

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 25, 2004 LB 139

pose a question to Senator Chambers, if he would yield.

SPEAKER BROMM: Senator Chambers, would you yield, please?

SENATOR CHAMBERS: Yes, I will.

SENATOR BROWN: In the same way that we established on the record previously that this would not apply to those individuals for whom there's federal preemption, do you agree that this amendment also does not apply to individuals if there's federal preemption?

SENATOR CHAMBERS: Senator Brown, let me give an answer to both questions. If, in fact, the federal law would preempt any employee trying to use this methodology, that would be the law regardless of what I say or not. So I will just say whatever is preempted by the federal law is preempted, and that's the way that I have to answer the question.

SENATOR BROWN: Thank you.

SPEAKER BROMM: Thank you, Senator Brown and Senator Chambers. Seeing no further questions, Senator Chambers, you would be recognized to close. And he waives closing. The question then before the body is motion to return LB 139 to Select File for a specific amendment. All in favor vote aye, and opposed nay. Have you all voted who care to vote? Please record.

CLERK: 37 ayes, 0 nays, Mr. President, on the motion to return the bill.

SPEAKER BROMM: The motion was successful. Senator Chambers, you're recognized to open on AM3408.

SENATOR CHAMBERS: Mr. Speaker and members of the Legislature, a little bit of flesh on the bones of this bill. Nothing in this bill limits its scope to drug or alcohol use. It says a person accused of wrongdoing. It could be for smoking on the job. They could have a cigarette from which they could lift DNA evidence. So I don't want you to think it's that narrow or that the only body fluid that would be involved would be urine.
