

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

May 30, 2003

tasks and many of them on short notice, also provides support for the Legislative Program Evaluation Committee, and maintains our library. To the Research Division, thank you. Another group of people behind the scenes, without their help we could not do our work, is the Revisor's Office, Joanne Pepperl, the individual revisors and bill drafters and their individual staff. We take their work for granted all the time. They're always timely and accurate, and they provided us with numerous amendments, Senator Beutler numerous amendments throughout the session. Additionally, their work ensures that what we adopt is consistent with our laws, and the language in each bill they compare with existing law so that we wind up with clear and concise statutes. The Bill Room, copies of our proposed bills, amendments, and adopted laws are readily available with their work. These same bills and amendments would not be available to us within minutes of introduction on the Chamber Viewer without the ongoing attention of the Legislative Technology staff. Again, we appreciate their great work and thank them for that. Unicameral Information Office keeps all of our constituents informed with their weekly publication, which is very well done in my view, during the sessions. They actually do award-winning work on the Warner Institute also, which is an educational project for students regarding the process and history of the Nebraska Unicameral Legislature. To them a very well-deserved thank you as well. The public is also served by another division under the Legislature who provide constituent services and investigative services, and that's our Ombudsman's Office. To them we say thanks. Concerning the number of...the great number of office moves at the beginning of the session and all of our needs throughout the session, I think everyone knows our Legislative Coordinator, Chuck Hubka, over here, and his assistant, Aaron Eske (sic--Kumpula), and his duties throughout the year, including coordinating our late night snacks or food are the result of his work and duties. Thank you, Chuck, who also is known as "Meal Man." And last, but not least, is our staff in Legislative Accounting. They ensure not only that we receive our checks but the 250-plus employees that receive their checks on a timely basis, and keep track of all the records that are necessary for that, with travel, office supplies, and so forth. Legislative Accounting, we thank you as well. I'd like to give them all a big standing ovation, if we could please.
