LB 414 amends Nebraska Revised Statutes Sections 13-2814, 77-27,139.03, and 77-27,144.

Section 13-2814 is amended to strike the three percent administrative fee kept by the Department of Revenue from the collection of the local option sales tax and remitted to the Municipal Equalization Fund.

Section 77-27,139.03 is amended to provide that if the amount of money in the Municipal Equalization Fund (MEF) is less than the amount of state aid necessary for full allocation according to the MEF formula, the fund shall be supplemented from the General Fund in an amount equal to three percent of the local option sales and uses collected by the Tax Commissioner from a municipal county and incorporated municipalities. If the amount in the fund is still less than the total amount required, the money in the fund shall be allocated on a prorated basis.

At this time, each municipality receives aid calculated as follows: a) the product of the average per capita property tax of the appropriate population group multiplied by the current population of the municipality minus b) the product of the average property tax levy multiplied by the certified valuation within the incorporated municipality, except a municipality will not receive aid if the calculation results in a negative number.

Section 77-27,144 is amended to strike the language that refers to the three percent of funds sent by the Tax Commissioner from the monthly remittance of local option sales and use taxes to those municipalities levying the tax to the Municipal Equalization Fund.

The bill has an operative date of October 1, 2013.

The Department of Revenue estimates the following fiscal impact to the General Fund:

FY2013-14:	(\$ 11,111,000)
FY2014-15:	(\$ 11,500,000)
FY2015-16:	(\$ 11,903,000)
FY2016-17:	(\$ 12,319,000)

The Department indicates no cost to implement the provisions of LB 414.

We agree with the Department of Revenue's estimate of fiscal impact and cost.

IMPACT TO POLITICAL SUBDIVISIONS:

Those municipalities with a local option sales tax would see a 3% increase in receipts because the Department of Revenue would no longer subtract a collection fee.

LB 414 eliminates the 3% administrative fee deducted from local sales and use tax collections. The fees are currently deposited in the Municipal Equalization Fund (MEF).

LB 414 transfers funds from the General Fund to MEF in amounts equal to 3% of all local sales and use tax collections by a municipal county or incorporated municipality if MEF funds are less than the total amount of state aid for all municipalities under the current MEF formula. Today, each municipality receives aid calculated under the following aid formula: (a) the product of the average per capita property tax of the appropriate population group multiplied by the current population of the municipality minus (b) the product of the average property tax levy multiplied by the certified valuation within the incorporated municipality, except a municipality will not receive aid if the calculation results in a negative number.

This bill will impact the General Fund as follows:

FY 2013-14(\$ 11,111,000)FY 2014-15(\$ 11,500,000)FY 2015-16(\$ 11,903,000)FY 2016-17(\$ 12,319,000)

It is estimated that there will be no costs to the Department to implement this bill.
