Committee for the  
 27 Reorganization of School Districts. If the total adjustment cannot  
 1 be made from the funds to be provided in the ensuing school fiscal  
 2 year, the adjustment shall be prorated, with additional adjustments  
 3 to payments for the future school fiscal years. The department  
 4 shall maintain an accurate account and a record of the reasons the  
 5 adjustments were made and the amount of such adjustments.

15 Summons shall be served on all parties within thirty days after the  
16 filing of the petition in the manner provided for service of a

14 that: (a) The applicant is likely to prevail when the court finally

15 disposes of the matter; (b) without relief, the applicant will

9 petitioner with the reasonable direct cost or require the  
10 petitioner to pay the cost for preparing the official record for  
11 transmittal to the court in all cases except when the petitioner is  
12 not required to pay a filing fee. The commission may require  
13 payment or bond prior to the transmittal of the record.  
14 (5) The review shall be conducted by the court for error  
15 on the record of the commission. If the court determines that the  
16 interest of justice would be served by the resolution of any other  
17 issue not raised before the commission, the court may remand the  
18 case to the commission for further proceedings. The court may  
19 affirm, reverse, or modify the decision of the commission or remand

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 99.** Introduced by Byars, 30.

**PURPOSE:** To review the legitimacy of requiring the noncustodial parent to continue child support payments for a developmentally disabled child who is over nineteen years of age. When a child reaches the age of nineteen, court-ordered financial support by the noncustodial parent ends. A healthy child is considered to be capable of becoming self-sufficient at nineteen years of age; however, a developmentally disabled child who reaches this age may not have the same capacity. At this point, the financial burden of continued support for a developmentally disabled child usually falls to the custodial parent.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 100.** Introduced by Jensen, 20.

**PURPOSE:** The Legislature recognizes the importance of the corridor between Lincoln and Omaha along Interstate 80. LB 661 (2001) was introduced with the intent to study the development possibilities of the corridor. LB 661 was advanced to General File by the Transportation and Telecommunications Committee of the Legislature but did not have the opportunity to be heard by the full Legislature. The purpose of this study is to determine proper goals and objectives in an effort to assist the creation, in a future legislative bill, of a task force similar to the one set up in LB 661. This study shall identify individuals who should be included in the task force to insure a knowledgeable, diverse, and competent compilation. Also, the study shall identify what a reasonable allocation of funds for a task force of this nature should be and ascertain practical methods for the task force to stay within the allocated funds.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 101.** Introduced by Business and Labor Committee; Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** The purpose of this study is to examine private service contracts entered into by state agencies. Data collected in a previous study reveals that in one agency there was a 13.64% decrease in the percentage of total dollars spent on permanent employees, whereas the total dollars spent on private contracts increased over \$16 million in the same time period. In just a two-year period, the state spent over \$625 million on reported private service contracts. The Legislature needs to determine whether the growth in state expenditures on private service contracts is cost effective and in the public's best interest. In order to achieve this goal, the study will include, but not be limited to, the following issues:

1. Whether or not state agencies are conducting adequate economic analyses of entering into private service contracts and if there is a public interest which outweighs having the services performed directly by the agency;

2. Whether there are adequate control mechanisms and management of contracts in place, including fiscal and performance monitoring, to ensure that services are provided pursuant to the terms of the contract, and whether these considerations are reexamined upon renewal of the contract;

3. Review current statutory requirements in sections 73-301 to 73-307 of the Nebraska Statutes to determine whether state law needs to be amended in order to clarify when and under what circumstances an analysis must be performed before entering into a contract with a private entity for personal services;

4. Examine current state expenditures as well as past expenditures over the last four years to determine how much the state is spending and has spent on private service contracts each year, identify the predominant services being contracted out;

5. Examine whether there is, or should be, coordination of some of the private contracts among agencies;

6. Examine security and public safety issues as they relate to privatization of any services at public and private prisons;

7. Examine the effect on public employees' morale, agency job vacancies or turnover rates, and compare salaries paid to state employees and private contractors who are carrying out similar or same job responsibilities;

8. Examine public records and open meetings issues as they may relate to services provided by private contractors; and

9. Review the policies and practices of other states regarding contracting for private services as well as other literature on this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee and the Appropriations Committee of the Legislature, in consultation with labor representatives, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 102.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** As the State of Nebraska has a compelling interest in promoting public safety, this study shall examine the quality of life for railroad employees and how current working conditions and environment affect those employees. Since Nebraska has two of the highest traveled railroad corridors in the nation, the state has a strong interest in examining the potential dangers for fatigue and fatigue-related accidents.

Although the nation's railroad employees are covered by rules and regulations of the Federal Railroad Administration (FRA), which establishes an hourly maximum work period, it fails to guarantee a cumulative weekly maximum that governs workers' working hours. The FRA has sought authority in Congress to issue regulations specifically relating to fatigue under the hours of service, however, Congress has not deemed it appropriate to do so.

The study shall include, but not be limited to, an investigation into the following:

1. The extent to which states may legislate matters covering railroads and railroad employees in light of the federal regulatory authority of the Federal Railroad Administration;

2. The extent to which states may legislate matters covering railroads and railroad employees in light of national and local collective bargaining agreements;

3. The implications of railroad companies requiring employees who operate a train or locomotive to be on duty or available for duty unless at least 72 consecutive hours have passed;

4. The implications of railroad companies requiring employees who operate a train or locomotive to be on duty or available for duty for any portion of each of the previous seven consecutive days;

5. The potential dangers to the employees and the public related to fatigue and fatigue-related accidents;

6. The policies surrounding an employee who has been involved in a train accident regarding time off from work and post-accident counseling;

7. Any issue relating to employee safety and the provisions of law or company policies under which railroad employees operate;

8. Any additional issues deemed pertinent to the complete review and

analysis of railroad safety; and

9. Legislation that is pending in the Nebraska Legislature relating to railroads and railroad employees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 103.** Introduced by Business and Labor Committee; Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study the process that the State Claims Board utilizes to approve claims made against the State of Nebraska, many of which ultimately arrive before the Business and Labor Committee and the Legislature for approval as required by statute. When the Legislature considers some claims, further questions often arise regarding the background of the claim.

This study will comprehensively investigate the claims process, particularly as it relates to the Legislature. Matters to be studied include, but are not limited to, the following:

(1) The claims statutes, rules and regulations, and other material to determine whether the system is operating efficiently;

(2) The correspondence between the State Claims Board and the Treasurer's office regarding lost or expired warrants and the processes utilized to reduce the number of such warrants;

(3) Whether agencies should be given more authority to handle lost warrant claims instead of having the process run through the Legislature;

(4) Whether the State Claims Board receives sufficient information to make determinations on claims; and

(5) The occurrence of professional finders using the public records of outstanding warrants to profit by "finding" the warrant owner, and whether there should be a limit on the fee finders may charge for "finding" outstanding warrants.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 104.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study the managed care system for workers' compensation as established in section 48-120.02, Revised Statutes Supplement, 2000. The study will include an investigation of how the system can be improved and how participation can be increased.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 105.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study the safety inspection program created by LB 757, Ninety-Third Legislature, First Session, 1993. The study shall consider, but not be limited to, the following:

(1) The impact of LB 757 safety inspections on workers' compensation injuries and losses; and

(2) The appropriate funding source for such inspections if they are continued, as the cost of such inspections is now being paid by a combination of inspection fees charged directly to those employers being inspected and revenue generated by a now expired additional charge to workers' compensation premiums, which is projected to be exhausted in early 2003.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 106.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5;

Schimek, 27.

**PURPOSE:** To study Nebraska's child labor laws. The examination shall include, but not be limited to, the following:

- (1) A review of Nebraska's child labor statutes to determine the circumstances under which they apply;
- (2) Whether revisions of the child labor statutes are necessary to provide clarity on applicability; and
- (3) A review of federal and state child labor laws to determine with which law a Nebraska employer must comply. This review shall include an investigation into the hours of work statutes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 107.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study the issues proposed in LB 626, introduced by Sen. Beutler during the Ninety-Seventh Legislature, First Session, 2001. LB 626 proposes new language that would require all full-time employees performing services under certain contracts for personal services to be paid a minimum wage of at least \$8.19 for employees who receive health care benefits and at least \$9.01 for employees who do not receive health care benefits. The personal contracts affected by this bill are those involving \$75,000 or more per year between a private entity and a state agency, other than the University of Nebraska or any other agency established by the Constitution of Nebraska.

The study shall consider:

1. The number of contractors that would be affected;
2. The number of employees that would be affected;
3. The wages that are currently paid to affected employees; and
4. The implications of requiring these wages.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 108.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To examine LB 370, introduced in the Ninety-Seventh Legislature, First Session, by Senator Price. The study will examine the feasibility of amending sections 48-601 and 48-602 of the Nebraska Statutes, relating to the Employment Security Law, to allow unemployment insurance benefits for employees who voluntarily leave work to be with a child during the first year of life or first year of adoption.

The U.S. Department of Labor issued notice of proposed rulemaking release in the Federal Register in December, 1999, 20 C.F.R. part 604, that proposed a voluntary experimental program to allow states to pay unemployment insurance to parents who take time off from work after the birth or adoption of a child. A revised interpretation of the federal Unemployment Tax Act of 1935 allows a new unemployment insurance eligibility that permits states to grant these benefits.

This study will examine the laws that are being considered in other states on this topic and will investigate the ramifications of passing such a law in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 109.** Introduced by Preister, 5.

**PURPOSE:** The purpose of the study is to conduct a review of the Remedial Action Plan Monitoring Act which was enacted in 1994. The review will include, but not be limited to, an investigation of the following:

(1) Analysis of the applications that have been filed and whether the applications are consistent with the original intent of the act;

(2) The authority and duties of the Department of Environmental Quality under the act and whether such authority and duties should be expanded;

(3) Whether land and water pollution is being sufficiently remediated to adequately protect the health and safety of the public and the environment; and

(4) Whether there should be an opportunity for public hearing and comment before the plans are finally approved and a no further action letter is granted.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE**

2. That the committee shall conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

2 "Sec. 41. (1) By January 1, 2005, and each January 1

3 every five years thereafter for so long as there are companies that

4 have qualified for benefits and remain within the entitlement

5 period, there shall be an audit to determine compliance with the

6 Invest Nebraska Act. The Tax Commissioner shall contract with a

7 qualified independent accounting firm to conduct the audit. The

8 cost of the audit shall be paid from funds appropriated to the

9 Department of Revenue by the Legislature. Such cost shall include,  
10 in addition to the fees and costs of such independent firm, the  
11 incremental costs to the department to comply with this section, as  
12 determined by the department. If a qualified independent  
13 accounting firm cannot be located or engaged to conduct such audit,  
14 then such audit shall instead be performed by the department. A  
15 qualified independent firm shall be a firm that meets all of the  
16 following requirements: (a) The firm must be an accounting firm  
17 employing or comprised of at least ten certified public accountants  
18 who are licensed under the Public Accountancy Act to practice  
19 accounting and auditing in Nebraska; (b) the firm, at the time of  
20 the beginning of such audit, and for the period of at least  
21 twenty-four months before such audit commences, has not performed  
22 any services for any of the companies that at such time have filed  
23 applications under the Invest Nebraska Act, and the firm must agree  
1 not to engage in and to withdraw from representing any companies  
2 that file applications after such audit commences and before the  
3 audit report is issued; (c) the firm must have executed such audit  
4 contract as required by the Tax Commissioner, and (d) the firm, and  
5 all such accountants and personnel of such firm who will be  
6 involved in the audit, must have executed such confidentiality and  
7 nondisclosure agreements as required by the Tax Commissioner. In  
8 hiring such firm, the Tax Commissioner shall comply with all  
9 Nebraska laws pertaining to the selection and hiring of outside  
10 private sector services.

11 (2) The purpose of the audit is to examine information  
12 collected by the department in order to determine:

13 (a) The extent the data collected from the companies  
14 receiving benefits is verified;

15 (b) The extent to which the projects receiving benefits  
16 from the act are in compliance with the act initially and  
17 throughout the entitlement period;

18 (c) Whether the requirements of the act regarding the  
19 investment threshold have been attained and maintained by the  
20 companies;

21 (d) Whether and to what extent new employees are added by  
22 the companies to their workforce and employed at the project  
23 locations;

24 (e) Whether and to what extent the new jobs created meet  
25 the minimum compensation requirements of the act;

26 (f) The industry or industries in which the new jobs are  
27 created, by North American Industry Classification System Code;

1 (g) The extent to which the minimum new job threshold of  
2 the act has been attained and maintained by the companies;

3 (h) By category of spending, what is purchased by the  
4 companies that is claimed as qualified investments; and  
5 (i) Gross sales from output of the project if reasonably  
6 determinable.

7 (3) After the audit is conducted, and on or before

8 January 1, 2005, and each January 1 every five years thereafter,  
9 the auditor shall issue a report to the Legislature and Governor  
10 detailing the results of the audit. The report shall be presented  
11 using aggregated information and other techniques so as not to  
12 reveal confidential information that allows identification of the  
13 company. The report shall not be issued until the Tax Commissioner  
14 has confirmed in writing that the report does not reveal any  
15 confidential information that allows identification of the company.  
16 For purposes of this section, confidential information includes all  
17 information that is (a) referred to as confidential in section 32  
18 of this act, (b) restricted from disclosure or treated as  
19 confidential under any federal or state law, or (c) provided by the  
20 company to the department in connection with the company's project  
21 under the act. The report shall detail all assumptions, methods,  
22 or models that were used in performing the analysis and shall  
23 report information by industry group or expenditure category so  
24 that further analysis can be performed. The firm shall have access  
25 to all records of the department with regard to the credits granted  
26 under the act and the companies receiving such credits. Such  
27 records shall remain confidential in the hands of the firm  
1 conducting the audit and shall not be revealed to any person that  
2 is not employed by the department or the firm conducting the audit.  
3 No officer or employee of the firm conducting the audit shall  
4 disclose any information to any other person if such information is  
5 protected by federal or state confidentiality laws.  
6 Notwithstanding any other provision of this section to the  
7 contrary, neither the independent accounting firm nor any of its  
8 personnel shall be provided by the department with any confidential  
9 information except to the extent and under conditions when the  
10 department is permitted without penalty to do so under applicable  
11 federal or state laws.  
12 (4) All information provided by the department to the  
13 independent accounting firm shall be examined only on the premises  
14 of the department and shall be stored in a secure place. The firm  
15 shall make no copies of such information. Any qualified  
16 independent accounting firm, or any personnel of the firm, which  
17 violates this section shall be guilty of a Class IV felony and, in  
18 the discretion of the court, may be assessed the costs of  
19 prosecution.  
20 (5) Nothing in this section shall be construed to require  
21 the company to provide, or require the department to obtain from  
22 the company, any information beyond that required as part of the  
23 application or beyond that required by the department to confirm  
24 the company is entitled to the benefits of the act or to obtain the  
25 information required in subsection (2) of this section. The  
26 independent accounting firm shall not request any information from  
27 the company or its personnel. The independent accounting firm  
1 shall be permitted and expected to obtain additional outside public  
2 information available from sources outside of the company and the

- 3 department in order to comply with the requirements for the report  
 4 if copies of all such data, information, and sources are made  
 5 available to the public or included with the report.".

 4 from either the department or the company is confidential and is  
 5 not discoverable or admissible in evidence in any civil action, and  
 6 no department or company personnel shall be compelled to testify in  
 7 regard thereto. Such information may be discovered and be  
 8 admissible, and testimony compelled in regard thereto, by the  
 9 department or by the company in an action relating to the  
 10 determination of whether the company is entitled to the benefits of

### RESOLUTIONS

**LEGISLATIVE RESOLUTION 111.** Introduced by Suttle, 10.

**PURPOSE:** The purpose of this resolution is to study the laws and regulations governing delayed deposit services and debt management services licensed in Nebraska. The study shall evaluate the laws and regulations to determine if they are currently fashioned in a way that adequately protect financially vulnerable citizens who may utilize the services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 112.** Introduced by Preister, 5.

**PURPOSE:** The purpose of the study is to examine possible prior notification alternatives regarding application of pesticides to lawns and indoors. The goal of prior notification is prevention. By giving people accurate information and prior notice, people are allowed to make their own decisions about the level of risk they are willing to accept. These kinds of preventative measures may also reduce personal harm and related medical costs associated with ill effects from pesticide exposure.

The study shall seek to find a means of notification to neighbors, parents, schools, and homes and to apartment and business dwellers, while balancing the economic and logistical concerns of pesticide applicators. The study

shall include, but not be limited to, an investigation of the following:

(1) Various prior notification methods, including written notice, posting indoors or on lawn areas, establishing a registry, and voluntary notification, regarding application of pesticides to lawns or other outdoor vegetation or application of pesticides indoors;

(2) Notification requirements to new homeowners prior to sale regarding any pesticides or other chemicals that were applied indoors, around the home, or anywhere on the property;

(3) Determination of whether cemeteries, golf courses, and governmental agencies should be included in the notification requirements;

(4) Examination of particular notification requirements for schools and other buildings or areas where children are present;

(5) Examination of strategies for educating the public about pesticides and notification programs and possible funding mechanisms for enforcement, public education, and training;

(6) Examination of other states' laws regarding prior notification programs; and

(7) Examination of whether the preemption clause should be deleted from state statute so local governments could administer their own pesticide notification ordinances.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 113.** Introduced by Kremer, 34.

**PURPOSE:** Since its enactment in 1990, the Tax Equity and Educational Opportunities Support Act has contained a provision for the use of adjusted valuations in the equalization formula. School systems which are assessed at less than the full standard of assessment (one hundred percent of market value for most real property, eighty percent of market value for agricultural or horticultural land) are held accountable for the valuation their system would have had if it were assessed at the full statutory standard. This prevents school systems in counties assessing at less than the statutory standard from receiving a windfall of state equalization aid. However, due to the implementation of levy limitations in 1998-99, school systems and taxpayers in counties assessed at less than full valuation are treated differently than those in counties assessing at the full statutory standard. The reason is that, while state aid is based on the adjusted valuations, actual property taxes owed by taxpayers and collected by school systems are less in counties assessing at less than full value. This study shall examine:

(1) The impact on property taxpayers and on school systems produced by the interaction of the use of adjusted valuations for state aid purposes while simultaneously using assessed valuations for actual property taxation; and

(2) The feasibility of adjusting the levy limitations for school systems on the same basis by which their valuations are adjusted for state aid purposes, as a means to enhance the equity of the property tax-state aid interaction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 115.** Introduced by Natural Resources Committee: Schrock, 38, Chairperson; Bruning, 3; Hudkins, 21; Jones, 43; Kremer, 34; Preister, 5; Stuhr, 24.

**PURPOSE:** The purpose of this study is to examine the environmental impact of the disposal of an estimated 315 million computers nationwide by the year 2004, along with other electronic equipment items. Electronic equipment contributes significant levels of mercury, arsenic, cadmium, and selenium to landfill leachate. In particular, electronic equipment containing cathode ray tubes (such as televisions and computer monitors) contain an average of five to eight pounds of lead. These toxic materials pose a health threat when they are released into the environment. The study shall include, but not be limited to, an investigation into the following:

(1) Conducting a needs assessment of the number of cathode ray tubes and other electronic equipment that are currently collected or stored throughout the state and estimates of future volume;

(2) Identifying end markets for reuse and recycling of cathode ray tubes and other electronic equipment;

(3) Examining the most efficient means of collecting, storing, transporting, processing, recycling, and disposing of cathode ray tubes and other electronic equipment;

(4) Examining possible funding mechanisms and funding needs in order to:

(a) Develop a public education program on benefits of electronic equipment recycling and how to accomplish it;

(b) Provide loans or grants to electronic equipment recycling businesses; and

(c) Award grants to local governments and solid waste facility operators to pay processing and recycling costs assessed by recyclers;

(5) Determining what steps would have to be taken in Nebraska in order to institute a ban on the disposal of cathode ray tubes and other electronic equipment into landfills and determine a timeline for accomplishing this goal; and

(6) Reviewing other state and federal programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study in conjunction with the Nebraska State Recycling Association to carry out the purposes of this resolution.

2. That the committee shall conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

#### **LEGISLATIVE RESOLUTION 116.** Introduced by Schimek, 27.

(1) Collection of data statewide regarding the scope of poverty and the needs of children in poverty and their schools, with special focus on the four Native American reservation communities;

(2) Collection of data regarding the short-term and long-term effects poverty has on students and the costs to the states when students do not finish high school;

(3) Collection of data about Native American students and their educational status in Nebraska;

(4) Identification of existing programs within the State Department of

Education that can improve the educational status of Native American students and review of relevant research on what works with children in poverty;

(5) Examination of other states that have developed strategies to effectively deal with high numbers of students in poverty; and

(6) Review of models for incorporating the matter of poverty into the state funding formula, including strategies for tracking funding and determining effects.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### RESOLUTIONS

**LEGISLATIVE RESOLUTION 117.** Introduced by Jones, 43; Hartnett, 45.

**PURPOSE:** The purpose of this study is to examine lowering the population

threshold requirement for the formation or continuing status of villages. The current population requirement for villages is at least one hundred inhabitants to not more than eight hundred inhabitants. As proposed by LB 493 (2001), the population requirement for villages would be changed to at least five inhabitants to not more than eight hundred inhabitants. This study shall examine the merit of lowering the one-hundred-inhabitant threshold and shall make recommendations to address the potential for fraudulent formation of villages due to the lowering of such threshold.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 118.** Introduced by Preister, 5; Burling, 33; Cudaback, 36; Smith, 48; Hartnett, 45; Beutler, 28; Schimek, 27; Quandahl, 31; Erdman, 47.

**PURPOSE:** The purposes of the study are to seek solutions to barriers to the development of wind energy in Nebraska and to identify funding mechanisms to fund renewable energy development in Nebraska. The study will include, but not be limited to:

(1) Examining Nebraska's potential to become an exporter of wind energy and identifying any policy issues that may need to be addressed;

(2) Identifying transmission barriers, both intrastate and interstate, and determining solutions to overcome such barriers;

(3) Identifying the benefits and consequences of exempting private renewable energy generation projects from the condemnation authority of public power districts; and

(4) Identifying potential funding sources for a renewable energy fund which could be used to advance the development of renewable energy in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature, in conjunction with the State Energy Office, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. The committee shall conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 119.** Introduced by Stuhr, 24; Raikes, 25.

**PURPOSE:** The purpose of this study is to clarify who is eligible to run for positions on the boards of educational service units comprising more than one county. Current statutory language is confusing and needs to be clarified. LB 647 (2001) would have added clarifying language on this issue to section 79-1217. This study shall include, but need not be limited to, consideration of the provisions of current statutes and of LB 647 and any other issues the committee deems relevant.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 120.** Introduced by Vrtiska, 1.

In particular, the study shall (1) examine the history of the task force and the placement and status of the task force as a division of the Department of Administrative Services under the Governor and (2) review the duties and priorities of the task force.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Building Maintenance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 122.** Introduced by Foley, 29.

PURPOSE: On February 6, 2001, the Governor signed LB 36 into law. The law eliminates the duty of school bus inspections by the Nebraska State Patrol. The statement of intent for this legislation noted that, "The State

Patrol Task Force found that this is a duplication of quarterly inspections by trained mechanics for each school district required by the Nebraska Department of Education".

As a result of a careful investigation of the Nebraska State Patrol school bus inspection reports filed at the State Department of Education, many examples were found of safety violations. Some examples include: Emergency doors that were padlocked or otherwise inoperable; empty fire extinguishers; emergency door handles missing; missing registration and insurance cards; seats not bolted down; brake lights inoperable; exhaust system leaks; stop arms missing or not functioning; first aid kits missing; emergency brakes not holding; tires worn down to tread bars; cracked windows; and others.

All of the above violations were discovered by the Nebraska State Patrol after a local mechanic selected by the school district had already inspected the buses. During April 2001, a survey of school districts with bus services for their students revealed that of the seventy-seven districts who responded, seventy-one districts reported having no required qualifications for the mechanic who inspects their buses. Only six districts had some kind of qualification. Thus, there is no assurance that the mechanic who inspects the school buses will find all of the violations. The mechanics selected by the local school districts are not necessarily well versed in the state requirements for safety of school buses.

The violations found on school bus inspection reports filed by the Nebraska State Patrol are serious threats to the safety of Nebraska students. In order to assure that student safety is maximized, further study is needed on the question of who conducts school bus inspections and what qualifications might need to be required of those who perform the inspections.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 123.** Introduced by Vrtiska, 1.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

12 Sec. 2. For purposes of sections 1 to 4 of this act:

13 (1) Disparate treatment means differential treatment of

5 used by a law enforcement officer when detaining an individual for  
6 a violation of a motor vehicle or traffic law or ordinance to  
7 record personal identifying information about the operator, the

9 other information that is required to be recorded pursuant to  
10 subsection (2) of section 3 of this act and (2) a form, in printed  
11 or electronic format, to be used to report a complaint alleging

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 128.** Introduced by Wickersham, 49.

**PURPOSE:** This study shall examine occupation taxes. Occupation taxes are a large and growing aspect of municipal finance. The study should determine the amount of occupation taxes collected and the role they play in

financing municipal operations. The committee shall determine whether or not occupation taxes are significant enough that state law should restrict their growth as is the case with most other taxes collected by local governments.

The study should also examine whether or not counties should have a similar power to collect occupation taxes on businesses outside a municipality's taxing jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 129.** Introduced by Wickersham, 49.

PURPOSE: This study is to examine the electronic payment of taxes as a method of providing greater services to the citizens of Nebraska. The study shall examine progress made to allow greater use of electronic transfers as a method of paying taxes. This study should assume that it is a goal of the state that eventually all taxes be payable electronically, including property taxes. The study should determine the steps that need to be taken and set out a timeline to achieve this goal.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 130.** Introduced by Wickersham, 49.

PURPOSE: This study shall examine the contents and layout of property tax statements. The study should examine the information contained on the statements, especially the state aid disclosure, and determine what additional information would be useful to taxpayers. Attention should be paid as to whether and how more and more detailed information could be contained on the statement. In other words, how can the layout of the statement be revised to contain more or better information and how could a new format be made available to counties at minimal cost and disruption.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to

conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 131.** Introduced by Schrock, 38.

**PURPOSE:** This study shall look at how schools with declining enrollments are affected by decreases in state aid.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 132.** Introduced by Wehrbein, 2.

**PURPOSE:** To study the use and construction of equipment storage buildings by the Department of Roads. This study may include, but shall not be limited to:

(1) A determination of the need for equipment storage. The needs analysis will include the identification of equipment that is currently stored outdoors and an estimate of the amount of storage space needed. The needs analysis will also include the identification of any economic, safety, and other advantages of inside storage;

(2) A determination of the minimum design requirements of equipment storage buildings and the estimated cost of buildings built to such minimum design requirements;

(3) A comparison of the identified minimum design requirements to the current design of buildings being constructed by the department; and

(4) An examination of the cost-per-square-foot estimates prepared by the department and included in the budget request for equipment storage buildings.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 133.** Introduced by Preister, 5; Suttle, 10; Hartnett, 45; Beutler, 28; Aguilar, 35; Thompson, 14.

**PURPOSE:** The purposes of the study are to explore policies to reduce air emissions from power plants and to achieve greater energy conservation and efficiency. California and the western states have experienced severe power shortages due in part to electric utility deregulation and the price escalation of natural gas. Nebraska needs to take this opportunity to examine its power generation system and policies in order to achieve greater energy conservation and efficiency.

In this examination it is also prudent to evaluate the public health and environmental impacts created by fossil-fuel power generation and to determine actual costs associated with such generation. Nebraska utilities emit over seventy-eight tons of air pollutants into the air every year, which accounts for over seventy-five percent of Nebraska's total air emissions. Health effects from these emissions include respiratory illnesses, asthma, lead poisoning, and fish advisories. In the United States, air pollution kills over fifty thousand persons a year -- a death toll higher than that of traffic accidents, breast cancer, or AIDS. A recent Center for Disease Control study determined that Nebraska is ranked second in the country in the number of people dying from asthma. Nebraska needs to examine our current policies and determine whether changes should be made in order to better protect the health of its citizens.

The study will include, but not be limited to:

(1) An examination of utilities' air emissions impact on the environment and health of the people, and identification of incentives and policies to reduce utilities' air emissions;

(2) An analysis of externalities associated with generating power from fossil fuels including environmental impacts and health effects, as well as analysis of costs of environmental compliance and pollution control devices;

(3) An analysis of conservation and energy efficiency practices and policies, including the costs and benefits of providing real-time information for residential and small electricity consumers to help consumers better understand and manage their consumption; and

(4) An identification of incentives and potential funding sources for both demand-side and supply-side energy efficiencies and conservation.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Natural Resources Committee of the Legislature, in conjunction with the Health and Human Services Committee of the Legislature and the State Energy Office, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 134.** Introduced by Thompson, 14.

PURPOSE: Research findings continue to identify public health concerns about the effects of environmental tobacco smoke on public health. This study shall examine the effects of environmental tobacco smoke on Nebraska's workforce and the effectiveness of barriers and ventilation systems aimed at decreasing the negative effects of environmental tobacco smoke. It would also review the health impact of smoke-free workplace legislation in other jurisdictions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 135.** Introduced by Thompson, 14.

PURPOSE: As the statutory levy limits for public school districts move from \$1.10 to \$1.00, the current law which combines the general fund, the special building fund, and the hazardous material abatement/handicapped accessibility fund within the tax rate limitation should be reviewed. The issues that should be studied include the effect that maximizing the special building fund has on an equalized school district which is levying near or at the maximum, the effect that the tax rate limitation places on school districts that are growing or have older facilities that require improvement in providing educational services, and how the use of bonds is affected by these limitations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 136.** Introduced by Thompson, 14.

PURPOSE: Current law in Nebraska requires a person who wants to buy a handgun to obtain a certificate which authorizes the holder to acquire any number of handguns during the three-year period of the certificate. In order to receive this certificate, the applicant must apply with local law enforcement that issues or denies the certificate upon determining if the

applicant is prohibited by law from purchasing or possessing a handgun. Once this certificate is obtained, the applicant is no longer subject to any future background checks when purchasing a handgun. The purpose of this study is to examine whether the purchaser of a handgun should be subject to a background check prior to each purchase and, if so, whether the three-year certificate should be eliminated. The study will also examine how the instant criminal history record check system is utilized by handgun retailers in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 137.** Introduced by Price, 26.

**PURPOSE:**

WHEREAS, lead is an environmental toxin which poses significant health risk to young children, potentially damaging their developing nervous systems and causing learning disabilities, lack of coordination, reduced attention span, erratic behavior, and acute illness such as headache and gastrointestinal distress; and

WHEREAS, the lead poisoning rate in children of various Nebraska communities ranges from five percent to twenty percent; and

WHEREAS, current programs to identify, test, and conduct environmental followup on children who are lead poisoned are sparingly funded almost entirely through federal grants; and

WHEREAS, lead-based paint is the most prevalent source of lead in homes and is potentially present in all dwellings built before 1978; and

WHEREAS, the ideal solution to assure that Nebraska's children are no longer poisoned by this environmental toxin is to completely remove lead-based paint from all homes and apartments; and

WHEREAS, the tenants or homeowners of such dwellings are typically low-income families; and

WHEREAS, unfunded federal mandates on the safe maintenance, renovation, or rehabilitation of such dwellings requires workers who have been trained and certified in remediation of lead-based painted surfaces, which significantly increases the cost of such work; and

WHEREAS, the expense of such work may prevent landlords and homeowners from eliminating the environmental lead hazard, thereby continuing the risk to children's health; and

WHEREAS, the expense of such work, which is now required by new federal regulations of the United States Department of Housing and Urban Development, may limit the ability of property owners to make a sufficient amount of affordable housing available in Nebraska communities; and

WHEREAS, the Legislature should conduct an interim study to evaluate the potential options for establishing funding to: (1) Assist property owners to eliminate lead-based paint in residential dwellings; (2) evaluate the short-term and long-term public health benefits of interim lead paint stabilization versus elimination (full abatement); and (3) conduct comprehensive public health lead-poisoning prevention programs at the local and state levels.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 138.** Introduced by Hilgert, 7; Wehrbein, 2.

PURPOSE: The purpose of this study is to examine rates paid to behavioral health providers through publicly-funded programs. The study shall include, but not be limited to, information on how rates are currently determined, issues with the current level of reimbursement and the impact on the quality of care, and availability of services and models that may be available to set rates that address availability, quality, and an appropriate array of services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

The Department of Motor Vehicles and the Nebraska State Patrol shall assist the committee in supplying and gathering statistics relating to all types of driver distractions which affect highway and traffic safety in this state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

**LEGISLATIVE RESOLUTION 143.** Introduced by Cunningham, 18.

PURPOSE: The purpose of this study is to examine the definition of adult family homes. Under current rules and regulations of the Department of Health and Human Services, an adult family home is permitted to provide full-time residence and minimum supervision and guidance to not more than three adults. Currently adult family homes are voluntarily certified by the Department of Health and Human Services but are not licensed. The Health Care Facility Licensure Act requires licensure by the Department of Health and Human Services Regulation and Licensure for facilities that provide certain health care services to four or more persons.

The availability of community-based, cost-effective alternatives to nursing home care and institutionalization is currently inadequate in the State of Nebraska. The development of such alternatives should be encouraged.

This study shall specifically examine whether the definition of adult family home, as found in rules and regulations of the Department of Health and Human Services, should be changed to allow an increase in the number of adults permitted to reside in such homes and whether safety requirements for such homes should be adjusted in light of such change.

### RESOLUTIONS

**LEGISLATIVE RESOLUTION 144.** Introduced by Hilgert, 7; Wehrbein, 2.

**PURPOSE:** To study the Thomas Fitzgerald Veterans' Home in Omaha. The study shall include, but not be limited to, the following:

- (1) A review of the adequacy of funding for the facility;
- (2) The use of contract labor at the facility and its funding implications; and
- (3) An examination of the terms of the facility lease and future capital construction needs and priorities.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 145.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

**PURPOSE:** The purpose of this resolution is to examine Nebraska's overall tax structure. The study shall examine the burden borne by Nebraska taxpayers in the aggregate compared to that of taxpayers in other states by various measures, and the burden on individual taxpayers as affected by exemptions from tax, tax credits, and other preferences granted to some taxpayers as compared to others. The study will examine whether tax burdens are similar for similarly situated taxpayers with a focus on tax equity. The study is to examine all of the major tax programs used in Nebraska, the exemptions, credits, and other preferences granted within those tax bases, our relative reliance on each, and the combined burden they place on Nebraska taxpayers in a variety of situations.

The study shall also examine the changes that might result if significant proposals that were offered in the 2001 Legislative session and held by the Revenue Committee were enacted. Included in such proposals would be LB 841, proposed by Senator Brashear, that would dramatically expand the sales tax base, lower income tax rates, and provide a homestead exemption. Another example is LB 528, proposed by Senator Raikes, that would substantially simplify and flatten Nebraska's income tax system. The purpose of this analysis is to determine how such dramatic changes might affect Nebraska taxpayers by income group.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 146.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

**PURPOSE:** This study is to determine the impact on the assessment of agricultural and horticultural land if the assessment methodology proposed by LB 600 (2001) were implemented. The study will rely on information generated by the Department of Property Assessment and Taxation and the University of Nebraska Institute of Agriculture and Natural Resources and

compiled by the department. The study is to analyze the changes in valuation that could be expected to various subclasses within the class of agricultural and horticultural land as compared to each other and between different areas of the state. The study should also determine the sensitivity of those valuations to changes in the capitalization rate or rates. Finally, the study should examine the extent that local governments would be able to finance current operations under the levy limits should LB 600 be enacted into law and the effect that the assessment method would have on equalization aid under the Tax Equity and Educational Opportunity Support Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study.

2. That the Executive Board of the Legislative Council be permitted to allocate resources to the University of Nebraska Institute of Agriculture and Natural Resources to carry out the purposes of this resolution.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 147.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

**PURPOSE:** The purpose of this study is to monitor the administration and progress of the Uniform Sales and Use Tax Administration Act, commonly known as the Streamlined Sales and Use Tax System. The study is to inform the Legislature of the number of states participating, the level of participation, any material differences in the authorizing legislation, any federal response, and a timeline for full implementation. This study should also begin the process of drafting the legislation that will be necessary to conform Nebraska's sales and use tax statutes to the requirements of the act and the accompanying agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 148.** Introduced by Wickersham, 49; Schimek, 27; Smith, 48.

**PURPOSE:** State and local governmental entities have increased the provision of information and services available through electronic means as more Nebraskans acquire access to the Internet. As information technology continues to advance, further opportunities to transact government business electronically may become available. E-government may provide efficiencies and enhance access to state and local agencies and entities. Planning and coordination, as well as the adoption of appropriate legislation to facilitate access or require development of services and to provide necessary privacy protections, may be desirable. This study shall include, but is not limited to, determining:

- (1) Whether there exists unrealized potential to increase the provision of state and local governmental services through electronic means;
- (2) Whether appropriate standards are in place to facilitate the efficient provision of e-government;
- (3) Whether legislation is necessary or desirable to increase electronic access to government;
- (4) Whether current security mechanisms and privacy protections are adequate to protect sensitive information; and
- (5) Whether there are any additional strategies that should be pursued to make the best use of the Internet for delivery of governmental services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

## RESOLUTIONS

### **LEGISLATIVE RESOLUTION 156.** Introduced by Schimek, 27.

PURPOSE: LB 137, passed by the Legislature in 1999, provided that job application materials for positions with public bodies, other than those for finalists, may be withheld from public access. The reason for this exemption from sections 84-712 to 84-712.09 was to allow public bodies to create a large pool of qualified applicants for positions these bodies were attempting to fill. Since the passage of LB 137, questions have arisen as to the definition of finalist. The purpose of this study is to examine the original intent of LB 137 and to determine whether changes in the statutes are needed to balance the securing of the most qualified applicants for public positions and the public's interest in accessing information of applicants applying for these positions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 157.** Introduced by Coordsen, 32.

PURPOSE: To conduct an interim study to determine whether there should be a designated patients bill of rights and whether those rights should include the patient's ability to access relevant information with respect to a physician that may affect the patient's care. This study should determine whether the following information should be provided to a patient prior to care or surgery: (1) Whether the physician has been or is currently involved in litigation and the cause of action; (2) if the physician has been, or is going to be, sanctioned and for what reason; (3) whether there has been or will be a loss of hospital privileges; (4) whether there are any reprimands that could affect the patient's care; and (5) whether the physician has been cited or charged for drug abuse or driving while intoxicated.

This study shall determine whether a patient should be informed in nonemergency situations of any physician that will assist the primary doctor and provide consent prior to surgery in order that the patient have the opportunity to access the same information in respect to the assisting physicians or surgeons.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

Present and not voting, 7:

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 158.** Introduced by Thompson, 14.

**PURPOSE:** The National Safe KIDS Campaign 2000 report made several recommendations to improve and enhance Nebraska's child passenger safety laws. This study shall examine the recommendations of the National Safe KIDS Campaign that include: Expressly requiring children ages 4 to 8 and weighing 40 to 80 pounds to use booster seats; increasing fines for violations of the child occupant protection law to more effectively deter noncompliance; and eliminating the "proof of child safety seat purchase waiver".

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 159.** Introduced by Thompson, 14.

**PURPOSE:** In 1972, the Legislature established the Nebraska Chronic Renal Disease Program, a program for the care and treatment of persons suffering from chronic renal diseases. The program was designed to assist persons who require life-saving care and treatment for such renal disease, but who are unable to pay for such services on a continuing basis. Within this program, a fund was established to be used for the payment of services, granting of financial assistance, and participation in other state and federal programs for the purpose of caring for persons suffering from chronic renal disease. **LEGISLATIVE RESOLUTION 177.** Introduced by Brashear, 4; Dw. Pedersen, 39.

**PURPOSE:** In recent years, the Legislature has considered the issue of creating a secure youth facility for juvenile treatment and care. LB 472, introduced in 1999, and LB 471, introduced in 2001, would have provided that the management and operation of the secure youth facility in Omaha be transferred from the Department of Correctional Services to the Office of Juvenile Services within the Department of Health and Human Services. LB 599, introduced in 2001, would have created the Hastings Secure Youth Treatment Facility by transferring the Hastings Correctional Center from the Department of Correctional Services to the Office of Juvenile Services. Such legislative efforts were undertaken to ensure that an appropriate juvenile facility exists to lessen overcrowding that exists at the youth rehabilitation and treatment centers and to better place juveniles needing treatment in a secure setting.

The purpose of this interim study is to develop a program statement and transition plan for transferring a correctional facility to the Office of Juvenile Services in order to create a "Level 5" secure youth treatment facility and to develop a potential future sex offender treatment program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 178.** Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

**PURPOSE:** The purpose of this study is to examine the use of employee's social security numbers by state agencies. LB 32, introduced by Senator Redfield in the Ninety-seventh Legislature, First Session (2000), would

require state agencies to treat any employee's social security number as confidential information. This study will investigate how social security numbers are currently being used by state agencies and how these agencies can increase the confidentiality of this information. This study shall work with all parties having an interest in LB 32, including the University of Nebraska and the Department of Administrative Services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 179.** Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

**PURPOSE:** The right to vote is a fundamental aspect of citizenship in the United States. Current statutes and regulations in Nebraska pose considerable hurdles to restoring a felon's right to vote. Felons often face a lengthy and confusing process to have their rights restored. The goal of this study is to examine ways to clarify and improve the process of restoring felons' right to vote, including: (1) Changes to state statutes; (2) improving communication between the felon and the entities involved such as the Department of Correctional Services and the office of Probation Administration; and (3) simplifying the process for restoration of felons' voting rights. The study will also examine whether the current process disproportionately disenfranchises minority populations in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 180.** Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

**PURPOSE:** The purpose of this study is to examine the use of alternative board members on various boards and commissions, such as planning

commissions, zoning boards, judicial nominating commissions, and mental health boards. The study will investigate how alternate board members are currently being utilized on these boards and commissions and how that system could be improved. Any party interested in this issue shall be part of the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**PURPOSE:** To help ensure that any future military draft will be as fair and equitable as possible and to protect state residents from the possible severe consequences of noncompliance with the United States Selective Service System, it is important that all eligible persons are given reasonable notice of their responsibility to register with the selective service system. This study will examine the possible implications and benefits of including a consent form on the application or renewal of a driver's license for persons eligible to register with the selective service. The study shall work with any party interested in this issue including the Department of Motor Vehicles, the selective service system in Nebraska, and the Attorney General's office.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 182.** Introduced by Brashear, 4.

Such a review shall identify specific issues to consider in detail and make recommendations for appropriate revisions and recodification of the Nebraska Juvenile Code to implement any such revisions or changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 183.** Introduced by Brashear, 4; Cudaback, 36.

**PURPOSE:** To conduct a comprehensive study and review of Nebraska's statutes on divorce, alimony, child support, and child custody. The review shall identify specific issues to consider in detail and propose appropriate statutory revisions or changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 184.** Introduced by Price, 26.

**PURPOSE:** Prior to 1990, all political subdivisions were subject to the same budgeted reserve limitations by the Nebraska Budget Act, specifically subdivision (1)(b) of section 13-504. That limitation is generally fifty percent.

The 1990 enactment of the Tax Equity and Educational Opportunities Support Act imposed more restrictive reserve limitations on all school districts. Depending on the enrollment in the district, the limit is as little as twenty percent. In addition, the annual growth in budgeted reserves is further limited to two percent of the general fund budget of expenditures.

The intent of the more restrictive school reserve limitation in the act appears to have been to prevent school districts from raising their reserves, thereby reducing the effectiveness of state aid's reduction in the reliance on property taxes. However, the budgeting landscape for school districts and all other political subdivisions which levy and collect property taxes changed dramatically with the 1996 enactment of LB 1114. LB 1114 placed statutory levy limits on all such subdivisions. However, it did not remove the pre-existing budget limitations.

The combination of levy limitations and budget limitations now in place for school districts have dramatically altered the landscape upon which the original reserve limitations were founded. First, the existence of the levy lid

takes away the original fear that school districts would spike their reserve collections from property taxes. Second, reserves play a crucial role in multi-year planning under levy limitations and under spending limitations. Gone are the days when an unanticipated change in circumstance, such as a drop in assessed valuation for which replacement state aid lags one year, could be addressed by adjusting the property tax request. Now, school districts must prepare multi-year plans, adapting to the annual changes in state aid and other resources available to them. The budgeted reserve is a valuable planning tool for those multi-year budget plans.

The purpose of this study is to examine the existing statutes limiting the budgeted reserves of school districts to determine whether these restrictions curtail efficient utilization of funds by school districts. The issues to be examined include, but are not limited to:

- (1) Whether the school district reserve limitations curtail the long-term budget planning of school districts;
- (2) The extent to which the school district reserve limitations are a detriment to the efficient utilization of funds by school districts; and
- (3) The degree to which the original circumstances resulting in the implementation of the reserve limitations in 1990 are still applicable in light of changes in state aid, spending limitations, and levy limitations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 186.** Introduced by Bromm, 23.

**PURPOSE:** To recodify statutes relating to telecommunications.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 187.** Introduced by Bromm, 23.

**PURPOSE:** The purpose of this study is to determine the powers of the Director of Administrative Services with regard to allowing employees of agencies with substantial relation to state business access to health insurance coverage via the state employees group health insurance program. The study should include an examination of such entities which are already covered by the state program and an examination of LB 826 from the 2001 Legislative Session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 188.** Introduced by Appropriations Committee: Wehrbein, 2, Chairperson; Beutler, 28; Cudaback, 36; Engel, 17; Foley, 29; Hilgert, 7; Kruse, 13; Thompson, 14.

**PURPOSE:** This study will look at family practice residency programs funded by the state. The study information shall include, but not be limited to, the statutory provisions and intent of the programs, rules, regulations, and administrative guidelines used to administer the programs, information on the level of funding provided for residency programs, how the funding is distributed, who receives the benefits, and the areas where residents who benefited from state funding are practicing.

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 189.** Introduced by Connealy, 16.

**PURPOSE:** Section 48-118 of the Nebraska statutes addresses the ability of injured workers to seek compensation for their injuries from negligent third parties. The section also addresses the rights of employers to recover from those proceeds amounts paid by employers to employees under the Nebraska Workers' Compensation Act. Over the years, amendments to the section, as well as development of case law, have rendered the section confusing. The purpose of this study is to examine section 48-118, especially with respect to allocation of attorney's fees and expenses, control of the third-party lawsuit, and co-employee liability for intentional acts and to clarify the various party's rights and responsibilities under the act.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 190.** Introduced by Dw. Pedersen, 39.

**PURPOSE:** This resolution is to authorize an interim study for the purposes of planning and preparation for the studies of the correctional issues as described in LB 611 (2001). The interim study will be performed by a committee appointed by the Executive Board, and carried out by designated legislative staff and shall be completed by December 31, 2001. The interim study will result in a final report to be presented to the Executive Board prior to the Ninety-seventh Legislature, Second Session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 191.** Introduced by Dw. Pedersen, 39; Schimek, 27.

**PURPOSE:** To examine issues relating to extraterritorial jurisdiction of municipalities and whether people residing in such area are being

adequately represented by such municipal governing bodies. In particular, many people living within the area of extraterritorial jurisdiction have expressed the concern that they are the victims of taxation without representation as they are taxed for various services but have no opportunity to vote for a city representative. As urban sprawl is a trend throughout the state, this concern will become more widespread and should be studied as a statewide issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 192.** Introduced by Brashear, 4; Chambers, 11.

**PURPOSE:** In 1999 and 2000, the Legislature appropriated funding to commission a comprehensive examination of the proportionality and fairness in the application of the death penalty in Nebraska. The completion date of such study is August 1, 2001, at which time the Nebraska Commission on Law Enforcement and Criminal Justice shall issue a final report to the Legislature detailing its findings.

The purpose of this interim study is to consider the results of the death penalty study prior to the commencement of the 2002 legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 193.** Introduced by Dierks, 40.

**PURPOSE:** Consolidation and vertical integration in the agricultural sector is rapidly transforming the face of agricultural production. Several measures have been recommended or adopted at both the state and federal level in recent years to counteract the negative implications of agricultural consolidation and to protect the economic interests of agricultural producers and rural communities. These have included mandatory price reporting, measures governing marketing and production contract terms, country-of-origin labeling, bans of packer ownership of livestock, and other measures,

some of which have been enacted or are pending before the Legislature. The purpose of this study is to review measures that have been enacted in other states and to seek public input on these and other measures to address growing market power disparity between the production and processing sectors of the agribusiness industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 194.** Introduced by Dierks, 40.

PURPOSE: LB 588 heard before the Agriculture Committee during the 2001 legislative session of the Legislature would adopt the Rural Initiative Act to further engage the University of Nebraska in efforts to improve the economic and social vitality of rural Nebraska. The purpose of this study is to seek further input on the role of the University of Nebraska in addressing rural issues and the feasibility and desirability of programs and initiatives that meet rural development needs. It is the intent of this study to identify those programs or initiatives that would be of greatest value and how these will complement and strengthen the efforts of other agencies and programs involved in rural development issues. The study shall solicit the input of the Partnership for Rural Development for recommendations to carry out the purposes of LB 588.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 195.** Introduced by Dierks, 40.

PURPOSE: LB 803, advanced by the Agriculture Committee during the 2001 legislative session, would provide a mechanism for establishing a producer-funded program of research, promotion, and consumer education to benefit the pork industry upon the termination of the federal pork checkoff. Through a settlement agreement between Secretary of Agriculture Ann Veneman and producer organizations that had brought action in federal court to enjoin the United States Department of Agriculture from publishing a final rule to terminate collection of the federal pork checkoff, it is likely

that the federal pork promotion assessment will continue for the foreseeable future. Under the agreement, after June 2003, the United States Department of Agriculture will conduct a survey of producers to determine whether a referendum should be called on the question of whether to continue the federal program. The purpose of this resolution is to examine the feasibility and desirability of establishing a pork industry promotion program at the state level in the event that assessments under the federal Pork Promotion, Research, and Consumer Information Act of 1985 are terminated at some point in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 196.** Introduced by Dierks, 40.

**PURPOSE:** The purpose of this resolution is to examine provisions of the Domesticated Cervine Animal Act, regulations of the Department of Agriculture implementing the provisions of the act, and other authorities of the Department of Agriculture for preventing the transmission of disease between and among domesticated and wild cervidae herds and between cervidae and other species. The study shall seek to involve sportmen, commercial cervidae producers, the Game and Parks Commission, the Bureau of Animal Industry of the Department of Agriculture, and other interested parties to examine disease issues and to recommend actions and authorities desirable to reduce the potential for the introduction or spread of cervidae diseases.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 197.** Introduced by Brashear, 4.

**PURPOSE:** Nebraska, like all jurisdictions, has rules in our civil procedure statutes for the filings of pleading in civil lawsuits. Pleadings are the formal allegations by the parties to a lawsuit of their respective claims and defenses, with the intended purpose being to provide notice of what is to be expected and proved at trial. In 1867, Nebraska adopted a system of code

pleading, based on the Field Code of Civil Procedure. In recent decades Nebraska has adopted a series of changes to its civil procedure statutes that have amended Nebraska's code pleading system to be more like a notice pleading system, similar in approach to the Federal Rules of Pleading. As such, Nebraska presently uses a hybridization of code and notice pleading.

The Nebraska Supreme Court's Committee on Practice and Procedure has considered many of the issues that would need to be addressed if notice pleading were adopted in Nebraska and has prepared a draft addressing a number of those issues.

The purpose of this interim study is to incorporate the work completed by the Committee on Practice and Procedure and to consider further revision of Nebraska's statutes regarding a standard of notice pleading. Additionally, if such changes are to be undertaken, this study shall determine the appropriate legislature means that should be employed to effect changes to Nebraska's statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 198.** Introduced by Brashear, 4.

**PURPOSE:** In recent years, the Legislature has considered the issue of drivers using cellular telephones while driving. Among other bills relating to this topic, the Legislature has considered legislation that would have criminalized the use of a cellular telephone while driving and legislation that would have established a presumption of negligence in civil cases for the driver who is using a cellular phone at or near the time of an accident. During the public debate on the legislation, a concern was raised that automobile drivers face numerous potential distractions while driving and that cellular phone usage is, at best, merely one form of such distraction.

The purpose of this interim study is to consider the issue of driver safety in the context of the general problem that drivers may face from distractions, such as usage of a cellular phone or similar device, and to develop appropriate legislation to address such issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 199.** Introduced by Brashear, 4.

**PURPOSE:** In recent years, the Legislature has considered the issue of automobile drivers' failure to stop at red lights. For instance, LB 534, introduced in 2001, would provide for red light cameras to be used at intersections to enforce traffic signals. The purpose of this interim study is to examine the enforcement of traffic signals and the general issue of whether drivers conform to traffic signal laws. The study shall also consider the issue of drivers failing to yield at yellow lights. The study shall examine the current state of the law and develop appropriate legislative solutions.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 200.** Introduced by Vrtiska, 1.

**PURPOSE:** The purpose of this study is to examine the taxation of agricultural machinery and equipment in the State of Nebraska -- in particular, the history of legislation on agricultural machinery and equipment and the impact on Nebraska businesses who compete with other states that do not impose such taxes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 201.** Introduced by Erdman, 47; Byars, 30.

**PURPOSE:** The purpose of this study is to determine whether Nebraska should change the age of majority from nineteen to eighteen years of age. Currently all six neighboring states and 44 of the 50 states use age eighteen as their age of majority. The committee should determine what different ages of majority exist in Nebraska statutes currently. The committee should review the financial and social ramifications of such a change with respect to laws administered by the Department of Health and Human Services, Department of Health and Human Services Regulation and Licensure, and Department of Health and Human Services Finance and Support; if such a

change would assist eighteen year olds who live alone to obtain medical and legal services and secure housing; and how homeless teenagers would be affected.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 202.** Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to examine health and human services issues, including, but not limited to: The Nebraska Health Care Funding Act; the Nebraska Mental Health Commitment Act, mental health services, the role and mission of the regional centers, and assertive community treatment; implementation of the federal Ticket to Work and Work Incentives Act; early childhood care and education, and child support enforcement; welfare reform and TANF funding; marriage and family, teenage pregnancy, placement and care of state wards, and juvenile justice; developmental disabilities services; licensing of health care professionals and facilities, health insurance, prescription drugs, rural health, minority health, health care quality, health care availability and affordability, and availability of health care providers; public health development, state public health law, implementation of the Public Health Improvement Plan, and tobacco control and cessation; and health and human services funding, health and human services statutes, and the Nebraska Health and Human Services System.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 203.** Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to oversee the distribution and use of funding appropriated under the Nebraska Health Care Funding Act in LB 692 (2001).

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 204.** Introduced by Jensen, 20.

**PURPOSE:** The purpose of this study is to examine issues raised by the introduction of LB 721 (2001) relating to the privacy of information contained on various medical registries established and maintained in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 205.** Introduced by Jensen, 20.

**PURPOSE:** The purpose of this study is to examine the performance of personal care services for disabled persons who are competent to self-direct their care. Specifically, the study will examine the need for appropriate training, insurance, regulation, preemployment screening, and oversight of persons who perform such services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 206.** Introduced by Jensen, 20.

nationwide, estimated to cause between 44,000 and 98,000 deaths per year, and costing between \$17 billion and \$29 billion annually in hospitals alone.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 207.** Introduced by Jensen, 20.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

**LEGISLATIVE RESOLUTION 216.** Introduced by Coordsen, 32.

PURPOSE: According to the Benefit Review Study of the Nebraska Retirement Systems prepared in August 2000 by Buck Consultants, the current state employee retirement plan lacks competitiveness and fails to satisfy the Nebraska Retirement Systems Committee's standards for benefit adequacy. The benefit review study recommended the system be improved by increasing the plan contribution rates, adding a defined benefit element, and adding a Guaranteed Income Option for retiring employees. LB 801 was introduced to provide supplemental retirement benefits to certain state employees and meets the recommendations of the Benefit Review Study of the Nebraska Retirement Systems.

Legislation similar to LB 801 has been introduced since 1995, with no action being taken. This year an actuarial study was conducted which provides information that should be utilized while it is current. In addition, the recent study of the Legislature's Compensation Plan by the National Conference of State Legislatures identified turnover of legislative staff as a critical issue.

This study shall continue the review of the supplemental retirement benefit provided in LB 801 and the proposed amendments. This study shall also examine implementation issues, including the feasibility of setting up the plan within the Legislative Council pursuant to state statute and internal policies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 217.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study the collective bargaining process for all public employees of the State of Nebraska. The study shall include, but not be limited to, an investigation into the following:

(1) The process used for impasse resolution by the various bargaining groups in the state;

(2) The utilization of the special master by various bargaining groups; and

(3) The cost associated with utilizing a special master and the Commission of Industrial Relations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee and the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 218.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

**PURPOSE:** To study Nebraska's veterans homes. The study shall include, but not be limited to, the following:

(1) Whether the administrative structure of the veterans homes allows satisfactory delivery of services to residents;

(2) The issues and policies regarding state employee staff, including matters of recruitment, pay, working conditions, and morale;

- (3) The proper level of funding for the veterans homes operations;
- (4) The use of pooled labor in the veterans homes and whether the use of such contracted employees is cost efficient for the state and how it effects direct care;
- (5) The salaries paid to direct care staff, and whether such wages are competitive with wages paid in the private sector in an effort to improve retention rates; and
- (6) The turnover rate of direct care staff and all the reasons surrounding the turnover rate. The study shall include whether the turnover rate has reduced since the July 1 enactment of the wage shift differentials and the elimination of the Tech 1 positions, as well as other administrative efforts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee comprised of members from the Appropriations Committee, the Business and Labor Committee, the Government, Military and Veterans Affairs Committee, and the Health and Human Services Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 219.** Introduced by Preister, 5.

**PURPOSE:** The purpose of the study is to examine the recycling of hazardous wastes into fertilizers. This practice introduces dozens of toxic metals and chemicals into farms, lawns, and garden soils--including toxic substances such as lead and mercury. Many crops extract these toxic metals from the soil causing these toxins to enter the food supply and put people's health at risk. Current fertilizer labeling laws do not require listing toxic metals that are not essential to plant and crop growth. The study shall include, but not be limited to, an investigation into the following:

(1) An examination of whether or not fertilizers sold and used in Nebraska contain hazardous wastes;

(2) An examination of the costs and benefits of banning the use of hazardous waste for manufacturing fertilizers;

(3) An analysis of whether or not expanded right-to-know provisions should be enacted for all hazardous wastes contained in fertilizer;

(4) An examination of whether or not hazardous wastes contained in fertilizers should no longer be exempt from treatment, storage, and disposal tracking requirements; and

(5) A review of federal law and other states' statutes regarding hazardous wastes in fertilizers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture, Natural Resources, and Health and Human Services Committees of the Legislature shall be designated to conduct an

interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 220.** Introduced by Nebraska Retirement Systems Committee: Bruning, 3, Chairperson; Bourne, 8; Erdman, 47; Stuhr, 24; Wehrbein, 2; Wickersham, 49.

**PURPOSE:** The purpose of this resolution is to study the state and county retirement plans. It is the intent of the Nebraska Retirement Systems Committee of the Legislature to analyze the provisions of Legislative Bills 687, 379, and 801 (2001) as they pertain to a change in the current benefits received by state employees. More specifically, the committee shall work with actuaries and the appropriate agencies to determine whether a defined benefit element can be introduced into the state plan and shall determine the fiscal impact of such change in the benefit. The study shall include an analysis of the alternatives available to the committee for addressing the inequities in the retirement benefit that plan members will receive due to their inability to participate in the retirement systems early in their careers with the state. The study shall further determine if there is a fiscally sound means to provide a supplemental insurance benefit to retired plan members that meets their needs, including prescription drug coverage, during their years of retirement prior to qualifying for medicare coverage.

Because the state and county retirement plans are both defined contribution plans and offer similar benefits to the plan members, and based upon the General Principles of Sound Retirement Planning, the study shall determine the feasibility of providing enhanced benefits not only to state employees but to county employees as well.

Should the study reveal that it is possible to do so, the appropriate amendments shall be prepared for introduction during the subsequent legislative session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall consist of representatives from the Legislative Fiscal Office and the Nebraska Public Employees Retirement Systems and the actuary and members of the Nebraska Retirement Systems Committee of the Legislature.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 221.** Introduced by Bruning, 3.

**PURPOSE:** The purpose of this resolution is to review the provisions of LB 686 (2001). This legislation proposed that several changes be made to the actuarial funding methods used by the Public Employees Retirement Board in the valuation of the School Retirement System of the State of Nebraska, the Nebraska State Patrol Retirement System, and the Nebraska Judges Retirement System, and that the Nebraska Public Employees Retirement Systems merge several separate funds and accounts in the School Retirement System. In general, it is the purpose of this interim study to determine whether such changes are feasible. More specifically, the study shall include a review as to whether or not various accounts in the school plan may be collapsed into one fund, including the accounts that are used to hold employer contributions, employee contributions, state contributions, and the account from which member retirement benefits are paid, and an analysis regarding a change in the actuarial valuation method in the three retirement plans, with future valuations being made using the "Entry Age Actuarial Cost Method".

Should the study reveal that it is possible to make the recommended changes, the appropriate amendments will be prepared for introduction during the subsequent legislative session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall consist of representatives from the Legislative Fiscal Office, the Nebraska Public Employees Retirement Systems, and the members of the Nebraska Retirement Systems Committee and the committee's actuary.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 222.** Introduced by Bruning, 3.

**PURPOSE:** The purpose of this resolution is to review the provisions of LB 407 (2001). LB 407 proposes to make several administrative changes to the Retirement System for Nebraska Counties, the School Retirement System of the State of Nebraska, and the State Employees Retirement System of the State of Nebraska, administered by the Public Employees Retirement Board. More specifically, the following proposals will be examined:

- (1) Whether the membership provisions in the state, county, and school plans should be modified to include both active and inactive members;
- (2) Whether the standards for beginning and continuing participation in the state and county plans should be added, including clarifications on beginning contributions and continuing contributions without a break for purposes of termination;

(3) A review of the process of determining who should be contributing each year to the school plan and modifying it so that it is clearer who should be making contributions to the retirement plan each year;

(4) Whether the granting of service credit in the school plan should be modified from an annual to a monthly basis, even though service is still recorded on an annual basis in the school plan; and

(5) Whether the status of substitute school employees should be clarified in order to distinguish them from permanent employees who fill in for other absent regular school employees.

Should the study reveal that it is possible to make the recommended changes, the appropriate amendments will be prepared for introduction during the subsequent legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall consist of representatives from the Legislative Fiscal Office, the Nebraska Public Employees Retirement Systems, and the members of the Nebraska Retirement Systems Committee and the committee's actuary.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 223.** Introduced by Bourne, 8.

**PURPOSE:** As the State of Nebraska has a compelling interest in promoting public safety, this study shall examine the quality of life for railroad employees and how current working conditions and environment affect those employees. Although the nation's railroad company employees are covered by rules and regulations of the Federal Railroad Administration (FRA), which establishes an hourly maximum work period, it fails to guarantee a cumulative weekly maximum that governs employees' working hours.

The FRA has sought authority in Congress to issue regulations specifically relating to fatigue under the hours of service; however, Congress has not deemed it appropriate to do so, thereby giving the states authority to promulgate and adopt any rule, regulation, or order that is not covered by federal law, rule, or regulation.

The interim study shall include:

(1) A review of current state and federal regulations and statutes to identify any barriers and recommend changes to provide, facilitate, and equalize railroad employee opportunities across the State of Nebraska;

An examination of the following issues, including:

(a) The implications of railroad companies requiring employees who operate a train or locomotive to be on duty or available for duty unless at least 72 consecutive hours have passed or to be on duty or available for duty

for any portion of each of the previous seven consecutive days;

(b) Mandatory versus voluntary staffing options;

(c) Any issue relating to employee safety and the provisions of law or company policies under which railroad employees operate; and

(d) Any additional issues deemed pertinent to the complete review and analysis of railroad safety;

(3) Public hearings in Omaha, Lincoln, North Platte, and Alliance to provide for public comment and discussion, while allowing interested parties to participate in the legislative process; and

(4) Upon conclusion of this study and following all public hearings, a written report issued by the committee to the members of the Legislature by October 1, 2001. The report shall contain all findings, including all comments, suggestions, and recommendations submitted at the public hearings across the state. The report shall also include draft language deemed appropriate for pending legislation in the 2002 Legislative Session in order to provide all interested parties sufficient time to review and analyze the forthcoming proposal.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, as set forth in this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 224.** Introduced by Bromm, 23.

PURPOSE: Currently the Game and Parks Commission has seven members. The purpose of this study is to examine the possibility of increasing the Game and Parks Commission to eight members.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 225.** Introduced by Hartnett, 45.

PURPOSE: A continuing matter of statewide controversy and debate is the lack of representation on municipal decisionmaking bodies by the citizens who reside in areas subject to municipal control and regulation which are

located outside of the boundaries of the municipalities. Under Nebraska law, cities and villages exercise jurisdiction for a number of purposes over areas outside of their boundaries. In addition to planning and zoning regulations, subdivision regulations, and building codes, these individuals are also subject to some police power regulations, including nuisance laws. The citizens who live in that area often pay higher fees or taxes as the result of the municipal action on the construction, improvement, or expansion of some utility facilities, but they lack any representation on the governing body of the municipality or any real influence over the course of debate or the final decision on these matters of vital importance to them.

Municipal decisions involving expansions of facilities that provide water, sewer, gas, or solid waste disposal services can have a significant influence on the cost and quality of life of the residents both inside and outside city limits, but the nonresidents have little or no voice in the process and often find themselves paying higher fees for the same service than do residents.

The purpose of this study will be to investigate the full range of powers granted to municipalities (both cities and villages) which involve jurisdiction over residents in areas outside of municipal boundaries, determine how widespread is the exercise of these powers and the extent of their reach, and determine if these powers are necessary or appropriate and how best to provide for more involvement in the exercise of these powers by the people residing in these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 226.** Introduced by Hartnett, 45.

**PURPOSE:** In past years, the Urban Affairs Committee has reviewed several pieces of legislation which have sought to use neighborhood or homeowner associations as basic mechanisms for providing citizen input to governing bodies of political subdivisions, for funneling basic information back to their members, as potential recipients of governmental assistance, and as organizing bodies for local improvement efforts.

In the 2001 legislative session, the committee considered LB 323 and LB 742, both of which sought to provide express legal standing for neighborhood associations to engage in community improvement activities funded through the receipt of state grants or through the collection of local fees or taxes.

The purpose of this study will be to investigate neighborhood associations and homeowner associations, to determine how widespread their usage is, what areas of the state they exist in, what forms they generally take, how

they are constituted, what missions and roles they generally serve for their members and communities, and what function they could serve in mediating between citizens and their governmental bodies.

Additionally, the committee would continue to study the issues raised by LB 323 and LB 742 and would endeavor to determine if either or both could be implemented, with appropriate amendments, to accomplish their stated goals in a manner consistent with good public policy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 227.** Introduced by Hartnett, 45.

PURPOSE: State law gives authority to cities and villages to adopt building codes, plumbing codes, electrical codes, fire prevention codes, and other codes relating to the building or construction of structures. Under state law, cities and villages that adopt building codes are required to adopt the Uniform Building Code although they can make modifications to accommodate local conditions. The three model building code organizations, including the organization that developed the Uniform Building Code, have engaged in a process to unify, coordinate, and integrate the various building codes and have completed the 2000 International Codes to replace the existing building codes. LB 811 was introduced by the Urban Affairs Committee in the 2000 legislative session to amend the state building code to reflect these developments. Resulting comment and testimony from local building officials and other interested parties have revealed the need for further review of the proposed changes and investigation of the potential consequences of adoption of some of the specialized codes which are a part of the family of codes involved. This study would address these issues and determine whether and in what fashion the state building code should be amended, whether cities and villages should adopt some or all of the 2000 International Codes as their building codes, what other options are available to cities and villages, and what state laws need to be amended to accommodate any changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 228.** Introduced by Hartnett, 45.

**PURPOSE:** Over the course of the past several legislative sessions, the Urban Affairs Committee has been called upon to review several legislative proposals dealing broadly with the structure of local municipal government: The roles of the mayor and city council, the duties and functions of the various municipal officers, the powers granted to the city administrator, the distinctions between classes of municipalities and the powers granted to them, and the desirability of crafting a meaningful constitutional amendment to define the powers of a municipality in adopting or amending a home rule charter (as proposed in LR 20CA, heard by the committee in the 2001 legislative session).

While this list is not comprehensive, it summarizes some of the key issues in local municipal government operation, issues which have not been addressed in any structured, cohesive, or comprehensive manner for several decades.

The purpose of this study will be to review the existing statutes governing the structure and operations of the various classes of municipalities, as opposed to the forms of power or authority granted to them, to identify key issues and problems and determine (1) if significant structural revisions are appropriate and (2) if appropriate, what form such revisions should take.

The study may involve the survey of municipal officials on the subjects of the study or the creation of one or more representative working groups of such officials to advance the purposes of this study.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 229.** Introduced by Hartnett, 45.

**PURPOSE:** This study will provide the opportunity for the Urban Affairs Committee to investigate and review matters and issues arising during the interim which and within its jurisdiction and which may be the subject of bills to be introduced in the 2002 legislative session. This would provide the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate review of bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of bills by the full legislature.

The study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 2001 legislative session which was either indefinitely postponed or held by the committee to determine what other further action by the committee might be warranted with regard to the particular subjects of the individual bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or conceptual refinement before the start of the 2002 legislative session; and

(3) The conducting of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 230.** Introduced by Hartnett, 45.

**PURPOSE:** During the 1999 and 2001 legislative sessions, the Urban Affairs Committee considered the Limited Purpose Sanitary and Improvement District Act, a bill to authorize the creation of special purpose sanitary and improvement districts that would continue to exist within the boundaries of an annexing municipality following annexation for the purpose of maintaining nondedicated streets and roadways that were not constructed in accordance with municipal standards and other "green areas" and "outlots" that the municipality does not intend to maintain.

The legislation dealt broadly with the issue of municipal annexation and the financial responsibilities that a municipality must assume for development that occurred prior to that date. The legislation also raised the larger policy question of the appropriate mechanism for financing that development at the time of development in the light of the future assumption of financial responsibility for that development following annexation.

The purpose of this study will be to focus more closely upon the policy issues and practical problems raised by the Limited Purpose Sanitary and Improvement District Act, identify the amendments necessary to properly enact the legislation, and investigate other possible mechanisms for financing new development beyond municipal boundaries. Among the mechanisms to be investigated will be the use of impact fees and other similar strategies that the committee may find from reviewing such activities in other states. The study shall also review current annexation statutes to determine if changes should be made in the light of the issues raised by this

study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 231.** Introduced by Hartnett, 45.

PURPOSE: Nebraska currently is one of only three states in the nation that offers no tax incentive to promote the preservation of historic properties, although historic preservation is recognized as an important component in housing and neighborhood redevelopment, commercial and "main street" revitalization, and tourism enhancement in our state.

To remedy that situation, LR 14CA was introduced in the 2001 Legislative Session to provide the constitutional authorization for the Legislature to craft a statutory program to provide an exemption from property taxes for the portion of the value of a qualifying property which is attributable to improvements designed primarily to renovate, rehabilitate, or preserve the property. A qualifying property would have to be one of historical significance.

Lingering questions about the cost, efficacy, and potential parameters of such a program require additional study before the Revenue Committee takes final action on such an amendment.

This study would compile additional information on similar programs and strategies adopted in other states for providing economic and tax incentives, review the experience of those states in terms of program cost and effectiveness, and craft potential enabling legislation for such a program in Nebraska if the proposed constitutional amendment proposal was adopted. Efforts will also be undertaken to determine what sorts of property should be included in such program, the extent to which historical districts should qualify, and the interest of property owners and local communities in supporting and participating in such a program.

The study will be conducted in cooperation with the Nebraska State Historical Society.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 232.** Introduced by Hartnett, 45.

**PURPOSE:** To determine which cities and villages in Nebraska do not currently have access to natural gas service, to determine why such service is not being provided, to determine what barriers exist to providing such service, and to analyze the existing situation and determine if there is an appropriate role for the state in removing existing barriers to such service or in helping such municipalities to obtain natural gas service and what state resources may be available to assist in this process.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 233.** Introduced by Hartnett, 45.

**PURPOSE:** The purpose of this study will be to assess the impact of the changes made to the Nebraska State Patrol Retirement System during the past two legislative sessions with regard to COLA adjustments and to provide an opportunity to inquire into the current status of the benefits to be provided to long-term retirees to determine if additional adjustments should be made. The study will seek to receive additional information from retirees and to determine the most appropriate legislative action for the Legislature in the 2002 legislative session to insure adequate retirement benefits for such retirees.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 234.** Introduced by Hartnett, 45.

**PURPOSE:** Since 1980, with the adoption of the Nebraska Visitors Development Act, counties in Nebraska have been authorized to collect a lodging tax of two percent on hotel and motel occupancy charges to create funding for promotional activities to encourage tourism in the area. Since

1989, Douglas County has been authorized to collect up to an additional two percent and can use the funds collected to improve visitor attractions and facilities in the county.

Over the course of the past three legislative sessions, several bills have been introduced for the purpose of extending the authority now granted only to Douglas County to use some or all of the locally collected lodging tax revenue for capital improvements on visitors attractions and facilities in other counties. With regard to each proposal, concerns were raised about the potential detrimental impact of such activities in different parts of the state.

The discussion surrounding LB 732 in the 2001 legislative session has revealed new interest in providing additional revenue for local tourism activities, the need to provide funding for facility improvements, and the importance of maintaining a secure, dedicated revenue stream for promotional activities.

This study would investigate the current status of the local lodging tax, the amount of revenue it generates, and the manner in which that revenue is used. It would endeavor to determine the appropriate statutory rationale for permitting these funds to be devoted to capital improvement purposes and would seek to establish if, in the interests of good public policy and in accomplishing the stated goals of the act, additional changes should be made. Additionally, the study would endeavor to determine what additional sources of funding would be appropriate for local tourism activities and what other states in similar circumstances are doing to meet their own local needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 235.** Introduced by Landis, 46.

**PURPOSE:** This study shall examine those statutory mechanisms that exist or that may be needed to allow neighborhood property owners to make the same kind of self-directed investments in their properties that are already accorded to business property owners and property owners organized in homeowners associations. This study shall include, but is not limited to, a review of the Business Improvement District Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 236.** Introduced by Landis, 46.

**PURPOSE:** This study is to examine the applicability of "need and necessity" certification throughout the transportation entities regulated by the Public Service Commission.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 237.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

**PURPOSE:** This study is to examine the implementation of LB 271 that was enacted in 1999 and became fully operable in 2001. That bill implemented a constitutional amendment approved by the people calling for the taxation of public property that is not used for a public purpose. The study is to examine rules and regulations of the Department of Property Assessment and Taxation and how the different counties have dealt with the issue both procedurally and substantively. Finally, the study is to determine the need for more uniform treatment of publicly owned property between counties, if any.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

May 14, 2001

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

With this letter, I am returning LB 543 with my signature and with line-item reductions. The General Fund amounts vetoed in LB 543 total 6.1 million dollars for fiscal year 2001-02 and 6.7 million dollars for fiscal year 2002-03. In addition, I have reduced the fiscal year 2002-03 transfer from the Securities Act Cash Fund to the General Fund provided for in LB 543, Section 268, by 14.0 million dollars. A list of the individual vetoes is included as an attachment to this letter.

I again commend the Appropriations Committee and the entire Legislature for the hard work and serious consideration that has been given to the

budget bills. You have met obligations created by previous Legislatures and addressed the highest priorities of Nebraska. We are in agreement on the vast majority of budget decisions.

The slowing growth of the national and Nebraska economy requires us to be especially diligent and cautious regarding the State budget. The recent downward revisions in the forecasts of net general fund receipts resulted in your recommendation to eliminate my effort to provide additional property tax relief through the community college aid formula and resulted in your recommendation for additional borrowing from the State cash reserve fund to finance the next biennial budget. Our response must include additional spending restraint and also reduce our reliance on borrowed fund to meet continuing obligations.

I have reduced \$80,000 General Funds in each year of the biennium from the Supreme Court in order to reflect your decision to finance county court audits in the Auditor of Public Accounts (State Auditor) budget. I have also reduced by one-half the amounts above my recommendations added to the Supreme Court budget for special salary adjustments for court reporters, probation staff, and additional probation employees. The remaining amounts are greater than provided to other State agencies. A priority allocation of the remaining amounts that does not create additional obligations in the future can be determined by the Court.

The General Fund appropriation to the Department of Education's Administrative and Support program had been increased to provide funding for a variety of educational leadership, policy setting, technical assistance, and administrative activities. I am reducing the amounts for several items added above my recommendations by one-half and encourage the Commissioner of Education and the State Board of Education to direct the remaining amounts in a manner that satisfies the needs or enhances the performance of our current education programs. I have vetoed specific earmarking amounts related to these items to allow this discretion for the Commissioner of Education. I have not reduced the additional appropriations of 2.7 million dollars for each year of the biennium that we have included for the Attracting Excellence to Teaching program.

I have vetoed appropriations to the Department of Health and Human Services that would initiate new programs or expand programs in fiscal year 2001-02. This includes \$100,000 in both fiscal years of the biennium for LB 288 which remains in the Appropriations Committee. I have vetoed the administrative funding added for fiscal years 2001-02 and 2002-03 for managing a proposed Medicaid waiver to provide additional coverage for substance abuse services as envisioned in LB 344 which remains in the Appropriations Committee. I have vetoed the fiscal year 2002-03 direct services funding for the envisioned Medicaid waiver but have not reduced the \$445,187 General Funds or \$667,187 Federal Funds added for fiscal year 2002-03. The administrative funds are not needed to enhance our existing Medicaid program. The necessary analysis, preparation, and federal

approval of a Medicaid waiver for substance abuse services cannot be properly completed for implementation beginning with fiscal year 2001-02. We will work closely with the Appropriations Committee and Health and Human Services Committee prior to a final determination to submit this Medicaid waiver for federal approval and implementation in fiscal year 2002-03.

My recommendations to the Legislature for both the 1999-2001 and 2001-2003 budget biennium's have included additional funding for older Nebraskans. My recommendations this biennium included an increase of \$500,000 General Funds for fiscal year 2001-02 and \$750,000 for fiscal year 2002-03 for service coordination, in-home, emergency response, and family caregiver assistance. I have reduced the additional \$244,153 General Funds each year that has been included above my recommendations. I have not reduced the \$732,458 in additional federal expenditure authority included each year to allow Nebraska to obtain federal government funding for family caregiver assistance.

LB 543 includes an additional \$400,000 General Funds each year, a 67 percent increase, for mass transit aid above the amount requested by the Department of Roads and included in my recommendations. My veto reduces this increase by \$200,000 General Funds each year. Also, included in LB 543 is an additional 3.5 million dollars General Funds each year, a 161 percent increase, for the Resources Development Fund. I have reduced this increase by \$1,750,000 General Funds each year of the biennium. The remaining amount will be available to assist in the financing of additional water conservation and development projects.

My line-item reduction to the Game and Parks Commission and the Library Commission is one-half of the amount of General Funds added above my original budget recommendations. My vetoes of General Fund appropriations for the Equal Opportunity Commission, Arts Council, and Foster Care Review Board return those agencies to the amounts included in my original budget recommendations. Additional cash and federal fund expenditure authority added for the Game and Parks Commission, Equal Opportunity Commission, and Foster Care Review Board are not reduced. All of these agencies are adequately financed for the 2001-03 biennium.

I have vetoed \$60,000 General Funds in the Commission on Law Enforcement and Criminal Justice designated for a Substance Abuse Task Force provided for in LB 228 which remains in the Appropriations Committee.

For the University of Nebraska I have allowed for additional General Fund appropriations above my original recommendation by \$662,793 in fiscal year 2001-02 and \$1,926,163 in fiscal year 2002-03 to provide for increased employee corresponding benefits and rural health residencies. My line-item reductions have reduced the General Fund appropriations by \$228,000 in fiscal year 2001-02 and \$1,056,000 in fiscal year 2002-03. The University

increases 6.4 percent or 24.9 million General Fund dollars in fiscal year 2001-02 and increases 6.7 percent or 27.8 million General Fund dollars in fiscal year 2002-03 after these reductions.

My veto reductions at the Nebraska State Colleges allow for General Fund increases of 9.2 percent in fiscal year 2001-02 and 9.1 percent in fiscal year 2002-03. This represents an increase of \$621,876 in fiscal year 2001-02 and \$1,124,707 in fiscal year 2002-03 above my original recommendations. This additional funding is primarily related to additional salary costs from collective bargaining, employee benefit costs, and instructional equipment replacement. The line-item reductions amount to \$621,000 General Funds in fiscal year 2001-02 and \$1,124,000 in fiscal year 2002-03.

The line-item reductions to the student financial aid programs administered by the Coordinating Commission for Postsecondary Education allow for a combined total increase of \$1,275,000 General Funds for fiscal year 2001-02 and a total of \$1,432,500 General Funds in fiscal year 2002-03. Student financial aid programs administered by the Commission will increase by 25.2 percent over the biennium. My reductions are \$975,000 General Funds in fiscal year 2001-02 and \$817,500 General Funds in fiscal year 2002-03.

The additional spending restraint represented by my line-item reductions in LB 543 is needed as we work to fashion a final budget for the next biennium. In addition, we must be prepared to reduce our reliance on borrowed funds to meet our continuing obligations. Therefore, I have reduced the fiscal year 2002-03 15.5 million dollar transfer from the Securities Act Cash Fund to the General Fund by 14 million dollars.

I appreciate your hard work. I urge you to sustain these reductions in LB 543.

Sincerely,  
(Signed) Mike Johanns

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 542 with my signature and with certain line-item reductions.

At this time it does not appear financially or programmatically prudent to attempt to move the archival/storage space of the Nebraska State Historical Society from its "R" Street Headquarters Building. The only additional study needed on the Headquarters building is one that defines and identifies the costs of only the improvements necessary to address fire, life safety, codes, and ADA accessibility issues, as well as modernization of electrical, mechanical, and ventilation systems. I am therefore leaving in \$50,000 of the \$200,000 State Building Funds appropriated for fiscal year 2001-02 to revise the current program statement to include such an option. Improvements identified in this option that are beyond those mentioned above, shall be proposed from other than State Funds. I am therefore eliminating all the remaining funding in fiscal year 2001-02, along with the \$500,000 State Building Funds appropriated for fiscal year 2002-03.

The appropriation for the Five Units of Level 4 Housing at the Youth Rehabilitation and Treatment Center in Kearney states that "...all statutory requirements of the state building division of the Department of Administrative Services be met for this project before work begins. " I have therefore left \$50,000 State Building Funds in fiscal year 2001-02 to allow the required program statement to be completed. The remaining \$2,050,000 State Building Funds has been line-item reduced in the same fiscal year. The \$2,100,000 State Building Fund appropriation for fiscal year 2002-03 remains unchanged.

The State Building Funds appropriated for the Engineering Building Renovation for the College of Public Affairs and Community Services at the University of Nebraska at Omaha have been stricken in their entirety. This includes State Building Funds of \$500,000 in fiscal year 2001-02, \$2,500,000 in fiscal year 2002-03 and \$9,250,000 in the future biennium. This funding simply cannot be accommodated within the constraints of the next budget biennium. It also creates an unacceptably large future commitment.

I urge you to sustain my veto reductions.

Sincerely,  
(Signed) Mike Johanns  
Governor

## RESOLUTIONS

### **LEGISLATIVE RESOLUTION 238.** Introduced by Raikes, 25.

**PURPOSE:** This study shall examine the implementation of new federal guidelines for the funding of after-school programs. The study shall include review of (1) the effectiveness of after-school programs in reducing crime, teenage pregnancy, and drop-out rates, (2) Nebraska's current four 21st Century Learning Centers providing after-school programs to students in Nebraska, and (3) increased federal funding for after-school programs to promote state program development.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 239.** Introduced by Jones, 43; Erdman, 47.

**PURPOSE:** A recent study by the Bureau of Economic Analysis created a listing of two hundred fifty counties which had the lowest per capita income nationally. Ten Nebraska counties appear on this listing, including seven in the lowest twenty-five counties. These Nebraska counties are all small, most having less than one thousand inhabitants. These counties want to reverse the trend exemplified by the study and help residents improve their financial standing, but have found it difficult to determine what state assistance might be available. The purpose of this study is to review what can be done by the state to help small Nebraska counties dealing with very low per capita incomes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Government, Military and Veterans Affairs Committee and Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committees shall upon the conclusion of their study make a report of the findings, together with any recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### **LEGISLATIVE RESOLUTION 240.** Introduced by Burling, 33.

**PURPOSE:** The purpose of this study is to determine if reform to Nebraska statutes regarding the availability of "no-fault divorce" would be beneficial in altering the deleterious effects of divorce in Nebraska. Many studies have linked no-fault divorce with the steep rise in the rate of divorce over the last thirty years. Currently, statistics reflect a correlation between higher divorce rates and the increase of poverty, the number of state wards, mental illness, and suicide, both on the state level and nationwide. The monetary ripple effects of this rise are felt not only by families directly affected by divorce, but are also absorbed by the Health and Human Services System, the state corrections system, and ultimately the taxpayers of the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 241.** Introduced by Connealy, 16.

**PURPOSE:** To study the film industry in Nebraska, to look at incentives other states are offering filmmakers, and to look at ways that Nebraska can become more "film friendly". The primary focus of the study will be to find ways to increase economic development in this state by attracting the film industry.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 242.** Introduced by Connealy, 16.

**PURPOSE:** To study incentives for ethanol use given by other states, specifically in Iowa and Minnesota. The purpose is to review how other states have increased the use of ethanol-blended fuel and used incentives for retailers to sell more ethanol.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 243.** Introduced by Bromm, 23; Chambers, 11.

**PURPOSE:** During the discussion of LB 659, 2001, the DNA Testing Act, the issue arose regarding the three-year limitation for filing a motion for a new trial based on a claim of innocence involving evidence other than DNA. The purpose of this study is to examine the issue in detail.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 244.** Introduced by Hartnett, 45.

PURPOSE: As the Urban Affairs Committee has reviewed and approved various statutory changes involving the several classes of municipalities, it has become increasingly difficult to gather all the various references to the same subject involving the different cities and villages to insure that the changes are made consistently and that inconsistent treatment is avoided.

The purpose of this study will be to review the various statutes dealing

with cities and villages of all classes and determine if major or minor changes in codification are possible or desirable to bring about more brevity and clarity and to facilitate the search for relevant statutes on subjects related to municipal government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 245.** Introduced by Hartnett, 45.

**PURPOSE:** Over the course of the past three legislative sessions, several bills have been introduced for the purpose of reducing or eliminating the county inheritance tax and providing different mechanisms for minimizing the financial impact of the lost tax revenue on the counties. Efforts to advance the proposals have suffered from a lack of data on the full impact of the lost revenue on the counties as well as on the appropriate role of the state in making up for the loss.

This study would research the potential revenue loss (by quantifying the amount of the inheritance tax receipts over a reasonable period of time) and develop one or more proposals for eliminating or minimizing the loss.

In addition, based on the identified revenue loss and proposed federal law changes, the committee would identify the most efficacious approach to reducing or eliminating the inheritance tax.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 246.** Introduced by Preister, 5.

**PURPOSE:** The purpose of this study is to conduct a review of the environmental audit statutes which were enacted four years ago. The review shall include, but not be limited to, an investigation of the following:

(1) A review of the current federal Environmental Protection Agency environmental audit policy as well as other states' environmental audit policies;

(2) An analysis of how the environmental audit statutes have been used in

Nebraska and whether the uses are consistent with the original intent of the act;

(3) A review of state agencies' authority under the act and whether this authority should be modified or expanded;

(4) An examination of whether the environmental audit statutes have created any incompatibility with federal programs, and if so, what changes need to be made to make state statutes compatible with federal programs;

(5) An analysis of whether the public's health, safety, and access to information are adequately protected; and

(6) A review of any impacts to the environment as a result of application of the environmental audit statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 247.** Introduced by Preister, 5; Hilgert, 7; Thompson, 14; Suttle, 10; Chambers, 11; Beutler, 28; Price, 26.

**PURPOSE:** The purpose of this study is to identify ways to reduce childhood environmental lead poisoning in Nebraska. Lead poisoning can lead to death or coma at extremely high levels and, at somewhat lower levels, will cause adverse effects on the central nervous system and kidneys. Lead poisoning can cause decreased intelligence, reading and language development problems, and slower sensory-motor and delayed early cognitive development. At higher levels it can cause adverse effects on the central nervous system or lead to death. In addition, elevated lead levels have been linked to violent tendencies and disruptive behavior in children. It is one of the most common and yet most preventable pediatric health problems today.

In 1998 only 6% of Nebraska's children under the age of six were reported tested for elevated blood-lead levels. In the same year, one in five children tested in Douglas County had lead blood levels which are 4 times the national average. In children tested east of 45th Street in Omaha, 22% to 35% showed abnormally high lead levels. Out of 343 child-care facilities sampled in 1999-2000 in this same area, 71 had one or more samples exceeding the health-based action level.

More recently, a national study found that children exposed to lead levels now considered safe scored substantially lower on intelligence tests, averaging 11.1 points lower on the Stanford-Binet IQ test.

Although testing has increased in Omaha, testing elsewhere in the state

remains low. This lack of testing persists despite current policy which requires that every child receiving a Medicaid Health Check examination must be screened for elevated blood lead levels at least at ages 12 months and 24 months.

The study shall include, but not be limited to, an investigation into the following:

(1) A determination of the percentage of Medicaid children who are currently being tested for elevated blood-lead levels and a review of adequacy of services made available to children with elevated blood-lead levels;

(2) An analysis of the fiscal impact on the state regarding medical expenses and other expenses related to disturbed or violent behavior in children as a result of untreated lead poisoning in children;

(3) A review of other states' policies regarding testing of children for blood-lead levels and public education programs which have been successful in communicating the importance of testing; and

(4) A review of elevated blood-lead levels in the state and analysis of the possible sources of the lead, including an examination of how to reduce lead emissions in these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee, Natural Resources Committee, and Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 248.** Introduced by Schimek, 27.

PURPOSE: To study and examine issues related to service delivery of natural gas within a municipal county.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 249.** Introduced by Beutler, 28.

**PURPOSE:** To study the issues presented in LB 626, Ninety-seventh Legislature, First Session, 2001. LB 626 proposes new language that would require all full-time private employees performing services under a contract with the state for personal services to be paid a minimum wage of at least \$8.19 for employees who receive health care benefits, and at least \$9.01 for employees who do not receive health care benefits. The personal contracts under which employees are performing are those valued at \$75,000 or more per year between a private entity and a state agency, other than the University of Nebraska or any other agency established by the Constitution of Nebraska.

The study shall include, but not be limited to, an examination of the following:

(1) The number of contracts for personal services, by agency, and the number of employees working under those contracts that would be affected by passage of LB 626;

(2) The impact of LB 626 on the negotiation process between state agencies and private contractors;

(3) The impact of LB 626 upon private businesses contracting with the state to provide personal services, assuming that contract rates will not be increased to account for the living wage; and

(4) The potential fiscal impact of LB 626 if contract rates were to be increased to cover the increases in wage rates required to be paid by private contractors.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 250.** Introduced by Jensen, 20.

**PURPOSE:** The purpose of this study is to examine issues raised by the introduction and passage of legislation relating to the licensure and regulation of distributors of mail-order contact lenses.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 251.** Introduced by Redfield, 12.

**PURPOSE:** When municipalities, through the use of eminent domain, assume ownership of utilities previously owned by private entities, taxable property is removed from the tax rolls. This results in a shift of property tax burden among taxpayers and a loss of property tax revenue to other political subdivisions, such as counties, school districts, natural resources districts, and community colleges. Also, state aid formulas to counties, natural resources districts, and municipalities under Neb. Rev. Stat. sections 77-27,137, 77-27,137.02, and 77-27,139.03, respectively, are based upon property taxes levied, and state aid formulas to schools are based, in part, upon the amount of property available for taxation. Removal of large amounts of property from the tax rolls in this manner skews state aid formulas.

When political subdivisions construct utility infrastructure to compete with existing utilities, the value of the existing utility's infrastructure is diminished or destroyed. This results in similar revenue issues as with direct condemnation.

When the power of eminent domain is exercised to take ownership of and subsequently operate utilities, other taxable transactions may become exempt from sales or use tax and income generated by the utility becomes exempt from income tax.

The purpose of this study is to examine how property tax, state revenue, and state aid formulas are impacted by municipalities' use of the power of eminent domain over utilities. Also, the study shall review how property tax, state revenue, and state aid formulas are impacted by political subdivisions' construction of utility infrastructure to compete with existing utilities. Further, the study shall include recommendations, if any, to correct any negative impact, such as adjustments of state aid formulas to include property previously taxed or taxation of proprietary functions of municipalities.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

- 7 (a) Multiplying the formula students in each grade range
- 8 by the corresponding weighting factors to calculate the weighted
- 9 formula students for each grade range as follows:
- 10 (i) The weighting factor for kindergarten is five-tenths;
- 11 (ii) The weighting factor for grades one through six,
- 12 including full-day kindergarten, is one;

16 the local system, in order to determine the number of low-income  
17 students within such local system. The number of children under  
18 nineteen years of age used in this calculation shall be derived  
19 from income tax information. The poverty factor shall equal the  
20 number of low-income students or the formula students qualified for  
21 free lunches or free milk under United States Department of

23 multiplied by the following factors:

24 (A) 0 for the qualified formula students comprising the  
25 first five percent of the formula students in the local system;

16 system; and

17 (iv) The extreme remoteness factor shall equal 0.125  
18 times the formula students in the local system for each local  
19 system that has fewer than two hundred formula students, more than  
20 six hundred square miles in the local system, less than  
21 three-tenths formula student per square mile in the local system,  
22 and more than twenty-five miles between the high school attendance  
23 center and the next closest high school attendance center on paved  
24 roads.

25 (2) The total adjusted formula students for each local  
26 system shall equal the weighted formula students plus the  
27 demographic factors, except that (a) for local systems qualifying  
1 for the extreme remoteness factor, the total adjusted formula  
2 students shall be greater than or equal to one hundred fifty  
3 adjusted formula students, (b) the total adjusted formula students  
4 for a local system shall not include the extreme remoteness factor  
5 or any adjustment to the adjusted formula students resulting from  
6 qualification for the extreme remoteness factor for the calculation  
7 of the average formula cost per student in each cost grouping

8 pursuant to ~~subdivision~~ subsection (2) of section 79-1007.02, and  
9 (c) the total adjusted formula students for a local system shall  
10 include the extreme remoteness factor and any adjustment to the  
11 adjusted formula students resulting from qualification for the  
12 extreme remoteness factor for the calculation of the local system's  
13 formula need pursuant to ~~subdivision~~ subsection (3) of section  
14 79-1007.02.

15 Sec. 9. Section 79-1007.02, Revised Statutes Supplement,  
16 2000, is amended to read:

17 79-1007.02. ~~For state aid calculated for school fiscal~~  
18 ~~year 1998-99 and each school fiscal year thereafter:~~

19 (1) Using data from the annual financial reports for the  
20 second school fiscal year immediately preceding the school fiscal  
21 year in which aid is to be paid, the annual statistical summary  
22 reports for the school fiscal year immediately preceding the school  
23 fiscal year in which aid is to be paid, the fall membership reports  
24 and supplements thereto for the school fiscal year immediately  
25 preceding the school fiscal year in which aid is to be paid, and  
26 the school district census as reported under sections 79-524 and  
27 79-578 for the second school fiscal year preceding the school

1 fiscal year in which aid is to be paid, the department shall divide  
2 the local systems into three cost groupings prior to the  
3 certification of state aid based upon the following criteria:

4 (a) The very sparse cost grouping will consist of local  
5 systems that have (i)(A) less than one-half student per square mile  
6 in each county in which each high school attendance center is  
7 located, based on the school district census, (B) less than one  
8 formula student per square mile in the local system, and (C) more  
9 than fifteen miles between the high school attendance center and  
10 the next closest high school attendance center on paved roads or  
11 (ii)(A) more than four hundred fifty square miles in the local  
12 system, (B) less than one-half student per square mile in the local  
13 system, and (C) more than fifteen miles between each high school  
14 attendance center and the next closest high school attendance  
15 center on paved roads;

16 (b) The sparse cost grouping will consist of local  
17 systems that do not qualify for the very sparse cost grouping but  
18 which meet the following criteria:

19 (i)(A) Less than two students per square mile in the  
20 county in which each high school is located, based on the school  
21 district census, (B) less than one formula student per square mile  
22 in the local system, and (C) more than ten miles between each high  
23 school attendance center and the next closest high school  
24 attendance center on paved roads;

25 (ii)(A) Less than one and one-half formula students per  
26 square mile in the local system and (B) more than fifteen miles  
27 between each high school attendance center and the next closest  
1 high school attendance center on paved roads;

2 (iii)(A) Less than one and one-half formula students per

3 square mile in the local system and (B) more than two hundred  
4 seventy-five square miles in the local system; or  
5 (iv)(A) Less than two formula students per square mile in  
6 the local system and (B) the local system includes an area equal to  
7 ninety-five percent or more of the square miles in the largest  
8 county in which a high school attendance center is located in the  
9 local system; and

10 (c) The standard cost grouping will consist of local  
11 systems that do not qualify for the very sparse or the sparse cost  
12 groupings.

13 For purposes of ~~subdivision (1) of this section~~ this  
14 subsection, if a local system did not operate and offer instruction  
15 in grades nine through twelve within the boundaries of the local  
16 system during the school fiscal year immediately preceding the  
17 school fiscal year in which aid is to be paid, the local system  
18 shall not be considered to have a high school attendance center. ;

19 (2) The department shall calculate the average formula  
20 cost per student in each cost grouping by dividing the total  
21 estimated general fund operating expenditures for the cost grouping  
22 by the total adjusted formula students for all local systems in the  
23 cost grouping. ~~For the calculation of state aid for school fiscal~~  
24 ~~year 1999-00 and for each school fiscal year thereafter, the~~ The  
25 average formula cost per student in each cost grouping shall not be  
26 recalculated for the final calculation of state aid pursuant to  
27 section 79-1065. The calculation of total adjusted formula

1 students for purposes of this ~~subdivision~~ subsection shall take  
2 into account the requirements of subsection (2) of section  
3 79-1007.01. The total estimated general fund operating  
4 expenditures for the cost grouping is equal to the total adjusted  
5 general fund operating expenditures for all local systems in the  
6 cost grouping multiplied by a cost growth factor. The cost growth  
7 factor for each cost grouping is equal to the sum of: (a) One; plus  
8 (b) the product of two times the ratio of the difference between  
9 the formula students attributable to the cost grouping without  
10 weighting or adjustment pursuant to section 79-1007.01 and the  
11 average daily membership attributable to the cost grouping for the  
12 most recently available complete data year divided by the average  
13 daily membership attributable to the cost grouping for the most  
14 recently available complete data year, except that the ratio shall  
15 not be less than zero; plus (c) the basic allowable growth rate  
16 pursuant to section 79-1025 for the school fiscal year in which the  
17 aid is to be distributed; plus (d) the basic allowable growth rate  
18 pursuant to section 79-1025 for the school fiscal year immediately  
19 preceding the school fiscal year in which the aid is to be  
20 distributed; plus (e) ~~one-half of any additional growth rate~~  
21 ~~allowed by special action of school boards for the school fiscal~~  
22 ~~year in which the aid is to be distributed as determined for the~~  
23 ~~school fiscal year immediately preceding the school fiscal year~~  
24 ~~when aid is to be distributed; plus (f) one-half of any additional~~

25 growth rate allowed by special action of the school boards for the  
26 school fiscal year immediately preceding the school fiscal year  
27 when the aid is to be distributed ; and one percent.

1 (3) Each local system's formula need will be equal to the  
2 local system's transportation allowance plus the local system's  
3 special receipts allowance plus the product of the local system's  
4 adjusted formula students multiplied by the average formula cost  
5 per student in the local system's cost grouping. The calculation  
6 of total adjusted formula students for purposes of this subdivision  
7 subsection shall take into account the requirements of subsection  
8 (2) of section 79-1007.01.

9 Sec. 10. Section 79-1029, Revised Statutes Supplement,  
10 2000, is amended to read:

11 79-1029. (1)(a) A Class II, III, IV, V, or VI district  
12 may exceed the basic allowable growth rate prescribed in section  
13 79-1025 upon an affirmative vote of at least seventy-five percent  
14 of the board. The Except as otherwise provided in subdivision (b)  
15 of this subsection, the total growth shall not exceed the  
16 applicable allowable growth percentage certified for the local  
17 system under section 79-1026 plus one percent.

18 (b) For Class II, III, IV, V, or VI districts which (a)  
19 are budgeting for the applicable school fiscal year an increase in  
20 salaries for first-year teachers of at least six percent and (b)  
21 are part of a local system which has below average spending for  
22 their cost grouping, based on the local system's adjusted general  
23 fund operating expenditures divided by the local system's formula  
24 students compared to the cost grouping aggregate adjusted general  
25 fund operating expenditures divided by the cost grouping aggregate  
26 formula students, the total growth shall not exceed the applicable  
27 allowable growth percentage certified for the local system under  
1 section 79-1026 plus three percent. A Class II, III, IV, V, or VI  
2 district may exceed the basic allowable growth rate by the  
3 applicable allowable growth percentage plus three percent as  
4 provided in this subdivision for only one school fiscal year during  
5 the period beginning with school fiscal year 2001-02 and ending  
6 with school fiscal year 2003-04.

7 (c) The vote shall be taken at a public meeting of the  
8 board following a special public hearing called for the purpose of  
9 receiving testimony on such proposed increase. The board shall  
10 give at least five calendar days' notice of such public hearing and  
11 shall publish such notice at least once in a newspaper of general  
12 circulation in the local system.

13 (2) A Class II, III, IV, V, or VI district may exceed the  
14 applicable allowable growth percentage prescribed in section  
15 79-1026 by an amount approved by a majority of legal voters voting  
16 on the issue at a primary, general, or special election called for  
17 such purpose upon the recommendation of the board or upon the  
18 receipt by the county clerk or election commissioner of a petition  
19 requesting an election signed by at least five percent of the legal

20 voters of the district. The recommendation of the board or the  
 21 petition of the legal voters shall include the amount and  
 22 percentage by which the board would increase its general fund  
 23 budget of expenditures for the ensuing school year over and above  
 24 the current year's general fund budget of expenditures. The county  
 25 clerk or election commissioner shall place the question on the  
 26 primary or general election ballot or call for a special election  
 27 on the issue after the receipt of such board recommendation or  
 1 legal voter petition. The election shall be held pursuant to the  
 2 Election Act or section 77-3444, and all costs for a special  
 3 election shall be paid by the district. A vote to exceed the  
 4 applicable allowable growth percentage may be approved on the same  
 5 question as a vote to exceed the levy limits provided in section  
 6 77-3444."  
 7 2. Amend the repealer, renumber the remaining sections,  
 8 and correct internal references accordingly.

- 9 agreement;
- 10 (2) Certified automated system means software certified

11 jointly by the states that are signatories to the agreement to

13 determine the amount of tax to remit to the appropriate state, and  
14 maintain a record of the transaction;

15 (3) Certified service provider means an agent certified  
16 jointly by the states that are signatories to the agreement to  
17 perform all of the seller's sales tax collection functions;

19 fiduciary, a partnership, a limited liability company, a limited

22 (6) Seller means any person making sales, leases, or  
23 rentals of personal property or services;

24 (7) State means any state of the United States and the  
1 District of Columbia; and

2 (8) Use tax means the tax levied under section 77-2703.

3 Sec. 3. The Legislature finds that a simplified sales  
4 and use tax system will reduce and over time eliminate the burden  
5 and cost for all sellers to collect this state's sales and use tax.

6 The Legislature further finds that this state should participate in  
7 multistate discussions to review or amend the terms of the  
8 agreement to simplify and modernize sales and use tax  
9 administration in order to substantially reduce the burden of tax  
10 compliance for all sellers and for all types of commerce.

11 Sec. 4. The Governor is authorized and directed to enter  
12 into the agreement with one or more states to simplify and  
13 modernize sales and use tax administration in order to  
14 substantially reduce the burden of tax compliance for all sellers  
15 and for all types of commerce. In furtherance of the agreement,  
16 the Department of Revenue is authorized to act jointly with other  
17 states that are signatories to the agreement to establish standards  
18 for certification of a certified service provider and certified  
19 automated system and establish performance standards for multistate  
20 sellers. The department is further authorized to take other  
21 actions reasonably required to implement the provisions set forth  
22 in the Uniform Sales and Use Tax Administration Act. Other actions  
23 authorized by this section include, but are not limited to, the  
24 adoption and promulgation of rules and regulations and the joint

1 states that are signatories to the agreement. Any agreement under  
2 this section shall be ratified by the Legislature.

3 Sec. 5. No provision of the agreement in whole or in  
4 part invalidates or amends any provision of the law of Nebraska.  
5 Adoption of the agreement by Nebraska does not amend or modify any  
6 law of Nebraska. Any condition of the agreement that is in  
7 conflict with state law, whether adopted before, at, or after  
8 membership of Nebraska in the agreement, shall be implemented by

- 9 legislation or rule and regulation, as is appropriate.  
10 Sec. 6. The Governor shall not enter into the agreement  
11 unless the agreement requires each state to abide by the following  
12 requirements:  
13 (1) Uniform state rate. The agreement shall set  
14 restrictions to achieve over time more uniform state rates through  
15 the following:  
16 (a) Limiting the number of state rates;  
17 (b) Limiting the application of maximums on the amount of  
18 state tax that is due on a transaction; and

26 (d) Sales and use tax returns and remittances;  
27 (3) Uniform definitions. The agreement shall require  
1 states to develop and adopt uniform definitions of sales and use  
2 tax terms. The definitions shall enable Nebraska to preserve its  
3 ability to make taxability and exemption choices not inconsistent  
4 with the uniform definitions;  
5 (4) Central registration. The agreement shall provide an  
6 electronic central registration system that allows a seller to  
7 register to collect and remit sales and use taxes for all member  
8 states;  
9 (5) No nexus attribution. The agreement shall provide  
10 that registration with the central registration system and the  
11 collection of sales and use taxes in the member states will not be  
12 used as a factor in determining whether the seller has  
13 constitutional nexus with a state for any tax;  
14 (6) Local sales and use taxes. The agreement shall  
15 provide for reduction of the burdens of complying with local sales  
16 and use taxes through the following:  
17 (a) Restricting variances between the state and local tax  
18 bases;  
19 (b) Requiring states to administer all sales and use  
20 taxes levied by local jurisdictions within the state so that  
21 sellers collecting and remitting these taxes will not have to  
22 register or file returns with, remit funds to, or be subject to  
23 independent audits from local taxing jurisdictions;  
24 (c) Restricting the frequency of changes in the local  
25 sales and use tax rates and setting effective dates for the  
26 application of local jurisdictional boundary changes to local sales  
27 and use taxes; and  
1 (d) Providing uniform notice of changes in local sales  
2 and use tax rates and of changes in the boundaries of local taxing  
3 jurisdictions;

4 (7) Monetary allowances. The agreement shall outline any  
5 monetary allowances that are to be provided by the states to  
6 sellers or certified service providers in exchange for collecting  
7 sales and use taxes;

8 (8) State compliance. The agreement shall require each  
9 state to certify compliance with the terms of the agreement prior  
10 to joining and to maintain compliance, under the laws of the member  
11 state, with all provisions of the agreement while a member;

12 (9) Consumer privacy. The agreement shall require each  
13 state to adopt a uniform policy for certified service providers  
14 that protects the privacy of consumers and maintains the  
15 confidentiality of tax information; and

16 (10) Advisory councils. The agreement shall provide for  
17 the appointment of an advisory council of private-sector  
18 representatives and an advisory council of nonmember state  
19 representatives to consult with in the administration of the  
20 agreement.

21 Sec. 7. The agreement is an accord among individual  
22 cooperating sovereigns in furtherance of their governmental  
23 functions. The agreement provides a mechanism among the member  
24 states to establish and maintain a cooperative, simplified system  
25 for the application and administration of sales and use taxes under  
26 the duly adopted law of each member state.

27 Sec. 8. (1) The agreement binds and inures only to the  
1 benefit of Nebraska and the other member states. No person, other  
2 than a member state, is an intended beneficiary of the agreement.  
3 Any benefit to a person is established by the laws of Nebraska and  
4 the other member states and not by the terms of the agreement.

5 (2) No person shall have any cause of action or defense  
6 under the agreement or by virtue of this state's approval of the  
7 agreement. No person may challenge, in any action brought under  
8 any provision of law, any action or inaction by any department,  
9 agency, or other instrumentality of Nebraska, or any political  
10 subdivision of Nebraska, on the ground that the action or inaction  
11 is inconsistent with the agreement.

12 (3) No law of Nebraska, or the application thereof, may  
13 be declared invalid as to any person or circumstance on the ground  
14 that the provision or application is inconsistent with the  
15 agreement.

16 Sec. 9. (1) A certified service provider is the agent of  
17 a seller with whom the certified service provider has contracted  
18 for the collection and remittance of sales and use taxes. As the  
19 seller's agent, the certified service provider is liable for sales  
20 and use tax due each member state on all sales transactions it  
21 processes for the seller except as set out in this section.  
22 Notwithstanding the provisions of sections 77-2702.03 to 77-2713  
23 and 77-27,125 to 77-27,135.01, a seller that contracts with a  
24 certified service provider is not liable to the state for sales or  
25 use tax due on transactions processed by the certified service

26 provider unless the seller misrepresented the type of items it  
 27 sells or committed fraud. In the absence of probable cause to  
 1 believe that the seller has committed fraud or made a material  
 2 misrepresentation, a seller that contracts with a certified service  
 3 provider is not subject to audit with regard to transactions  
 4 processed by the certified service provider. A seller is subject  
 5 to audit with regard to transactions not processed by the certified  
 6 service provider. The member states acting jointly may perform a  
 7 system check of the seller and review the seller's procedures to  
 8 determine if the certified service provider's system is functioning  
 9 properly and the extent to which the seller's transactions are  
 10 being processed by the certified service provider.

11 (2) A person that provides a certified automated system  
 12 is responsible for the proper functioning of that system and is  
 13 liable to the state for underpayments of tax attributable to errors  
 14 in the functioning of the certified automated system as provided in  
 15 section 77-2703. A seller that uses a certified automated system  
 16 remains responsible and is liable to the state for reporting and  
 17 remitting tax as provided in section 77-2703.

18 (3) A seller that has a proprietary system for  
 19 determining the amount of tax due on transactions and has signed  
 20 any agreement establishing a performance standard for that system  
 21 is liable for the failure of the system to meet the performance  
 22 standard.

23 Sec. 10. Section 77-2701, Revised Statutes Supplement,  
 24 2000, is amended to read:

25 77-2701. Sections 77-2701 to 77-27,135.01 and sections 1  
 26 to 9 of this act shall be known and may be cited as the Nebraska

6 Sec. 6. Section 86-1907, Reissue Revised Statutes of  
7 Nebraska, is amended to read:  
8 86-1907. (1) Nothing in the Telephone Consumer Slamming  
9 Prevention Act shall preclude a subscriber from electing to resolve  
10 an unauthorized change in service directly with the unauthorized  
11 telecommunications company. If the subscriber is unsatisfied with  
12 the resolution from the unauthorized company, the subscriber may  
13 file a complaint with the commission. The complaint may be made by  
14 letter, fax, online notification, or telephone call to the  
15 commission. The subscriber may be required to provide a copy of  
16 the subscriber's telephone bill that contains the alleged  
17 unauthorized company's charges.  
18 (2) The commission, consistent with applicable federal  
19 rules and regulations including rules and regulations of the  
20 Federal Communications Commission which implement section 258 of  
21 the federal act, shall adopt and promulgate rules and regulations  
22 for resolution of subscriber complaints of an unauthorized change  
23 in service. The procedures in this section shall apply only after  
24 a subscriber has determined that an unauthorized change has

27 company. Upon receiving notification from the subscriber or a  
1 company that a subscriber has been subjected to an unauthorized  
2 change and that the subscriber has paid charges to an allegedly  
3 unauthorized company, the properly authorized company shall, within  
4 thirty days, request from the allegedly unauthorized company proof  
5 of verification of the subscriber's authorization to change  
6 companies. Within ten days after receiving such request, the  
7 allegedly unauthorized company shall forward to the authorized  
8 company either:  
9 (a) Proof of verification of the subscriber's  
10 authorization to change companies; or  
11 (b) The following:  
12 (i) An amount equal to all charges paid by the subscriber  
13 to the unauthorized company;  
14 (ii) An amount equal to any charge required to return the

18 unauthorized company to the subscriber.  
19 (2) If an authorized telecommunications company incurs  
20 any billing and collection expenses in collecting charges from the  
21 unauthorized company, the unauthorized company shall reimburse the  
22 authorized company for reasonable expenses.  
23 (3) When a subscriber notifies the unauthorized company,  
24 rather than the authorized company, of an unauthorized change, the  
25 unauthorized company shall immediately notify the authorized  
26 company.

1 amount described in subdivision (1)(b)(i) of this section, the  
2 authorized company shall provide a refund or credit to the  
3 subscriber of all charges paid in excess of what the authorized  
4 company would have charged the subscriber absent the unauthorized  
5 change. If the authorized company has not received from the  
6 unauthorized company an amount equal to charges paid by the  
7 subscriber to the unauthorized company, the authorized company is  
8 not required to provide any refund or credit. The authorized  
9 company shall, within sixty days after it receives notification of  
10 the unauthorized change, inform the subscriber if it has failed to  
11 collect any charges from the unauthorized company and inform the  
12 subscriber of his or her right to pursue a claim against the  
13 unauthorized company for a refund of all charges paid to the  
14 unauthorized company.

15 (5) When possible, the properly authorized company shall  
16 reinstate the subscriber in any premium program in which that  
17 subscriber was enrolled prior to the unauthorized change if that  
18 subscriber's participation in the premium program was terminated  
19 because of the unauthorized change. If the subscriber has paid  
20 charges to the unauthorized company, the properly authorized  
21 company shall also provide or restore to the subscriber any  
22 premiums to which the subscriber would have been entitled had the  
23 unauthorized change not occurred. The authorized company shall  
24 comply with the requirements of this subsection regardless of  
25 whether it is able to recover from the unauthorized company any  
26 charges that were paid by the subscriber.

27 (6) The Public Service Commission may from time to time  
1 review and adjust the reimbursement procedures in a manner  
2 consistent with federal law.

3 Sec. 7. Section 86-1908, Reissue Revised Statutes of  
4 Nebraska, is amended to read:

19 penalty for a violation shall not exceed two thousand dollars.  
20 Every violation associated with a specific access line within the  
21 state shall be considered a separate and distinct violation.

22 (2) The amount of an administrative penalty shall be

23 based on:

24 (a) The nature, circumstances, extent, and gravity of a

**LEGISLATIVE BILL 593.** Placed on Select File as amended.  
E & R amendment to LB 593:

AM7131

1 1. Strike the original sections and all amendments

2 thereto and insert the following new sections:

3 "Section 1. The working men and women in Nebraska law  
4 enforcement risk their lives everyday. The people of Nebraska  
5 greatly appreciate the hard work and dedication of law enforcement  
6 officers in protecting the public. The good name of these officers  
7 should not be tarnished by the actions of those few who commit

8 discriminatory practices in defiance of the Nebraska Law  
9 Enforcement Non-Discrimination Resolution adopted on October 10,

10 2000, by various Nebraska law enforcement entities.

11 Racial profiling is a practice that presents a great  
12 danger to the fundamental principles of a democratic society. It  
13 is abhorrent and cannot be tolerated. Motorists who have been  
14 stopped by the police for no reason other than the color of their  
15 skin or their apparent nationality or ethnicity are the victims of  
16 discriminatory practices.

17 Sec. 2. (1) No member of the Nebraska State Patrol or a  
18 county sheriff's office, officer of a city or village police  
19 department, or member of any other law enforcement agency in this  
20 state shall engage in racial profiling. The disparate treatment of  
21 an individual whose motor vehicle has been stopped by a law  
22 enforcement officer is inconsistent with this policy.

23 (2) Racial profiling shall not be used to justify the  
24 detention of an individual or to conduct a motor vehicle stop.

1 Sec. 3. For purposes of sections 1 to 5 of this act:

2 (1) Disparate treatment means differential treatment of  
3 persons on the basis of race, color, or national origin;

4 (2) Motor vehicle stop means any stop of a motor vehicle;  
5 and

6 (3) Racial profiling means detaining an individual or  
7 conducting a motor vehicle stop based upon disparate treatment of  
8 an individual.

9 Sec. 4. (1) On or before January 1, 2002, the Nebraska  
10 State Patrol, the county sheriffs, all city and village police  
11 departments, and any other law enforcement agency in this state  
12 shall adopt a written policy that prohibits the detention of any  
13 person or a motor vehicle stop when such action is motivated by  
14 racial profiling and the action would constitute a violation of the  
15 civil rights of the person.

16 (2) With respect to a motor vehicle stop, on and after  
17 January 1, 2002, the Nebraska State Patrol, the county sheriffs,  
18 all city and village police departments, and any other law  
19 enforcement agency in this state shall record and retain the  
20 following information using the form developed and promulgated  
21 pursuant to section 5 of this act:

22 (a) The number of motor vehicle stops;

23 (b) The characteristics of race or ethnicity of the  
24 person stopped. The identification of such characteristics shall  
25 be based on the observation and perception of the law enforcement  
26 officer responsible for reporting the motor vehicle stop and the  
27 information shall not be required to be provided by the person  
1 stopped;

2 (c) If the stop is for a law violation, the nature of the  
3 alleged law violation that resulted in the motor vehicle stop;

4 (d) Whether a warning or citation was issued, an arrest  
5 made, or a search conducted as a result of the motor vehicle stop.  
6 Search does not include a search incident to arrest or an inventory  
7 search; and

8 (e) Any additional information that the Nebraska State  
9 Patrol, the county sheriffs, all city and village police  
10 departments, or any other law enforcement agency in this state, as  
11 the case may be, deems appropriate.

12 (3) The Nebraska Commission on Law Enforcement and  
13 Criminal Justice may develop a uniform system for receiving  
14 allegations of racial profiling. The Nebraska State Patrol, the

15 county sheriffs, all city and village police departments, and any  
16 other law enforcement agency in this state shall provide to the  
17 commission (a) a copy of each allegation of racial profiling  
18 received and (b) written notification of the review and disposition  
19 of such allegation. No information revealing the identity of the  
20 law enforcement officer involved in the stop shall be used,  
21 transmitted, or disclosed in violation of any collective bargaining  
22 agreement provision or personnel rule under which such law  
23 enforcement officer is employed. No information revealing the  
24 identity of the complainant shall be used, transmitted, or  
25 disclosed in the form alleging racial profiling.

26 (4) Any law enforcement officer who in good faith records  
27 information on a motor vehicle stop pursuant to this section shall

1 not be held civilly liable for the act of recording such  
2 information unless the law enforcement officer's conduct was  
3 unreasonable or reckless or in some way contrary to law.

4 (5) On or before October 1, 2002, and annually thereafter  
5 until January 1, 2004, the Nebraska State Patrol, the county  
6 sheriffs, all city and village police departments, and all other  
7 law enforcement agencies in this state shall provide to the  
8 commission, in such form as the commission prescribes, a summary  
9 report of the information recorded pursuant to subsection (2) of  
10 this section.

11 (6) On and after January 1, 2002, and until January 1,  
12 2004, the commission may, within the limits of its existing  
13 appropriations, provide for a review of the prevalence and  
14 disposition of motor vehicle stops based on racial profiling and  
15 allegations reported pursuant to this section. The results of such  
16 review shall be reported to the Governor and the Legislature on or  
17 before April 1, 2004.

18 Sec. 5. On or before January 1, 2002, the Nebraska  
19 Commission on Law Enforcement and Criminal Justice, the  
20 Superintendent of Law Enforcement and Public Safety, the Attorney  
21 General, and the State Court Administrator may adopt and  
22 promulgate: (1) A form, in printed or electronic format, to be  
23 used by a law enforcement officer when making a motor vehicle stop  
24 to record personal identifying information about the operator of  
25 such motor vehicle, the location of the stop, the reason for the  
26 stop, and any other information that is required to be recorded  
27 pursuant to subsection (2) of section 4 of this act and (2) a form,  
1 in printed or electronic format, to be used to report an allegation  
2 of racial profiling by a law enforcement officer."

### RESOLUTION

**LEGISLATIVE RESOLUTION 259.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Janssen, 15; Raikes, 25; Redfield, 12.

**PURPOSE:** Since December 1999, the Legislative Fiscal Office has used a computable general equilibrium model (TRAIN) to investigate economic impacts of various tax incentives proposed or in existence in Nebraska. The TRAIN model is a comprehensive general economic model that is able to examine how tax changes and incentives affect the Nebraska economy, personal income, and state revenue.

However, TRAIN is, in a sense, a static model that measures the changes in the economy from equilibrium at a point before introduction of the shock

to a point of new equilibrium at some point in the future. The model does not allocate impacts by year -- the impacts are from one equilibrium point to the new equilibrium point, which occurs over a number of years.

A more advanced model, a dynamic TRAIN model, will be able to measure economic impacts by year. Because the dynamic model utilizes the economic growth in the model, it will provide more realistic outcomes on the impacts of tax incentive and will present the path of Nebraska economy through time.

During the interim study in 2000, the Legislative Fiscal Office investigated many dynamic CGE models published in order to determine the most efficient model framework for examining Nebraska tax incentives. After careful literature review, a National Dynamic CGE model, called the BFSW model (constructed by Ballard, Fullerton, Shoven, and Whalley), was selected as the basic framework for constructing a dynamic Nebraska CGE model. It was originally constructed in 1987 and later modified and used by many researchers for academic and policy research.

An interim study should be conducted this year to:

- (1) Construct a basic framework based on the BFSW model;
- (2) Specify Nebraska tax systems based on TRAIN model;
- (3) Construct a Nebraska database based on IMPLAN; and
- (4) Document the new Dynamic TRAIN model.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

- 3 2000, is amended to read:
- 4 23-1118. (1)(a) Unless the county has adopted a
- 5 retirement system pursuant to section 23-2329, the county board of
- 6 any county having a population of one hundred fifty thousand

7 inhabitants or more may, in its discretion and with the approval of  
8 the voters, provide retirement benefits for present and future  
9 employees of the county. The cost of such retirement benefits  
10 shall be funded in accordance with sound actuarial principles with  
11 the necessary cost being treated in the county budget in the same  
12 way as any other operating expense.

13 (b) Except as provided in subdivision (c) of this  
14 subsection, each employee shall be required to contribute, or have  
15 contributed on his or her behalf, an amount at least equal to the  
16 county's contribution to the cost of any such retirement program as  
17 to service performed after the adoption of such retirement program,  
18 but the cost of any benefits based on prior service shall be borne

21 of two hundred thousand or more inhabitants but not more than three  
22 hundred thousand inhabitants, the county or municipal county shall  
23 establish the employee and employer contribution rates to the

13 primary election held within the county or municipal county, and in

16 vote on such question, which shall be submitted in the following

10 contributions required by this section for all compensation paid on  
11 or after January 1, 1985, and the contributions so picked up shall

**MESSAGES FROM THE GOVERNOR**

May 25, 2001

Patrick J. O'Donnell  
Clerk of the Legislature  
State Capitol, Room 2018  
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 23e, 23Ae, 24Ae, 38, 83, 83A, 92e, 92Ae, 152e, 152A, 154, 154A, 163, 163A, 169, 225, 225Ae, 238, 242, 243e, 244, 244A, 278, 278A, 303e, 303Ae, 313e, 313Ae, 334, 334A, 335, 335A, 368, 432, 432A, 433, 433A, 468, 468A, 516, 561A, 620e, 659, 659A, 677, 677A, 772, 827, 827A were received in my office on May 21, 2001.

These bills were signed by me on May 25, 2001, and delivered to the Secretary of State.

Sincerely,  
(Signed) Mike Johanns

May 25, 2001

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 24 without my signature and with my objections. LB 24A has been signed with the intent that the funding be used to support the legislative study authorized by Legislative Resolution 74.

LB 24 would create a task force to study the creation of a new Immunization Registry within the Department of Health and Human Services. The estimated annual cost of a registry, according to the "All Kids Count" study, is \$3.91 per child. In Nebraska, this would amount to an approximate \$600,000 annual cost for maintaining the registry. This cost does not include the estimated \$1 million to \$2 million dollar expense for the initial development and implementation of the registry. Promoting appropriate immunizations for children is critically important; however, I am concerned that creation of a state database to track immunizations may not be the most effective use of limited state financial resources.

Another factor in my veto decision is that LR 74 has been introduced to study the same issues presented by LB 24. The legislative study will involve

both public and private interests to study the registry issue. A determination on whether the benefits of a registry outweigh other beneficial annual expenditures per year on Nebraska children should be made prior to studying how to create and establish such a state registry.

For these reasons, I urge you to sustain my veto of LB 24.

Sincerely,  
(Signed) Mike Johanns  
Governor

May 25, 2001

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I have returned LB 238 with my signature. This bill will provide for state licensure of emergency medical service instructors. I am, however, returning LB 238A without my signature and with my objections.

This veto is exercised for two reasons. First, the rules and regulations that will be required to be promulgated by LB 238 are already scheduled for amendment within the next year. Second, funding for this licensure program can be redirected from within the current Department of Health and Human Services Regulation and Licensure budget appropriation.

For these reasons, I urge you to sustain the veto of LB 238A.

Sincerely,  
(Signed) Mike Johanns  
Governor

May 25, 2001

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 451 and LB 451A without my signature and with my objections. LB 451 vests the Nebraska Probation System with responsibility for juvenile intake services and creates the position of "juvenile intake probation officer." Under the bill, juvenile intake probation officers would be developed as a specialized class of probation officers, trained in utilizing a uniform juvenile detention screening instrument.

LB 451 would also amend Neb. Rev. Stat. § 43-250(3) to require law

enforcement officers who take a juvenile into custody to deliver the juvenile to a "juvenile intake probation officer" instead of to the juvenile court. The current statute allows law enforcement officers the option of delivering a juvenile to either the court or to a probation officer for determining whether the juvenile will be released from custody or placed in detention pending further court disposition.

In order to perform the functions set forth in the legislation, LB 451A appropriates \$335,417 from General Funds for FY 2001-02 and \$344,755 from General Funds for FY 2002-03 to provide seven additional positions within the court to act in the capacity of juvenile probation intake officers. These seven officers, coupled with the six probation officers currently performing intake duties, would total only 13 probation officers who would be eligible to conduct the juvenile intake assessment for the entire State of Nebraska.

The goal of this legislation is laudable in that it seeks to ensure statewide consistency in juvenile detention decisions. My concern with the legislation is not this goal but, rather, the fact that it is moving the State towards an expansion of the number of state employees needed to perform existing juvenile intake functions. To accomplish the goal of consistency in the broadest manner across our State, I propose that all juvenile probation officers and juvenile courts receive the required juvenile intake service training to appropriately implement a uniform intake screening instrument. These procedural changes can be accomplished without the need for this legislation. Expanding such training to all probation officers and juvenile judges ensures that juveniles will be promptly and uniformly assessed upon their intake into the juvenile justice system.

My decision to veto this legislation also takes into consideration that the approved mainline budget for the Office of Probation Administration includes an additional \$640,000 of General Funds to provide salary funding for existing probation employees and to acquire additional probation staff.

For these reasons, I urge you to sustain my vetoes of LB 451 and LB 451A.

Sincerely,  
(Signed) Mike Johanns  
Governor

Mr. President, Mr. Speakers,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 671 and LB 671A without my signature and with my objections.

LB 671 would establish a \$500 license fee for out-of-state persons

shipping alcoholic products to consumers in Nebraska. LB 671A appropriates funds for the Nebraska Liquor Control Commission to carry out the provisions of the bill.

Since final passage of this bill by the Legislature, I have been contacted directly by many constituents with conflicting views on the need for the legislation. I have also been advised that, later this year, the General Affairs Committee will review the issues presented by the bill as it considers the study authorized by Legislative Resolution 84. That study will examine specific matters related to the importation of alcoholic liquor into Nebraska for personal use. Therefore, I believe that any implementation of the LB 671 provisions at this time would be premature.

For these reasons, I urge you to sustain the vetoes of LB 671 and LB 671A.

Sincerely,  
(Signed) Mike Johanns  
Governor

Mr. President, Mr. Speakers,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 772 with my signature and LB 772A with my signature and with certain line-item reductions.

Since passage of the bill, it has come to my attention that costs of certain services can be handled by existing legislative staff. Therefore, I have made line item reductions of \$12,594 for FY 2001-2002, and \$25,188 for FY 2002-2003, which represents the salary funding for the clerical staff position. This action will retain the executive director and board member travel costs for the non-governmental board members. The Legislative Council will use its existing staff to provide administrative support for the executive director and the board.

I urge you to sustain these reductions in LB 772A.

Sincerely,  
(Signed) Mike Johanns  
Governor

2 classifications.

3 (11) A private prison contractor shall not house inmates

5 (c) Furnish to the department satisfactory proof that the  
6 private prison contractor has obtained insurance or is

8 or the cost of the search, whichever is less. The fees shall be

## SELECT COMMITTEE REPORT Enrollment and Review

### Correctly Enrolled

The following bill was correctly enrolled: LB 75.

(Signed) Philip Erdman, Chairperson

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 273.** Introduced by Health and Human Services Committee: Jensen, 20, Chairperson; Byars, 30; Cunningham, 18; Erdman, 47; Maxwell, 9; Price, 26; Suttle, 10.

**PURPOSE:** LB 640 was introduced on January 16, 2001, at the request of the Governor. The bill was heard by the Health and Human Services Committee of the Legislature on February 8, 2001, and was advanced to General File with committee amendments (AM1022). LB 640 provides additional state General Funds to counties for juvenile services through a newly created County Juvenile Services Aid Program. Grants are also made available in the bill to counties for the development of comprehensive juvenile services plans.

The purpose of this study is to examine three specific issues raised by the introduction of LB 640 (2001): (1) The development of an "equitable formula" for the distribution of aid to counties under the County Juvenile Services Aid Program; (2) the coordination and integration of grants awarded by the Nebraska Commission on Law Enforcement and Criminal Justice and aid distributed to counties under the County Juvenile Services Aid Program; and (3) the distribution and use of aid provided under the bill as it relates to the statewide organization of juvenile justice services and the implementation of a comprehensive plan for the delivery of such services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 274.** Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Connealy, 16; Erdman, 47; Janssen, 15; Preister, 5; Quandahl, 31; Redfield, 12.

**PURPOSE:** With the filing of the consultant's report on our existing system of municipal natural gas regulation and the introduction and consideration of legislation based on that report to reform and restructure our current system (proposed amendments to LB 806 and LB 807), the issues surrounding the future shape of natural gas regulation in Nebraska have been identified and placed before the committee for further discussion, study, and development.

This study would involve a review of those issues currently before the Urban Affairs Committee and the development of a program for effective natural gas regulation in Nebraska, based upon the consultant's report and the amendments to LB 806 proposed at committee hearings on February 27 and March 6.

The goal will be to draft new legislation for introduction in the 2002 legislative session providing for a comprehensive natural gas regulatory program. In pursuing that goal, the committee will engage representatives from all interested groups and parties involved in providing natural gas to consumers in Nebraska and the consumers themselves in discussions aimed at narrowing differences and finding ways of arriving at consensus on the final solution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 275.** Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: To study issues involving the passage of LB 193, Ninety-seventh Legislature, First Session, 2001, which established the Nebraska Workforce Investment Act. The study will examine whether successful implementation is taking place and whether legislative changes are necessary to assist with this workforce development transition.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

### MESSAGES FROM THE GOVERNOR

May 31, 2001

Mr. President, Mr. Speaker, and  
Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 215 without my signature and with my objections.

My objections to this legislation are focused solely on those provisions that make it unlawful for licensed real estate professionals to discriminate against individuals based upon their "sexual orientation." My position on the issue of giving separate legal recognition to individuals on the basis of their personal sexual preference is longstanding and clear. I oppose such efforts.

LB 215 goes beyond mere tolerance and clearly creates a legal classification based upon sexual choices that our citizens make in their personal lives. There is no distinction between the "sexual orientation" provisions set forth in this bill and ones that would be suggested in any other state licensure laws. In my view, therefore, the legislation should be viewed as beginning a precedent that our State would embark upon in many other areas.

For these reasons, I urge you to sustain my veto of LB 215.

Sincerely,  
(Signed) Mike Johanns  
Governor
