

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

March 1, 2006

LB 478

think you've got part of the transcript there today again, so I won't repeat...try not to repeat that. But I just want to reiterate that this particular situation, I've been probusiness ever since I've been in the Legislature and I remain so. But last year when we had the Cabela's issue, I voted against that, too, because we're picking out a special...just a special, actually, retail establishment to give them a tax break. And then what do you do about everybody else? So everybody else, when they come in, they could put up a prairie dog in front of their store and say that we're a tourism attraction. How you going to deny them if you're going to be fair? Well, Cabela's still came in, and I'm very happy that they did because I think that is good for our area. In this particular case, again, I want to...I mention that we're picking out a special segment, a special segment, and giving them a tax break that we're not giving others. The others we cannot afford to. We cannot afford to give it to all of the veterans; we can't afford that. So I said, if...once we open the gate, how do we close it? Well, somebody said, we'll keep the gate open. Well, it would be great if you keep the gate open, if you could afford to take care of everybody comes through that gate, and we know we can't do that at this...at the current...present time. And so...and there's other specialty groups, other people with special skills. How are we going to turn them down, if we do this, because there are...they will be coming forward for, where's our tax break? And I think somehow these companies have to figure out a way to pay according to the skills that people come to them with. If they need a certain skill, figure out a way that they can pay them extra, so that they will keep them here in Nebraska. So with that, I turn the rest of my time back to the Chair. Thank you.

SENATOR CUDABACK: Thank you, Senator Engel. Senator Cornett, on...is Senator Cornett on the floor. Yes, I'm sorry. I could not see you. You're recognized.

SENATOR CORNETT: Thank you very much. I appreciate all of Senator Chambers' help and the amendment that he had offered originally was a very good amendment and the bill needs it. The current amendment does not work, and there's no way that I could support it. We've already established the fact today that this
