LB 754

need and seen a deterioration many times in our livestock industry, and how important it is to our state, for all the work that he has done. He's been called a lot of things. And I think probably some of the derogatory remarks toward him and his intentions have probably backfired, because I think all of you could see through that and know that his intentions have been nothing more than...

SENATOR CUDABACK: One minute.

SENATOR KREMER: ...to support the industry, as well as to keep supporting local control and the local accountability. So I'd like to thank him and Senator Burling for prioritizing this, and all the rest that you've been involved in it. We had some long hearings, our intention always to try to give everybody an opportunity to hear their side. Most of the changes that are made have been in response to the misunderstandings, trying to correct that. And I'm not sure it cleared up a lot. But that's been the intention, and it still is. And I just thank all those who have done all the work for all your patience in the time that this has taken. Thank you.

SENATOR CUDABACK: Thank you, Senator Kremer. Senator Bromm, there are no further lights on. Do you wish...Senator Bromm waives the opportunity to close. The question before the body is adoption of AM1969, offered by Senator Bromm to LB 754. All in favor of the motion vote aye, opposed nay. We're voting on the Bromm amendment, AM1969. Have you all voted who care to? Record please, Mr. Clerk.
