

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 9, 2006 LB 542

SENATOR CHAMBERS: Is that true, that hay must be made while the sun shines?

SENATOR BURLING: Not always. Sometimes it's better to make hay at night.

SENATOR CHAMBERS: Is it good...can you make hay when it's pouring rain?

SENATOR BURLING: No.

SENATOR CHAMBERS: Well, if I would change my amendment so that we could kind of compromise on the night and say maybe twilight, then would you agree to my amendment?

SENATOR BURLING: No.

SENATOR CHAMBERS: Oh, you don't care about production agriculture?

SENATOR BURLING: Sure.

SENATOR CHAMBERS: Do you care about those who work in production agriculture?

SENATOR BURLING: Yes.

SENATOR CHAMBERS: Do you mean that the person...is it your intent that the person from production agriculture actually work at production agriculture, or simply be sympathetic to it?

SENATOR BURLING: Work at it.

SENATOR CHAMBERS: Based on your experience, have you ever known somebody who worked in production agriculture?

SENATOR BURLING: Yes.

SENATOR CHAMBERS: Have you ever worked in it yourself?

SENATOR BURLING: Yes.
