

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

April 5, 2004 LB 1065

those kind of people know the ones who can see through them, and they do not want to be around those kind of people. I've been in this game far too long to be tricked, to be fooled, to be sweet talked, and certainly not by some outfit like so-called organized labor in Omaha. They don't even have a lobbyist down here that looks out for the ordinary working people. And I'm being repetitive on purpose. I don't want my colleagues to feel like they missed anything when they were lunch hunting, now that they're starting to drift back in. Senator Schrock did nothing to help the people in Omaha by voting for those giveaways. And I was trying to explain to my hardheaded but dense rural colleagues that you give these votes to...

SENATOR CUDABACK: One minute.

SENATOR CHAMBERS: ...Omaha, and they don't give you anything in return, because they don't have to, because they think you're dumb, and you prove it by coming back again and again and get bitten again and again the same time over and over. And the only one who ever offered anything on this floor for businesses of the kind that are found in small towns was me, and couldn't get the support of the rural senators, at the same time they were voting a big giveaway for the big shots. It may have been Union Pacific at that time. They were so happy that Union Pacific had train tracks that passed through their community, they felt honored. Union Pacific's trains pass either through or close to where they live, and that's all Union Pacific had to do for them. Well, we're going to have a chance to stay here a long time this evening, and I have much more that I will say. Thank you, Mr. President.

SENATOR CUDABACK: Thank you, Senator Chambers. Senator Stuthman, on the indefinite postpone motion.

SENATOR STUTHMAN: Thank you, Mr. President and members of the body. I guess I have spoken on this bill more than I have ever spoken in the life of me down here in the legislative body. And I am really, really listening to the echo right behind me, because it is a very learning experience being down here with him and his expertise. Although there's one thing that I'm concerned with. And I'm looking at the total picture. And I'm
