

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 20, 2006 LB 72

reached this morning, watching or listening, I want to serve notice that they're not going to run the Legislature while I'm here. And if there are things I think ought to be done to this bill, they're going to be done or this bill is not going anywhere. I'm still, however, going to make offerings of amendments that I think will improve it, and they do not substantively change the bill. But this one that is up there would make a substantive change in the small area that it addresses. If my colleagues think that it is good legislating to put into the statute...

PRESIDENT SHEEHY: Time, Senator Chambers. Senator Stuhr.

SENATOR STUHR: Thank you, Mr. President and members of the body. Senator Chambers, I do not need to check with the industry, and I'm sorry that I made that statement. We had the discussion that these were important areas that should be included in education and training, and last session we did not. We said only establish minimum guidelines, and we did want to be more specific. I wanted to be more specific and that is why we listed those. I would agree with your amendment that those would...shall be included. I would agree with that, in the fact that I do believe that all of those areas that we have listed were discussed and they...and we feel that they are important in the education and training of being a security officer. So I would agree with your amendment. Would you like to make any response?

SENATOR CHAMBERS: Yeah. And, Senator Stuhr, in fairness to you, that's what I thought you had said...

SENATOR STUHR: Yes.

SENATOR CHAMBERS: ...originally,...

SENATOR STUHR: Yes.

SENATOR CHAMBERS: ...and that's why I just floated along.

SENATOR STUHR: Right.
