FLOOR DEBATE

May 19, 2003

LB 439

I had a number of questions, but you have covered so many things with other people's questions that I...at this point, I want to continue to see whether amendments are here, and which way we're going. And so for that reason, even though I'm not going to say that I will support this, I certainly am not going to oppose it. But I just want to learn as much as I can before it comes to that point. And I do appreciate your answers. And with that, I will return the balance of my time back to the Chair. Thank you.

And I'm not talking against the Governor or the Department of Administrative Services or anything like that, but I think this is just one way, no matter who's in office, who's in a particular position at any time, there will be some continuity as far as preserving this building. And in the past, the Legislature itself has had to raise the money as far as
