Transcriber's Office
FLOOR DEBATE

January 12, 2004 LB 172

SENATOR CHAMBERS: But here's the point. They are not required to go beyond that form, are they?

SENATOR FOLEY: But they may.

SENATOR CHAMBERS: I'm asking you a question, and if you choose not to answer, tell me. Are they required to go beyond this form?

SPEAKER BROMM: One minute.

SENATOR FOLEY: No. No.

SENATOR CHAMBERS: Thank you. Members of the Legislature, how can the schools and the teachers and these principals tell us they are so overburdened that they cannot give a piece of paper to a student? This does not impact on their duties, Senator Redfield, Senator Erdman, Senator Foley. So it is a sham, phoney argument to say that this is a burdensome mandate and takes time. All they have to do is hand that piece of paper. And if the schools are so busy, I don't think they would go beyond this piece of paper. And until Senator Foley or somebody can show me a school that has done so, I do not believe that any have chosen to do so. Thank you, Mr. President.

SPEAKER BROMM: Thank you, Senator Chambers. Senator Bourne.

SENATOR BOURNE: Thank you, Mr. President, members. Quite honestly, I didn't expect to participate in this debate because, frankly, I'm indifferent. I don't have an issue one way or another. I mean, I can understand where this might offend a pro-life individual, like Senator Foley, that this information is disseminated. But on the other hand, I think Senator Schimek has a very valid point that this is the status of the law, not only in Nebraska but in the United States, and we're simply disseminating that information to students. The reason I did stand up is because when I was in the...I serve on the Education Committee and I did hear the debate on this, and I had asked for...during the hearing I had asked for a copy of the form that is distributed to the students. And I've sent this out to you
