This bill would change provisions relating to jury commissioners. The bill adds that the clerk of the district court may be the jury commissioner in a county having a population of 50,001 to 200,000. If the clerk of the district court performs the duties of the jury commissioner, he or she may receive additional compensation.

The Supreme Court estimates no fiscal impact and notes that any fiscal impact from this bill would be a county expense.

If a county has the clerk of the district court perform the jury commissioner duties and pays the clerk for these additional duties, then the county could have an additional expense. This assumes that the person previously performing these duties did not receive the same compensation as the clerk of the district court. This amount, if any, is unknown at this time.
