

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

January 26, 2006 LB 529

parts. But if we're going to bring any consistency and direction to the way the constitution is putting the Supreme Court in charge but yet not giving them jurisdiction, then I think we need LB 529. I hope that we're going to work this through and do what we need to do to move on it and have it done this year, and that it will truly be the bill that I think it can be, and that Senator Beutler has worked so hard on having it to be. With that, I'd give the rest of my time to Senator Beutler.

PRESIDENT SHEEHY: Senator Beutler, you have 3 minutes, 45.

SENATOR BEUTLER: Mr. Lieutenant Governor, members of the Legislature, let me just orient you if I could to the handouts that have been passed out to you, so you know what you have in front of you. I wasn't able to get to that. But first of all, you have a concept sheet for LB 529 that describes for you all of the things that the bill does in terms of anything that is particularly important. For sending out to your constituents, I think this would probably be a very good description of the bill as it would be amended by this particular amendment. Then you have a copy of the support of the clerks of the district court, which was forwarded to us. It was e-mailed to us, so we...that's the reason it's not signed. You then have a handout that is entitled, at the top, "Location of County Court Judges Statewide," so you can see the actual physical location of the county judges. Of course, many of them go from county to county. One of the most wasteful processes we have in terms of use of resources these days is the traveling that it takes to go from county to county in some of the more sparsely populated areas of the state, and that's why the whole concept of using the Internet and using computers and getting into e-filings, something like an e-filing process, is tremendously valuable for attorneys, so they don't have to travel large distances, so they can file things rapidly. The whole system would be benefited by that, as they are benefited by the increasing use of technologies to hold small conferences and meetings between lawyers and judges. But this county court map at least gives you a concept of where the home counties of the various county court judges are. And then there's a similar map that describes the location of the district court judges statewide. And again,
