going to raise the fee, other than as we permit it to be raised.

SENATOR STUTHMAN: Okay. Thank you. That...

SENATOR BRASHEAR: But we are contemplating several pieces of legislation that will, in total, constitute an increase in filing fees.

SENATOR STUTHMAN: Okay. That is kind of the answer that I was looking for. You know, they're already doing it for the \$1. And whatever the Legislature, you know, directs, that total amount will go towards that retirement program then?

We would supposedly generate about \$1.7 million the first year, \$1.7 million the second year. So the total increase for the first year would be \$2.05 million, the second year \$2.149 million. Now, when we go down to the benefits, the 50 percent joint and survivor benefit, those figures are there for the actuary cost. In real dollars, we
