

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

February 25, 2003 LB 216

guess the question was, is why not make it within a reasonable time as to within any time, as the bill is right now? And, again, I'd have to go back to the same theme that I started off with. What we're talking about here are commercial insurance policy lines. We're not talking about individual homeowners or anything, or individual auto. We're talking about business insurers here. And so when the policyholders are business people, I believe that the department could be given or granted additional latitude to review the policies at their discretion. Thank you.

SPEAKER BROMM: Thank you, Senator Quandahl. Senator Beutler.

SENATOR BEUTLER: Mr. Speaker, Senator Quandahl, if we could keep up the dialogue, it would be good to have your intentions known here, I believe. You have indicated now that the intention of this paragraph, subsection (5) on page 92 (sic) is that the director shall review every policy form, and I think you also indicated that your interpretation was that at any time means within a reasonable time. Are those two statements correct?

SPEAKER BROMM: Senator Quandahl.

SENATOR QUANDAHL: Think...yeah, I if I could respond to that, I think what I said, and I think in my discussions with the department, I said that it is their intention to review these policy forms, and so...

SENATOR BEUTLER: With a reasonable time?

SENATOR QUANDAHL: Within a reasonable time.

SENATOR BEUTLER: Okay.

SENATOR QUANDAHL: And so, even though that isn't in the bill as it is right now, it does say...again, I'd have to go back to the very next sentence that is after the one that you propose to amend, where it talks about the director shall disapprove a filing, and then it goes through and it enumerates the policy provisions or the policy types that would warrant a disapproval.
