

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 4, 2003 LR 11

now...they would...they could be in that mix, yes.

SENATOR BRASHEAR: Well, then, so we will have to conclude that a racetrack is a facility under this provision of the constitution at the present time. Is that correct?

SENATOR CUDABACK: Time. Senator Connealy on the Janssen amendment to LR 11CA.

SENATOR CONNEALY: Thank you, Mr. President, members. And I'll respond a little bit to Senator Brashear, and then I'll turn my time over to him if he'd like. And my interpretation is, this would not cover racetracks now. It would be that racetracks would be available to be one of the eight sites, but they would not be designated as five of those eight right now. It could be that we would authorize only two, or...facilities to expanded casino-type gaming. Or it could be that we would do the whole eight. It doesn't say that we have to. And the facilities that are now in law, in the constitution, are in there, but they're not the eight facilities. They could end up being one or five of those eight facilities. But they aren't designated now. And with that, I'd turn my time over to Senator Brashear, if he'd like it.

SENATOR CUDABACK: You have almost four minutes, Senator Brashear.

SENATOR BRASHEAR: Thank you, Mr. President, members of the body. Thank you very much, Senator Connealy. I was having an on-the-floor discussion with Senator Janssen, which I appreciated, where I think maybe if I just lay out what my concerns are, then those will be outstanding and people can speak to them and that might work better. I'm not trying to put anybody on the spot. I'm trying to sort through this. I'm reading this section of the constitution, and I see subsection...or section (4), which talks about simulcasting and horse racing. And I know, I think, as a matter of fact, that we have five horse racing facilities at the present time which have simulcasting. And simulcasting, until a court tells me I'm wrong, certainly does involve "equipment, or a machine", which is a part of the definition in the...in amendment AM0656. So I
