FLOOR DEBATE

February 5, 2004 LR 14

of this particular Proposition 1 can be either a county or a city or even something as small as a village. So you're always going to be looking at your other local governments and wondering are they going to grab this thing up before we do? And what do you think the answer is going to be on that? The answer is going to be, you know, we'd better be practical people and do this quick and get this established here so we're in control. But I tell who's not in control. It's the state and you and I, because community, just two words we've gotten into this,...

SENATOR CUDABACK: Time.

SENATOR BEUTLER: ...one major flaw, community is not the Legislature.

SENATOR CUDABACK: Thank you, Senator Beutler. Senator Stuthman, followed by Senators Schimek, Janssen, Hartnett, Smith, Kremer, McDonald, Erdman, and Beutler. Senator Stuthman.

SENATOR STUTHMAN: Thank you, Mr. President. At this time, I will revert the balance of my time to Senator Beutler.

SENATOR CUDABACK: Senator Beutler.

SENATOR BEUTLER: Senator, thank you very much. We've only gotten two words into this proposition but I don't plan to go quite that slow through the rest of it, but I think it's important that we review it with some deliberation simply because of the fact that each word matters and each word makes it broader generally, and in that regard, in my opinion, makes it worse. So first two words, "A community," and it says a community may authorize the operation of games of chance. Okay, now we need to look and see what games of chance are, whether that's a narrow definition or a broad definition, and they do have a definition, and I must say they have things well defined; I suppose because they might think that if we have the opportunity we would define it otherwise, which may well be the case and should be the case. But to the extent that they've gone to great lengths to define things, we will be unable to redefine them because these words, remember, are being placed in
