

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 22, 2006 LB 990

SENATOR WEHRBEIN: Well, I didn't have a lot of discussion on that. But you do have to...in most cases, when you're replacing facilities, you're going to be modernizing them. You'll replace the insulation, you'll replace the lighting fixtures, you'll replace the...it's an updating versus going out of business. I mean, that's...it's an intent to keep the livestock business growing and thriving. And if you have facilities that are wearing out, many times people are going to quit and this is an intent to renovate, rebuild, modernize, and move forward. So I suppose some of this could be subjective in the eyes of the beholder. But, generally speaking, livestock facilities do not last forever and they become very labor inefficient.

SENATOR BEUTLER: Sure. Well, tell me if you know, with respect to the underlying LB 608, I guess it was, and the requirements of LB 608, with respect to other kinds of businesses, do they...

SENATOR CUDABACK: One minute.

SENATOR BEUTLER: ...do we allow for tax credits for replacing property, as opposed to either adding production or adding investment or adding employees or livestock?

SENATOR WEHRBEIN: In this tier that this in, it's called the level 1 of the Nebraska Rural Advantage. It must be located in counties with population of less than 15,000 or in a federally designated enterprise zone and covers research and development, scientific testing, data processing, telecommunications, insurance, financial services, manufacturing, distribution, storage, warehousing, transportation, and headquarters, and I've added another tier which we're talking about, of agriculture modernization and so forth. They can have \$2,750 of refundable credits...

SENATOR CUDABACK: Time.

SENATOR WEHRBEIN: ...for \$50,000 of qualifying investment.

SENATOR CUDABACK: Thank you, Senator Beutler. Senator Chambers, and this will be your third time, Senator.
