FLOOR DEBATE

April 25, 2003      LB 626

few minutes, but I am not going to be able to support the amendment until I have some assurances that people that we are serving with tremendous needs in the developmental disabilities community are not going to be put in jeopardy in any way through this legislation. And I'll be awaiting some more information and I will yield some time to Senator Preister, but apparently they have visited with Kate relative to this and they're asking her to wait till Final Reading, but I'm not sure I'm comfortable with doing that. But I'll yield my time to Senator Preister.

SENATOR CUDABACK: Senator Preister.

SENATOR PREISTER: Thank you, Mr. President. Thank you, Senator Byars, and that is a question that's just come up and that we are working on some language. My feeling was, rather than doing it now when we are somewhat pushed for time, to sit down to make sure we've got the language that they need and have it correctly done, and so that's why I suggested that we wait until Final Reading, pull it back when we have that done. There could be something else that somebody else may bring to us at the last minute. And so I'm willing not to just rush things through. If we have some language now I can certainly do that, but it would be my preference not to craft something and have it rushed but to make sure we've sat down, we've discussed it, we know what we're doing, that it actually addresses the concerns and I do intend to do that, and that's the very issue that I talked about in my opening that we do need to address. So I agree and am more than willing to work on that.

SENATOR CUDABACK: Thank you, Senator Preister and Senator Byars. Did you wish to have your time back? You may have it.

SENATOR BYARS: Thank you, Senator Preister. I'm going to reserve judgment on that. I'll always try to cooperate wherever I can, though I am mindful of Senator Chambers' admonition to me and to others yesterday and in days past about the heavy lifting that needs to be done in this session and some of that lifting needs to be done on Select File and not to wait till Final Reading. But let me...I see there are conferences going on with the department and I'm presuming representatives of the DD division and the providers, and I'll visit with them and get a
