

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

April 7, 2004

LB 1090

support this. And whether it's right or wrong, that's going to be a choice the people are going to make. We can do what we want to here with this piece of legislation, but ultimately the people are going to tell us we were right or we were wrong, and I can't see that that's such a bad decision that we're making. I'm sure there are people out there who will stand up, as Senator Chambers has, and oppose any expenditure of this kind, and they have that right. There are also other people out there who will think as I do that it's probably not the worse thing we've ever done. I recognize we're in a bad fiscal time and priorities are important. But to me one of the priorities is to try to maintain an institution that's been around here for so long that's provided such a wonderful opportunity for young people in this state to come to and demonstrate the kind of people they are, the things that they've been taught by their leaders in the 4-H and FFA folds of this state. Those are the only reason I support it. I support it because of the youth of this state. My kids participated in 4-H. I'm proud they did because they learned a lot of things. So I realize it's a tough call for a lot of people. It's a tough call for me, but I still think that we're doing the right thing and I would hope, that regardless of what some may say, that we will continue the course of providing this continue...or provide the opportunity for the people of this state to vote whether they want to, in fact, use their money from the lottery funds for this purpose. If they don't, so be it, but at least they've had the opportunity to express themselves, and I don't know what's more democratic than that. So I certainly don't want to get into a debate with Senator Chambers because, as usual, I would lose, and I respect Senator Chambers because of what he does and his ability to do what he does. I just happen to believe this time he might be wrong. You know, Senator Chambers made the remark that if you don't think like he does, you're wrong, and maybe that's true. Maybe there are some specific instances where Senator Chambers could be wrong. Heaven forbid that would happen, but it's always possible. Even the most intelligent, well-versed people in the world...

SPEAKER BRÖMM: One minute.

SENATOR VRTISKA: ...sometimes are wrong. This is one time I
