

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

April 8, 2003

LB 303

by CHIPs is like identifying health insurance by a company, and meaning that the deductibles can change, the limits can change, the copays can change. And so really it wasn't accomplishing anything by putting it in there, so I think it's best to take that out. Thank you.

SPEAKER BROMM: Thank you, Senator Smith. Senator Cudaback.

SENATOR CUDABACK: Mr. Speaker and members, I guess maybe I'm not really addressing this particular amendment so I'm going to waive on talking on the amendment, but I will talk to the bill or whatever else might be to talk about. I guess it's one of those issues when you just want to talk on it, maybe inform your people at home because this is an issue that gets talked about. We have a lot of issues down here, important issues, but sometimes they get overlooked because of issues like this, not that this is not important. It is very important, especially if it's a life or a loved one that you've lost. Due to the circumstances that's not something to joke about, so I won't do that on this issue, but it's an issue that everybody wants to know about. How did you vote on the helmet bill? How did you do this? How did you...and it's just one of those issues. I think the denominator is here whether you've been hurt or whether you've been involved or one of your family members have been hurt by an accident. That may be what makes us vote one way or the other way on this issue. I don't know. Something drives us one way or the other way, and I'm trying to put a handle on it, and you can't find a handle. There's no common denominator and it might just be the fact that we know somebody or one of your family members has been hurt by this happening. Why are we picking on motorcycles? I don't know. Somebody said awhile ago that motorcycles, only fools ride motorcycles. I don't know, I ride a motorcycle and I guess I don't think I'm a fool. I still ride one. Maybe you think otherwise, but motorcycles are just a means of getting around. When you're over 21 you should know what you're doing. You should know what you're doing. Maybe the ones under 21, perhaps. I don't know. Is there a common age? Motorcycle is just a way of getting around. Cars are dangerous. I may be a better motorcycle rider, Senator Schrock says, than a car driver. You know, I'm not too good on four wheels. I'm pretty...you know, I get
