Transcriber's Office
FLOOR DEBATE

February 9, 2006 LB 996

established to try to raise the money for both, ostensibly, I believe, if I'm not mistaken, Senator Louden. And the money did not come in as fast and furiously as people would have liked, so there were further discussions of it. And the upshot of it is that Sarpy County began thinking about a national cemetery designation, and that's what they're going to go for. And if they do, there's no national...or, there's no state funds involved in that. The federal government takes care of building the cemetery, they take care of the maintenance of the cemetery, there's no requirement for any federal funds at all. So in essence, they're not asking, as far as I know, unless there's some things going on behind the scenes that they're not telling us, they're not asking for this right now. And they think they're going to...they want to do this other first. They can always come back and ask us to consider it again. Meanwhile, Alliance is moving forward. They've got the designation of land, they've got money in the endowment to help with the maintenance, and all of that kind of thing, so they're in a good position to ask the federal government to do this. I don't have any strong objections to your amendment, I think, but I think this is kind of an agreement that was satisfactory to everybody, and there could be some opposition from other sources if they think that we're going to be looking at more funding from the General Fund. I don't have a huge problem with your amendment, but I don't think we need to do it right now. And, Senator Louden, I know you said...and you said it more colorfully than I'm saying it, you said this is probably okay. Am I right on that? Is that what you just said, Senator Louden?

SENATOR CUDABACK: Senator Louden.

SENATOR SCHIMEK: So the bill's sponsor is saying it's okay. I just wanted to point out maybe that we may not need to do this right now. But usually I think we probably need to attend to the wishes of the bill's sponsor. So this is very...I mean, this reminds me of Brad Ashford in a way, (laugh) getting up and talking on one side of the issue and then the other side of the issue. But at least I told you the rest of the story, I think.

SENATOR CUDABACK: Thank you, Senator Schimek. Further discussion? Senator Aguilar.
