

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

January 13, 2004 LR 4

just had a point that I thought it was important. When I was invited to sign on this bill, I did so because this is not a bill that we're suggesting has to be carried out. We're saying the people of this state are going to make the decision. It's a constitutional amendment that says if the people in this state decide that this is a good piece of matter to add to the constitution, they will do it. If they say they won't, they won't. I could stand here and tell you about my pleasure of hunting as a youngster, and even as I get older going out in the field and hunting and certainly doing some fishing, but I'm not going to bore you with that because I suspect the majority of people in this Legislature, maybe with exception of Senator Chambers, have enjoyed the sport of hunting and fishing and the outdoors activities that take place while that's going on. So I'm not going to bore you with that. I just have to tell you that I can't imagine that this is going to be so onerous that it's going to...that it's going to destroy the constitution by putting this few...this couple of sentences in there to protect what some of us feel could be a threat against the pleasures that we enjoy in some future time. So I support the idea that Senator Schrock has brought before us and I hope you do too. Thank you.

SENATOR CUDABACK: Thank you, Senator Vrtiska. Senator Hartnett.

SENATOR HARTNETT: Mr. President, members of the body, Senator Vrtiska, I'm hurt that you left out me. I'm not a hunter or a fisherman, have never been one. Maybe I've been missing something in my life. But I read the constitutional amendment. To me, it's feel-good legislation, and do we need it in the constitution? And, Senator Schrock, maybe I'll talk a little bit and give you a chance to get back to your mike and so forth. You know, normally...and I have had constitutional amendments in the time that I've been in the Legislature and so forth. Will we have enabling legislation after this, or do we turn all the power over to the Games and Parks so we have, or people in this body have, no say about what goes on with our laws? Is it all given to I don't know how many people on the Games and Parks and so forth? So will there be some codifying legislation or do you...or is this...is this it; this is the end of the Bible and
