FLOOR DEBATE

March 25, 2003 LB 667

w-h-o, for the word "that," t-h-a-t, because the reference is to a person rather than an object. And I believe in giving every person his or her due which is a who. Thank you.

SENATOR CUDABACK: Thank you, Senator Chambers. The motion before the body is FA1209 to AM0821. All in favor of the motion vote aye, opposed nay. Voting on the Chambers amendment, FA1209, to the Jensen amendment, AM0821. Have you all voted who care to? Record, please, Mr. Clerk.

CLERK: 31 ayes, 0 nays, Mr. President, on the adoption of Senator Chambers' amendment.

SENATOR CUDABACK: The amendment is adopted.

CLERK: I have nothing further on AM0821, Mr. President.

SENATOR CUDABACK: Back to discussion of AM0821, Senator Chambers.

SENATOR CHAMBERS: Mr. President, I have not the kind of objection that would make me want to delay this bill. I've had some discussions with Senator Jensen on the record. I'm not going to try to make changes in the bill now because he and his staff have always been willing to work with me. But I thought some of these things should be put in the record in case some of my colleagues might be unaware of how serious and far-reaching some of these bills that we're amending into this amendment might be. So for my part, I intend to continue my discussion with Senator Jensen between today and the time the bill comes up on Select File. I may have some objections but right now all I'm trying to do is get a grasp and an understanding of what these bills do. So far I've dealt only with two. Senator Aguilar has taken care of the problem that I had with his bona fide trainer being allowed to take dogs into these various locations where people will be found. So others might have problems with that bill now, but I don't. The one that I've been discussing with Senator Jensen about the drugs, I'm still not sure that I understand the significance of everything in it. So on Select File I probably will have additional discussion. But the fact that I'm not going to try to go into any other part
