FLOOR DEBATE

April 10, 2006 LB 1024

listen to you and I'm listening to you today. But I'm telling you, Senator Chambers has intrigued me. And again, I'm saying the information that I did read earlier was not mine. I'm not railing on the OPS school system. In fact, when I taught classes for UNO, I was defending Omaha unbelievable, more so than some of the people who attended it. And getting to the dollars, right now, if you're a child in need in OPS, you would get about \$8,500. Now if those children in need, if that money is concentrated more in that area, that money would go up to about \$9,700. There would be more money for people to develop a school system. The unique thing about this is that additional money would go to the right place. It would not be spread over 45,000 children. You will...it will be more concentrated. It is only when they are in...desirous of more money that you start seeing reports on poverty, disadvantaged children. There are lots of phrases like that in this. This is from somebody who testified in front of them. Here's another thing: I'm saying that we have to be able to sit down and plan as a community, because if we make up to
