that they don't stop the gunrunners. They want the drugs to undermine and destroy our community. And why don't they stop the guns from coming in? Because the guns are doing what they want to be done. Mike Heavican, the U.S. Marshal's Office, the Omaha police are in cahoots when it comes to this practice of running into homes which generally are presided over by women, a black woman, and allowing the guns in this community. There was a time they were talking about the complete stopping of Cuban cigars from coming into this country. If this government wants to do something, it can. They did a sting in Bellevue. There was a guy who ran a hardware store. He was a licensed gun dealer, white fellow. But since he was illegally selling guns that would hurt the white community, the authorities did a sting on him. They sent a guy in to buy a gun. The guy told the gun dealer that he was a felon, he could not legally own a gun, so the paper he was submitting had been signed by his uncle so he could get it. And knowing that, and the guy wore a wire, the man sold him a gun, and they swooped in on him and took him, because the guns being sold there would likely wind up in the white community, hurting white people, and they were going to stop them. When kids younger than 15 years old get pistols, you mean to tell me that the FBI, Alcohol, Tobacco, Firearms and Explosives cannot find out where the guns are coming from? Subteens know where to get them. They know. They are aiding and abetting, and the Omaha police may even be assisting and facilitating the bringing of guns into my community. You know why we cannot enforce the law? We are not vigilantes. We are not authorized to arrest anybody and private citizens should not be given that authority. But those who say that they are sworn to serve and protect should do their work, but really we have more to fear from the police than some of these thugs. If a robber comes up and says, give me your money or I'll blow you away, you give him the money and he's gone. In our community and the Latino community, unarmed people are shot down by the police. And you all talking about letting people have these guns and how great a thing it's going to be. It will make it easier for more illegal guns or guns to be illegally possessed by people who ought not to have them. The law will not be enforced in the black community, and the only ones they would mess with under some legalized carrying of guns are people they know are not doing anything to violate the law. I have had to
