LB 487 would have no fiscal impact to state agencies.

LB 487 would allow city councils and village boards to pass ordinances opposing projects that would be financed using flood control and water quality enhancement bonds authorized under section 2-3226.10. It would also allow city councils and village boards to pass ordinances opposing the use of proceeds from flood control and water quality enhancement bonds or funds of a natural resources district encompassing a city of the metropolitan class, provided that the size of the project was greater than twenty surface acres. It is estimated that there would be no fiscal impact to a natural resources district unless a planned project received opposition from a city council or village board.
