Transcriber's Office  
FLOOR DEBATE

February 4, 2004 LR 14

still do. These petition drives are out there right now, are very scary, there's no question about this. The last one is scarier than all of them and the principals involved in those, they're...you've all got their names there, and looks like the only ones that are advancing this are those ones that can profit the most from it. So I don't think this is anything that they're doing for the good of the state of Nebraska, neither are the others. Of course, I don't think ours will do anything for the state of Nebraska either because, as we said in the past, and I'm not going to belabor what we talked about so many times as far as people thinking this is a panacea to help our economy, it's strictly and totally false. They've proven that in South Dakota. Iowa is...has gambling for several years. They're having the same financial problems we're having. South Dakota, they're having problems and they don't even have an income tax up there. Up there in South Dakota, too, it's by referendum also, and they are funding a huge percentage of their General Fund through the gambling revenues. And the last time they had another petition drive up there, it was to get rid of gambling and it almost passed. So you can understand the dilemma they would be in if they would...if they would ban gambling in South Dakota. And their type of gambling, of course, are the video slots, which are about the most addictive of all. In your...and one thing I would like to ask one of the three musketeers here (laugh) is in this particular amendment it doesn't say anything about video slots or slot machines across the state. Is...maybe I could ask Senator Schimek. Is that part of this amendment which becomes the bill?

SENATOR CUDABACK: Senator Schimek.

SENATOR SCHIMEK: It...I'm not sure exactly what your question means, but, no,...

SENATOR ENGEL: Well, I mean you talk about...

SENATOR SCHIMEK: ...it doesn't specifically. It just defines what gambling is, what casinos are.

SENATOR ENGEL: So what...now can I ask you this, please, is up to eight casinos, and if...but does it say anything about
