FLOOR DEBATE

March 10, 2006 LB 454

— have some reason to carry these weapons around. Now, you've read those e-mails. You know who those people are. This is who this bill is for. This isn't for the majority of citizens, who don't want to have to worry, wherever they go, to wonder if one of those kinds of people is walking around carrying a gun into places with children and families, athletic fields, swimming pools, all the places in the community that you want to be safe. This is not doing anything to make us more safe. It makes us less safe. Now, I think we need to sometimes consider the rights of the majority and what they need. And they need a state where we don't have everybody running around who wants one, who goes through...I don't care if they've gone through training. I've had them call and say, well, you know, the police can't be everywhere, so we have to take care of things. These are not the people you want taking care of things. This is a scary thing, and I'm afraid of what's going to happen to us when this happens here, and also, the people who have to enforce the law. We should be listening to our police chiefs, the people who have to administer and deal with these situations, and also think about how this bill has been crafted, the problems that are in the bill. That's part of our duty as legislators. So I urge you to vote no on the cloture vote. Thank you.

SPEAKER BRASHEAR: Thank you, Senator Thompson. Mr. Clerk, you have a motion on the desk.

CLERK: Mr. President, I do. Senator Combs would move to invoke cloture, pursuant to Rule 7, Section 10.

SPEAKER BRASHEAR: Senator Combs, for what purpose do you rise?

SENATOR COMBS: Call of the house, please.

SPEAKER BRASHEAR: A call of the house has been requested. The question is, shall the house go under call? All those in favor vote aye; those opposed vote nay. Have you all voted? Mr. Clerk, please record.

CLERK: 40 ayes, 0 nays, Mr. President, to place the house under call.
