This bill requires any and all contracts entered into by the Department of Health and Human Services for the provision of child welfare and other related services and programs with private agencies shall be based on the reasonable costs of services. The bill restricts the contracting of the child abuse and neglect hotline, initial family assessment and final determinations regarding case closure. The department is required to adopt and promulgate rules and regulations that provide for the monitoring and oversight of child welfare contracts. The department is required to provide a financial report to the Legislature on a biannual basis regarding all child welfare contracts. Child welfare and related services and programs mean services and programs for families and children under the jurisdiction of the juvenile court and voluntary services for children and their families who are at risk of coming under the jurisdiction of the juvenile court.

The department should be able to handle the monitoring, oversight and reporting requirements within current agency resources. The fiscal impact of the provision that contractors be paid reasonable costs is unclear. Three contractors no longer contract with the department due to financial issues. One private provider did not sign a contract with the state because it was not financially feasible for them to do so. Since October 2009, the two remaining contractors have had increases of a combined total of \$25 million. It is assumed with these increases that payments are reasonable, but the definition of reasonable is not easily definable.

<sup>\*</sup>Does not include any impact on political subdivisions. See narrative for political subdivision estimates.
