

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 9, 2004

one who was...or the first one who is a reappointment is Christine Bleich, who's from here in Lincoln, and she is a specialist with American Cancer Society and she has been very active in environmental issues for a number of years. The second person was Steven Wood, who's also from here in Lincoln, and he's been active especially when he lived in Hastings...oh, no, I'm mixing him up with Richard Christensen. He's been active with the local EPC. Then Richard Christensen is the new appointee and he's from Hastings, and he's a chemist and he's done a lot of work with dangerous chemicals and so forth. And the committee had a good hearing and unanimously moved to approve all three appointees. And with that, Mr. President, that concludes my report.

SENATOR CUDABACK: Thank you, Senator Schimek. You've heard the opening on the first report offered by the Government, Military, Veterans Affairs by Chairperson Schimek. Open for discussion on that report. Open for discussion on report number one, Government, Military and Veterans Affairs Committee. Senator Schimek, there are no lights on. You're recognized to close on the first report.

SENATOR SCHIMEK: Then I will refrain from any more remarks; just simply ask for the approval of these appointments.

SENATOR CUDABACK: Thank you, Senator Schimek. The question before the body is adoption of report number one offered by the Government, Military and Veterans Affairs Committee. All in favor vote aye, opposed nay. Question before the body is the report offered by the Government, Military and Veterans Affairs Committee. Have you all voted who care to? Record please, Mr. Clerk.

CLERK: (Record vote, Legislative Journal pages 937-938.)
25 ayes, 0 nays, Mr. President, on the adoption of the confirmation report.

SENATOR CUDABACK: Was successful; report has been adopted. Mr. Clerk, second report.

CLERK: Mr. President, Senator Schimek, as Chair of Government
