FLOOR DEBATE

April 29, 2003 LB 406

SENATOR WEHRBEIN: And then the out year.

SENATOR RAIKES: ...bigger amounts in the out years.

SENATOR WEHRBEIN: Yes.

SENATOR RAIKES: Okay.

SENATOR WEHRBEIN: There's also a discussion on this on page 12 in your goldenrod book.

SENATOR RAIKES: Okay. That helps. Thank you. One other question. It said ongoing operating expenses for the new facility are estimated to increase by \$965,000 a year. Now with a new 100-bed facility to replace an older 150-bed facility, operating expenses would go up by roughly a million dollars a year? Is that correct?

SENATOR WEHRBEIN: Those are the numbers. I haven't analyzed those numbers, Senator Raikes. I do not have a ready...

SENATOR RAIKES: That would be your interpretation though at this point.

SENATOR WEHRBEIN: I think so. I would have to see if that money...it would make sense that it wouldn't be that much and those would be transferred from the old cost of operation, but I would have to verify.

SENATOR RAIKES: Okay.

SENATOR WEHRBEIN: I'd have to get back to you on that.

SENATOR RAIKES: I would appreciate that. I guess the final question, you're going to explain why you used the technique, the accounting technique, that you did use. I guess I'll wait for that explanation. And also are there any other new construction...

PRESIDENT HEINEMAN: One minute.
