FLOOR DEBATE

LR 209

lament about what we can't do. We can do anything we want to do, if we've got the will. But we don't have to start killing off institutions, historical institutions that are all about the roots and history and tradition of this state on General File. With all due respect, Nebraskaland Days just isn't even in the same class. I was alive when we started Nebraskaland Days. That's an infant compared to this. And all I'm doing is trying to be supportive of the concept of don't bracket it, adopt the Landis amendment, adopt the General Affairs Committee amendment, advance this resolution to Select File, and let the discussion continue to go on. Let's see what good we might produce. I keep hearing all the time that gambling money is entertainment money. Fine. Then this is...and if we take the entertainment money from the lottery that the people adopted...

SPEAKER BROMM: One minute.

SENATOR BRASHEAR: ...because they thought they were going to help education, the environment, and property taxes, and that's why we went into that gambling business in a public way, take some of that money and use it for this. If this is a good board, I don't know that, I have no reason to not accept the word of others. If this is a good board, then they'd better start thinking world class, get higher than the milk cans, go out there and find some big time money to endow this, as Senator Don Pederson said, it should have been. But you know what? If things didn't happen the way they were supposed to happen, then it's our responsibility today to do something about it. If the buildings are in disrepair, what are we going to do about it? Let's don't punt, and let's don't panic about time, and let's keep the dialogue open, and let's start being creative. Thank you.

SPEAKER BROMM: Thank you, Senator Brashear. Senator Thompson.

SENATOR THOMPSON: Question.

SPEAKER BROMM: The question has...

SENATOR THOMPSON: I call the question.
