bit LB 514, which is one of those bills that is listed further down on the schedule. And it concerns the State Patrol Retirement Fund and its funding issues. And according to the actuarial report issued by the State Actuary and released in November of 2003, there is an unfunded actuary liability that the state is required to pay into the fund. And that additional state funding required for 2003 and 2004 is \$434,202. And the main reason for this unfunded liability has been the downturn in the market over the past few years. And we just had a report over the lunch hour today, and it was estimated that during 2000 and 2001 and 2002 that we saw a minus-15 percent return. And you probably all know that personally, too, how that affected your investments. So that just gives you a little bit of a background on what we are looking at in LB 514. Thank you. And I return the rest of my time back to the Chair. Thank you,...

The revenue credited to these fund comes from the so-called LB 1100 depreciation charge assessed. What LB 1021, that legislation did, was allow
