with workmen's comp. It's already getting to a point where most of these people can't afford this type of deal, so they're going to start looking for something else, or try and find something to take the place of it. I think this...what Senator Bromm has brought forward is something to get started on it. And I think if we go ahead and work on this like it is, I think the way it's written, that Senator Bromm has brought it forward, I think I'm satisfied with it, and I would like to support the bill just as it's been brought forward.
