

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office  
FLOOR DEBATE

April 10, 2006      LB 745

casinos. We have not entered the video slot machines in the past. I think this would be opening the door for those and it's just not an activity that I think that we want to expand in Nebraska. And once we do expand this, then we've got all the others coming, asking for more, asking for bigger opportunities to bet on the lottery or to do the pickle cards or scratch-off cards or whatever it might be. It never ends. The more you give out, the more that somebody else wants. I would just certainly support Senator Chambers' motion to bracket and let's move on with the other things that we have before us in this session. Thank you.

SENATOR CUDABACK: Thank you, Senator Jensen. Senator Kremer.

SENATOR KREMER: Thank you, Mr. President, members of the body. I probably am just going to repeat maybe some of the things that Senator Chambers said, maybe Senator Jensen. I think it's really ironic that here we are talking about expanding gambling when we just got done talking about compulsive gambling and putting more money toward that. And I've said this, it's just kind of like, you know, it's really a nice place to play out in the street for the kids when it's muddy so you charge them a quarter to go out there and play in the streets. And I get to collect that so I'm telling kids go out and play in the streets. We know cars are coming and some of them are going to get hit, but I still want more of you to go out there because I get more money. But it's okay because we've got this ambulance sitting right here and we can haul you off. We know that some of you are going to get hit but we're going to take you off in the ambulance. If we dealt with cancer or something like this that we knew caused real damage, that we would try to expand cancer, we'd be stupid for doing something like that. And I heard that it's not expanding because we already have gambling, but we also want more revenue. Now that doesn't add up. If we have more revenue, the only way we can do it is to get more people to gamble, and that's really what this is. I saw a cartoon once that I thought was really fitting. It was a guy sitting on the bank fishing and he was running the lottery or gambling device and the fish weren't biting very good. So he said, we've got to use some more bait, we've got to use bigger bait, or we've got to put more poles in there somehow to get more of these fish to
