This bill would change reduction of sentence provisions for a person sentenced to a city or county jail.

There does not appear to be a fiscal impact to the state from the provisions of this bill.

**IMPACT ON POLITICAL SUBDIVISIONS:** The Douglas County Department of Corrections estimates that this bill could result in the decrease of 66 inmates per day based on an analysis of the 2009 offender population. This could result in Douglas County being able to close one housing unit per day at a savings of \$1,000 per day.

Lancaster County Corrections estimates that this bill could reduce expenditures by approximately \$1.43 million in FY2010 and approximately \$1.51 million in FY2011. This is based on inmates receiving approximately 18,000 more days for good time credit under this bill at a rate of \$75 per day, inflated by 5.6% per year for estimated inmate population growth.
